GARVIN WROTE: "After going through grade school, high school and college, I've had many fine teachers. There is one, however, that still remains my favorite — my first teacher Wilma Lund. Mrs. Lund (I still have difficulty calling her by her first name) taught in a small, Class I school at Dixon, Nebraska. She welcomed me at the door with a smile when I was a kindergartener and I proudly called her 'my teacher for the next seven years. Over that period of time, I got to know her very well. She not only provided me with an excellent education, but also became my friend. She knew when I needed a firm hand, but also seemed to know when gentleness was re-quired. She opened my eyes to the

Peoples Local Manager Jim Markham, in a statement to the media, said Peoples Natural Gas is concerned to hear of the Wayne City Administrator's action committing the city to spend \$5,000 for a study proposed by the Nebraska Municipal Power Pool, which he said is a cial interest group

The city council, in a vote taken in November of 1985, gave approval (by a 5-2 margin) to spend \$5,240 for a feasibility of the city's possible acquisition of the natural gas distribu

At the time of the vote and even to day, Peoples Natural Gas represen tatives argued against the study. "We feel the study proposed by the Municipal Power Pool is a waste of money," Markham pointed out.

CITY ADMINISTRATOR Phil Closter, in responding to Peoples Natural Gas representatives statements, said that the city council has received updates and numerous briefings on the power pool study since the proposal to enter the study was approved at the November, 1985

The reason for the delay in the pending of \$5,240, Kloster said, w ecause the nucleus of the stu (cities who have signed up for the study) wasn't enough to proceed.

"They [the city council] authorized the action. No action was taken without their approval In the first place," said Kloster.

Nebraska has always been known for its "good life" but our state is gaining a reputation nationwide for good health, too.

Currently, Nebraska boasts the sixth highest life expectancy of any state in the union (73.88 years). Part of the credit for this statistic has to be given to our excellent statewide health care. Nebraska places third nationally in the ratuo of hospital beds to population. In addition, our medical costs are a very healthy 73% of the national sixtenance.

Of course, when you live in a state where air and water pollution are practically nonexistent, stress levels are barely measurable, and the crime rate is the sixth lowest in the U. S., you just naturally stay healthy.

Many people assume that a teams success in sports is measured by championships, individual champions, or just the consistency of getting to the state tournament.

That's fine on a collegiate level or even the professional level. For instance in wrestling, you'll always find Oklahoma State, lowa State and lowa in the top 10, if not the top five.

You'll also always find teams like Oklahoma, Nebraska, and Northern lowa, always hattling to be in the top 10. Those siy teams are as comparent.

I own always that earns like Oklarioma, Nepraska, and Northern lowa, always battling to be in the top 10. Those six teams are as common to college wrestling, as North Carolina, Indiana and Georgetown are to college basketball.

In high school athletics, a large part of the success of a team is measured in the goals they have set for themselves before the first meet or the off.

measured in the goals they have set for themselves before the first meet or tip off.

There were approximately 200 schools represented in the 1988 wrestling state tournament this year, but none can say they had a more successful season than the Wayne Blue Devils and Head Coach John Murtaugh and Assistant Coach Lonnie Ehrhardt.

You might recall that last season, Wayne was not represented in the state wrestling tournament. There were four individuals who made it to the final match before going to the state tournament, but all four lost. What a difference a vear makes. Murtaugh took a croup of extremely.

What a difference a year makes, Murtaugh took a group of extremely ard workers, over achievers if you will, and molded them into a finely

tuned recognizable wrestling squad.

This years Blue Devils grappling squad consisted of six freshman.

Obviously, Murtaugh had his work cut out for him at the beginning of the season. Any goals that were to be set, had to be realistic reachable goals. But yet, far enough out of reach, to make the desire delectibly worth while.
Goal one was to have be winning record this season when it came to duals. Murtaugh's over achievers accomplished that goal easily by going 8-3. Perhaps the biggest dual victory of the season came against the Class C top rated team at the time, Creighton.

