Budgets and resignations weighed on the minds of members of the Educational Service Unit One (ESU 1) board of directors when they met Tuesday night in Wakefield.

Wakefield. Before the evening was over, board members approved a bud-get hike of just under 12 percent for the 1990-91 fiscal year and released from contract Dr. Robert Schlimgen. Schlimgen was just hired by ESU 1 in July to serve as the agency's inservice/staff development direc-tor a newly created position of

The 215-day contract signed by the board last March. The 215-day contract signed by Schlimgen called for an annual salary of \$38,000.

AFTER serving in the position for less than two months, Schlimgen has resigned from ESU 1 to accept a position as dean of continuing education at North Iowa Area Community College in Mason City.

Community College in Mason City. He will begin his new job Sept. 1. Before coming to ESU 1, Schlimgen served as president of a small technical college in Sheldon, Iowa. "This (ESU 1) is a great place to work," Schlimgen told The Wayne Herald. "But I just couldn't pass up the tremendous opportunity to continue my career with a well-known established community college.

"This (ESU 1) is a really class. place and everyone treated me

very well, from the administrator right down to the secretarial staff."

After two months, new director resigns

night with board members. Upon reconvening, the board voted unanimously to accept his resignation effective Aug. 31. Following the vote, board presi-dent Ken Lahrs addressed Schlim-gen and said he felt that the ESU 1 board was being "extremely" generous in releasing him from his contract. Schlimgen, in turn, thanked the board for their under-standing.

In another unanimous vote, ESU 1 board members authorized the administration to proceed with advertising for a new inservice/staff development director.

ESU 1 board members con-ducted a public budget hearing prior to Tuesday night's regular

prior to Tuesday night's regular monthly meeting. During the meeting, board members set the tax levy for the 1990-91 fiscal year at 3.23 cents per \$100 of actual valuation in the six-county area the system serves, including Cedar, Dakota, Dixon, Knox, Thurston and Wayne. The 1990-91 tax levy is a re-duction from last year's tax levy of 3.4 cents per \$100 of actual valua-tion.

3.4 cents per \$100 of actual valua-tion. The levy is expected to gener-ate about \$537,512 of the \$3,630,380 budget unanimously adopted by the ESU 1 board of di-rectors

rectors. Programs funded by the county

levy include health services (21.1%), staff development (6.0%), media (8.2%), general administration (11.8%), board (3.6%), building and site (6.9%), vehicle (1.5%), operation of plant (1.2%), maintenance of plant (0.5%), special projects (3.3%), LB 89 (3.3%), and transfers (32.7%).

THE NEW budget shows an in-crease of \$383,140 over last year's budget of \$3,247,240.

Administrator Rodney Garwood said the 1990-91 budget reflects a nine percent increase in special education and an 11 percent in-crease in general fund expendi-tures tures.

Garwood cited additional con-tracts as the major reason for the increase in special education expenditures, and a projected in-crease in staff development activities requiring an increase in general fund expenditures.

A COMPLETE breakdown of 1990-91 ESU 1 budget expendi-tures includes \$1,782,760 (49.1%) in special education services; \$831,320 (22.9%) in general levy services; \$42,300 (1.2%) in LB 89 funds; and \$424,000 (11.7%) in transfers, for total budget expen-ditures of \$3,080,380. The budget also calls for \$550,000 (15.1%) in cash re-serves, bringing the total to \$3,630,380.

\$3,630,380, Estimated revenues during 1990-91 include \$775,000 (21.3%) in estimated cash carry-over; \$1,782,760 (49.1%) in spe-cial education contracts; \$42,000 (1.2%) in nursing contracts; \$42,300 (1.2%) in LB 89 funds; \$384,000 (0.1%) in transfer from co-op; \$45,308 (1.2%) in interest; \$8,000 (0.1%) transfer from co-op; \$45,308 (1.2%) in interest; \$8,000 (0.2%) for leases; and \$537,512 (14.8%) in total taxes, for a total of \$3,630,380.

IN OTHER business Tuesday night, ESU 1 board members:

---Voted unanimously to accept the 1989-90 ESU 1 annual report and to place it on file. Administra-tor Garwood said the report, which tor Carwood said the report, which includes financial and general in-formation, including ESU 1 special education and levy services, is a thorough report and serves to in-form schools of ESU 1 activities. Wakefield awarded second community block grant

WAKEFIELD - Things seem to be happening here as the second Community-Development-Block Grant was presented from the state by Gov. Kay Orr.

