Concert to honor area vets

"Lest We Forget," a program dedicated to the veterans of World War II will be staged in Wayne April 5 as part of the Heartland of America Band Concert at Wayne State College's Rice Auditorium.

The special performance of the popular group of professional musicians from Offutt Air Force Base in Omaha will commemorate the 50th anniversary of the end of the war, according to MSgt. Pat Lannom, publicity director for the spring Midwest concert tour.

The band's free performance in Wayne is being sponsored by the Wayne Herald and the Wayne State College Center for Cultural Out-

Guest conductor Maj, Dennis M. Layendecker of Montgomery, Ala. will lead the concert, which will include a performance by the Noteables -- the band's jazz ensemble. The Noteables will perform big band music of World War II.

The Air Force band is planning an extensive schedule of concerts throughout the Midwest this year in commemoration of the end of World War II. The band annually performs worldwide and throughout the region in support of community rela-

Hospice group provides caring service

By Clara Osten For the Herald

People who have been diagnosed with a terminal illness have available to them the services of Community Care Hospice Group, a volunteer organization that works with the Hospice program funded through Lutheran Community Hospital in Norfolk.

În medieval times, hospices were way stations for pilgrims on a difficult journey. Today, hospices grims completing their life's journey in the company of caring familv and friends," said Jean Kinney coordinator of the Wayne Community Care Hospice Group.

Healing is not just physical. We are here to provide terminally ill patients with the emotional, social, spiritual and physical support needed when there is a limited life expectancy," said Kinney.

THE COMMUNITY Care

Hospice group is made up of volunteers including Sister Gertrude who is volunteer Chaplain, Dr. James Lindau who is volunteer Medical Director, Gail Catinella who is volunteer Social Worker and Verlyn Anderson, who is a repre-sentative of Providence Medical Center. Anderson serves as president of the group which meets very two weeks to discuss patient care.

In addition, Home Health Care also serve Hospice patients. Terri Munter is the Home Healths

Care representative for the Wayne Hospice Group, Others volunteer to visit patients and provide support to the primary caregivers.

Hospice care has recently been extended to nursing home patients. "Many times the patient has no relatives in the immediate area and Hospice provides reassurance to distant relatives because a registered nurse visits the patient on a regular basis." said Kinney.

See HOSPICE, Page 3A

Community relations aim of president

By Tom Mullen

When the new president of the Wayne State College Student Senate takes office next month, high on his priority list will be improving relations between the students he represents, and the businesses of Wayne.

Andy Long, a native of Springfield, won the college's recent presidential election with an unprecedented 79.8% of the popular vote, in a campaign that focused on campus security, student health, and community relations.

In addressing the students off-campus activities, Long pointed to the regional nature of the college which allows most students to spend their weekends at home, thus originating the now traditional Thursday night revelries. These extra curricular activities have most recently converged at one particular downlown nightclub.

Long hopes to find a hangover cure for the "morning after" which, the nightclub's neighbors endure.

Energy Builds a Better America

NRD receives grant

NORFOLK— Representatives from the Environmental Trust Fund recently awarded the Lower Elkhorn Natural Resources District a grant of \$49,000 for their Watershed Improvement Project at Willow Creek near Pierce.

Executive Director of the Environmental Trust Fund, Mary Harding, and Environmental Trust Fund Board member, Vince Kramper, met LENRD staff at Lou's Thriftyway in Norfolk for the check presentation. The Environmental Trust Fund is funded through the State Lottery. Therefore, the check was presented at a POWERBALL outlet. State lottery Public Information Officer Brian Rockey was also present for the award presentation.

On hand to receive the check for the Lower Elkhorn NRD were Chairman of the Board, Garry Anderson, General Manager Stan Staab, Assistant Manager of Programs Ken Berney, Water Resources Manager Rick Wozniak, and Information and Education Coordinator

Assistant Manager Berney says the money will be used for the Watershed Improvement Project in an effort to improve water quality in the Willow Creek lake and stream. Berney stated, "The LENRD will cooperate with landowners on establishing habitat along the stream and reducing the amount of agri-chemicals and animal waste in the stream.' Berney says. "The main problem in the lake is a high level of nutrients which lead to algae blooms and green water, making the lake undesirable to be in. By reducing the nutrients that get into the stream we hope to improve the situation and provide a cleaner

Julie Schmit.

recreation area."

Forty-nine grants, totaling more than \$3.8 million, have been approved by the Nebraska Environmental Trust Fund board. Projects range from tree maintenance to Freon recovery, and from habitat preservation to recycling promotion.

NRD receives grant

NORFOLK— Representatives from the Environmental Trust Fund recently awarded the Lower Elkhorn Natural Resources District a grant of \$49,000 for their Watershed Improvement Project at Willow Creek near Pierce.

Executive Director of the Environmental Trust Fund. Mary Harding, and Environmental Trust Fund Board member, Vince Kramper, met LENRD staff at Lou's Thriftyway in Norfolk for the check presentation. The Environmental Trust Fund is funded through the State Lottery. Therefore, the check was presented at a POWERBALL outlet. State lottery Public Information Officer Brian Rockey was also present for the award presentation.

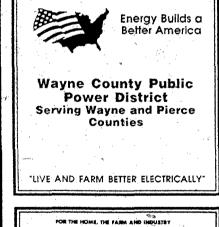

On hand to receive the check for the Lower Elkhorn NRD were Chairman of the Board, Garry Anderson, General Manager Stan Staab, Assistant Manager of Programs Ken Berney, Water Resources Manager Rick Wozniak, and Information and Education Coordinator Julie Schmit,

Assistant Manager Berney says the money will be used for the Watershed Improvement Project in an effort to improve water quality in the Willow Creek lake and stream. Berney stated, "The LENRD will cooperate with landowners on establishing habitat along the stream and reducing the amount of agri-chemicals and animal waste in the stream." Berney says, 'The main problem in the lake is a high level of nutrients which lead to algae blooms and green water, making the lake undesirable to be in. By reducing the nutrients that get into the stream we hope to improve the situation and provide a cleaner recreation area."

Forty-nine grants, totaling more than \$3.8 million, have been approved by the Nebraska Environmental Trust Fund board. Projects range from tree maintenance to Freon recovery, and from habitat preservation to recycling promotion.

Concert to honor area vets

"Lest We Forget," a program dediated to the veterans of World War II will be staged in Wayne April 5 as part of the Heartland of America Band Concert at Wayne State College's Rice Auditorium.

The special performance of the popular group of professional musicians from Offutt Air Force Base in Omaha will commemorate the 50th anniversary of the end of the war, according to MSgt. Pat Lannom. publicity director for the spring Midwest concert tour.

The band's free performance in Wayne is being sponsored by the Wayne Herald and the Wayne State College Center for Cultural Outreach.

Guest conductor Maj. Dennis M. Layendecker of Montgomery, Ala. will lead the concert, which will include a performance by the Noteables -- the band's jazz ensemble. The Noteables will perform big band music of World War II.

The Air Force band is planning an extensive schedule of concerts throughout the Midwest this year in commemoration of the end of World War II. The band annually performs worldwide and throughout the region in support of community rela-

Snowball survives snowstorm

Winside fifth grade student Mike Syatos is shown with "Snowball" the rat that students in his class had been using in a nutrition study. Another rat, "Timon" died last week during the snow storm when students couldn't make it to school to tend the test rodents. The students had been working with the laboratory rats in a nutrition study program sponsored by the Nebraska Dairy Council.

Protection orders don't always work

WAKEFIELD, Neb. (AP) - Laura Kucera met Brian Anderson in April, had a good time dating him, and then lived in fear for months.

"He was too controlling," she said. "He would tell me when to come and when not to come home, who to talk to."

In July, she obtained a court order to keep Anderson away. But, like so many other protection orders filed in Nebraska, it didn't help.

He stalked her and threatened her. In August, he was convicted of smashing a window on the Kucera van. In September, he served 30 days in jail for violating the protection order.

The police got him a couple of times, but he just kept doing it said Miss Kucera, 19, of Wakefield.

Five days after his release, Anderson allegedly kidnapped Miss Kucera, shot her twice in the head, and left her in a ditch in Northeast Nebraska, police said. She survived nearly four days until, police said, Anderson led officers to her Oct. 4. Anderson, 22, awaits trial on kid-

napping, attempted second-degree murder and other charges. Statewide statistics aren't kept, but the anecdotal evidence is over-

whelming: Protection orders don't

guarantee safety.
"It's a piece of paper," said

Thurston County Attorney Matthew Samuelson, who is prosecuting Anderson. "In some cases they work wonderfully. They do scare or prevent the respondent or defendant from approaching that person

"Sometimes ... you may find the protection order in fact incites the individual instead of deterring

Hospice group provides caring service

By Clara Osten For the Herald

People who have been diagnosed with a terminal illness have available to them the services of Community Care Hospice Group, a volunteer organization that works with the Hospice program funded through Lutheran Community Hospital in Norfolk.

'In medieval times, hospices were way stations for pilgrims on a difficult journey. Today, hospices

view terminally ill patients as pilgrims completing their life's journey in the company of caring family and friends," said Jean Kinney, coordinator of the Wayne Commu-

nity Care Hospice Group.

"Healing is not just physical.
We are here to provide terminally ill natients with the emotional, sospiritual and physical support needed when there is a limited life expectancy," said Kinney.

THE COMMUNITY Care

Hospice group is made up of volunteers including Sister Gertrude who is volunteer Chaplain, Dr. James Lindau who is volunteer Medical Director, Gail Catinella who is volunteer Social Worker and Verlyn Anderson, who is a representative of Providence Medical Center. Anderson serves as president of the group which meets very two weeks to discuss patient care.

In addition, Home Health Care nurses also serve Hospice patients Terri Munter is the Home Health

Care representative for the Wayne Hospice Group. Others volunteer to visit patients and provide support to the primary caregivers.

