Consumer guide questioned

"We feel very fortunate here in Wayne as we rated very high in the consumer guide," said Haase.
The guide is intended to assist con-

The guide is intended to assist consumers in evaluating and selecting a nursing home. It comes after first being found error-ridden in October, withdrawn and newly re-released, according to Haase. "Unfortunately, the guide may be more confusing than helpful," Haase said. "Information in the guide is based on Health Department surveys of over a year ago, and is not current," Haase said.

HAASE ALSO stated that the guide information is based on only 32 of over 500 state and federal regulations over 500 state and rederal regulations nursing homes must meet. "As a result, the consumer does not get a complete picture," Haase said. "For instance, showing a complete lack of judgement and inequities by

Ways to update your wardrobe
With holiday parties to attend and little time to shop for or sew new clothing,
how can you get a tresh and fashionable look for your wardrobe?
Using what you have and adding a few accessories or garments can give you the look you want

The current shape in jackets is softer and more feminine. Reshape jackets by removing big shoulder pads from boxy jackets and replacing them with softer, more rounded ones. If extra fabric bunches at the shoulder, take it in. Skirts are more tailored for a tapered look. Belts help emphasize curves. Clasp on a new wide suede or a snappy lizard belt to achieve the high waisted look. Look for elasticized waistbands or belts in colors that match your skirt for a high-waisted, monochromatic look in one step.

How do yoù get that monochromatic look? Everything doesn't have to be a perfect match in your skirt, jacket and shoes to get a single-shade feel. Dif-ferent tones can compliment each other. You can replace buttons on jackets' that contrast with the fabric. Investing in colored hose is an inexpensive way to

THE BEST BUY this season is a jacket. Select a quality jacket to wear with slacks or skirts. The new jackets are very fitted and very versatile.

To complete the monochromatic look you will need that all-important white blouse. Select a draped or tailored, high or jewel-neck. Match the blouse to your style, ultra-feminine or tailored and business-like.

The final touches can help round out your wardrobe. A face handkerchief tucked into a breast pocket can add a feminine touch to a tailored or conservative suit.

Jewelry can also help. Gold chains or pearls (real or imitation) can soften a tailored suit. Quality imitation pearls go with anything and are often the answer for the woman unsure about how to accessorize her outfit. Use these ideas to enjoy holiday gatherings this year in style

Laurel loses close game with Randolph

As the falls attending the Eauter Randelph contest filed into the gym-nasium Friday night in Laurel, Bear fans were hoping that Laurel's youthful look would give traditionally strong. Randelph a run for their

When the starting lineups were an nounced, you could hear Bear fans muttering that their squad could be in trouble with Randolphs' size.

In fact, looking at the starting lineups of Randolph, it went, 6-4, 6-4, 6-2, 6-2, and 5-11. Laurel on the other hand went, 5-8, 5-8, 6-0, 6-4 and 6-4.

In the first 80 seconds of the ball game Laurel had already suffered four turnovers and were down in the point column by six. But Mark Hrabik's bunch never gave up, and

eventually things began evening out. By the first quarter's end, Laurel only trailed by one point, 17-16, and the fans knew then, their Bears were so competitive, that they weren't go-ing to let a size disadvantage hamper

their success.

One other thing the Bears have that One other thing the Bears have that no other team can boast, a John Schutte in the lineup. Schutte, a magnificent 6-4 junior, was in a word, phenomenal in the first quarter. Unofficially, Schutte had 10 first quarter points to keep the Bears close, despite the turnover margin. Conway right

It is unbelievable that Senator Con vay's election would be disputed now former Senator Bob Murphy since Senator Murphy should remember that Senator Conway had sought legal opinion before he was first sworn into office, that there would be no conflict of interest because he was a college faculty

Murphy's intention to take the Issue to court now can be seen as a means of depriving the constituents of Legislative District 17 of their right to full and effective representation by the senator whom they have-just elected. If he had been serious and honest about his concern, it have been far more propriate to have raised the concern before the election, so that the voters could have taken the issue into consideration.

Since Senator Conway is a hired faculty member, and not an elected regent or board member of our higher education system, it is unreasonable to presume that Senator Conway has any more con-flict in interest in serving in the legislature than any of our other senators. Our senators represent a wide variety of professional and personal backgrounds, and I do believe that there are others also who are teachers. Since being a legislator is

considered a part time job, it should be obvious that every state senator will have some other vocation. The diversity of backgrounds, training, and talents of our legislators pro-vides expertise in a wide variety of areas, that enables them to better serve the needs of our whole state. Senator Conway's experience in business education is a very valuable business education is a very valuable background that helps him be effec-tive in the legislature, as well as on committees such as banking. Whether or not we voted for Senator Conway, he IS our senator,

and it is in our best interest that we support and encourage him, and not let any personal animosities be used by the media or by ourselves to by the media or by ourselves to diminish his credibility in the legislature. We need to remember that our state senators are not elected on basis of political party af elected on basis or political party at-filiation, but because the voters feel they will best serve the constituents within that legislative district. For Senator Conway to be a strong and ef-fective volce for us in the legislature,

it is imperative that both he and the whole legislative body know that we, the legislative district that elected are supporting, encouraging, honestly communicating with him. He needs us, and we need a person of his caliber in the legislature.

NOTICE

Current Federal Regulations require all schools inventory asbestos containing materials (ACM) and develop a mengement plan to identify and control ACM in their buildings.

The presence of asbestos in a building does not mean that the health of building occupants is necessarily endangered. As long as asbestoscontaining material (ACM) remains in good condition and is not disturbed, exposure is untilkely. When building maintenance, repair, renovation or other activities disturb ACM, or if it it damaged, asbestos tibers are released-creating a potential heazer of the building occupants.

The plan is now available for inspection (without cost) to the general public, teacher, and other school personnel. The plan will be made available self. Self-very country of the plan will be made available self-very copies of the plan. The plan for the Very copies of the plan. The plan for the Wayne County District 37 School has also been submittled to the Nebraska Department of Health. It Pays to Trade Where You Live

When does \$1 do the work of \$4 or \$5

When you recycle it by spending it at home

A dollar put to work in your own area can circulate around among your neighbors and you, doing several dollars worth of work before it has to go away after more goods we don't produce here. Spent elsewhere for goods available here, it does only 20% or 25% of the job it could have done for you.