The most recent CDBG funds, announced Thursday, Aug. 16, will provide Wakefield with \$143,000 between Second Avenue on the north to Sixth Avenue on the south and from Maple Street to Johnson Street on the east and west, re-spectively. Not all homes in that radius will be included in the funds

The new funds are designated for 10 homes which are owner-oc-cupied. The funds are designed to aid low-to-moderate income families.

"We need people to under-stand that this is a loan program," said Lowell Johnson, city adminis-trator. "Although it's a grant to the City of Wakefield, we will turn around and loan it to borrowers. Upon their repayment of the loans,

we loan the money back out."

ON- THE PREVIOUS program, which was a little different, money was used for rehabilitating or de-stroying unoccupied, run-down homes. Eleven houses were fixed

Stroying unoccupied, infratowing an observed in the six were demolished. "These funds help to improve-the quality of life as well as the quality of the housing stock avail-able in Wakefield," Johnson said. "The loan we received last week will make homes more energy effi-cient and more attractive." People applying for the CDBG funds need to qualify under in-come guidelines before the money can be loaned. For example, if two people live in a household, the combined threshold income can-not-surgass \$17,500. For a three-member household, the income cannot pass \$19,700. Benefit set for Sunday for Hoskins youth

HOSKINS - A benefit is planned for 13-year-old Maggie Stoffel who is suffering from aplastic anemia and is hospitalized at Clarkson Hospi-tal in Omaha, where she recently received a bone marrow transplant. She is the daughter of John and Lanette Stoffel. The benefit will be held Sunday, Aug. 26 starting at 4 p.m. with a softball game between an "old timers" and a women's team. The game will be followed by a coed game with the benefit 'auction to begin at 5:30 p.m. Donated items and baked goods will be sold. All donations will be appreciated. Donations can be delivered prior to the auction. All proceeds will be donated to the Maggie Stoffel Benefit and the local AAL branch will match funds. Lunch will also be sold on the grounds. In connection with this event, a fund has been established at the Commercial State Bank at Hoskins. Anyone wishing to donate to aid this family's mounting medical bills can send their contributions to the bank.

He added that he has not asked any other contractor to fin-ish the project. Janssen said that not all the

project are still on order. "When you're in the detention business, you can't insure it (escapes) won't happen but that

doesn't mean they (juveniles) won't find another way out," he said.

Economic Development office at Wayne State College. The good news is that the pro-gram is designed to lure former Wayne High School graduates back to the area. Along with attracting former WHS graduates, the program will be utilized in Neligh, Schuyler and Fmerson

Emerson.

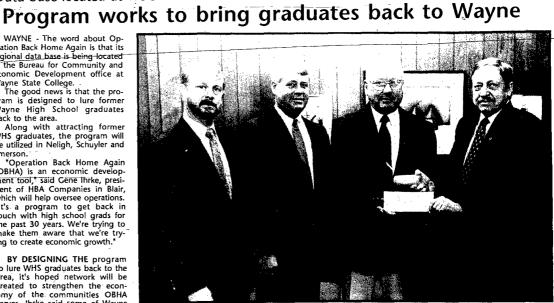

Operation Back Home Again (OBHA) is an economic develop-ment tool," said Gene Ihrke, presi-dent of HBA Companies in Blair, which will help oversee operations. "It's a program to get back in touch with high school grads for the past 30 years. We're trying to make them aware that we're trying to create economic growth.

BY DESIGNING THE program

to lure WHS graduates back to the area, it's hoped network will be created to strengthen the economy of the communities OBHA serves. Ihrke said some of Wayne High's former graduates have knowlege of businesses looking to relocate and with that possibility, it's likely to draw in new businesses with professional people, or expe-rienced and trained Wayne High graduates. Initially, the program begins by

collecting names and addresses o graduates. Once complete, gradu-ates from 1956-86 will be com-piled and tied into a data base at the Bureau for Community and Economic Development.

In all, 10,000 names are expected to be gathered.

