# Forum gives sides chance to speak

By Mark Crist Managing Editor

As Measure 405 looms on the Nov. 6 ballot, proponents and op-ponents had the chance to pre-sent their viewpoints Monday night at a forum at Wayne State Col-

Measure 405, also known as the 2 percent spending limit proposi-tion, will create an amendment to the Nebraska state constitution

the Nebraska state constitution which limits local and state government bodies to 2 percent annual budget increases per year. Panelists presenting the opposition side of the amendment included: Sen. Ron Withem (R-Papillion), Nebraska School Education Association President Noel Roberts Lincoln and Dr. Donald Roberts, Lincoln and Dr. Donald Mash, president of Wayne State College. Presenting the discussion for people in favor of the lid included: Ken Conley, Bellevue; Tom Robertson, Bellevue and Bob Twist, Gretna.

EACH PANELIST was given 10 minutes to offer an opening argument on the proposed amendment followed by a question-answer period with audience members. The forum, which arguably was a debate was moderated by was a debate, was moderated by Nebraska Sen. Gerald Conway (R-

Wayne).
Opening statements were first delivered by Robertson, a proponent of the lid. Robertson said the amendment was designed to be lower than the rate of inflation because government spending has exceeded cost of living increases annually. He said despite argu-ments against the amendment, it is not retroactive, meaning it will not affect the budget presently in place. He said despite what opponents of the measure might argue, "the amendment is not a lid, it is not a cap and it is not a cut" to government budgets.

WITHEM THEN set the stage for the debate/forum by discussing

the operating budget of Wayne State College and what effects the lid would have had on the school if it had passed when he was a stu-dent there in 1967. "Wayne State College's oper-

wayne state Colleges operating budget was \$1.2 million in 1967-68 and its total operating budget in 1989-90 is \$7.9 million," he said. "Had they put a 2 percent lid on at that time (1967); you would have had \$1.8 million for an operating budget today. They talk

about no lids and no cuts but when inflation runs higher than what you can spend, it limits the services you can provide."

He continued his argument by saying the amendment is retroac-tive to current budgets. He said the proposal reads "for all budgets ending after Jan. 1, 1991." Robert-son had said earlier that "it affects all budgets starting after Jan. 1, 1991."

The amendment reads: "for fis-

cal years ending after Jan. 1, 1991.

"I don't know about you, but my dictionary has a different definition for 'starts' and 'ends' and I think most people would agree with me," Withem said.

THE STATE SENATOR also pointed out that the lid will lock in inequities in present school bud-gets. He said some schools have gets. He said some schools have \$8,100 in their budgets for supplies while others have \$3,000 for supplies and a 2 percent measure has differing affects on each of those figures. "That's an unfair inequity and it's

not fair to punish a school that's been frugal in its spending," he

# Hall speaks to WSC class

By Mark Crist Managing Editor

Larry Hall, the Democratic candidate for first district representative to the U.S. House of Representatives, visited Wayne Monday to speak at one of WSC professor Allen O'Donnell's classes.

Hall, who is running against Re-publican incumbent Doug Bereuter, criticized a system where politicians can hide behind campaign managers and press secretaries and manage to remain in office. He said the nation has evolved from one where candidates can debate the issues to one which sees candidates hiding behind the issues.

WAYNE - Democratic gubernatorial candidate Ben Nelson made the only appearance of his campaign here Saturday to participate in the Wayne State College Homecoming parade but his visit also offered him a chance to talk to the local media.

Nelson criticized his Republican incumbent opponent Gov, Kay Orr on her administration's handling of the Boyd County nuclear waste-dump site, government spending and tax increases, while he out-

### Chambers visit in Wayne focuses on racism, prejudice

By Mark Crist

If William Shakespeare were alive today, he would probably ap-preciate what Nebraska State Sen. Ernie Chambers said Tuesday af-

Chambers, a Democrat from Omaha, spoke to about 300 people about racism in Nebraska dur-ing his visit in Wayne.

His message, however, wasn't ris message, nowever, wasn't something people could take lightly. He argued that the Ameri-can public has become passive and have conformed to whatever its politiclans dictate.

Much of Chambers' message focused around the prejudice and racism similar to that shown toward Shakespeare's character Othello. Chambers compared treatment of African Americans to the biblical passage when Christ defends the prostitute by saying, "he that has done no wrong may cast the first stone."

"If you continue to accept the See NELSON, page 3A he said. "You should create your-

self to the expectations you have, not those in the world around you."

CHAMBERS SAID much of the reason for chaos in the middle east is perpetuated by racism and prej-udice. He said the U.S. government has enticed the middle east situation because of a lack of understanding of the people and a lack of knowledge of the middle eastern culture or people.

