Wayne is on the home stretch in the preparation of a new set of zoning regulations and a new comprehensive plan for the community and the leaders of the effort say they are extremely excited about the future of the community.

There will be quite an impact in the next five years," said George Phelps, chairman of the Wayne Planning commission which is making the final revisions to new land use planning and zoning regulations and a comprehensive plan for the community. The commission will be meeting Monday to review the draft of a new set of rules which Phelps said have "loosened up some of the

DEVELOPMENT of new housing opportunities was one of the primary goals of the long process of revising the city's zoning regs and rewriting its plans, according to Tim Keelan, a principal in the planning firm of Hanna-Keelan Associates of Lincoln.
"The Wayne community has a

tremendous potential to create a large new real estate tax base through the development of new housing opportunities," said Keelan. He said conservative estimates de-

Accident yields minimal injuries

A WAYNE MAN ESCAPED serious injury Friday morning when a car he was driving collided with a combine on Highway 35 seven miles west of Wayne. Wayne County Sheriff Le-Roy Janssen, who investigated the accident at 9 a.m., said 87-year-old Clifford Johnson of Wayne was westbound in his car when he attempted to pass a combine being driven by Werner Janke of Wayne. The sheriff said Johnson collided with the combine's extended crop head when he attempted too soon to pull in front of the combine after he noticed approaching eastbound traffic. Johnson was treated and released from Providence Medical Center with facial cuts and a sore shoulder. The driver of the combine was not injured.

What unorganized group of peo ple in Wayne County paid \$115,000 into the coffers of area schools during 1991-92? The answer: minors in possession of alcohol, persons driving while intoxicated and those who procured alcohol for minors. Others paid fines for miscellaneous offenses.

Records in the office of Wayne County Superintendent of Schools, located in the Wayne County Courthouse, reflect the increase in fine monies received from the county court. Receipts in 1991 amounted to \$54,000, or \$30.86 per census child in the county, with an increase in 1992 to \$61,000, or \$34,27 per census child.

A spokesperson in the county treasurer's office said they receive 100% of both the state and city fines from the county court for dis-tribution to schools through the office of county school superinten-

STATE FINES are divided between school districts through the office of county superintendent of schools. City fine monies go to schools in Wayne.

A recent study of Wayne County Court records dated from 1985 through September 1992, disclose that during the last seven years 78 drivers paid fines after being convicted of first offense drunken driv-

ing; 20 people were convicted of second offense drunken driving, and three drivers were convicted of drunken driving for the third time. During that same time period 46 individuals were convicted of procuring alcoholic liquor for minors and 343 youths paid penaltics for being a minor in possession of alcoholic liquor (MIP). This figure does not include MIP charges transferred into juvenile court.

Mike Pieper, Wayne County at-torney, believes "the increase in MIP cases may be reflective of an increased student enrollment." He said "Any time you add several thousand young people into a local environment, chances are good that you'll see an increase in alcohol-re-lated offenses." He said the MIP cases are most notable at the beginning of a school year and are significantly less after a few months.

Wayne Police Chief Vern Fairchild and Wayne County Sheriff LeRoy Janssen both advised the Wayne Herald Monday they believe the number of arrests made for MIP in Wayne and Wayne County continues to increase.

ARRESTS FOR DWI and procuring alcohol for a minor remain rather constant, they said. County court records indicate eight youths appeared on MIP charges in one day - Sept. 17, and approximately another dozen in the

Hon. Richard W. Krepela of Norfolk, the county judge serving Wayne, Cuming and Madison counties this year, noted that al-though judges may differ in sens tencing, most youths convicted of the misdemeanor of being a minor in possession of alcohol are fined and assessed costs of \$21. Judge Krepela said if the convicted youth is out of high school and in court for his or her first MIP, he usually sses a fine of \$250.

"Alcohol is involved in almost

50-75 percent of criminal cases that

are in court," Krepela said.

If the defendant is before the court on a second charge of MIP, the person is ordered to get a professional alcohol evaluation prior to being sentenced. If the evaluation indicates a possible alcohol abuse problem, the court may place the defendant on probation and order

Public invited to 'Ancient Skies' show at Planetarium

Wayne State College will present the planetarium show "Ancient Skies: Archeoastronomy of the American Southwest" on Sundays, Nov. 1, 8, 15, and 22. The public is invited.

The shows will be held at 3:30 p.m. in the Fred G. Dale Planetarium, located at the south entrance of the Carhart Science Building on the Wayne State campus.