TO SCHOOL AND BACK: HOW TO MAKE EVERY TRIP A SAFE ONE

With the fast approaching "first day of school" in Wayne, some 800 children Will travel to and from school. Almost every day, all those children make the trip safely.

To make that happen, your To make that happen, your public schools have taken a num-ber of steps to keep our children safe, on their way to and from school, as well as in school buildings and on school buses. • Children learn basic rules of safety from kindergaten on

safety from kindergarten on. • Playgrounds and buildings are monitored to prevent accidents and injuries. • School bus drivers are trained,

 School bus onvers are trained, and buses are carefully maintained to make school-provided trans-portation as safe as possible.
 But the schools can't do it alone. We all share in the respon-sibility for keeping our children safe. Here are some ways you can do your part; do your part:

As a driver:

· Be alert for children at all times, but especially during the hours when they are likely to be traveling to and from school -- that is, between 8:00 a.m. and 4:15

Obey school speed zones
 bey school speed zones

 Stop when you approach, from either direction, a school bus that has stopped to take on or drop off passengers. It is illegal to pass a stopped school bus that has its red lot flating and/or its ctop area supper school and its store and extended. The reason this is so important is that most children who are injured or killed in school bus-related accidents are struck within an area extending for about ten feet on all sides of the bus. In this area, sometimes called the "death zone," children cannot be seen by the bus driver, and they are often bidden ferm approaching are often hidden from approaching

on passing a stopped school bus.
Even after a bus has started moving, be cautious -- children might linger in the area.

Head basketball coach named at Allen

ALLEN - Jeff Schoening was hired as Allen High School's head basketball coach for the 1990-91 season during a meeting of the Allen board of education last Monday evening. The school board gave its approval for use of school facilities during the community's centennial celebration in 1991, with the centennial committee to provide its own insurance.

Mike Preston announced his resignation as a member of the Allen board of education. A replacement will be named at the September meeting

drivers as well. Never take a chance

If children must walk where there are no sidewalks, teach them to stay well off the road and always walk facing traffic, so they will see and be seen by oncoming vehicles.

such rules as:

• Be sure children know the ba-sic rules of school bus safety, espe-cially those for getting on and off the bus safely. One of the most important is to walk ten giant steps' in front of the bus before crossing in front of it. This keeps the child in sight of the driver, who can singal when it is safe to cross signal when it is safe to cross.

Naturally, you obey all traffic laws -- speed limits, warning signs, stoplights -- but don't assume chil-dren will. Expect the unexpected --a child running out into the street from between parked cars, for ex-ample, or dashing across an inter-section in a misguided attempt to beat a red light.

As a parent or guardian, make sure children in your care understand basic rules of safety. Although they learn these rules in school, the learning needs to be reinforced at home. Emphasize

Never cross the street without looking both ways. The old rule, look right, then left, then right again, is worth repeating. And never go into the street except at a marked intersection.

6A

• Teach children to answer with a firm NO if a stranger offers to give them a ride (and never ask anyone to pick up your children who is not well known to them).

· Have rules about when children will get home teom school. If they have permission to go to a friend's house, or some other place after school, you may want to have them call you when they get there and when they leave.

· Be sure children who ride bicycles know the traffic laws and safety rules for safe riding, and that bikes are properly equipped with lights and other safety features.

Summer must be about over when the talk turns to bowling. I had a friend a few weeks ago that said he loved to bowl but the season lasts so long. Well, I got to thinking and I don't know if you are aware of it or not but a standard bowling season will span through all four seasons in the

You start in late August or early September which is summer, and it lasts through fall, winter and into early spring before we end the season.

At any rate, I love bowling season and am anxiously availing its arrival. That brings me to my next subject. The Tuesday night late league is in jeopardy of extinction unless we get some more teams involved. I have bowled in this league for the past two years and have thoroughly enjoyed it. It is not your typical bowling league because the teams consist of three men on each security.

The good thing is that with the three man set up, you are done fairly early, like around 11 p.m. which isn't bad for a late league. At any rate, we need more three man teams in order to keep this league afloat. Those interested should contact Val Kienast at the bowling alley or even call me at the newspaper office at 375-2600.

