Will be Settlers

There will be a 1989 Wayne ounty Old Settlers Celebra-

County Old Settlers Celebration at Winside. A committee has been organized and recently, held its first meeting. They selected Saturday, July 15 as the date for the event.

Officers elected were LeNell Zoffka, chairperson; Lori Langenberg, treasurer; and Cynthla Frevert, secretary.

The group discussed a number of activities for the celebration, including having an antique tractor pull, a barbecue, square dance, teen dance, clowns, lip sync contest, games for children, and possibly a group—of—Indian—Dancers.

The group will meet again in January. Anyone interested in helping with this event should contact one of the officers.

City proposes savings

Draft of gas study up for discussion

Managing Editor
The city of Wayne has proposed—
as reported in a 'discussion draff' of
the Municipal Gas Feasibility Study—
an estimated 'test year' savings of
\$30,820 and a 12 year savings of
\$163,751 should the privately-owned

gas company become municipally

wheel.

However, typical municipal data
or 'base case' figures also presented,
in a economic feasibility study (intended to represent a generic
system), an estimated test year savings which would amount to a \$10,480 loss, while the 12 year amount would result in \$146,634 savings.

result in \$146,634 savings.

Those figures are based on an assumption that there be a purchase price [of the gas system] at \$300 per customer, along with nominal escallation in costs and other considerations as outlined in the report. "In general, It appears that there are several key fartors which affect

veral key factors which affect the feasibility of ownership. The purchase appears to be most feasible in those municipalities—which-recently received rate increases and which have large customers on their system," the study indicates.

THE REPORT, prepared by HDR Engineering of Lincoln, Nebraska, was authorized by the Wayne city council to see what feasibility or advantages exist to acquire the natural gas system and operate it as part of the other municipal utilities. HDR Engineering was retained by the Nebraska Municipal Power Pool to assist 13 other cities in this evaluation. The other cities, besides Wayne,

tion. The other cities, besides Wayne included Bertrand, Crete, Curtis, Included Bertrand, Crete, Curtis, Falls City, Gering, Henderson, Kim-ball, Stuart, Superior, Wahoo, West Point and Wood River. Both the "base case" and "city proposed" purchase price of the gas system has been estimated at

customer cost

customer.cost.
Total capital requirements, at the base case figures gathered by HDR, totals aproximately \$725,560.
However, the city's proposed capital requirements has been estimated at less, a total of \$683,210. The city proposed are \$38,500. posed \$38,500 less in equipment/facility costs and \$3,850 fewer dollars in contingencies than what the base case listed.

Estimated test year revenue would be at \$934,681. That amount, minus \$853,447 in total operating expense and the subtraction of \$91,714 in total non-operating income (expense) would leave a loss of \$10,480 on a 'base case' basis.

HOWEVER, THE city proposal differs. Decreases in operating expenses are noted in labor and payroll taxes, rent and other areas which would bring net income at \$30,280 during the estimated test year.

Another consideration there would be impact upon local entities from the potential loss of per-sonal and property tax which could be, in some cases substantial, should municipality acquire the gas

Currently, the gas system's pro-rated tax within the city limits is as follows: County, \$2,063,55; School, \$6,403.73; ESU, \$162.48; Northéast

\$6,403.73; ESU, \$182.48; Northeast Technical College, \$307.79; Ag Society, \$34.35; Natural Resource District. \$162.48; City of Wayne. \$3,151.73. "We have assumed that the City would continue to pay or otherwise offset those taxes in some fashion: This could be in the form of direct payments to the entities. Jower payments to the entities. This could be in the term of in-expanyments to the entities, lower natural gas rates, credits against utility costs, etc.," as mentioned in the report. "Utilimately, this is a local decision to be best worked out.

MARK SORENSEN, left, marks the United Way board ove the top of the \$15,800 goal. Witnessing the event are Lorraine Johnson (residential drive chairperson) and Jim Markham (business drive chairperson).

United Way goal passed

Wayne not only reached its United Way fund drive goal of \$15,800

They surpassed it.

With still a few contributions trickling in, the Wayne United Way fund drive goal reached \$16,139.

Mark Sorensen, chairman of the United Way Board, said the fund drive chairpeople and the numerous volunteers should be commended for their efforts in helping to attain the goal and beyond.

"And to the people who contributed, a special thanks in helping put us over the top," said Sorensen.

Jim Markham headed the business drive and Lorraine Johnson, the residential drive, for the city of Wayne.

The contributions to the United Way will be funneled to the requests of Wayne Recreation Fund (\$5,000); Mid-American Council of Boy Scouts (\$3,350); Prairie Hills Council of Girl Scouts (\$3,150); Salvation Army (\$600); Wayne Senior Citizens Center (\$1,000); the Red Cross (\$200); Wayne Hospice (\$1,200); and Contingency and Administration (\$1,300).