Hospice care has recently been extended to nursing home patients. Many times the patient has no relatives in the immediate area and Hospice provides reassurance to distant relatives because a registered nurse visits the patient on a regular basis," said Kinney.

See HOSPICE, Page 3A

Community relations aim of president

By Tom Mullen Of The Herald

When the new president of the Wayne State College Student Senate takes office next month, high on his priority list will be improving relations between the students he represents, and the businesses of Wavne.

Andy Long, a native of Springfield, won the college's recent presidential election with an unprecedented 79.8% of the popular vote, in a campaign that focused on campus security, student health, and community relations.

In addressing the students' offcampus activities. Long pointed to the regional nature of the college which allows most students to spend their weekends at home, thus originating the now traditional Thursday night revelries. These extra curticular activities have most recently converged at one particular downtown nightclub.

Long hopes to find a hangover cure for the "morning after" which the nightclub's neighbors endure.

Louis Meyer

Louis Meyer, 94, of Wayne died Sunday, March 12, 1995 at Marian

Health Center in Sioux City, Iowa.

Services will be held Wednesday, March 15 at 2 p.m. at the Grace Lutheran Church in Wayne. The Rev. Jeff Anderson and the Rev. Merle Mahnken will officiate.

Louis Henry Meyer, the son of William H. and Dora (Roeber) Meyer, was born April 22, 1900 on a farm in Dixon County. He was baptized on May 20, 1900 and confirmed on April 5, 1914 at Immanuel Lutheran Church northeast of Wayne. He attended Immanuel Lutheran Parochial School. He married Amanda Hollman on Dec. 9, 1931. The couple farmed northeast of Wayne until retiring to Wayne in 1961. He was a member of Grace Lutheran Church in Wayne

Survivors include his wife, Amanda Meyer of Wayne; two sons and one daughter-in-law, Ferris and Margie Meyer of Wakefield and Glenn Meyer of Wakefield; one daughter and son-in-law, Marcella and Billy Suehl of Hoskins; 11 grandchildren; 17 great-grandchildren; one sister, Dorothy Grone of Wayne; nieces and nephews.

He was preceded in death by his parents, three brothers and one sister. Pallbearers were Steve. Keith and Duane Suchl, Terry Nelson. Dennis

Anderson, Roger Schwartz, Jim Easthouse, Augie Rauner and Brent, Colby and Shad Mever.

Burial will be in the Greenwood Cemetery in Wayne with the Schumacher Funeral Home in charge of arrangements.

Carl Koch

Carl Koch, 95, of Concord died Saturday, March 11, 1995 at the Hillcrest Care Center in Laurel.

Services were held Tuesday, March 14 at St. Paul's Lutheran Church in Concord. The Rev. Richard Carner and Rev. Dwayne Lueck officiated.

Carl Herbert Koch, the son of Jurgen and Hulda (Bose) Koch, was born Jan. 10, 1900 on a farm near Concord. He was baptized on Feb. 25, 1900. He was confirmed at St. Paul's Lutheran Church and attended school at St. Paul's Parochial School of rural Concord. He married Katharina Thoming on Sept. 29, 1926 at St. Paul's Lutheran Church. The couple farmed east of Concord until they moved into Concord in 1958. He did custom corn shelling until his health failed him. He moved into the Hillcrest Care Center in Laurel in October of 1992. He was a member of St. Paul's Lutheran Church and was a member of the church council and held many church of-

Survivors include his wife, Katharina Koch of Concord; one son and daughter-in-law, LeRoy and Delores Koch of Concord; one daughter and son-in-law, Alice and Richard Steckel of Fullerton; eight grandchildren; many great grandchildren; one great great grandchild; one brother, Bernhard Koch of Wakefield; one sister, Emma Einspahr of Holyoke, Colo.; nieces

He was preceded in death by three brothers and two sisters

Pallbearers were Rev. Robert Brenner, Norman Anderson, Thaine Woodward, Con Munson, Jim Woodward, Walt Urwiler, Paul Bose and John Meyer.

Burial was in the St. Paul's Lutheran Church Cemetery, Concord, with the Schumacher Funeral Home in Laurel in charge of arrangements Memorials may be given to St. Paul's Lutheran Church, Concord.

Clarence Stark

Clarence Stark, 74, of Wisner died Thursday, March 9, 1995 at Our Lady of Lourdes Hospital in Norfolk.

Services were held Monday, March 13 at Christ United Methodist

Church in Schuyler. The Rev. McIva Tranmer officiated, Clarence Stark, the son of James A. and Nellie (Adams) Stark, was born Nov. 22, 1920 at Schuyler. He attended Colfax County rural District #3 school and graduated from Alda High School. He received his teaching certificate from Nebraska Central College in Central City. He married Mildred Sahs on June 10, 1951 at Dalton, Neb. She died May 19, 1961. He married Esther Thompson on Aug. 12, 1989 at Altona, Neb. He taught for several years before taking up farming. He was a member of the Schuyler Masonic Lodge and the Lone Tree Post #6 American Legion in Central City.

Survivors include his wife, Esther of Wisner, three sons and daughters-in-law, Jim and Liz of Shelby Township, Mich., John and Laurie of Normal, Ill. and Kent and Diane of Highlands Ranch, Colo.; five grandchildren; one step-son, Larry Thompson of Pilger; two step-daughters, Mrs. Jerry (Carol) Scott of Hinton, Iowa and Mrs. LeRoy (Iane) Janssen of Wayne; nine step-grandchildren; two sisters, Mrs. Ivan (Irma) Aycock of Central City and Mrs. James (Verna) Price of Gering.

He was preceded in death by his first wife, Mildred; twin infant daugh-

ters, Cheryl and Carol; one brother and two sisters.

Deahn Grove

Deahn Grove, 95, died Saturday, March 11, 1995 at Alpine Village in

ere held Tuesday, March 14 at the United Methodist Church in Orchard. The Rev. Norman Prather and Rev. Cindy Prather officiated.

Vera Deahn Grove, the daughter Philo and Bertha (Geer) Grove, was

born Jan. 29, 1900 on the family farm northwest of Royal, Neb. She was baptized on June 2, 1912 and joined the Evangelical United Brethren Church in Orchard in 1918 where she was a lifetime member. She attended Pleasant Valley Rural School District 76 and graduated from Royal High School in 1918. She taught rural school for two years and worked at the Farmers Union Store in Orchard for two years before moving to Wayne in 1922 where she resided until suffering a stroke in October of 1992. She was part owner at the Student Supply Store near the Wayne State College cam-pus until her retirement in 1970. She employed college students at the book store and many students roomed at her home including nieces and

Survivors include one sister, Barrie Wilson of Alpine Village, Verdigre; one nephew, Duard and Lois Dempster of Orchard; nieces, Vona Lou and Cletus Sharer of Wayne, Helen Wilson of Orchard, Neva Mae and Dean Pearson of Phoenix, Ariz. and Shirley and Clif Erb of Orchard.

She was preceded in death by one sister, Esther Dempster and one nephew, Loren Wilson.

Pallbearers were Randy and Mark Wilson, Tom Dempster, Rick and Craig Pearson, Jeff Erb, Tim and Michael Sharer, Steve Dempster, Monte arson and Todd Erb.

Burial was in the Orchard Hill Čemetery in Orchard with the Ashburn

Funeral Home of Orchard in charge of arrangements.

Wallace 'Chuck' Victor

Wallace "Chuck" Victor, 67, of Wayne died Monday, March 13, 1995 at

he Marian Health Center in Sioux City, Iowa.

Services will be held Thursday, March 16 at 10 a.m. at the Grace utheran Church in Wayne. The Rev. Jeff Anderson and Rev. Merle Mahnken will officiate. Visitation will be held Wednesday, March 15 from a.m. to 9 p.m. at the Schumacher Funeral Home in Wayne

Wallace Charles "Chuck" Victor, the son of Carl Jr and Freda (Stone) ictor, was born May 4, 1927 on a farm north of Wayne. He was baptized on May 22, 1927 and confirmed May 19, 1940 at Grace Lutheran Church in Wayne. He attended Wayne County Schools and Wayne Prep School. He served in the United States Army from August of 1945 until January of 1947 and was stationed overseas in Korea. He married Ruth Shufelt on Aug. 20, 1950 at the Grace Lutheran Church in Wayne. The couple moved to a farm northeast of Wayne where they lived most of their married life. He was a member of Grace Lutheran Church in Wayne and involved in var-

Survivors include his wife. Ruth Victor of Wayne; two sons and daugh ters-in-law, Thomas and Joan Victor of Axtell and Michael and Marta Victor of Laurel; two daughters and one son-in-law, Linda Jensen and Anna and John Martin, all of Wakefield; 10 grandchildren; two great grandchildren; one brother, Rolland and Marjorie Victor of Lincoln; two sisters and brothers-in-law, Marjorie and Calvin Miller of Raymondville, Texas and Donna and Eldon Seyler of Kearney; nieces and nephew

He was preceded in death by his parents, one infant son and one sister.

Pallbearers will be Merle Roeber, Larry H. Echtenkamp, Oscar Gemelke, Marvin Draghu, Edmund Heithold and Fredrick Mann.

Burial will be in the Greenwood Cemetery in Wayne with the Schunacher Funeral Home in charge of arrangements.

Quentin Wiedenfeld

Quentin Gene Wiedenfeld, 28, of Phoenix, Ariz. died Friday, March 3, 1995 at Phoenix.

Services were held Monday, March 13, 1995 at the First United Methodist Church in Wayne. The Rev. Gary Main officiated.

Quentin Gene Wiedenfeld, the son of George and Twyla (Holmes)

Wiedenfeld, was born Sept. 4, 1966 at Wayne. He attended school at Wayne and moved to Phoenix, Ariz, in 1973. He worked in air conditioning and heating and was a sheetmetal worker.