Speaking of good things check this out. A new publication on high school football for the whole state of Nebraska will be started by a good friend of mine in Central City, Nebraska. What this will consist of is a weekly publication of all the high school results in the whole state which includes weekly stat updates, top ten standings on each class, standings on each conference and records of all teams in the state. teams in the state

This will be a wonderful publication for those to keep up on the point standings and the rushing, passing, receiving, tackling and scoring stats for everyone involved in high school football throughout the year. The subscription for the nine week edition is \$11.25 and is for anyone that cares about high school football. In order for this to work there needs to be a lot of people interested and this being a football oriented part of the state it should go over really well. The GOLDEN YEARS By Sel Lane

As many as 10 to 20 percent of people over 65 suffer from clini-cal depression, but few-seekcal depression, but few-seek-help or know that the condition "is treatable. "Many don't even know they're depressed," says Dr. George Neiderehe, of the National Institute of Mental Health. Prolonged depression affects appetite, sleep, and,en-ergy and can damage the im-mune system. Sometimes a physical examination indicates that depression-like symptoms that depression-like symptoms actually are caused by health problems, or by medications for heart conditions or hypertension.

Over the past six or so weeks, the Wayne Community Theater has consumed the life of a number of people who participated in the musical "Brigadoon," not only from a time standpoint but from an emotional one as w

Like any event in one's life, you plan for the big day when all will be finished. The marriage many of the cast members made to the musical is commendable and the magic of "Brigadoon" will continue in the hearts of its cast members for some time to come.

Despite all the time constraints I experienced, the project v

worthy if for no other reason than to preserve my summer sanity during a time when things normally slow down and temperatures rise. All in all, the three performances went well. Each show was presented to audiences of 200-plus people and their responses were appreciated by the cast.

ON A LIGHTER NOTE, thank-you's are in line to the following people: Sue Scott — You made it. You directed your first musical and you survived. Congratulations and thank you. Pam Ahlman — Thanks for the time you spent and the lectures you

gave us about learning our music. By the way, is the meadow part of the chase seen in verse two or three? Lowell Schardt — Next time I'll just give you some milk before asking for your money. Really, the coin was just too much. Trisha Meyer — I like your hair, it looks good when you sit in that make up chair. Why does it stand up that way? Is that really part of the play? Dave Headlow.

Dave Headley — I just wart you to know that every time I came to practice and saw you in your state trooper uniform, it made me a little

Bonnie Siefken — You've been a real ball of fire over the past six or so weeks and that made all the difference in the show for everyone. By the way, I hope one arm isn't longer than the other now.

TO THE REST OF the cast thanks. Wayne and the surrounding com-munities really are among the best in the world and the cooperation seen in "Brigadoon" exclamates that point. A few last notes of comment and I'll be through: To Eric — I really

don't love Frank more than I Love Frank loves Frank, To Shannon — th candy hit the spot; To "Shoulders" and Brent — your beef steak really didn't smell that good, we all made that up.

IN THE FUTURE, I'D strongly recommend to anyone who has ever par-ticipated in a musical — whether it be high school, college or whatever — to take part in this. It not only is a good way to meet people but it's heartwarming to watch as a group of strangers become a family unit. To those who may have missed 'Brigadoon', hopefully you'll get to see next year's musical. I heard a number of comments from people who at-tended and everyone like it.— even those who normally don't like musi-cals.

Weight Control Medicines

There is a great deal of controversy over the role of medicines in the treatment of obesity. Some health experts believe that over-thecounter and prescription medicines help people lose weight when used in comion with diet and ercise programs. Others do not value these medicines and consider them to be no more useful than placebos (dosage forms that contain no active ingredients, but in which people have con-fidence). The U.S. Food and Drug Administration analyzed studies contained in 105 new drug applications which contained data on 4,500 persons treated with placebos and 3,200 who received dosage forms containing active drugs. Individuals who received active drugs lost about onehalf pound of weight more each week than did perweek than sons who received placebos.

Working in the field or around the farm, it's easy to forget about power lines. But tall farm machinery, irrigation pipes, or ladders can come in contact with overhead power lines. Remember to check above before moving any farm equipment.

If you must move implements and power lines are in the way, contact your local power supplier for assistance. This year when working the soil, remember to keep an eye toward the sky. Let's make this a bountiful and safe farming season. Presented as a public service by