He added that that same prej-udice has been pushed off on U.S. residents. Chambers said it's not only shown toward people with skin pigment similar to his own but it is cast on others as well.

"When you have the winos who are sick and homeless, you call them bums but when you have a lawyer or doctor who's an alcoholic, they're sick," he said. "We as a society need not criticize the infirmity but we need to study the infirmity to know what causes the infirmity to know what causes the sickness."

Conley's comment, however, opened the floor to debate. Withem said "how can you call something illegal today which was legal last week? That's absurd."

Much of the amendment proponents' arguments revolved around shuffling personal budgets in the event of an emergency. They said if an emergency situation arose, in which a local budget would need to be approved by more than 2 percent, then it could be done by special election or by shuffling the budget.

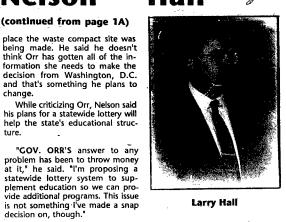

ONE AUDIENCE member, however, asked the amendment proponents how the government could borrow money when its bond ratings would be lowered as a re-sult of the amendment. Withem said bond purchases could be made but it would place a strain on future budgets. The proponents of the measure said money could come from reserves.

In the event several special elections have to be held in one year, thus causing a county clerk's budget to exceed the 2 percent limit, the proponents of the measure offered little clear comment.

Through opening comments, the proponents of the measure criticized public officials as utilizing "Gestapoish tactics" in speaking out against the measure. Proponents of the amendment said they don't think public officials have the right to speak out against the measure.

Robertson ended the forum when he said: "I don't think Dr. Mash has any right to speak. Dr. Mash has no right to speak against the people of this state. He's hired as a manager to do his job but he shouldn't enjoy the same First Amendment freedoms we do."

Maddux: Orr has provided leadership

Governor candidate Jack Maddux said Saturday that Gov. Orr has done a good job of bringing the state together while Democratic opponent Ben Nelson has done what he can to drive wedges in the

state.

Maddux, who was in Wayne Saturday to take part in some of the Wayne State College Home-coming events, said much of the negative campaigning was started by Nelson during the primaries. He said it has been an undercurrent of the Nelson campaign. the Nelson campaign.
"One of the functions of leader-

ship is to bring the people together," he said. "Gov. Orr has done a good job of bringing us all together."

Maddux said it has long been a

position of the Orr administration position of the Orr administration to encourage economic development as well as higher education for the state's youth. He criticized Nelson for not offering a sound platform for education and he said his approach to small business eco-nomic development in rural areas is a hoax to get elected.

"The government's commitment "The government's commitment to higher education is pretty clear," he said. "Gov. Orr thinks higher education is the best way to keep young people in the state and she's enhanced that opportunity by creating jobs for them. Her record with education and economic development has not been matched by any governor in the past 25 years and that's something we can document."

While talking about education and economic development, Maddux said the governor has support of Nebraska farmers. He said through her economic development programs, the state has been able to increase farm production by supplying farmers with new supplying farmers with new alternatives for their products.

"You look at Waldbaums build-ing a new plant in Bloomfield and you look at plants in Bellevue and Lexington, that all has provided farmers with new markets not only for their beef but also their grains," he said. "My point is that agricul-ture has really grown through this

but we haven't stopped. We've been at it for only three years. If you compare our economic devel-opment programs to ones in other states, we're far out ahead.

### City council, school board discuss issues

WAYNE - From concerns about the possible repeal of LB 1059 and the potential implementation of a 2 percent spending limitation amendment, the Wayne City Council and the Wayne School Board shared ideas at a joint

meeting Tuesday night.

In addition to discussing the effects of the two ballot measures, the two groups shared ideas about a possible new recreation/leisure facility and the need for crosswalks around Wayne.

No position was taken by the boards during the joint meeting but each now has a better idea how ballot measures could affect

According to Dr. Francis Haun, superintendent of schools, the schools hands are tied if the 2 percent lid, also known as Measure

405, passes.
"For example, we budget \$60,000 to operate our buses and gas prices have gone up 25 per-cent in the last few months. By law we have to provide that service. If the 2 percent lid passes, we don't have the flexibility in our budget to adapt to those rapid changes and the state couldn't help us either because their hands would be tied as well," he said.