Survivors include one son, Travis Nelson; two daughters, Tricia and Tabitha Nelson; special friend, Debbie Nelson, all of Phoenix, Ariz.; his mother, Twyla Sparrow of Queen Creek, Ariz.; his father, George M. Wiedenfeld of Laurel; two brothers and sisters-in-law, Michael Lee and Linda Wiedenfeld and Phillipp and Karen Wiedenfeld, all of Norfolk; two sisters and brothers-in-law, Carolyn and Greg Koenig of Salcha, Alaska and Sharalyn and David Barnby of Mesa, Ariz.; aunts, uncles, cousins, nieces and nephews.

was preceded in death by his grandparents

Pallbearers were Michael Wiedenfeld, Michael Wiedenfeld Jr., David Barnby, Greg Koenig, Phillipp Wiedenfeld and Alan Jacobs.

Burial was in Greenwood Cemetery in Wayne with the Schumacher Funeral Home in charge of arrangements.

Ethel Peterson

Ethel Peterson, 93, of Concord died Friday evening, March 10, 1995 at the Hillcrest Care Center in Laurel,
Services were held Tuesday, March 14 at the Concordia Lutheran Church

in Concord. The Rev. Duane Marburger officiated.

Ethel Olivia Christina Peterson, the daughter of Charlie and Otelia (Johnson) Magnuson, was born March 14, 1901 on a farm southeast of Laurel. She was confirmed on Oct. 8, 1916 at Concordia Lutheran Church in Concord by Pastor P. Pearson. She belonged to the Concord Luther League when she was a young girl. She attended rural School District #39 southeast of Laurel. She married John Arvid Peterson on March 17, 1926 at Wayne. The couple moved to a farm south of Concord where they lived most of their married life, until they retired and moved into Concord in 1967. She was a member of Concordia Lutheran Church all of her life. She was a member of the Ladies Aid, taught Sunday school for many years and was active in many church activities. She was also a rug weaver and made over 1,000 rugs which have been sent all over the United States and over-

Survivors include three sons and daughters-in-law, Verneal and Caroline terson of Laurel, Iner and Naomi Peterson of Concord and Myron and Mary Peterson of Concord; six grandchildren; nine great grandchildren; three brothers and sisters-in-law, Glenn and Irene Magnuson of Concord, Melvin and Joy Magnuson of Wayne and Wallace and Evonne Magnuson of Laurel; three sisters, Jenneviva Peterson of Luverne, Minn., Evalina Johnson and Lucille Olson, both of Concord; nieces and nepher

She was preceded in death by her husband in 1988, one grandson Cory Peterson in 1970, one brother and one sister.

Pallbearers were Mike Bebee, Scott Lewis, Paul and Rick Peterson.

Roger Kvols and Jeff Johnson.

Burial was in the Concord Cemetery with the Schumacher Funeral Home in Laurel in charge of arrangements.

New student leaders at Wayne State College will be Andy Long of Springfield, Student Senate president, and Matt Milbrodt, LeMars, Iowa, vice-president.

President

(continued from page 1A)

are are not viewed in a very good light. Business owners are upset, namely the folks at Carhart Lumber.

"Their owners and employees have to come to work on Friday mornings and see vomit and urine in their parking lot, and frankly these are things that they shouldn't have to put up with," observed

Long noted that a student senate committee is already in place to deal with these problems.

"I'M EMBARRASSED, as a student, to go downtown and see what the businesses have to put up with. We need to get the business owners and employees involved in the committee," suggested Long.

Long sees a great potential for both the students and the businesses

through better relations. "I think there's a lot more

tension than people want to admit. The only businesses that I see getting patronized are the bars and the fast-food establishments.

"THERE IS A lot of money in the hands of students that's being taken to Norfolk, or more specifically, Sioux City," Long said, suggesting that more advertising targeted towards the college, would be the best way the businesses could help themselves.

"When I arrived on campus, I as given a book of coupons, and I think I used them all."

Long's running mate, future Vice President Matt Milbrodt took a harder line in assessing why the Wayne students don't patronize more local businesses

"I THINK THEIR prices need to come down to compete with the markets the students are shopping in now," the LeMars, Iowa native

Long agreed.

'It's common knowledge that business people in small towns have to charge more for their products, but that's hitting the nail on the head. They also need to put in more products that the students want," Long added.

Their campaign was criticized by write-in candidates Chris Parachini and Curtis Meyer. Unfair criticism, according to Long.

"MR. PARACHINI was a Senator and he resigned because he was frustrated with a resolution the Senate passed, reprimanding him for acting as a Senator on behalf of another organization, namely the National Organization for the Repeal of Marijuana Laws," Long stated, adding that he hopes to put the negativity behind him.

"We can't always look at the negative aspects. I've been told by local business people that in May the town goes dead. So I know that the merchants do appreciate the students," summarized Milbrodt.

Both Long and Milbrodt noted that the Wayne Area Chamber of Commerce has a committee to deal with college relations, and they hope to make some inroads into that committee as their one year term begins next month.

Pictured is the painting, done by Northeast Community College Nursing student Fred Fisher that will be given away during a drawing to be held in conjunction with the Kiwanis Pancake Feed on March 16. Proceeds from this fund-raiser will go toward Hospice Care expenses.

Hospice

(continued from page 1A)

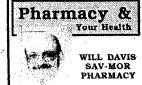

THE COMMUNITY Care Hospice group focuses on three main issues. These include grief and loss issues with the patient and his or her family, education of the community which includes literature on death and dying and tapes and other materials available to schools and churches, and volunteer training for those individuals who wish to become Hospice volun-

Funding for Hospice Care services is provided by Medicare. "We are given a certain amount of money for each patient and must be selective in how that money is

spent. This forces us to decide what is the best possible treatment for each individual. As time goes on, more and more insurance companies are accepting Hospice services in their coverage because it can save them money," said Kinney.

Other expenses incurred by the group are funded through private donations, memorial gifts and fund raisers such as the drawings and bake sales which are held at various times throughout the year.

Those wishing more information on how they can assist Hospice, through donations or as a volunteer, can contact Jean Kinney at 375-1628 or 375-2795.

FDA Reviews OTC **Medicine Labels**

According to a recent article in American article in American
Pharmacy, the U.S. Feod and
Drug Administration (FDA) is
considering new standards for the content and format of over-the-counter (OTC) medicines. Some of the possible changes we may see in the future include boxes with special messages inside them, use of larger lettering that is easier to read, and the use of symbols. Some of the ideas being discussed are directed at making OTC medicine labels easier to

read and understand.
One idea, according to the article, is to create a label that presents "facts" about the medicine - similar to the nutrition facts label on food products. One organization that supports a better OTC label for all consumers is the Nonprescription Drug Manufacturers Association. In 1990, the association In 1990, the association developed voluntary guidelines for its member companies. Guidelines related to the layout and design of labels, how labels looked when they were printed, and whether or not labels could be read by consumers.

Wayne Community Schools has rescheduled their

Formidable coalition

State Sen. Stan Schellpeper expressed frustration last week over efforts to win meaningful property tax reform in Nebraska.

His proposal to implement a sales tax on services and use the

funds for property tax relief was killed in committee.

He said he fears the legislature will not take action on property tax reform until forced to do so through the petition process

Sadly enough, he is right. There are too many political and economic factions playing tug and pull with the state's property tax

Urban senators are not anxious to see a shift of state funding from property tax to sales and income tax because they may see that as a shift of revenue from urban to rural areas.

According to State Revenue Department Statistics farmers pay 40 percent of the property taxes in the state and urban dwellers pay 60 percent. In the income tax realm, farmers pay four percent while urban dwellers pay 96 percent. Guess where most of the sales tax comes from?

There aren't many shopping malls down on the farm.

Shifting the tax burden to sales and away from property will naturally mean the shift of the revenue stream from urban areas out to rural areas and most of our state senators (those from the urban districts) are not going to get elected if they adopt that philosophy.

Conversely, farm groups are lobbying hard to win shift of a tax burden from property to sales and income taxes where they have traditionally enjoyed wide-ranging exemptions and assessment

What may work in favor of property tax reform and more dependence on sales and income taxes is the growing urban unrest with property taxes especially among the retired voters.

Omaha area property owners are near revolt over assessment adjustments ordered by the state to help equalize the property values for tax purposes. The state ordered assessment changes to meet the constitutional mandates have meant that some homeowners in Omaha have seen their taxes go up dramatically. And they are hoping mad.

The farmers want property tax reform. Homeowners, especially those in the Omaha area, want property tax reform. State education groups, who see increasing problems with funding schools from property taxes, also want property tax reform.

We'd say that looks like a pretty formidable coalition. The legislature needs to read the handwriting on the wall.

It says "petition signatures."

Letters Welcome

Governor spins new funding magic

tehouse Correspondent The Nebraska Press Association

LINCOLN --- When Ben Nelson vas a young, aspiring minister in Lincoln, Neb., years ago, he owned a souped up, white Chevy.
The car was special because it didn't have any door handles. Nel-

son, the story goes, had them re-moved. He rigged up hidden buttons to open the doors, buttons that his Bible study students could never

Thirty years later, Nelson spun a little magic last week on funding to treat the mentally retarded and developmentally disabled that left people around the Capitol wondering how he'd done it. Nelson, remember, had proposed cutting \$12 million over two years

from services for the retarded:

Last week, the governor did a complete about-face, unveiling a plan to fully fund a four-year-old plan to eliminate waiting lists for services like job workshops, job coaches, supervised apartments and group homes.

Families of such children, who had claimed earlier this year that Nelson was reneging on a promise to fund such programs, left the Capitol last week with smiles on their faces, thanking the governor.

Nelson's idea is to retool some state programs so they qualify for about \$11.5 million a year in new

ONE MORETIME

HERE'S THE CLUE:

"AN HONEST DISCUSSION OF BALANCING THE FEDERAL BUDGET MUST INCLUDE THESE TWO ITEMS."

in more for such services. Couple that with a couple million dollars in state funds and Nelson said the state can provide some \$27 million in services to the 1,600 Nebraskans now on waiting lists over the next two years.

The real magic here is that the solution is not supposed to cost the state any more tax dollars.

