Storm creates accident, salt worries

The three-day winter storm which has dumped the Midwest in an ice bucket has kept Wayne area emergency crews, road maintenance people and utility workers on an around-theclock frenzy of tension and activity

The greatest tension came with the report of a school bus accident south of Winside Wednesday afternoon. No occupants of the fully-loaded bus were hurt when it collided with a northbound car that had lost control on icy Highway 35.

The driver of the car, Suli Chen of Wayne was treated and released at Providence Medical Center according to the Nebraska State Patrol.

EMERGENCY CREWS were reportedly dispatched to the scene from Wayne, Winside and Pierce. Last summer some of the same crews were dispatched to the Winside area in a mock disaster drill that involved a mock school bus accident. EMT's dispatched to the Wednesday accident knew this was no test but expressed joy that all the passengers on the bus were safe.

Winside School Superintendent Don Leighton praised the work of emergency crews as well as bus driver Dean Mann and the kids on the bus. 'They handled everything real well,' said Leighton. He said Winside buses are equipped with mobile phones which assisted in getting help to the scene quickly.

Seven decades as Valentines

Seventy-one years ago Valentine's Day, a couple of kids from around Pender were looking forward to their wedding day. Max and Elsie had grown up on neighboring farms and knew each other well. Their wedding day was on March 4, 1922, and in 1993, Max and Elsie Holdorf of Laurel are still

Valentine sweethearts.

They didn't have a big wedding in 1922. The wedding party included a best man and a maid of honor. Not many attended the wedding, and "that's why it's (their marriage) lasted so long" Max adds with a laugh. Actually, they claim there is no secret to a long, lasting marriage. Max says, "well, I guess it just went on and on. One year and another year and another year,

and it just kept on going."

Max and Elsie loved to attend

MAX AND Elsie Holdorf have been Valentine's Day sweethearts for more than seventy years. They will ce brate their 71st wedding anniversary on March 1993.

When they were dating, they went to barn dances. Because Max is the second youngest of 10 children in his family, they always had other family members tagging along. Through the years after they

were married, Max and Elsie went to dances whenever they got a

Sometimes, they danced the old-time waltzes of Lawrence Welk when he played at a hall south of "Blue Skirt Waltz" played by Arden Smith and his orchestra, an area band. "It's an old-time waltz. There is something to it. I really love the waltz," Max says.

Today, Max and Elsic have eight children with one deceased; 27 or 28 grandchildren which includes three sets of twins; 42 great grandchildren; and four great great grandchil-

Their 71 years together have made the Holdorfs local celebrities. Channel 9 news featured them in

their broadcast on Tuesday, Feb. 9. Hillcrest Care Center, where the Holdorfs have resided for the past two years will be serving a special Valentine's Day dinner for the six couples who reside there. The dinner will include candle light and soft music. The other five couples have all been married for over 45

Already smarting over LB3 last year, which shifted some \$70,000 worth of additional costs for educating handicapped children who are in foster care or are wards of the state to the Wayne School District, Superintendent Dr. Dennis Jensen said he is confused and increasingly frustrated with the proposals coming out of Lincoln during the current legislative

He said the legislature is considering proposals for \$341 million worth of new taxes while at the same time local governments are being asked to live with less state aid.

"With all these suggested taxes, how is the local school district going to fare with the public, when it wants to purchase new technology which might cause an increase in (local) taxes?" he asked.

"I will do my best to keep our tax request low; but I am also saddled with the responsibility of educating our children for the future, and to me, that is my main focus," he added.

Nebraska Gov. Ben Nelson braved slick roads and persistent winter storm, which forced cancellation of most other events, to travel to Wayne Friday to give a pep talk to Northeast Nebraska development and industry

The governor had been scheduled to speak at Wayne State College to a luncheon group gathered for the rural economic development conference Friday, but the conference was cancelled by the storm.

Nelson came anyway, citing the tradition in his hometown of McCook and in towns in Northeast Nebraska of getting the job done no matter what the weather. Nelson arrived in a fourwheel drive piloted by a state patrol-

THE IMPROMPTU luncheon group included about 150 business and industry leaders from throughout the region, some of them cited by Wayne State College President Dr. Donald Mash as "willing members of the (state's) team" to promote growth and development through private, public and inter-community efforts.

That was the key part of the mes-

sage delivered by Nelson in his 30-

We must remember that there are more things that unite us than divide us," he said. He encouraged the group to switch from the idea of government entitlements to empowerment through local and regional leadership and support to windevelopment gains.

He said often inter-local rivalries, including those created by competing sports teams from neighboring schools keeps communities from cooperating. "Sometimes it's as simple as that," he said. He praised the re-gional efforts at development going on in Northeast Nebraska and reminded the group that when one area of the region benefits from economic development, the whole region ben-