The final goal, the grapplers knew wouldn't be easy, as they face perhaps the stiffest competition in Class B in the district meet every

Just how far did Wayne come in one year? As mentioned earlier, last season saw four Blue Devil wrestlers lose their final match which would have qualified them for the state tournament.

goals, it made a statement about just what allow or square represent.
Fulfilling the goals set at the beginning of the season not only enhance your team's ability to strive harder in practice, but next year, they will be able to set goals that make them work at even a higher level.
In that respect, Murtaugh and Ehrhardt are building a program that will be highly competitive for years to come, and as each February rolls around. The Blue Devil ensignia, will surely be a part of the state wrestling fournament.
Looking back on the year, Shane Geiger set a school record for the most takedowns in a season at 41.
Geiger also led the team in reversals this season, with 32. Chris Luttlied Wayne in total points for the season with 129. Lutt also had the most escapes on the feam with 26.

Just looking back at the three preceding paragraphs, is three good reasons to pay attention to the Wayne wrestling program next year. All three of the individuals mentioned will be back.

Nelsen. Nelsen became the epitome of a success story for all wrestlers.

Up until December, Nelsen had spent most of his time preparing for reserve matches. In fact, Nelsen had rarely seen varsity action in his whole high school career.

However, something must have triggered a stronger, healthier desire to excel Nelsen. He began putting to use, all the hard work that he had put forth, and now the dividends were beginning to pay off.

Not, all was negative for the Wildcats in the first half. Leading scorer Linds Schnitzler was red hot from the field and the free throw line.
Schnitzler finished the contest with 30 points, 20 however, came in the opening half. She shot 10-17 from the field and 10-12 from the free throw-line.

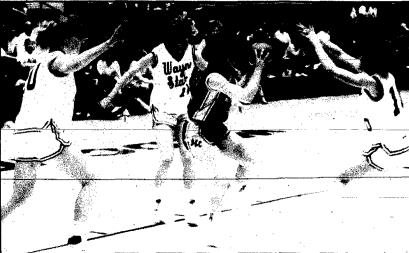

At intermission, Klaver told his squad to start pressing hard because he felt that Midland was getting

tired.

"We knew they were tired,"
Klaver said. "We realized that if we really got after them with our press in the second half, that we could create some turnovers."

Sure enough, Klaver's speculation of using the press to the Wildcats advantage, proved to be the thorn in Midland's side.

There were a couple of other positive notes that may tend to aid the Wildcats. They got some quality play from the bench and the free throw shooting was excellent.

WAYNE STATE'S Lady Wildcats prove that good defense is the key to victory.

"Our bench play was very strong against Midland;" Klaver said: "\!'e were very pleased with that. Also we shot 23-29 from the free throw line for

Aspirin and Arthritis

Since aspirin is available without a prescription and is taken so frequently, people may have difficulty believing that aspirin is the "best" arthritis medicine for the majority of adults. Here are three reasons why this is true:

1. Aspirin reduces the joint inflammation and swelling associated with osteoarthritis and rheumatoid arthritis. It is considered to be as effective as the newer prescription arthritis medicines in many individuals.

2. Aspirin is relatively safe. The upset stomach that occasionally occurs with large doses may be minimized by taking the medicine with food or immediately after meals.

3. Aspirin is one of our most readily available and least costly medicines.

Use the "smell" test to check aspirin before it is used. If the opened bottle has a vinegar-like smell, this is an indiciation that some or most of the product has decomposed. Use aspirin that does not have this odor: Also, do not use aspirin tablets that have crumbled or undergone obvious changes.

Wakefield struggles against rated Bancroft

By Kevin Peterson
Sports Editor
The Wakefield Trojans ran into a stone tough Bancroft-Rosaile Tuesday night to earn a berth in the coming state basketball tournament.
The Trojans were turned back by a 71-54 margin. "We really didn't play particularly well," Head Coach Paul Eaton said. "The third quarter really roved to be our achilles heel." proved to be our achilles heel.

The game started off quickly as Bancroff hit a shot right away, and Wakefield came right down and scored on a Todd Kratke 14-footer. Bancroff then built a 9-2 lead before Kratke nailed a 3-pointer and Stüart Clark hit a soft jumper in the paint drawing the score closer at 9-7. Bancroff called a timeout however, and responded by taking a 14-9 lead after one quarter of play. Both teams

after one quarter of play. Both feams battled the eight minute second quarter to a 12-12 tie, to give Bancroft the five point lead at intermission.

For Wakefield it seemed that the fountain of youth was going to be the key to the game. Sophomore Chris Loofe came in during the second quarter and sparked the Trojans with six second quarter points.