That is good news for the governor's initiatives, which are struggling right now. His \$70 mil-lion income tax cut, if not dead, is in intensive care because senators think there are just more pressing issues. Like, say, property tax re-

Nelson's solution for the devel-

OBVIOUS!

"FOREIGN

AID AND SCHOOL

wnches!"

some goodwill for the governor, if not some more support for his initiatives

The services funded by Nelson last week are the kind that have been the subject of emotional debates in the Legislature, and the kind that can make a profound difference in the quality of life for

these handicapped Nebraskans,
One Omaha woman demonstrated to Legislators how her daughter, a quadriplegic with Cere-bral Palsy, had been taught in school special education classes how to communicate using a headband fitted with a laser light. The light allows her to activate a comter and print out messages.

Because she can communicate, she now has a job with the Omaha Children's Museum, greeting the public and educating visitors about her disability and use of technol-

Her mother, however, said the progress her daughter had made in school could be totally wiped out when, at age 21, she was forced to go out into the real world.

The real world for such kids now involves months of waiting to get into programs or group homes, or even get hooked up with a state coordinator to find out what help is out there.

Those waiting lists now may be

wiped out in two years.

Parents of such children left the Capitol last week saying the governor's action was nearly a mir-

Probably the same reaction that Bible study class had years ago when the doors to that Chevy opened up.

The views expressed in Capitol News are those of the writer and not necessarily those of the Nebraska Press Association.

Letters.

Town vs. gown

Dear Editor:

Tensions between "town and gown" are as old as the history of university education. Such tensions have been, unfortunately, deepening in Wayne during the past few weeks
— at least, on the editorial page of

As a signer of the original letter (Feb. 28) about the distribution of Gideon Bibles in the Wayne Middle School, I wish to make it clear that I signed that letter as an individual, not as a representative member of the college faculty. Further, I resent the categorical dismissal of my opinion on the grounds that I am a member of a group of "Wayne State College professors and others" (article, Feb. 18); a "college affili-ated person" (letter, March 7); or, best yet, a member of the "local intelligensia," prone to vocal out-The sneering tone of this last label cannot go unremarked.

Ought I, in reply, to categorize non-college-affiliated, Wayne community members as "the local (and here fill in the derisive term of my choice?) Would that raise the level of discourse, and improve communication between the college and the community?

I suggest that we all resist the urge to name-call, and address each other with respect when we engage in a dialogue on serious topics.

L. Kelly Winside Siobhan

Money influence

Dear Editor:

On March 22, 1995, the state of Nebraska plans to execute Robert Williams. Some Nebraskans may feel that, as a convicted murderer, he is getting what he deserves.

spectacle of O.J. Simpson's trial should remind us, however, that money and power do influence the criminal justice system. Most people who commit murder are not sentenced to death. If we are concerned about justice, we must ask why some people who are convicted of murder are singled out for execution, while the vast majority are sentenced to prison. What distinguishes people on death row is not. as a fairminded citizen might expect, the particular depravity of their crimes. Rather it is that most are poor, without the means to hire a crack defense team to argue their

But poverty is only part of the reason a convicted murderer may wind up on death row. Race is also a factor. On Sept. 2, 1994, Nebraska dusted off its electric chair after 35 years and put African-American Harold Otey to death, AT that time, 40 percent of death row were people of color, compared to less than 5 percent in Nebraska's general population. Mr. Williams is also African-American. Their victims were white women. Nationally, about half of all murder victims are black, but 85 percent of all death penalty cases involve white victims. According to Stephen Bright, Director of the Southern Center for Human Rights, What makes a case a death penalty case in the Deep South is a black person killing a white woman," It ought to give death penalty supporters pause that these two Nebraska cases exactly match this racist profile. At a time when many are pushing for an end to affirmative action, arguing that it obstructs the ideal of a colorblind society, our death penalty statistics are stark re-minders that justice in America is or yet colorblind.

While in some cases, guilt may be in doubt, Mr. Williams has never proclaimed his innocence. His

for you.

you paid me.

isit to the Statehouse.

the work they do. Only a little of it,

(that they receive from me, of course) is deserved.

And they work day and night when the legislature is in

Don't take this to mean I think they should get a raise. Heavens, no!

Rather than a raise, I think we should make an effort to reduce their workload. Reducing the amount of time they have to be in Lincoln working

for us (or against us) and limiting the number of bills they have to work through each session would make sense to me if for no other reason than as

a purely humanitarian gesture for the health and well-being of our lawmak-

I know some of them are feeling the strain. I heard some favorable

crimes were against people he knew and were influenced by alcohol, drugs and a recent split from his wife. In contrast to Mr. Otey, Mr. Williams is sorrowful and repentant. There are many in prison for comparable crimes. Why are we killing this man? Perhaps society wants to extract a blood penalty to express its outrage. Certain offenders are selected from among the most despised and least powerful to pay the ultimate price of our desire for revenge. It will deter others, we hear repeatedly. Where is the evidence that the death penalty deters violent crime? What will Mr. Williams' death do to prevent others from abusing drugs and alcohol and acting out their rage and despair in violence?

We are all concerned about viotent crime, and politicians want to be perceived as tough on crime. But we should not be duped into believing that the death penalty is an effective solution to the real and complex problem of violence. As voters and taxpayers, we must recognize that we will all share in the responsibility for the killing of this man, just as if we were pulling the switch. Sadly, this state-sanctioned death will not bring us any closer to the goal of a safer society

Joan G. Sudmann Wayne

Stand for rights

Dear Editor: Lappland Superintendent Dennis Jensen for standing by the right of the Gideons to make Bibles available to those students who would like to have them. If a student is interested in learning about the Bible, but does not have access to one at home, this provides the child that opportunity without any expense to the parents.

If parents find it so upsetting that Bibles are available to students, because their children are a "captive audience" subject to "authoritarian influence" and "peer pressure," then parents need to be even far more upset that their children are exposed to far greater pressures in the classroom, whether they are invited to campaign for a new school on radio ads, attend classes on sex education that violate cherished family traditions, learn about drugs usage, hear profane or vulgar language from culty or students, learn that gambling revenues finance education, find parental authority eroded by concepts in outcome based education, or endure vandalism of per-sonal or public property without responsibility being enforced.

My friends from a wide variety

of non-Christian backgrounds, including agnostic, have shared with me their concerns about some of the popular moral and ethical standards exhibited in our society, that are contrary to their beliefs. Even the formerly atheistic, communist Soviet Union countries are now re-questing Bibles and education about Christianity.

Whether Christian or non-Christian, I believe that most parents would feel that their child's welfare would be far less threatened by reading the Bible during their middle school years, than by reading the Wayne Stater during their college years. When I see the profanity, vulgarity and general indecency that parades through every issue that I have seen, I wonder how this can bin any way be seen as good training for a legitimate journalism career. I also wonder why these students have not learned how to express themselves well, yet in good taste. If they had the opportunity to read it, I wonder how many parents would veto WSC as an educational choice for their college bound student.

When we espouse the principle of the separation of church and state, we seem to be making the mistake of interpreting this as the

et's not make senators work so hard

comments from a couple of senators on the possibility of limiting the numbers of bills that can be introduced during each session.

I just can't see any real need for most of the 800 new laws considered in Lincoln. By the look of feverish activity in the statehouse,

you'd think we were some lawless state on the frontier, where the lawmakers are in a rush to straighten society out. No, we have plenty of laws on the books now. Nebraska society is pretty well controlled. Indeed, probably too well controlled. Many of the new

laws currently being considered are written to correct problems created by other laws passed in previous legislative sessions

It looks like a guaranteed employment program for lawyers and bureau-

The senators were so busy last week some of them didn't even have time to go and see their hometown teams compete in the state high school basketball tournament.

But how about them Bears?

Congratulations to the Laurel Concord boys basketball team for bringing home the hardware. Unless someone proves us wrong, we are thinking it has been over 30 years since a basketball team in our coverage area has brought home a state trophy.

That makes the Bears accomplishment seem even more significant.

cent, kind, tolerant, patriotic people. They love their neighbors, care for the less fortunate, and raise their kids to be decent citizens. It's offensive to hear them described by the Rush Limbaughs, Patrick Buchanans and conservative political action groups such as Focus on the Family as the monsters of American politics.

The beliefs of some liberals

conflict with right-wing orthodoxies. They are horrified that a minority wants to impose their beliefs about such issues as abortion and creationism on the rest of the American people. Some liberals are outraged over the epidemic of firearm violence and the barbarism of the death penalty. And they don't understand why their tax money should subsidize wealthy corpora-tions and the military-industrial

But holding such views does not

My Turn

Guest Column

make them evil. Liberals should be able to hold and state their beliefs without being misrepresented as wild-eyed radicals or pointy-headed intellectuals who are a threat to the American Way. They aren't a threat. Indeed, many of the positions they take in the 1990s are identical to the values that Founding Fathers such as Thomas Jefferson, Ben-jamin Franklin and Thomas Paine once held.

Liberals have become the designated villains in the struggle over whether America should provide the opportunity for all of its citizens to have a decent life, one that is free racism and poverty. Yet some peo-ple contend that the "political left" is the enemy of traditional Amerian values, such as the right to life, liberty and the pursuit of happiness.

Certainly groups such as the local Coalition for Social Justice, which promotes a leftist agenda in the political sphere, could legitimately be called "liberal." But such terms are frequently abused. Often they become an all-purpose slur hurled at ordinary people who happen to hold progressive views

It's ironic. People are considered some quarters to be enlightened if they defend intolerance or advocate reactionary political views. But others, who ask only the opportunity to make America a more just and equitable society, are dismissed as Commies and radicals. The lack of respect is lamentable.

freedom of the irreligious at the expense of the religious. Instead of learning from each other's viewpoints, and respecting those differences, our society is becoming more and more polarized. It becomes easier for more and more families concerned about their children's welfare to withdraw from the public school system, rather than to constantly do battle to protect the integrity of their children.

