# Region IV named in lawsuit

tardation Services is one of three regional service offices in Nebraska named in lawsuits for payment of wages.

According to a complaint filed Sept. 28 in the U.S. District Court of Nebraska, plaintiffs Wayne Green and Charlene Koliha, of the Columbus office, are suing Region IV for violation of federal wage and

hour laws.

The suits allege that the Regions violated the law by failing to pay group home workers for all overnight hours worked in the Region's community-based residences. The other Region offices named in the suit are Region III and

Region III.

The suits follow a Sept. 4 ruling by the U.S. Circuit Court of Appeals in Hultgren v. Lomr in which the appellate court upheld the ruling of Magistrate David Piester Magistrate David Piester determining that employees working overnight in Lancaster County group homes caring for the mentally retarded were entitled to be paid for all hours worked despite the fact that they were allowed to sleep at the residences.

IN A RELATED CASE, Bouchard

The award represented attorney's fees and backpay for 20 Region IV employees who worked in group homes in Fairbury, Neb. Other cases involving Region V are currently pending.

The plaintiffs named in the case are still employed by Region IV as residential assistants, Green said.

LINCOLN ATTORNEY Mary C. Wickenkamp represents the plain-tiffs in the Region V suits and the plaintiffs in actions filed against Regions II, III and IV.

Wickenkamp said through a press release that the backpay award in the Hultgren and Brouchard cases represented backpay for the hours during which employees were required to be on must clock out and could not be paid. She added that the decision

san added that the decision was in large part based upon the fact that although the employees were allowed to sleep during those hours they were at all times responsible for the mentally retarded clients entrusted to their care. She said there has been a great deal of interest in the actions from group home workers across the state and home workers across the state and that she anticipates additional filings adding plaintiffs to the law-suits within the next few weeks.

Wayne Community Schools are

adding a new twist to an old idea.

According to West Elementary
Principal David Lutt, that new twist
is the northeast Nebraska Master Teacher Partnership Program. The program is funded by Educational Service Units 1 and 8 and Wayne State College.

The purpose behind the program is to match up a novice, or first-year teacher, with a master teacher, or one who has taught for a number of years. It provides first-year teachers with an associate

handling classroom discipline, motivating students, coping with individual differences in students, assessing student work, developing positive relationships with parents, organizing classes and student work, having insufficient materials and supplies and coping with student problems.

According to Dr. Larry Harris, a professor in the WSC education

department, the started to assist teachers to better teach the students. He said, "by providing first year teachers with an arena of support, they can better serve the children."

THE PROGRAM, however, is not foreign to Lutt. He said since coming to Wayne he has imple-mented a similar system where each week all the first grade teachers will work on lesson plans one afternoon a week and all second grade teachers will do the same and so on. He said that way there's a free flow of ideas among

The Master Teacher Program doesn't just benefit the novice teachers. Lutt said it's also beneficial to the master teachers. In the first year of the program, Wayne has five novice teachers and seven

nas true novice teachers and seven master teachers.
"It's like any program. You have to give it more than a year to work the kinks out-of it. The reason I like it is because it's non-threatening."

Lutt said the benefits to the master teacher is that they get to see what new teaching methods are coming out of the nation's teachers colleges. He said the reason the program is non-threatening because the master teacher

The victory moves Wayne's record to 7-0 as Battle Creek drops to 6-1.

The Brave's closing drive was set up by what Wayne Coach Lonnie Ehrhardt said "were two crucial (refereeing) calls against us."

The first call occurred when Wieseler dropped back to pass and overthrew two receivers between Battle Creek's 40 and 35 yard lines and was flagged for intentional grounding. The call, with about three minutes left in the game, pushed Wayne back 15 yards and resulted in a third and 20 yards to go situation. The Blue Devils were unable to pick up the first down

At 8:13 of the fourth quarter, Battle Creek scored again, following a lost fumble by the Blue Devils, as Jeremy Wiedeman punched the ball in the end zone from five yards out. The 2-point try, however, was again stopped by Wayne's defense.

For Bloomfield, the fourth quar-

As most of you know, trying to control musk thistles in the spring can be very erratic, especially when you're working with chemicals that are noted for volitizing and injuring nearby sensitive crops. Fall is the only and the best time to control musk thistle with Tordon 22K at 8 ounce/ acre rate. So we have taken the liberty of offering you this 1990 fall program through Dale's Flying Service. Book over 100 acres pre paid for only \$8.34/acre. Price includes application, 8 ounces of Tordon 22K X-77 serviceder sticker and Li-700, which lowers the ph in water so that the plant will not tle up the chemical. Other rates will differ for the control of Canada thistle and leafy spurge, so give us a call today and book your acres.