Although not a planetarium "show" in the traditional sense, this travelogue presentation utilizes the planetarium projector to demon-strate the celestial alignments that are an important part of the Anasazi ruins and Navajo star ceilings of the American Southwest

Primarily a slide show, the program details impressive pictographs, petroglyphs, and structural ruins as studies and pho-tographed on a recent archeoastronomy expedition to Utah, New

"THIS MEANS a lot of payroll checks from Wayne are being driven down the road," said Keelan. He said the study indicates that 700 jobs in Wayne's employment sector are held by non-Wayne residents. He added that conservative estimates would indicate that at least ten percent of those people would move to Wayne to avoid the commute if the housing opportunities improved.

He said with housing develop-

ment the city would see a natural and dramatic increase in commercial growth as well.

Those goals are what has Phelps excited about the planning project which began in March of 1990.
"This will benefit everyone," said

Phelps citing specific changes which should make it more economical to develop housing and business property in the community.

The city has done a pretty good job of attracting industry to Wayne, now we want to attract the people to

KEELAN AGREED that if Wayne doesn't do something to develop more housing, neighboring towns would do it for us. He said there are other communities in Northeast Nebraska who are aggressively working on plans to create "bedroom

communities" for people who work in Wayne.

They are going out after it," he added.

After its session Monday to review the new draft of the regulations, the Planning Commission will meet in joint session with City Council next week to review and discuss revisions. Following preparation of a final draft, a public hearing will be called to get input and ideas from the community.

WSC has five ranked among statistical leaders

On that same day Southwest State defeated Bernidji State by a 53-39 margin at home—Bernidji was defeated by WSC, 44-7 earlier this

season in Minnesota.

Quarterback Jeff Loots completed 34 of 57 passes for 471 yards and six TD's in the win. Wide receiver Alvin Ashley caught 14 passes for 217 yards and two TD's.

Southwest State will come into Memorial Field as the 12th rated team in NAIA Divsion I. Loots will arguably be the finest quarterback ever to step foot onto Memorial Stadium.

In his first five games of the season, Loots has completed 153 of 262 passes (.584) for 2,208 yards and 22 TD's and just 10 interceptions. He leads the NAIA in total offense at 435.2 yards per game and passing offense at 441.6 yards per contest.

Last season as a junior, Loots threw for 4111 yards and 50 TD's

and 11 interceptions. Ashley has caught 61 passes in five games for 976 yards and 10 TD's.

WSC has five individuals ranked nationally among this week's NCAA Division II statistical leaders: Wide receiver Damon Thomas ranks third with 7.7 receptions per game while quarterback Troy Mott ranks 10th in total offense at 249.3 yards per game.

Sean Francisco ranks 17th in punt returns at 12.7 and sophomore

running back Jason Williams ranks 27th in scoring at 8 points per game. Wilson Hookfin is tied for 18th in interceptions at 0.7 per

As a team the Wildcats rank 18th in total offense at 407.3 yards per game and 20th in passing offense at 242.2 yards per outing. The 'Cats rank 10th defensively against the rush, allowing just 77.3 yards per

game and 13th in total defense, allowing 245.3 yards per game. They rank 19th in scoring defense with 14.3 points allowed per game.

Jason Williams was named Nebraska NCAA-II Offensive Player of the Week for the second time this season after rushing for a career-high 161 yards on 24 carries including touchdown runs of 47, 26 and one yards. He has eclipsed the 100 yard rushing mark in each of WSC's

The combination of Williams and Lamont Rainey have rushed for 13 TD's which is one more than last season's total of 12 on the ground. The 'Cats are averaging 165.2 yards per game rushing at 4.1 yards per attempt. WSC has scored all 13 touchdowns rushing in the three victories

Mott needs 14 completions against Southwest State to set the alltime mark at WSC. Mott enters the contest with 367 career completions, 13 shy of Ed Jochum's mark of 380 set in 1985. Mott will also set the all-time completion percentage mark at WSC. He currently completes 59 percent of his passes for his career, ahead of Steve Gunther's .465 set in 1966-67.

WSC coach Dennis Wagner said that playing against Southwest State will be a tough assignment. "It's very difficult when you play a team like Southwest State," Wagner said. "They have a very explosive offense. They hardly ever run the ball. It's going to be a long game with them because they throw the ball about 70 times per game. Their quarterback Loots is at least a free agent, if not a draftable quarterback. It should be an exciting game."

Last week's players of the game as selected by the coaching staff were Williams on offense, Jerry Kleidosty on defense after 13 tackles, two unassisted, and one tackle for a minus one yard. Casey Lund was named the special teams player of the week.

PROPOSED BY INITIATIVE PETITION **MEASURE # 407**

A vote "FOR" will create a constitutional limit on the number of consecutive terms in office for various elected state officials; and will prohibit Nebraska's Representatives in Congress and the U.S. Senate from being listed on the ballot after serving a specified number of consecutive terms.

A vote "AGAINST" will not create such constitutional limits on terms and ballot listing.

Against