In the 1800's, when teenagers fled Europe because of famine, poverty and abuse by feudal lords that was as blatant as anything experienced by slaves in America, often the turning point for those young people was the time spent during the winter months in a one room school, sometimes with a teacher younger than the immi-grant, who not only taught that young person English, but also often shared a deep religious commitment that often transformed the bitterness, loneliness, hatred and fear in that young person's heart into a vital faith that enabled that person to grow into a whole, successful person. We are remiss if we deny our students access to the Bible that contains the principles that made that faith so effective.

Our state is spending vast sums on multicultural education. Let us not omit this important part of our cultural heritage by censoring the

Time to axe

Dear Editor:

With bureaucracies hiring public relations firms to convince the public of their effectiveness (i.e., "Public Education Works" or "If Public Television Doesn't Do It, Who Will?"), who will be spared the budget-cutting axe? Allyson Tucker wrote an essay, distributed nationally by Knight-Ridder/Tribune News Service, calling for abolition of the Department of Education (DOE). Tucker calls the DOE one of the "most unproductive bureaucracies in Washington."

"A small percentage of the more than \$30 billion the federal government spends each year on education ever actually makes it to America's classrooms. Most of the DOE's budget and programs go to the bureaucrats ts — to tun assistance, "technical "clearinghouses" and informational programs that educators in our states and communities neither need nor want. If federal funding for education were a formula for improvement, student performance would reflect that fact.

"Yet, the Clinton administration has proposed \$750 million in 1996 for Goals 2000, the Educate America Act. Goals 2000 creates three new bureaucracies: the National Education Goals Panel: the National Education Standards and Improvement Council and the National Skills Standards Board,

It should come as no surprise that President Clinton's solution to this nation's educational problems is more federal government control Maybe it is time to axe the DOE. Public education will improve when teachers and parents work together, free of government intervention, to solve the problems unique to each school system.

Rolly Church Crete, Neb.

Please write

Dear Editor:

The Department Environmental Quality has issued an intent to issue a permit to the

Northeast Nebraska Solid Waste Coalition to build a regional landfill in Stanton County, across the road and in front of many of our homes. The DEQ has informed us that the rules say they may deny a permit if the landfill would be within 3,300 feet of a residential area of a metropolitan city.

Thus, the rule does not apply to us because the 28 of us living at this site, including 13 children, are not a metropolitan city.

Aren't our health and lives every bit as precious as anyone's in a large city? This kind of discrimination should not be allowed to happen to so many of us.

Landfill's toxic gasses cause cancer, not to mention the prob-lems with flies, rats and the stench of the garbage from 100,000 people. Please let the Nebraska DEQ know that 28 human lives are at stake here. We would also ask you to send a copy of your letter to Governor Nelson. Please ask your friends to write also, before March

We all know there are vast less populated areas for this landfill. The DEQ also needs to consider moral and ethical principles when making its final decision. Thank you for your heln

Ludvik and Vlasta Zrust Clarkson, Neb.

More fuel

Dear Editor:

I'm about to add a little more fuel to the Bible issue fire.

It has come to my attention that a number of the Bibles, which were made available to the Middle School students, were found torn in two or thrown in the garbage.

"Sad, isn't it."

"Oh yes, my teacher had moments for prayer and pledge to the

to mention God. He insists that only evolution can be discussed. Mom, why did God get expelled from school?

"Son, it takes more faith to be-lieve in Darwin's brainstorm than it does to believe in Creation. Astro physicists who believe this whole existence started with a Big Bang

can't explain who originated the Bang. Many are now beginning to suspect there is an Intelligence be-yond our own understanding."

Why doesn't the school teach me to think over these things for myself, examine both sides, and make a decision, instead of pushing evo-

Probably the same reason the federal government spends millions determining what constitutes a lowfat diet, then provides about the highest fat content foods for the hool lunch program."

Then there are the condoms. 'The what!"

The condoms. You know, sex education! It's more popular at

school than history.
"I suppose it's all right to learn about the birds and the bees, but I

Birds and bees? Come on, mom. I'm fourteen. I learned about your birds and bees' watching MTV hen I was twelve!

"Have you discussed this with your father?"

No. but I told him about Frankie who brought a gun to school yesterday and shot that coach he dis-

"Good grief!" That isn't the worst!

What else!" The Gideons made Bibles avail-

able at school today!
"My neighbors will explode! They never get mad about theories being taught as fact, high-fat

lunches, condom distribution, thefts from lockers, student disrespect for staff, swearing, or reinventing American history, but they'll rupture a blood vessel over Bibles being available at school!'

Mom, maybe their evolution has gone berserk, shifting into reverse! "How's that?'

They've regained their genius to

act like monkeys.

Children have safe havens

Children in Wayne will have McGruff Houses and Vehicles to turn to in times of need, under a program sponsored by Wayne Po-lice Department and Wayne Utilities and Public Works departments.

Starting March 21, McGruff vehicles will join the already established McGruff Houses in the city

Man arrested

Cedar County Sheriff Elliot Arens has reported the arrest of Robert J Sudbeck of Wagner, S.D. Sudbeck was arrested Friday in Northern Cedar County on drug charges.

The arrest was made after a 14veek investigation, according to Arens. Authorities seized a 1987 Chevy Pickup upon the arrest.

Sudbeck is being held in the Cedar County Jail on a \$150,000 bond. He is charged with two counts of delivery of a controlled substance, class III felonies; two counts of conspiracy to deliver, class IV felonies, and possession of drug paraphernalia, a misdemeanor.

of Wayne; to provide children with a safe haven when they find themselves in an emergency or frightening situation such as being folwed, hurt or lost.

McGruff Houses are individuals who volunteer their homes as a safe, temporary haven. The volunteers agree to make emergency phone calls for children in trouble and watch out for neighborhood children as they go to and from McGruff Vehicles are public

utility and service vehicles that are staffed by city employees who have the ability to contact city law enforcement via two-way radios. The employees are trained to make emergency calls for children who feel they are in danger.

The McGruff house and vehicle program is different from other safety programs because:

 McGruff. The houses and vehicles display a symbol - Mc-GRUFF, the trench-coated spokes dog for crime prevention --- that 99 percent of children recognize because they have seen him on television or he's visited their

The City of Wayne invites residents to be a part our McGruff Community-Awareness Campaign. We will be introducing our children to McGruff Houses and Vehicles as well as Wayne Police Department's bicycle patrol. McGruff, himself will attend to meet the children of Wayne at West Elementary School, Tuesday, March 21 at 9:30, 10 and 10:30 a.m.; St. Mary's Elementary School, Thursday, March 23 at 9 a.m.; and West Elementary School, Thursday, March 23 at 1, 1:30 and 2 p.m.

If you can attend any one of these programs or would like additional information please contact Patrolman Jeff Ottens at the Wayne Police Department before Friday, March 17 for details.

Omaha Home Show News

Plans for the Annual Showcase of the latest building, remodeling and consumer products and services are coming together for the 40th Annual Omaha Home Show to be held Tuesday, March 28 through Sunday, April 2 at the Omaha Civic Auditorium. The 1995 Show is the midwest's largest and most complete Home Show with over 150,000 sq. ft. of displays on all three levels of the auditorium.

The Home Show is one of the best family entertainment packages in the midwest. Whether browsing beautiful landscaped garden displays, discovering the latest trends and ideas in home building and deco rating, visiting with home improvement experts, seeing the model scale home designs or singing and clapping along to your favorite tunes, the '95 Show offers enjoyment for the entire family. This year's live stage shows feature Country Music's all-time classic singer, T.G. Sheppard, on Tuesday and Wednesday, March 28 and 29, performing at 7 pm and 9 pm nightly. Sheppard is one of the most consistently played artists on country radio today with 17 number-one hit singles to his credit. Hits like "Last Cheater's Waltz",

T.G. Sheppard

"I Loved 'Em Every One" and "Finally" are some of the reasons he has become known as Country Music's most prolific hit-maker. Sheppard always had a passion for music growing up as Bill Browder in his hometown of Humboldt, Tennessee. When he was just 15 years old he headed to Memphis and the giant country music business. He enjoyed playing the clubs and took the stage name T.G. Sheppard simply because he liked the ring of it. He now resides in a log home estate in the Smokey Mountains of Tennessee. He is part owner of several successful nightclubs and restaurants, official spokesperson for Folgers Coffee, and a NASCAR Racing enthusiast.

Also performing at the show, The Diamonds with special guests The Chordettes singing your favorite tunes "Why Do Fools Fall in Love" and "Mr. Sandman" from the 50's and

60's appearing on Thursday and Friday, March 30 and 31, performing at 7 pm and 9 pm nightly; and rock & roll legends, The Drifters, with over 200 million record sales of hits like "This Magic Moment" and "Under The Boardwalk" Saturday, April 1 at 3 pm, 7 pm and 9 pm, and on Sunday, April 2 at 2:30 pm and 5:30 pm.

The Spring Home Show is the largest single event held at the Omaha Civic Auditorium. This year's r a huge variety of products for the do ideas, lawn and garden equipment, room additions, replacement and new windows and doors, siding, roofing, bathrooms, kitchens, interior decorating and much more with over 150,000 square feet of dis-

At this year's all new Omaha Home show your proper planning can turn your house into a dream home. Whether you are looking for ways to remodel your home or to build a new one, you'll find 1,001 ideas at this year's show. You will enjoy landscaped gardens, and don't miss this year's showcase of mod-

Back again this year will be a feature display area with one-of-a-kind antiques and collectables by 'Iowa's Antique City'', Walnut, Iowa, in the Assembly Hall.

The Omaha Home Show exhibits will be open Tuesday, March 28 through Friday, March 31 from 5 pm to 10 pm, Saturday, April 1, 12 Noon to 10 pm, and Sunday, April 2, 12

Noon to 7 pm.

Double ring ceremony unites Winside couple

St. Paul's Lutheran Church of Winside was the setting for the March 4 4 p.m. wedding ceremony of Michele J. Mrsny and Steven G. Jorgensen, both of Winside. Pastor Patrick Riley officiated at the double ring ceremony.