Loofe finished the contest with nine points, with the aid of a three pointer in the fourth quarter

As mentioned earlier, the third quarter spelled doom for the Trojans.

Bancroft came out gunning, mainly behind the shooting touch of senior sensation Jason Slaughter.

Slaughter's vision of the court blended in perfectly with the quick guards Bancroft had in Chad Gettman and Brent Gatzemeyer.

Wakefleld on the other hand hit only one field goal attempt in the third period enroute to being out scored 15-4, to give Bancroft a comfortable lead of 16, heading into the final stanza.

Wakefield did wake up in the fourth quarter, and began hitting from the outside. The Trojans connected on numerous 3-point field goals, but for every one they made, Bancroft responded.

The hearing, which lasted over four hours, attracted approximately two hundred people. I especially would like to thank the large group of northeast Nebraskans that came to Lincoln in support of my bill. It is very helpful to display public interest and concern when working for legislation that we know will have such a long term effect. We must insist that this problem is solved sist that this problem is solved through the use of public input and

ty are uppermost in the process at all times. The fate of the bills now rests in the hands of the Natural Resources Committee. They will most likely recommend the various amendments forward the bills to

and forward the bills to the Legislature or debate. Because of the recent death of Judge Neil McCluhan, a vacancy in the county court of the Eighth Judicial District has occurred. Because the District includes four northeast Nebraska counties, the vacancy issue is of importance to the 17th.Legislative District.

The Judicial Resources Commission, which will recommend a new

sion, which will recommend a new county judge, is not required to recommend that an appointment be made in our Eighth District. The Commission could possibly recommend that the appointment of a new judge be made to another district and leave the Eighth District with only one county judge to administer all four of our counties.

In 1987, Senators Hefner, Korshoj, and I sponsored LB 80% within themovad Thurston County from the Sixth District and placed it within the Eighth. We did so to balance the workload and the number of judges recommend that an appointment be

workload and the number of judges between the districts. Prior to LB between the districts. Prior to LB 509, the Eighth District consisted of three counties and two judges. Because of LB 509, there are now four counties. Both Senator Hefner and I presented our position to the Commission that it should recommend appointment within the Eighth District.

I believe the Commission will recognize that to not declare a vacan cy in our District would again create a very difficult workload imbalance and hinder the quality of justice we deserve from our legal system.

Proposed anhydrous ammonia law debated

Area fertilizer dealers agree that
the United States Department of
Transportation's plans to reclassify anhydrous ammonia as a poisonous gas will result in increased crop pro-

most commonly used, and the cheapest form of nitrogen fertilizer.

Simply a solution of air, water and gas, farmers pull a nurse anhydrous behind their fractors and inject it underground through a series of knives.

Gene Fletcher, owner of Fletcher Farm Service, and Larry Skokan of Terra, both of Wayne, feel that the Terra, both of Wayne, feel that the cost of anhydrous will increase because of the reclassification.

"There's no reason for it [the reclassification]. The anhydrous activities the property for the property for

Those in the fertilizer industry project speculate that it will cost approx-

imately \$500,000 just to change the markings of the anhydrous ammonia transporting equipment. The proposed measure of changing anhydrous ammonia from flammable gas to poisonous gas woold increase costs to Nebraska farmers from \$6.\$10 million.

Fletcher said anhydrous ammonia "has a safety record that is really outstanding."

SAID CHERYL Stubbendieck, vice oresident/information with the Nebraska Farm Bureau Federation: If the Department of Transporta tion reclassifies it as a poisonous gas, farmers will essentially lose their cheapest form of nitrogen because poisonous gas cannot be transported over U.S. highways."

Poisonous gas can be moved by rail, and already, much anhydrous ammonia is moved this way. But at the destination-point, the tertilizer would still need to be off-loaded from the train in some manner," mentioned Stubbendieck.