ACCORDING TO City Administrator Joe Salitros, if the lid passes, it will take a number of lawsuits to determine what the lid means. He said for the 1990-91 fiscal year the said for the 1990-91 fiscal year the city is operating under a 2 percent budget increase and if the mea-sure passes, he does not know what effect it will have on the budget.
On LB 1059, the school refi-

nance measure which is designed to alleviate public school's reliance on property taxes and shift the burden to income and sales tax, School Board President Sid Hillier explained that the Wayne Com-munity Schools have seen a \$700,000 increase in state aid due to the measure and he would hate to see it repealed. "If it's repealed we could see a major budget crunch," he said. LB 1059 faces repeal on ballot Measure 406. IN OTHER MATTERS, the two

IN OTHER MATTERS, the two bodies discussed the importance of making sure women's facilities are included in any possible recreation/leisure center plans.

Dr. Haun explained that while the schools cannot enter a joint financing venture of the project, these de haue rome land which they do have some land which may be used. He added that if the center comes to be that although they can't assist in funding, they can utilize it by leasing it from the

#### Jaksha gives comments of how lid would be good for Nebraskans

EDITOR'S NOTE: The following guest editorial was submitted by Ed Jaksha, proponent of Initiative Petition Measure 405. The article appears exactly as it was submitted to The Wayne Herald and it does not represent the viewpoints of this newspaper.

The Opinion page of the Wayne Herald of October 4 carried the opinions of two people, the President of Wayne State College and the Wayne Herald Editor. No other opinion was invited.

In this society, presumably an open, 'free' society the central ideas is one of freedom ... freedom to choose, freedom of expression, a fair opportunity to present opin ions on different sides of the same

question.

That did not occur on the pages of the Wayne Herald on October

4.

The term "devastating" is used by Wayne College President Mash as he wends his way through his problems in managing the affairs of Wayne State College. This term is commonly used by people in government as they are faced with the possibility that their unlimited power to spend and tax may be power to spend and tax may be restricted. The prophets of 'gloom, doom and destruction' were out in

oom and destruction were out in full force when the people of Cali-fornia enacted the famous Proposition 13 in 1978. Since then, the economic growth in California has been phe-nomenal. Population and business has becomed to the point that

nomenal. Population and business has boomed to the point that California, standing alone, is the equivalent of the 7th largest nation in the world.

As the President goes through his dreary recitation of his problems you could wonder about the quality of management of this important Wayne enterprise. It is imquality of management of this important Wayne enterprise. It is important to Wayne as part of its economic base ... no question. But if that is the only reason for supporting this college then the major reason for its existence has been lost ... the mission of education. As have traveled in the Wayne area I have traveled in the Wayne area since 1952 I known several of the college presidents and many of its faculty. Wayne is a fine small col-lege and an asset to the area.

The President of Wayne College is wrong on several counts:

—NO SPENDING CUTS WILL
BE NECESSARY; there is no requirement in our '2 percent proposition' to cut one dime out of any local government budget or any local government budget or out of the state government ap-propriations this year, or next year, or the years after that. I challenge anyone to find that provision in our proposed amendment. Those who make that statement have joined the lies being perpetrated by the education associations and other tax supported government trade associations who are afraid they may have to join the real world and manage without unlimited access

to the taxpayers pocketbooks.

—THE GOAL OF A COLLEGE
EDUCATION IS TO EQUIP STUDENTS WITH KNOWLEDGE AND SKILLS TO MAKE A LIVING, TO SURVIVE IN THIS SOCIETY, TO SHARE THE BURDEN OF TAXES WHICH IS TOO HIGH. Of each

dollar earned in Nebraska over 40 percent goes first to taxes. That's the largest part of the daily cost of living. That portion ... increases at a rate faster than inflation. Govern-ment spending which become taxes are the major cause of inflataxes are the major cause or inna-tion. Check your economics professors on that bit. In Nebraska, last year 1989, local government budgets increased over 8 percent Nebraska Tax Reasearch Council). That was more than twice the rate of inflation. Historically growth in government spending has exgovernment spending has exceeded the growth in average income and that of inflation. Government is the problem. The tax-

payer is the victim.
—The '2 percent solution',
Measure 405 on the November 6
ballot keeps the present level of
spending for all governments in
Nebraska. It allow continued increases in spending by all levels of
government. If the Wayne State
College budget is affected it will
be because President Mash has
not been able to convince the
State Legislature to allocate funds
—that is where the breakdown will payer is the victim.

—The '2 per - that is where the breakdown will be. Our proposition does not get into setting money amounts for Wayne State or for any other col lege or department or agency of government. President Mash statements are a distortion of the truth and bad information for vot ers of Wayne and of northeast

The remarks by the Wayne Herald are hardly worth com-

menting on.