Best man was Marty Jorgensen, brother of the groom. Maid of honor was Cody Mrsny, daughter of the bride. Cassie Mrsny, three year old daughter of the bride, served as flower girl and presented a white long stem rose to each of the couple's mothers.

The bride wore an off-white midcalf length lace gown. The groom was attired in a black western style tailcoat. The bride and her maid of honor carried a spray of white silk roses.

Crystal Jaeger, cousin of the groom, played the "Bridal Chorus" on the piano. During the ceremony, two pre-recorded music selections, Keeper of the Stars" and "I Cross My Heart" were played.

Following the ceremony, a family supper was held at the Black Knight in Wayne with approximately 30 family members attending. A double-tiered wedding cake, made by Sandra Gathie of Wayne, was served by the new couple.

The bride is the daughter of Edd Cindy Milligan of Wayne and and Cindy Milligan of Donna Milligan of Salt Lake City, Utah. She is a 1982 graduate of Sheridan Wyoming High School

HOMES FOR SALE

Mr. and Mrs. Jorgensen

and is employed at the Wayne Elementary School.

The groom is the son of Gene and Carol Jorgensen of Winside. He is a 1988 graduate of Winside High School and is employed at Vulcraft in Norfolk.

The couple is planning an open house reception and dance for Saturday, April 1. They are making

T&C Club met in the home of Edna Baier on Thursday afternoon. High scores in 500 were made

by Muriel Lindsay and Alta Baier.

Next meeting will be held in the home of Muriel Lindsay on April

What are physical changes of puberty?

Ouestion: What are the major physical changes of pu-berty that I should tell my pre-teenagers about?

Dr. Dobson: Four topics are "musts" for a conversation of this

1. Rapid growth will occur, sap ping energy and strength for a while Teens will actually need more sleep and better nutrition than when they were younger.

2. Tell your children that their bodies will quickly change to that of an adult. Their sex organs will become more mature and will be surrounded by hair.

The full details of the menstrual cycle must be made clear to your girl before her first period. It is a terrifying thing for a girl to experience this aspect of maturity without forewarning. Many books and films help explain this developmental milestone, and they should be used.

The most important parental responsibility at this point is to convey confidence, optimism and excitement regarding menstruation, rather than sadly saying, "This is the cross you must bear as a woman."

4. It is most important that the timing of puberty be discussed with your children, for herein lies much grief and distress. This period of heightened sexual development may occur as early as 12 or as late as 19 years of age in boys, and from 10 to 17 in girls.

Thus, it may arrive seven years earlier in some children than in others! And the youngsters who develop very early or very late usually face some upsetting psychological problems. There are four extremes that should be

* The Late-Maturing Boy. This little fellow knows perfectly well that he is still a baby while his friends have grown up. He picks up the telephone and the operator calls him "Ma'am"! He's interested in athletics, but he can't compete with the larger, stronger boys. He gets teased in the locker room about his sexual immaturity, and his self-esteem nosedives. The prepubertal child can often be the worst troublemaker in school since is to prove his doubtful manhood.

The Late-Maturing Girl. Life is no easier for the girl whose internal clock is on the slow side. She looks down at her flat chest and then glances at her busty friends. For two or three years, her girlfriends have the discussions

* The Early-Maturing Girl. If it is disadvantageous to be late in maturing, one would think that the opposite would be emotionally healthy. Not so. Since girls tend to develop sexually one or two years before boys on an average, the girl who enters puberty before other girls is miles

ahead of others her age.

Physical strength offers her no real advantages in our society, and it is simply not acceptable to be boy-crazy at 10 years of age. For two or three uncomfortable years, the early-maturing girl is out of step with her

age-mates.

* The Early-Maturing Boy. By contrast, the early-maturing boy is blessed with a great social advantage. He is strong at a time when power is worshiped by his peers, and his confidence soars as his athletic successes are publicized. His early development places him on a par with the girls in his class, who are also awakening sexually.

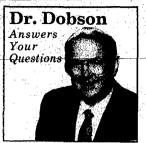

Thus, he has the field all to himself for a year or two. Research confirms that the early-maturing boy is more frequently emotionally stable, confident and socially accepted than other boys. It also shows that he is more likely to be successful in adult life, as well.

In the discussion of these extremes with your pre-teenagers, as them that it is "normal" for some youngsters to be early or late in developing. It does not mean that anything is wrong with their bodies. If in-deed your child is a late bloomer, he or she will need additional reassurance and encouragement to open the door of communication regarding the fears and anxieties associated with physical growth and development.

These questions and answers are excerpted from the book <u>Dr. Dobson</u>

Resource Center receives grant The Wakefield Family Resource Center in Wakefield was awarded a

\$7,500 grant from the Nebraska Commission for the Protection of Young Children. Wakefield was one of the 25 communities chosen for a maximum grant from a field of 57 communities

The grant is to help map the assets and needs of youth and families in Wakefield and surrounding communities, coordinate the efforts of the Resource Center and assist with planning family oriented programs and services. The grant funds are part of a block grant from the federal government to assist communities with proactive, family strengthening programming.

The grant grew out of the Investing In Families statewide videoconference that was hosted by the UN-L Extension Office in Wayne in July. Laura Knox, Attor-ney and Lynda Cruickshank, UN-L Extension Educator wrote the grant to assist the new community nonprofit organization with the completion of a community assessment and the development of long range action plans for community services and family oriented program-

The Wakefield Family Resource Center is currently searching for a professional to coordinate the grant and college interns to assist the community assessment. A community planning meeting will be scheduled later this spring.

Many organizations and individuals signed the grant application last fall indicating a willingness to assist in the community planning They are Robin Snyder, director,

vice; Vicki Meyer, Haven House, Wayne; Kathy Nordby, Department of Social Services; LeRoy Janssen, Wayne County Sheriff; Thelma Moeller, Department of Social Services; Terry Baker of M.G. Bears sprint past Lincoln Christian in C-2 finals

Laurel wins state championship

Third seeded Laurel-Concord breezed through the Class C-2 field of the Nebraska State High School Boys Basketball Tournament last weekend in Lincoln to earn the first state basketball championship in school history.

The Bears played in three different gymnasiums and all three conwere played at 9:30 a.m. and each time head coach Clayton Steele's crew played like champi-

The first contest was played last Thursday morning at Lincoln Southeast High School against Doniphan and it turned out to be the closest of the three games and the only one of the three in which the Bears were favored, 59-52.

The Bears jumped out to a 17-13 lead after the first stanza and maintained a 29-26 advantage at the intermission before expanding the margin to seven after three periods,

Down the stretch it was free throw shooting that iced the game for Laurel as Doniphan trimmed a once double digit lead to five points late in the game

Our goal was to get their big guy (6-7 Chuck Bauer) in foul trouble and we did a good job of doing that," Steele said. "We also concentrated our efforts in limiting their 3-point attempts with good

Tyler Erwin was called on to defend the Cardinals leading scorer in Jason Brummond who came in averaging 16 points per game. Through the first half Brummond scored just two points and after hitting a couple late 3-pointers he finished with 10.

Jeremy Reinoehl paced the Bears offense with 23 points while twin brother Jared tossed in 15. Cody Carstensen, Rich Rasmussen and Travis Stingley each tallied six whil Tyler Erwin netted two and Kyle Macklin, onc.

Laurel was 13-16 from the free throw line while Doniphan hit three

f seven from the charity stripe. Despite scoring just six points, Rasmussen had a two-minute stretch in the fourth quarter where he took control of the boards, allowing Doniphan just one shot and he notched a couple steals and scored two buckets on successive nossessions

HEADING INTO semifinal action on Friday morning at Pershing Auditorium, Clayton Steele was hoping his kids would measure up to all the hype surrounding top-ranked and defending C-1 state champs Fairfield-Sandy Creek.

His Bears did more than measure up, however, as they erased a seven point deficit early in the third period and rolled to an impressive and to most so-called media experts, shocking 56-38 victory.

Laurel trailed the Cougars, 21-20 at the half and following three straight turnovers to start the second half, found themselves in a 27-20 hole. In fact, the Bears didn't even attempt a shot until two minutes had elapsed in the third quarter but Cody Carstensen broke the ice with a lay-in and from then on, it was literally, all Laurel.

The game's final 14 minutes saw a highly prolific scoring Sandy Creek team net just 11 points. The favored team went four-and-a-half minutes in the fourth quarter before scoring their first points of the period and Jared Reinoehl had a couple exclamation points on the game with a couple massive slam dunks that left Sandy Creek fans with their mouths gaping in shock.

"We started both halves with miscues," Steele said. "The kids did a good job of overcoming those mistakes with out getting into a state of panic." Laurel led 38-33 after three quarters of play and out-scored Sandy Creek, 18-5 in the final stanza to earn its first state finals appearance since 1970.

"Sandy Creek hadn't lost to any team in Nebraska this season and its only blemish came against a defending state champion in the State of Kansas," Steele said. "The clospoints against Sutton.'

The Bears were forced to switch defenses in the fourth quarter according to Steele after the Reinoehl boys picked up their fourth

fouls at the end of the third stanza.
"We switched to a 1-3-1 zone in an attempt to keep the Reinochl's from fouling out," Steele said. "It really worked because Sandy Creek looked baffled and we took immediate advantage of that. I also felt that we got some excellent minutes from Travis Stingley and Kyle Macklin off the bench.

Both Jared and Jeremy played the entire fourth quarter with out foul-ing out. "It was a very aggressive game and there's no doubt that Sandy Creek has a lot of talent but I felt our kids controlled their big people inside and we controlled their quick guards," Steele added.

Once again Jeremy Reinochl paced the winners with 18 points while Jared poured in 17. Tyler Erwin stepped up his role as a scorer with nine points while Cody Carstensen scored six. Rich Rasmussen, Kyle Macklin and Travis

Stingley each garnered two points.

