One of the reasons Wayne was selected as a possible site for the program is because of the compassion it's shown for Region IV mentally retarded clients in the community. #### Community Theatre's dinner-show postponed until Nov. 9-12; cast ready

WAYNE - Due to unforeseen circumstances, the Wayne Com-munity Theatre's dinner theatre production of "Move Over, Mrs. Markham" has moved to Friday-

Monday, Nov. 9-12.
Director Gil Haase said that he originally faced casting difficulties and then "Mrs. Markham" was hos-pitalized with an emergency ap-

pendectomy.

"All rehearsals are going strong now however, and we'll be presenting one of the funniest, British bedroom farces to have ever been presented in Wayne," he said. Cast members include Sue

Scott, Mrs. Markham; Pasquale Spenceri, Alistair Spenlow; April Gordon, Sylvie Hauser; Jennifer Cole, Linda Lodge; Gil Haase, Philip

Harriet Smythe; and Deb Whitte, Felicity Jane Wilkenson.

The action of the play, to be presented at the Black Knight, takes place in a very elegant top floor London flat with the drawing room and oval-bedded bedroom in full view of the audience. The confusion alternates between the two as an obvious "over-booking" of the oval bed becomes apparent and the beautiful double entendres of British humour engulf the production

The cash bar will be at 6:30 p.m., dinner at 7 p.m. and the play at 8-p.m. Patrons and season ticket holders will be admitted by their ticket and the dinner will cost them \$6 each. Others will pay \$11 each, Cole, Linda Lodge; Gil Haase, Philip

As most of you know, trying to control musk thistles in the spring can be very erratic, especially when you're working with chemicals that are noted for volitizing and injuring nearby sensitive crops. Fall is the only and the best time to control musk thistle with Tordon 22K at 8 ounce/care rate. So we have taken the liberty of offering you this 1990 fall program through Dale's Flying Service. Book over 100 acres pre paid for only \$8.34/acre. Price includes application, 8 ounces of Tordon 22K X-77. Spreader sticker and Li-700, which lowers the ph in water so that the plant will not tie up the chemical. Other rates will differ for the control of Canada thistie and leafy spurge, so give us a call today and book your acres.