LB 775 was promoted as an 'economic development' bill for Nebraska. It is designed to encourage new and added plant investment to bring jobs and prosperity to-Nebraska. The device in that bill is that less taxes are an incentive to locate in Nebraska and to hire

to locate in Nebraska and to hire people who become taxpayers. Our '2 percent solution' will increase the net, spendable income of Nebraskans by about \$120,000,000 a year from the moment it goes into effect. It will do so without an environmental effect, without an infrastructure need, and without importing labor from outside Nebraska. The direct result will be more spendable inrrom outside Nepraska. The direct result will be more spendable in-come in the pockets of Wayne State students and of the taxpay-ers of the Wayne community ... in-cluding employees of the Wayne

Herald.

It will encourage better management of government enterprises and will not cut one dime out of any budget or total state funds. We need better, more cost effi-cient government.

Ours is a pro-active position, seeking to change for the benefit of the citizens of Nebraska. Our proposition is straightforward and honest. We give you no flippant anwers. Our opponents hold a ive view — they want to status-quot, afraid of negative view

keep—"status-quo", change.
I urge the voters to support the
"2 percent solution" and to VOTE
FOR MEASURE 405.

### Daub, Orr get top billing; Dems best for other offices

With the election nearing, we will be voting on a number of candidates. The purpose of this editorial is to express who we are supporting for election.

The first endorsement of officials running for public office is

that of Hal Daub. Daub, who is running against incumbent Sen. J. James Exon, has pushed to get his name known throughout the state. While Sen. Exon has served the state well for a number of

state. While Sen. Exon has served the state well for a number of years, it is time for us to take a second look at his record.

If re-elected, Exon will be serving his third term in office. On many occasions Daub has said if he's elected, he will only serve two terms and he will push for limited congressional terms. Daub has backed this position by serving only eight years in the House of Representatives during the early and mid-80s, so we know he will make good on his promise. Because of Daub's concern for Main Street Nebraskans and his platform of offering town hall meetings throughout the state during his term of office, he deserves to be elected our U.S. senator.

In the governor's race, one which has been neck and neck, our endorsement is going to Gov. Kay Orr. We're endorsing Orr because Nelson has U-turned on so many issues throughout his campaign that it's impossible to tell in which direction he'll take the state. In addition to Nelson's flip-flopping on the issues, he has failed to answer a number of questions pertinent to the office for which he is running. With uncertain promises, and U-turns on the issues on more than one occasion, it seems Nelson's promises are empty and valueless. If that's not enough, ask yourself how often Nelson has been to Wayne since his campaign started. If your answer is once to Orr's five, then you're right.

While Gov. Orr hasn't had a perfect record during her first four years of office, a vote for her can be construed as a vote against Nelson. In retrospect, a vote for Orr will also tell the state that we believe in the progress which has occurred during her first four

years of office.

In the U.S. representative race for the first district, our choice

is clearly for Doug Bereuter. Bereuter's Democratic opponent Larry Hall, has shown very little interest in the rural affairs of this district, while Bereuter has, at least, taken time to listen to the citizens, Hall hasn't taken time to do much of anything. Apparently, Hall's only interests lie in Lincoln and Omaha but not Wayne, Dixon or Cedar counties. He, like many of the other Democratic nominess has shown such a lack of interest in sural effect that he nominees, has shown such a lack of interest in rural affairs that he doesn't deserve our vote.

In other races which we will vote on in the Nov. 6 general election, our position is:

 Attorney General — Democrat Gene Crump has shown he has the ability to be fair as attorney general of the state. He has been endorsed by both the incumbent Republican attorney general, who is not running for office, and Sen. Bob Kerrey. While little value should be placed in endorsements, Crump's experience in the attorney general's office is valuable to Nebraskans. His opponent, Don Stenberg, doesn't have that experience.

Secretary of State — Democrat Nancy Hansen said one thing during her recent visit in Wayne which shows she would be a good secretary of state. She said that incumbent secretary of state Allen Beerman has not taken a stand on any issue. With that one statement, she hit the nail on the head. Hansen gets our endorsement for the sincerity she has shown throughout her campaign.

• State Treasurer — Democratic candidate Dawn Rockey may be young but her youth and energy for this public office prove she has more on the stick than her incumbent opponent, Frank Marsh Marsh, who has been Nebraska's state treasurer since the 1960s, has been in the same position for so long that he has almost become institutionalized. Rockey, who shares some of the same characteristics as other leading state officials showed during their early years in government, is a prime choice to succeed Marsh.

#### Lid too threatening

I don't often write letters of opinion but after hearing about the proposed Measure 405 (the 2 percent lid) I am worried not only about myself and my education, but also about the services and the quality of life throughout Ne-braska, and especially in Wayne

braska, and especially in Wayne and the surrounding communities. I am a junior at the University of Nebraska-Lincoln studying exercise science-pre physical therapy. I liked growing up in Wayne and I hope one day to work in Nebraska. I have two worries about being able to live and work here.