Laurel out-rebounded the former top ranked Cougars, 35-26 led by Jared's 12 caroms and Erwin's eight while Jeremy hauled down seven rebounds.

Laurel had 14 turnovers in the game but forced 29 and the Bears were 9-15 from the foul line com-pared to 6-11 shooting by Sandy this game by Jared Reinoehl that the Bears were not going to be intimidated by the number one ranking of the Cougars and that message was sent via five blocked shots in the opening stanza.

SATURDAY MORNING'S championship game was the first of six to be played at the Bob Devancy Sports Center and once again the Bears were thought to be overly matched against from a much bigger Lincoln Christian team and once again. Laurel decided not to take heed to such rubbish and they delivered a knock out punch in the third and fourth quarters en route to rolling to 4,74-59 victory and championship.

Lincoln Christian had come in to the title came after scoring 89 points in the first round in a 28point blowout of Stanton and by blasting previously undefeated Cambridge by 23 points in the semi's, 86-63.

Laurel took a 14-8 lead into the Mark Herbek.

lied late in the second stanza to tie the game at 27 at the break. The Bears trailed just once in the second half, 31-29 and from then it was domination time as Laurel out-scored the favored Crusaders, 57-30 the rest of the way.

"I'll take a good, quick team over tall team any day," Steele said. We were told about Christian's high-powered offense but we feel we have a high-powered offense, too, and I thought we proved that in the finals.

Steele said the goals were to neutralize the giants of Lincoln Christian which included at times a front line of 6-11, 6-8 and 6-6. "We very much wanted to get out and run early and we succeeded in doing that all game long."

The third quarter scoring blitzkrieg by the Bears which netted 26 points, was led by Jeremy Rei-nochl who tossed in 17 of his game-high 31 in that eight minute stretch including three, 3-pointers.

Steele pointed a finger at the quality play of his point guard Tyler Erwin who netted a career high 19 points in the game. "I believe in high school basketball you're only as good as your point guard and I feel we have a pretty good one," Steel said.

As mentioned, Jeremy Reinoehl led the winners for the third straight day with 31 points while Erwin poured in 19. Cody Carstensen finished with 10 and Jared Reinoehl added nine while Rich Rasmussen scored three. Travis Stingley and Kyle Macklin rounded out the at-tack with a free throw each.

Laurel was out-rebounded by Lincoln Christian, 33-26 with Jared Reinoehl leading the Bears with 10 caroms. Erwin hauled down five boards and Jeremy had four while Carstensen finished with three.

Once again the quick defense of the Bears forced a lot of turnovers as Christian suffered 24 while Laurel had just 10. The Bears were 17-26 from the free throw line compared to 10 of 12 shooting by Lincoln Christian.

Jeremy Reinoehl scored 72 points in the 3-game state tournament-the most of anyone in Class -2 and the second most of anyone in any class. He was edged by one point by Table Rock's Matt Cumro who tallied 73. Both Jeremy and Jared made the all-tournament team in C-2 along with Lincoln Christian duo Matthew Drevo and Aaron Marshbanks and Sandy Creek's

Wayne wrestlers garner medals

WAYNE-The Wayne seventh and eighth grade wrestlers competed at the West Point Invitational, recently with 19 coming away with medals. Jay Endicott, Josh Murtaugh, Tim Zach, Robbie Sturm, Wes Sievers, Darin Jensen, Nick Salitros and Jess Rethwisch each captured first place honors in their respective weight classes.

Chris Junck, Jon Webb, Matt Munsell and Craig Hefti each placed second while Craig Fredrickson, Jack Dorcey, Casey Junck and James Terhume managed third place finishes. Dusty Smith, Scott Reinhardt and Brian Preston each placed fourth.

Former Waynian leads cage team

WAYNE-Scott Ehlers, son of Al and Norma Ehlers of Wayne led his Lyman Eagles to a perfect 23-0 record and state championship in girls high school basketball in Wyoming, recently.

Lyman's average margin of victory in the regular season was 23

points but Rawlins High School came with in 11 in the championship contest, 48-37 in the 3A Division.

Scott is a Wayne High and Wayne State College graduate. He is married to the former Vickie Obermeyer of Hartington and they are parents of four children.

Pep rally honors players, coaches

Hats show team unity

By Kevin Peterson Sports editor

The Lincoln Wal-Mart store got an unexpected run on orange floppy fishing hats last Friday.

That's because the members of the Laurel boys basketball team spent some time browsing in the store and the orange hats caught the eye of one of the players and before long the cash register clerk was ringing up sales on nearly two dozen of them.

"It's exactly the same color orange as our school color," one of the proud new owners of the hat said. "We just knew we had to buy

Following the championship win over Lincoln Christian on Saturday, the hats made their appear-

ance at the Bob Devaney Sports Center as all the players donned

Some of the players had their hats autographed by their teammates as just one more momento they could keep for a lifetime in remembrance of the first ever state championship along with the shiny gold medals that were presented upon completion of the final game by head coach Clayton Steele on behalf of the Nebraska Schools Activities Association.

The players were greeted by a gym full of people on their return to Laurel as a pep rally was held in

their honor. The band played and each of the players were introduced much like a starting line-up before

a game.
"We all gave speeches," senior Cody Carstensen said. "We were so

impressed with the following we had in Lincoln and then to come home and see a gym full of people was something special.

The players signed autographs for quite a while for many young-

dreaming about the day they will win a state championship for themselves, the school and the community just like this year's

During Carstensen's brief speech he told the audience if they were nice maybe Jared Reinoehl would slam dunk the basketball one last time in the Laurel gym.

Jared, signing autographs in his street clothes was a little surprised to hear this offering being addressed to the crowd by his teammate but he wasn't about to turn them down and he grabbed a basketball and

JARED AND JEREMY Reinoehl wish each other luck be fore the public address announcer introduces them prior to their final game ever as a Laurel Bear. The dynamic duo went out on top of the C-2 field after claiming the state championship with a 15-point win over Lincoln Christian.

Laurel players experience once in a lifetime thrill with state title

It's Friday night and the Laurel boys basketball team goes to bed for the final time before the state championship game is to be played bright and early Saturday.

The phone rings and junior point guard Tyler Erwin who was having a hard time sleeping anyway assumes it must finally be the wakeup call. He gets up finds his way to

the bathroom and takes a shower.

He finishes, brushes his teeth, gets dressed and combs his hair. He's ready. He steps into the room with his other three roommates and finds them all asleep.

Let's go you guys he hollers, we got a job to go do. One of his teammates rolls over and looks at a fully clothed Tyler Erwin and then glances at the clock and wonders

what in the world is going on.
"It's only 2:30 a.m.," he yells." Tyler argues that he'd received the wake-up call but it wasn't a wakeup at all, just someone calling and a baffled Erwin returns to his bed to wait for the real wake-up call.

For Erwin it was about the only thing he did wrong all weekend as he quarterbacked the Bears to a state championship, "I was pretty embarrassed about getting up in the middle of the night but luckily I didn't lose too much sleep because I

was ready to go by tipoff time," Erwin said.

The state championship is something that will last a lifetime. but for the 5-11 junior, he knows next season will bring a whole new challenge. "I feel that I'll be ready

for the challenge next season," Erwin said. "I know it won't be the same as playing with the Rei-nochl's and Cody Carstensen but I feel I'll be able to step up and score more than I did this year.

If the state finals are any indication of that, than Erwin is prime to have a sensational senior year. "For some reason I felt that in bigger games this year I stepped up more," Erwin said. "The guys made sure they got me the ball in games like Lincoln Christian because I was totally confident I could score.

"It was en fuego," Jared Reinohel said of Tyler's scoring prowess that netted him 19 points in the championship game. En fuego is spanish for "on fire."

Junior Rich Rasmussen has a pretty left-handed jump shot but the 6-1 forward-wing player didn't use it all that much this season because he was called on to do other things but he also knows next season that role will change.

Against Doniphan Rasmussen had a stretch in the fourth quarter in which he dominated the Cardinals, hauling down several boards, recording a couple steals and scoring on two jump shots in successive trips down the floor after Doniphan had trimmed the Bears lead to five.

"I hit that first shot because was so wide open but still after L gained more confi dence," Rasmussen said. "I really can't explain why it was in the

fourth quarter of that game with Doniphan that I had that stretch but I felt that I had to step it up at that moment and I felt I contributed more to the team by working even

For Cody Carstensen, Jared Reinoehl and Jeremy Reinoehl their senior seasons coudn't have ended any sweeter but the emotions are torn between happiness and sadness.

"I'm so happy that we won it all my senior year but I'm very sad to see my high school career come to an end," Carstensen said. "I've thoroughly enjoyed myself and wouldn't trade this season for anything in the world. I will truly miss high school athletics."

The future is still uncertain for the dynamic duo of Jared and Jeremy Reinochl but for now they want to sit back and enjoy what they've just recently accomplished.

"We kind of treated the state tournament like it was the summer camp when we came down to Lincoln and went 11-0 against some pretty good teams, Jared Reinoehl said. "I didn't think we played particularly well against Doniphan in the first round but maybe that's because we were favored to win that

Jared also said the district finals game against Hartington Cedar Catholic a year ago when the Bears were edged in overtime helped their team this season. "We learned a valuable lesson in that game that you have to play a full 32 minutes every game, not 31 minutes and 59 seconds," Jared said.

Jeremy Reinoehl, often called "Mr. clutch," by his twin brother said he felt he was in one of those magic zones during his reign of

terror against Lincoln Christian in the third quarter where he scored 17 of his game-high 31 points.
"I really felt the difference be-

tween our team and the others we faced was home court advantage, Jeremy said. "I know we had more fans present than anyone we faced and it really made a difference to us

because we felt more at home."

Each of the starting five members of the Bears expressed their sincere gratitude for head coach Clayton Steele. "He is really a great

CHOOSING INVESTMENTS

person who cares about each of us whether we were on the basketball court or not." Carstensen said. "He never stopped believing in us when we did not play up to our potential and he got the most out of us when the game was on the line.