"If it makes sense to reclassify. anhydrous ammonia as a poisonous gas, water should also be classed as a poison because people occasionally drown in it," said Stubbendieck. U.S. Congressman Hal Daub, who

was in Wayne Tuesday afternoon for the U.S. Senate campaigning for the U.S. Senate post, regarded the regulation as "silly." "I will be doing all I can to defeat the regulation. Government is best

Area representatives attend public hearing

Forty-three concerned citizens of the northern Nebraska area who represent Nebraskans for Clean Environment and residents represen-ting other Nebraska groups, attended legislative committee public hear-ings last week dealing with the lowlevel radioactive waste storage site

The Legislature's Natural Resource Committee public hearing took place in Lincoln on Thursday, Feb. 25.

The group's spokesperson, Mrs. Lavon Schrant of Winside, gave testimony regarding the concerns of her group in the location of a lowlevel radioactive waste facility in Nebraska. She echoed support for the passage of LB 882 and LB 1092, now

Both bills deal with giving local residents in a county, who live within a 20 mile radius of where a low-level

ed, the right to vote for or against it.

Others giving testimony in support of these bills were Senator Gerald Conway of Wayne, Senator Stan Schellpeper of Stanton, Senator Sandra Scofield of Chadron, Mrs. Carol Satern of Pilger, Mrs. Johanna Berg of Winside, Mrs. Gwen Welch of Howells and Mrs. Kay Breitkreutz of

Opposition to the bills came from Nebraska Public Power District, Omaha Public Power District, Rural Electric Boards and U.S. Ecology

"Members of Nebraskans for Clean Environment met prior to the hearing with Senator Conway and Senator Schellpeper to discuss the issue," said Schrant. "Senator issue," said Schrant. "Senator Schellpeper indicated if LB 1092 makes it out of committee, he will make it one of his top priority bills."

All priority bills receive special treatment so that they will be dressed on the floor this legislative

"The Mousetrap", Agatha Christle's mystery-thriller, is the longest running, continuously per-formed theatrical production in the English speaking theatre. It will be performed on stage at Wayne State's Ley Theatre for Friday, April 29; Saturday, April 30; and Sunday, May

Auditions for "The Mousetrap" will be on Saturday and Sunday, March 12 and 13 at 7 p.m. in Lev Theatre. The cast includes five mer and three women ranging in age from approximately 25 to 55, All roles, however, are definite character studies as most Agatha Christie characters seem to be, and it will be directed by Sherian Frey of

The suspects include the newlymarried couple who run the house, and the suspicions that are planted in their minds nearly wreck their perfect marriage.

"I wasn't going to commit to anything until all the elements (of the study) were in place. Whether it be two years or two days, I was not go-ing to do the job until all the pieces were in place," he said.

The legislative proposal, Kloster said, would have greatly reduced the opportunity for any municipality to even consider ownership.

Currently, he said, 10 communities have "signed the dotted line" to participate in the study.

performed in Wayne Other suspects are a a curious background, orner suspects are a spinsier with a curious background, an architect who seems better equipped to be a chef, a retired Army major, a strange man who claims his car has overturned in a drift, and a jurist who makes life miserable for everyone.

Into their midsts comes a policeman, traveling on skis. He no sooner arrives and the jurist is killed. The down and one to go (there is one murder earlier within the community). To get the rationale of the murder's pattern, the policeman pro-bes the background of everyone pre-sent and rattles a lot of skeletons.

"The Mousetrap" celebrated its 30th anniversary with its 12,483 per-formance and was continuing the longest run for either a play or musical in theatrical history.

We get an extra day this week, and can use it. I had almost forgotten it was called Sadie Hawkins Day, and gals were allowed to ask guys for dates.

I don't remember ever taking ad-vantage of this Leap Year tradition. I think it was because of freshman in-titation into high school, when the girls in our class had to ask the senior to be our dates to a roller skating party. I found that hard to do

WE WERE reflecting at work this week on the importance of "never saying never" when we make statements with the word never, they often come back to haunt us.

I remember saying, "I'll never marry a farmer!" Some other com-mon ones are: "my child would never do that", "I would never let myself look like that," or "I could never live like that."

The one that prompted the convers tion was, "I'll never allow her to go to a nursing home." Even the man who said it caught himself and corrected himself. He added that if the time came that he could not adequately care for the person in question, he would consent to nursing home place-ment and help.

One that many farm folks have had to eat was, "We could never do anything but farm," and I've sometimes heard "i could never work for him."