First, we've all heard a lot about the "brain drain" from the state, and about what has been done recently to stop the outflow of ed-

recently to stop the outflow of edrecently to stop the outflow of educated young people to other parts of the United States. With its application to almost all governmental operations, the lid promises to limit many of the services that deliver on Nebraska's claim to being "the good life." For many of us, the logical alternative to staying in a state artificially impoverished, even if it is our home, would be to

Secondly, the lid would make it harder for those of us wanting to stay in-state, despite a reduction in standards, to do so. The economic development and research efforts that promise to create new jobs in Nebraska would be in danger. These enterprises often require investments in public facilities or ser-vices. With its funds constrained by the lid, Nebraska couldn't compete with other states for new business

and industry.
Of course some of those cerns appear to be at least a little way down the road. Other cuts and reductions in the quality of education of students across the education of students across the state, for example, would be immediate. Wayne State will experience cuts not only in programming and classes but also in faculty and employees, as will Wayne-Carroll High School. These schools, which are known for high quality academics and faculty will no longer be able to meet these no longer be able to meet these high standards. This situation, however, is a whole different story. For now, I'm just writing to go on record as a concerned Wayne

citizen and student against the lid.

Sarah J. Peterson

#### Officials know better

I get very irked with these proponents of the 2 percent lid complaining about public officials predicting gloom and doom if the lid goes through. I ask you, who is in a better position to know what the likely results would be? Most of the pro-lid people I know have never had a public lob (even a side lob). had a public job (even a side job such as school board), wouldn't at-tend a budget hearing (required by law) if you paid them, and are only interested in the bottom line of the tax bill. To vote for this lid is an insult to those who have been elected to serve, those who spend many an evening wrestling with budget problems and still comply with state and federal mandates

and regulations.

As for LB 1059, L hear a lot-of hue and cry about higher taxes for some and lower taxes for others. Frankly, that was the whole idea of 1059 — to get some balance to school financing which has been way out of balance for years because of the dependence on their property taxes. The fact that sales and income taxpayers who own little property now get to share the burden of providing a good education just might create a little interest from these same neonle -to get some balance to interest from these same people

as to how the schools are run and budgeted. LB 1059 may be flawed in some respects but it is not nearly flawed as the present system. 1059 is defeated, the property owner can look forward to a tax increase of 17 percent on the average the money has to be raised from somewhere. Retain LB

#### Consider our future

We are members of the student body at Wayne-Carroll High School in Wayne. We are concerned about the proposed 2 percent spending lid that will be appearing on next month's ballot. Since most of us are not 18 and cannot you the best not 18 and do is cannot vote, the best we can do is to voice our opinion loud and clear. Many people are going to vote for the lid because it sounds like a good solution for high taxes, but a cut in tax rates is not guaranteed. The lid will have a negative effect on Nebraska's communities and school systems. People Against the 2 percent Lid (PAL) estimates that nearly one third of the state's teaching force will be lost in a four year period. As a result class size will increase beyond the limits for successful learning. In addition, extracurricular and elective programs would be eliminated and supplies and equipment would not be purgood solution for high taxes, but a

would be eliminated and supplies and equipment would not be purchased. The quality of American education is already declining; we cannot afford to skimp anymore. We are the future of our state. With the proposed lid the future is nothing to look forward to. Well-rounded, well educated citizens will be scarce in Nebraska. The teachers and administrators in our school have not influenced our opinions or have not influenced our opinions or actions in any way. We are asking voters to vote against the pro-posed 2 percent spending lid on Nov-6. We are concerned for our

#### 'Read our lips'

'Read our lips'

If the 2 percent lid passes in the state of Nebraska, there will be a mass exodus to the borders.'

That's according to one of the city council members. Before that meeting. (Oct. 16) was over the whole city council, less one member not present, was believing it.

The schools will close, there will be no more "special services", gov-

be no more "special services", gov-ernment employees will no longer be able to expect 5 percent annual pay raises, government bodies will no longer be able to share ser-vices, etc., etc., etc.

It all sounds like a lot of bunk to me folks. I, and a lot of others, think the same way. Have you nodecreases surface how tax sup-ported entities seem to rally around each other and decide how they will cease to exist if we (the taxpayer) threaten to limit their spending or not give them more to spend. And how really bad verything is going to be without

If each and every one of us took a real deep look at how much we actually pay in taxes, we would soon see that it is getting more ridiculous every year. Remember that the taxes don't just come out of your paycheck. There are sales taxes, exise taxes, property taxes, taxes, exise taxes, property taxes, federal taxes, wheel taxes, fuel taxes, state taxes and more

These taxes are not enough to run the governments. So the government adds fees for building permits, drivers licenses, a fee to do business, a fee to buy tires, a

fee to dispose of them (there are fee to dispose of them (there are already special taxes on tires), a fee to get information, a fee for a bicycle license, a fee to dispose of trash, a fee for water, a fee for electricity. The lists of taxes and fees go on like a Duracell battery. And they go to one government body or the other.