Dana Nelson

Sr. Wayne-Carroll Nelson was Wayne-Carroll's leading passer this year by far. Nelson actually had more pressure on her to perform well than anyone else. Wayne's serve receive set up was formatted for Nelson to receive was formatted for Nelson to receive the majority of serves, thus enabling her to pass the ball to the setter. Kristy Miller

Sr. Winside Miller returns to the All Area Team for her second consecutive year. Although out for several games with an injury, she still managed to lead the team in spiking.

Winside head coach Paul Giesselmann noted that although his squad didn't fare as well as other area schools, Kristy Miller's stats would stack up with anybody's.

Miller ended the season with 79 ace spikes, and a 96 percent serving percentage. Her kill spike percen-tage was an unprecedented 83.7 per-cent. She also led the team in scoring

Griesch wins contest

Jeff Griesch of Wayne, and Elmer Bargholz of Wakefield were the win-ners of this week's Wayne Herald Football Contest. Both participants missed only three games along with last week's winner Cathy Malcom of

Griesch however, was the only one of the three who predicted a Cornhusker victory over Oklahoma. Griesch's three losses came with

Oregon's loss to Oregon State, Maryland's loss to Virginia and Penn's loss to Cornell.

Bargholz's three losses came with Ohio State's loss to Michigan, Vanderbill's loss to Memphis State and Harvard's loss to Yale. Bargholz was much closer to the NU-OU score than Malcomy was, so he earned the runner-up prize.

Good Luck everybody in this week's contest!

City-rec basketball format changed

City-rec basketball format changed

City Recreation Director Hank Overin has changed the format for this year's winter basketball league for men. Starting Monday, December 12, anyone over 19 years old who wants to play "A" League basketball, is welcome to begin practices. Tuesday, December 14. is for those interested in playing "B" League basketball and are between the ages of 28 and 38. Wednesday, December 15, is scheduled for those interested in playing "C" League basketball and are over the age of 38.

Overin noted that those who don't feel that they will be able to play in "B" League and are younger than 38, will be able to play "C" League.

A \$15 donation fee is asked of all participants before the league schedule of 10 weeks begins in January.

The practice sessions will run from 7-10 p.m. on the nights scheduled for "A", "B" and "C" Leagues. The night will be cut in half though, with those who have never played Wayne Rec-ball coming from 7-8:30 p.m., and those who have played before, from 8:30-10 p.m.

Other players who have played before, but have not been contacted by Hank Overin before the first scheduled practice, should report at 7 p.m. on their respective nights.

The practice sessions will run one night each week for three consecutive weeks before league.play begins. This is to get into shape and for Overin to evaluate players before he chooses teams.

A Thanksgiving prayer

Over 350 years ago, a small band of Pilgrims — after gathering in their first harvest at Plymouth colony — invited their friends and neighbors, who were Indians, to join them in a feast of thanksgiving. Together they sat around their bountiful tables and bowed their heads in gratifude to the Lord for all He had bestowed upon them.

So many years later, we, to, gather with family and friends, and after saying grace, carve up a turkey, pass around the cranberries and dress and later share slices of pumpkin pie.

ing and later share slices of pumpkin pie.

We Americans have so much for which to be thankful. Think of the great expanse of our nation — the rolling hills or our immense farmland. Even in years of drought, as this year has been, the plows and the sweat of America's farmers call forth from our good earth more food than we can possibly eat — so much food that, taken together, our harvests of wheat, corn, soybeans, fruits, vegetables, and all the other bounty of our land make up one of our most important exports. Not only we, but the entire world can be thankful for that. Millions of children across all the continents are happier, healther and stronger because of across all the continents are happier, healthier and stronger because of America's farmers

Now think of our manufacturing centers. After almost a decade of hard, often painful work, cultivating our industrial fields to meet a whole new generation of world competition, this year we can see the first harvest of that work. Almost every American industry is zipping along at near full capacity

A few years ago, journalists were calling the Midwest "The Rust Belt." Now, "The Boom Belt" would be more like it. From Lehigh Valley in eastern Pennsylvania to Dayton and Defroit and beyond, the factory In easiern remissivania to Dayton and Detroit and beyond, me factory whistles again sound in the old factory towns, and we hope they will blow soon where they now do not. By the way, often these whistles are at the plants of entirely new companies providing new products and services to the nation and to the world.

In the past year, America added 428,000 new manufacturing jobs.

But prespertly is not an and in itself. It belos us nay attention to the

But prosperity is not an end in Itself. It helps us pay attention to the more important things — raising our children as we want them to be raised, helping others in need, and bring nations together in peace...Yes.

raised, helping others in need, and bring nations together in peace... Yes, peace is another thing for which we can say a prayer of grafifude over the dinner table on Thursday.

In America, freedom seems like the air around us. It is there. It is sweet, though we rarely give it a thought. Yet as the air fills our lungs, freedom fills our souls. It gives breath to our laughter and joy. It gives voice to our songs. It gives us strength as we race for our dreams. Think of those around the world who cannot bow their heads in prayer without risking their lives. Think of those countries where to write an honest word or even to won a child's simple typing press is a crime. Think of how many countries, where to dream of striking out on your own and starting a business is to take a chance, not on a better life for yourself and your children, but on a long stay in a prison cell.