HAPPY BIRTHDAY LOVE FROM JASAJ

The Golden Years

The loss of a loved one can be a painful, debilitating experience that can worsen with each pass-ing day. But bringing a pet home may help in banishing the blues may help in banishing the blues of bereavement, according to a study of 108 widows, conducted by sociologists at the Universities of Colprado and Michigan. The women, who'd lost their husbands within the past three years, were chosen for their similarity in age, income and number of children. About half had pets. These pet owners reported few new or worsened health problems, and they had less trouble handling anxiety and loneliness than their counterparts without pets.

Preparations are currently underway to conduct human trials on an advanced high-tech form of vision correction using the excimer laser. "The idea," says Dr. Herb Kaufman of Louisiana State University, "is that one day you may be able to sit in front of an incredibly complicated laser and — whammo!—never need glasses again."

At WSC Forensics event

Whitt fares well in tourney

By Barry Dahlkoetter
WSC College Relations
When someone asked Wayne State
College of Nebraska senior Dave
Whitt how it felt to be the state's
number one speaker, he was, of all
things, momentarily speechless.
But then came a smille as he reclined in his clar and said, "I'm overwhelmed by it."

Whitt, who is from Marquette, Whitt, who is from Marquette, Mich., and a 1985 graduate of Marquette Senior Hight School, was the one doing the overwhelming at the Nebraska Intercollegiate Forensics Tournament held Feb. 19-29 at Wayne State. He placed first in the events of communication analysis, rhetorical criticism, dramatic duo (with A. Craig Florian), and improvisational duet acting (also with Florian). Whitt added a second place finish in poetry interpretation to his finish in poetry interpretation to his list of accomplishments.

"Everything just seemed to fall in place that day," said Whitt. "I had momentum from the previous week

"I practice a lot with dad and watch other people to pick up on gestures and voice inflection."

HIS DAD WAS Whitt's biggest influence for getting into forensics. In high school, the two would go to forensic competitions and Dave thought to himself, 'Hey, I want to do that someday.'

"It's very different practicing with your coach who is also your dad," he said, "but I know that everything he

said, but I know that everything he does for me for my own good.

"It really hasn't hit me yet, being considered the best and all," Whitt-continued, "but I suppose it eventually will."

Other Wayne State finishers in the Nebraska Intercollegiate Forensics Tournament were A. Craig Florian, second in dramatic interpretation; Jane Nelson, second in prose inter pretation; Natalie Straight and Greg Moeller, fourth in improvisational duet acting; and Straight, fourth in poetry interpretation.

lease payments

A total of 212 Nebraska cities and towns are receiving \$4,922,611 as a result of, agreements leasing their electrical distribution systems to the Nebraska Public Power District (NPPD), according to Wayne E. Boyd of South Sioux City, second vice chairman of the NPPD board of directors. directors.

The money represents one-half of the annual payments made by NPPD under ferms of the lease agreements. The payments were for the second half of 1987, said Boyd. The money may be used by the community any way if desires.

NPPD operates the electric system and makes all additions and improvements to the property to main-train efficient service. NPPD pays the community 10 percent of the adjusted gross revenues realized within the corporate limits. corporate limits.

The money turned over to the cities and towns by NPPD at this time does not include the annual five percent in lieu-of-tax payments required by Nebraska statutes.

In addition to the money realized, the agreements between NPPD and the state's cities and towns provide for a one-third discount on the electricity consumed by governmental agencies within the corporate limits.

Area cities in the lease agreement and the dollars they will receive, include: Hoskins, \$6,095.65; Allen, \$7,586.96; Concord, \$2,867.83, and Dixon, \$2,445.64.

I WOULD like to take this time to thank all who helped out during the time I was in the hospital. Thanks to the nurses, the doctors for the wonderful care I received at both hospitals. I want to thank Pastor Larry Sandy and friends fog their visits, and prayers. For the cards, flowers, gifts and all the food that was brought in affer. I came home was brought in after I came home, for those who came and cleaned for me and for other acts of kindness. Words cannot express our sincere thankfulness and appreciation. May God bless you all. Marge Kudrna. M3

WITH SINCERE gratitude I extend *heartfelt thanks to relatives and friends for the many expressions o love and concern at the time of recent höppitalization, to Dr. Robert Benthack and Gary West, and to the nurses and staff at Providence Medical Center. You are beautiful people. May God ever brighten your paths, Howard Witt.