When was the last time a city councilman, school board member, state senator or any other elected official knocked on your door or called on the phone and asked for your opinion of any given problem or issue that was put before the government? The city council's opinion was to oppose the 2 percent lid. Was that our opinion (they are there to represent you, not themselves) or do they just think they know what you're thinking? Isn't it odd the only time you hear from them is at election time? We literally have to chase them down or go where they are them down or go where they are to give them our opinion. Wouldn't it be something if government bodies worked as hard to save money as they work to justify spending it?

The City of Wayne, Wayne County and the state of Nebraska aren't really doing too bad, now. But the 2 percent lid, be it good or bad, if it passes or fails, should serve as a warning. Those of us that do pay taxes are getting tired of that one more tax or fee that will solve all of our problems and make solve all of our problems and make life better for us, and hearing about the doom and gloom of what political entities think will

what political efficies (inlink will happen lif we don't give them more and more each year.

Government officials, you may not see us. We are busy people, working every day to support you. Bet we are there. You will hear from us more and more as time goes by. We are beginning to see more and more of what you are really doing with our money. We are watching. We are waiting patiently. We have less and less faith in you. We will control your spending if you do not. We will provide for you, but it will be on our terms, not yours. We are your boss. We are the tax payer. If you can't hear us now, listen a little closer. We are saying "Read out lips."

#### Views on LB 1059

I take this opportunity to express my views on LB 1059, the school refinance bill that will be on school refinance bill that will be on the ballot this year. Early last year Cov. Orr appointed a task force to study ways of financing public education in Nebraska, and to make the recommendations to the Legislature. The committee did a thorough study of the matter and came up with the recommendations that resulted in LB 1059, the best effort in many years to correct best effort in many years to correct the inequities that exist in financial support of education in our state. This bill was passed by the Legisla-ture, vetoed by the governor, and passed again over the governor's

o. Granted that LB 1059 is proba bly not a perfect vehicle for school refinance, but it goes a long way toward equalizing the taxes required to pay the cost of education in Nebraska. At least of equal and possibly of greater importance would be the effect of stabilizing and equalizing educational oppor-tunities for our young people across the state. When discrepancies are found they can be cor-rected and improvements can be made by amending the original bill later on

I would also point out that the taxing structure contained in LB. 1059 is not new or untried. Similar programs have been used successfully in other states: in Kansas, for example, over the past 15 years.

example, over the past 15 years.

I sincerely urge the voters of Nebraska to give this measure an honest chance. If you believe in fair and equitable financing for education, if there are or presently will be young people in school who are important to you, join with me in supporting this very important bill. Vote to retain LB 1059.

KSC had a chance to take the halftime lead on WSC but a field

goal attempt by Graverholz falled. "When we came out of the locker room before the game we felt

good about our game plan," Wagner said. "Then to have 200 plus yards and 17 points in the first half was just what we hoped for and we really felt good about our chances of winning the game. "The first four minutes of the third quarter just destroyed the game for us," Wagner said. "The score was tied 17 all at halftime and they come out and drive the ball 66 yards on five plays to score a touchdown to start the third quarter and we fumble the ensuing kickoff and they go 23 yards on six plays and score another touchdown so its 31-17 before we even touch the ball just twice in the third quarter and in both possessions it was three plays and punt. KSC meanwhile, had grabbed the momentum and scored on a 27 yard field goal by Graverholz with 5:37 remaining in the third quarter to give the Lopers a 34-17 advantage. Wagner noted that Fort Hays will definitely be the best team

"Their defense ranks near the top of every category in the nation for NAIA," Wagner said. "Offensively they just line up and come at you—nothing real fancy."

Fort Hays will bring in an experienced offensive line and a very experienced defense but the Tigers will start freshman at three

out or the four backned positions.
Incidentally, the loss by WSC to
Kearney State was the first home
loss for the Wildcats this season
and it was the first road win for
Kearney State this year. The Lop-

#### The Farmer's Wife By Pat Melerhenry

Oktoberfest actually begins in September. It was originally a festival to celebrate the betrothal of one of the princes of Bavaria in 1810. It lasts for two weeks, and is known as the world's greatest beer festival.