Yes, as we gather together this Thanksgiving to ask the Lord's blessings, as we, of whatever faith we are, give praises to His name, let us thank Him for our peace, prosperity and freedom.

Karen Witt

Sr. Wakefield
Witt too, joins the All Area Team
for the first time. She led the Trojans
in setting and was a very consistent
performer throughout the season.
Head coach Paul' Eaton's comments on Witt: "Karen was a very
steady player for us all year. She did
a nice job of setting the ball and
always gave a top notch effort."

Karen Hallstrom

Sr. Wakefield
Hallstrom led the Trojans in spiking and once again she finds herself on the All Area Team. Hallstrom is truly a game player and she ended her high school career as a three year starter.
Head coach Paul Eaton's comments on Hallstrom: "Karen is a very talented volleyball player in all phases of the game. She's great at the net with her powerful spikes, and she is very good with Tipping the balf. While in high school, Hallstrom played on three very good teams with a compiling record of 66-10."

Choose live Christmas trees with extra care

The Thanksgiving turkey is barely a memory before buyers flock to buy Christmas trees. That's why it's important to know a few things about electing and caring for this holiday

Several types of Christmas trees are available, including cut trees, potted or balled trees and artificial trees.

trees.

In Nebraska, 80 percent of the Christmas trees sold are cut trees, according to the Cooperative Extension Service. Shoppers can either buy pre-cut trees from a dealer or civic group, choose and cut a tree from a local grower or cut a wild-grown, native tree.

Freshness and moistness are key.

Freshness and moistness are key to buying a good tree, said Mike Kuhns, state extension forester. Once needles dry out, they never recover. So, Kuhns recommends buying ''choose-and-cut'' trees from a local

grower.

"Choose-and-cut trees are ideal because they're as fresh as possible and you pick just the tree you want,"

At choose-and-cut businesses, nany trees in different sizes are marked for sale. The customers pick the trees and then cut them. Also, some growers will cut the trees for buyers.

Tax planning conterence set

By Rod Patent, Quad County Extension Agent-Agriculture arm incomes change substantial-from year to year. The effect of ly from year to year. The effect of widely varying year-to-year income can mean substantially higher total Income tax liabilities.

Graduated Tax Brackets are the eason, according to Gary Breden telner, director, Farm Managemen Operations, Nebraska Farn Susiness Association

Business Association.
For example, a farmer who shows
\$29,750 taxable income on a joint
return each of the next three years would, under current law, pay Federal Income Tax at a rate no higher than 15 percent. If, instead, that same joint taxpayer showed \$50,000 taxable income in 1988 and \$19,6255 in both 1989 and 1990, a total of \$20,250 would be taxed at the 28 percent level. The result is \$2,632

more Federal Income Tax paid. The problem can be remedied for the cash basis farmer or rancher with effective year-end tax planning Such things as qualified pre-paid ex-penditures, deferred sale contracts, penditures, deferred sale contracts, and effective use of depreciation and even retirement plans can help "level" incomes. The goal is to show the most income in the lowest brackets over the long term.

One mistake many taypayers have made—is—to—substantially—under—estimate future incomes, warned Professteller Incomes, deferrals

Bredensteiner, Income deferrals and pre-paid expenses have been over used in some cases, resulting in relatively low taxable incomes in previous years but, with a large amount of "carry-over" income yet to be taxed. That may not be all bad. The top Federal Tax Bracket in 1998 is 33 percent compared to 50 percent in 1986. Taxpayers with large inven tories of untaxed income may want to reduce that carry over inventory into lower maximum tax rates

As always, the best procedure is to seek the assistance of a qualified ac-countant or income tax professional to help plan your 1988 year end tax strategy.

> Preparing for the High Cost of Education

Sending your child to college is almost as much a part of the American Dream as owning your own home -- and almost as Yet unfortunately, only half the parents of college students are saving for a child's prospective And the government has drastically narrowed the education. scope of financial aid programs. How can parents build adequate funds for their child's college education in the face of additional restrictions imposed by the Tax Reform Act of Here are some helpful ideas:

1) Give your children gifts under the Uniform Gift to Minors A child under 14 can have unearned income off of these gifts of up to \$1000 without being taxed. After age 14, all the earnings from the investments are taxed at the child's

2) U.S. Savings Bonds. The tax deferral feature allows you to 14, when they will be taxed at the child's rate. U.S Bonds

You can withdraw some of the money or borrow at a low interest rate and the cash value of the account is tax-deferred.

4) Mutual Funds. Mutual funds pool money from many investors. They are managed by professionals who analyze, select, buy and sell securities according to the objectives of the fund. The funds are very accessible and you may choose a fund that matches your financial goals.

5) Plan early. Whatever you decide to do to prepare for your child's higher education, the best advise is to start planning early and be consistent. Investing in your child's future requires a long-term financial plan. If now is the time for you to start planning for your