Friends who had been there or a-weekend-had said-they would-never be back. Our tour was-scheduled for Friday, and we-were curious. Besides, it was the Big Farmer's birthday, and it included a few other seenic areas of Munich.

few other seenic areas of Munich.
Fodor's reports that West Germany has 1250" breweries—as many as the rest of the world put together. Munich has eight alone, and is known as the world's beerdrinking capital. During Oktoberfest, 10 million pints are consumed. It's served in liter-size (2 pint) mugs, called Mass.
In downtown Munich is the world's most famous beer hall, the Hofbrauhaus. Up to 16,000 pints are downed here on a thirsty day.

Actually, it reminded us of the State Fair. There were all kinds of rides, some filled with screaming kids. There was a livestock exhibition and a machinery show.

I was entranced by the men in lederhosen and women in dirndle skirts. But the tiny biergarten in Lincoln would pale-next to the ones at Oktoberfest. We saw a familiar name, Lowenbrau, and headed for that tent. All the oak benches were full or respect benches were full or reserved. Waitresses dressed as serving wenches were delivering the beer as fast as they could.

In the center, on a stage, was the band. German bands seem to be all brass, and play only 4/4 time. They have a stock medley of American songs: Roll out the Barrel, She'll be Comin' Round the Mountain, and You are my Sun-

Students construct new press box
MEMBERS OF THE AG CONSTRUCTION CLASS at Allen High School recently completed this new press box at the school's football field to replace one blown down last summer during a wind storm. Instructor Tom Wilmes said the students started the project at the beginning of the school year and did all but the concrete work. In addition to serving as a press box, the bottom of the facility will be used as a storage area for field and track equipment. Wilmes said the project not only provided an educational experience for the students, but has resulted in money savings to the school. Each district with combined necessary cash reserves, depreciation funds, and contingency funds less than the applicable allowable reserve percent-age specified in this section may, notwithstanding the district's applicable allowable growth percentage, increase its necessary cash reserves by an amount which will increase its combined cash reserves, depreciation funds, and contingency funds by two percent of its total general fund budget of expenditures, except that (1) a district shall not increase such necessary cash reserves when such increase will result in total necessary cash reserves, depreciation funds, and contingency funds which exceed the applicable allowable reserve percentage and (2) a district may increase such necessary cash reserves in excess of such two percent limitation due to projected increases in federal

Sec. 19. A district may exceed its applicable allowable growth rate by a specific dollar amount in the situations described in this section.

(1) A district can demonstrate to the

satisfaction of the state board that a new program is required by state or federal law or an existing program mandated by state or federal law has been expanded as a result of changes in such state or federal law. For purposes of this subdivision, a final order of a court from which no appeal is taken which requires reimbursement by a district of property taxes to a taxpay shall be considered a new program required by state or federal law.

(2) The district projects an increase the current school year. Districts may project increases in formula students on forms prescribed by the department. The state board shall approve, deny, or modify any projected increases greater than those listed in the following sched-

Average daily Projected increase membership of of formula student hy percentage 0 - 50 10 0 - 50 50.01 - 250 250.01 - 1.000 1.000.01 and over

The department shall compute the district's estimated allowable budget per pupil using the budgeted general fund expenditures found on the budget statement for the current school year multiplied by the district's applicable allowable growth rate. The resulting allowable budget per pupil shall be multiplied by the projected formula students to arrive at the estimated budget needs for the ensuing year. The department shall allow the district to increase its general fund budget of expenditures for the ensuing school year

by the amount necessary to fund the estimated budget needs of the district as computed pursuant to this subdivision. Within fifteen working days following adjournment sine die of the new regular assign of the Levichtway the on of the Legislature, the department shall make needed revi-Bions in the applicable allowable growth rate of districts which have been allowed additional growth pursuant to this subdivision to reflect the actual formula students of such district.

(3) construction, expansion, or alteration of district buildings will cause an increase in building operation and maintenance costs of at least five percent. The department shall document the projected increase in building op-eration and maintenance costs and may allow a district to exceed its applicable allowable growth percentage by the amount necessary to fund such increased costs. Within fifteen working days following adjournment sine die o tave tolowing adjournment sine die of the next regular session of the Legisla-ture, the department shall compute the actual increased costs for the school year and shall, if needed, modify the district's applicable allowable growth rate for the ensuing school year.

(4) A district demonstrates to the satisfaction of the state board that additional special education students will enroll in the district for the ensuing school year and will result in an increase in budgeted general fund expenditures for special education. The department shall determine the district's allowable growth rate for special edu-cation expenditures based on projected additional special education costs to the district

(5) For the ensuing school year a district is bound by the terms of a long-term collective bargaining contract negotiated prior to the operative date of this section and during a preceding school year to raise employee salaries by a percentage greater than such district's applicable allowable growth rate. The department shall compute the amount by which the increase in employee salaries exceeds the district's applicable allowable growth rate and shall allow the district to increase its general fund budget of expenditures by

Sec. 20. (1) A district may exceed by an additional one percent the applicable allowable growth percentage prescribed in section 17 of this act upon an affirmative vote of at least seventyfive percent of the board. Such vote shall be taken at a public meeting of the board following a special public hearing called for the purpose of receiving testimony on such proposed increase. The board shall give at least seven calendar days' notice of such public hearing and shall publish such notice at least once in a newspaper of general circulation in the district.

(2) A district may exceed the applicable allowable growth percentage prescribed in section 17 of this act by an amount approved by a majority of registered voters voting on the issue at a special election called for such purpose upon the recommendation of the board or upon the receipt by the county clerk or election commissioner of a petition requesting an election signed by five percent of the registered voters of the district. The recommendation of the board or the petition of the voters shall include the amount by which the board would increase its general fund budget of expenditures for the ensuing school year over and above the applicable allowable growth rate. The county clerk or election commissioner shall call for s special election on the issue within fifteen days of the receipt of such board recommendation or voter petition. The election shall be held pursuant to the provisions of Chapter 32 governing spe-cial elections, and all costs shall be paid by the district.

Sec. 21. A district may choose not to increase its general fund budget of expenditures by the full amount of its applicable allowable growth rate. In such cases, the department shall calculate the amount of unused budget authority which shall be carried forward to future budget years so a district may increase its general fund budget of expenditures in future years by the amount of such total unused budget authority in addition to the district's applicable allowable growth rate for the specific budget year.

Sec. 22. The department shall annually provide data to the Governor to enable him or her to prepare the necessary legislation to:

(1) Appropriate an amount which will financial support from a sources to districts equal to forty-five percent of the estimated general fund operating expenditures of districts for the ensuing school year:

(2) Appropriate an amount of income tax revenue received to insure that twenty percent of all income tax receipts are dedicated to the support of districts throughout the state; and

(3) Establish and implement a basic allowable growth rate and an allowable growth range for district budgets for the ensuing school year.

The Governor shall submit such legislation, along with any modifications made by the Governor as part of his or her annual budget request, to the Legislature.

23. There is hereby created the School Finance Review Committee which shall be composed of representatives of the State Department of Education, the Department of Revenue, the

Legislative Council, and each class of strict, an expert in school finar and a member of the general public. #### **ELECTION PREVIEW**

Nebraskans will be voting on seven issues when they go to the General Election polls on Nov. 6. So that voters can better understand these important proposed changes to the state Constitution, the Nebraska Press Association in cooperation with this newspaper has prepared a series of reports on each of the issues. Each report deals with a couple of issues, briefly defining them, explaining their purpose and finally stating the arguments for and against.

This is the second report in the series.

#### School Finance

INITIATIVE 406: A referendum on the state's new school finance law, LB 1059. A 'yes' vote is to keep sales taxes and income taxes to boost state aid to school districts by nearly \$200 million and reduce reliance on property taxes for funding schools. Those additional tax dollars are targeted to help bring per-student spending in poorer school districts in line with the state's average. SUPPORT: It is reducing prop-

erty taxes for most school districts in the state. Levies have dropped in most districts.

Repeal would leave districts with multimillion-dollar funding shortages for this year.

The distribution formula that aims to equalize school spending is also important. Numerous states have had their school finance plans struck down as unconstitutionally unequal, and a similar suit is pending in Nebraska.

OPPOSITION: Opponents say

the school lids in the bill are not trong enough to assure that the additional state dollars will reduce property taxes.

Many districts don't receive additional school aid under the formula, but their residents still must pay the higher state taxes.

The Legislature will be able to

take care of any funding shortfalls for schools if the law is repealed.

#### Tax on Land

PROPOSED CONSTITU-TIONAL AMENDMENT 1: This measure would allow agricultural land to be taxed in a manner not uniform with other types of land. Supporters hope it will lead to the taxing of farmland on its ability to produce rather than on its sale value as all property in the state is cur-

SUPPORT: Backers say ability to produce is the fairest way to value ag land. The state did value it that way until the Nebraska Supreme Court two years ago said the method violated the constitution.

Voters in 1984 approved a similar amendment, but the courts ruled it

vas drafted wrong. This is a second

opposition: Opponents say the fairest way is to tax all land uniformly. Farmers would be get-ting a break' on their taxes if their land was taxed differently. Opening the door to non-uniform

tment could cause problems