Carstensen said he felt the Bears had never played like a team like they played over the weekend. "It's great to know that what we accomplished during our senior year will forever be remembered by everyone," Carstensen said. "We truly did leave a legacy.

BEING A SPORTS editor, writer, photographer, etc., I come in contact with a plethera of other writers and photographers from other newspapers when covering big events such as the state tour-

This year I was truly disappointed in the lack of respect given to the Laurel Bears by other writers and picture takers in Lincoln. In fact, KTCH sports director Mike Grosz and myself were the only ones that gave the Bears a chance to beat anyone in Lincoln and we found ourselves amidst some minor disagreements with those that cover Sandy Creek, Lincoln Christian and Cambridge.

In fact, we were told that if Sandy Creek was nice they would only beat Laurel by 30 points, yet after the Bears soundly sent the Cougars packing I was told by some of my ex-media friends that Laurel won the game but they sure were cocky.

This really had me puzzled. First off, the Bears had just beaten a team who's coach had publicly said nobody would touch his team in the class C-2 field and secondly, I was told if Sandy Creek was nice they would only beat the Bears by 30

and yet I was being told the Bears

were cecky—go figure.
Also, I hope the Lincoln Journal & Star so-called sports staff has fun eating some crow after leaving the Bears unranked all season long and for calling them the Cougars in last Saturday's paper instead of the Bears—a mistake that was inexcusable for professionals.

The only remark I would like to leave with these guru's of the high school sports world in this state is to look beyond the end of your se. There are good, quality basketball teams that don't reside in just the Omaha, Lincoln and Hastings areas.

for the Laurel Bears-CON-GRATULATIONS!

State trip ends a five year dream for players

By Kevin Peterson Sports editor

A half-decade dream came to reality last Saturday as the Laurel boys basketball team was crowned champions in the C-2 field. The Bears finished the season with a 24-2 record but came with in seconds of having an unblemished record.

Like everyone who plays high school sports the ultimate goal is to win a state championship and for the starting five at Laurel, that dream began five years ago when they were in junior high.

One of the biggest supporters we've had as a unit over the years has been Bob Dickey," senior Cody Carstensen said while fellow seniors Jared Reinoehl, Jeremy Reinochl and juniors Tyler Erwin and Rich Rasmussen echoed.

"When we were in junior high he took us to Lincoln to watch the state tournament and he told us that he was doing it because he wanted us to breathe in the atmosphere surrounding the annual event because one day we would be there and he wanted us to know what it was like," Carstonsen added.

"We all started thinking about it at that time, that some day we

would be in Lincoln and perhaps win it all," Jared Reinoehl said. We had just won a tournament in Norfolk in junior high and we were so excited but all we could talk about for a while was someday when we're in high school, getting to the state tournament, Carstensen said.

Saturday before the Bears took to the floor to play in the state finals, coach Steele took a letter out of his pocket and read it aloud to the players. "We couldn't believe it," Tyler Erwin said. "It was a letter from Bob Dickey and it was absolutely phenomenal."

"He said in the letter that we'd been dreaming about this day for a long time and now it had finally arrived," Carstensen said. "He said he knew it would eventually happen and he was glad to have been a loyal supporter of ours over the years. That letter meant so much to us and I know it fired us up even

The Bears players also received a letter from one of the all-time Laurel greats in basketball, George Schroeder. "He said in his letter to go down and play our game when we're at state because nobody we would play would out-man us,"
Carstensen said.

WSC softballers notch two wins

The Wayne State women's softball team went 2-4 during the first six games of the season, played in Florida over spring break

Joan Scherbring's squad garnered a victory in the first game of the season with an 11-1 win over Wilmington, Ohio in a contest played in Pensacola.

Maryellen Livingston earned the victory from the mound, pitching a complete game and allowing just one run on three hits while striking out eight and walking two

The Wildcats had 10 hits in the game Melissa Keim and Tina ehman as each doubled and singled while Kris Krigbaum laced a pair of base hits. Betsey Wagner and Michelle Rowe added doubles for the winners while Jen Ostrem and Angie Louck each singled. WSC fell, 7-6 to Walsh College

of Ohio in the second game with Neely Herman taking the loss on the mound. WSC out-hit the winners 7-5 but the 'Cats allowed six runs in the first inning and could not make up the deficit.

Kim Stigge led the 'Cats at the

plate with two singles while Jennifer Urbanski doubled. Betsey Wegner, Jessy Kroll, Michelle Rowe and Tina Lehman each sin-

WSC fell to NCAA-I's Austin Peay University of Clarksville, Tennessee in the third contest, 5-0 as Maryellen Livingston was tagged with the pitching loss despite striking out eight and allowing just

The 'Cats however, managed just two hits-singles from Betsey Wegner and Kim Stigge and no runner advanced past second base.

The double-header with Austin Peay ended in a sweep as WSC fell, 10-6 in the nightcap as Mindy Alt

took the loss, WSC scored four runs in the first inning and added two in the fifth but Austin Peay tallied six in the first inning and two in the second and two more in the fourth.

The winners had 10 hits and 10 runs while the 'Cats notched six runs on six hits led by Maryellen Livingston with two singles. Kim Stigge doubled while Betsey Wegner, Tina Lehman and Mindy Alt each singled.

.THE 'CATS fell to the University of Missouri-St. Louis in game five in eight innings, 3-1. Maryellen Livingston was tagged with the hard-luck loss from the mound despite pitching a quality game with six strikeouts to her

WSC was out-hit, 5-3 with Livingston, Melissa Keim and Betsey Wegner each lacing a base hit.

The final game of the trip ended

like the first game did—with a Wildcat victory, 7-1 over Ohio Dominican. Mandy Alt was credited with the pitching victory, allowing just one hit and striking out seven in the process.

WSC pounded out seven hits led by Wendi Limmerson and Melissa Keim with two singles each. Tima Lehman belted a triple while Betsy Wegner and Kim Stigge each sin-

gled.
"Overall, I wasn't disappointed in our efforts for being in the field for the first time," coach Scherbring said. "We hit the ball hard and despite our youth, we didn't have a lot of mental mistakes."

WSC was slated to play Nebraska-Kearney on Tuesday and at Nebraska Wesleyan, Wednesday be-fore playing at the South Dakota Invitational over the weekend.

Scholarship named for doctor

Billie was cited "as a diligent and hard-working employee whose excellent troubleshooting abilities have helped in improving efficiencies for the company's matching department.

"Automatic Equipment wishes to congratulate our team members, whose dedication, outstanding per-formance and extra efforts have contributed to their teams' success.

said Jay Hesse, president of Automatic Equipment. "The awards illustrate what an important asset our employees are.

Other employees were selected to receive monetary awards for their extra efforts. The honorees for employee of the month this past year were December 1993, Norm Surber, maching; January 1994, Dave Johnson, second shift supervisor; February, Gary Kirchner, mainte-nance; March, Doris Samuelson, director of inside sales; April, Carla Kai, engineering; May, Gene Case, customer service; June, Kenny Deemer, second shift leadperson; July, Ron Duncan, welding, August, Jerry Ellinger, fabrication; September, Lowell Lehmkuhl, primary assembly; October, Jami engineering; November, Billie Rager, maching; and December, Doug Schrieber, shipping.

Automatic Equipment also paid

ents. Larry Sokol, welding supervisor and Jan Thomsen, director of planning, have been with the company for 25 years and received a specially designed ring as recognition for their dedicated service. Doug Jensen, customer service, was honored for 20 years and received a plaque, a pin with four emerald stones and also a monetary gift. Fifteen year service awards honoree was John Bessmer, quality control, who received a company pin with three emerald stones

Those honored for two and a half years of service and receiving a company pin were Sidney Farewell, fabrication; Kevin Griffin, welding; Gary Kirchner, machining; Lowell Lehmkuhl, primary assembly; Larry Lovingood, regional sales manager; Jami Mohl, engineering; Jim Nelson, welding; Wayne Not tleman, final assembly; and Sally Schwinck, accounting.

Cooper third at nationals

Wayne State junior Lamart Cooper, (Miami, FL) made school history, Saturday as the first Wild earn NCAA All-American status for track and field following his quality performance at nationals over the weekend.

Cooper, who still has two seasons of indoor track remaining, was clocked in 6.29 in the 55-meter dash to place third at the NCAA Indoor National Championships in Indianapolis.

"Cooper had great reaction time," coach Rick Moorman said. "Unfortunately he stumbled slightly in his first two steps-though that probably didn't make a difference in his placing."

the winner of the 55 meter-dash was Randall Evans of St. Augustine's of Florida in 6.25 followed by Joe Styles of Abilene Christian of Texas in 6.27. "First, second and fourth place winners were all seniors," coach Brian Kavanaugh said. "Cooper will be the leading return-ing sprinter next season in NCAA-

Cooper's season performance has netted him the five fastest times ever by a Wildcat in the 55-meter dash. Though he was the only championships, Wayne State placed 16th of the 26 teams that scored with six points.

Cooper placed third in his pr liminary heat after a 6.35 effort. He is the first Wayne State athlete to ever participate in the NCAA-II

needed to qualify for nationals. "The mile was poorly organized in Lincoln," distance coach Brian Ka-vanaugh said. "There were only seven runners in the race yet they ran two heats. With two division I runners in separate heats, neither one had a chance at qualifying for nationals," he added:

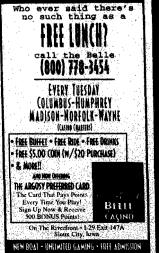

Also in the mile, freshman Donnty Thongdy placed seventh and sophomore Chris Garvin placed

In the 3000 meter run sophomores Kathy Dalton and Mark Beran had season and personal bests even though they were running by themselves for most of the race. Dalton placed fourth to a trio of Division I runners in a time of 11:05.35-number two on the WSC all-time list, and Beran placed eighth in 9:21.25.

Beran actually had a personal best in the first mile of the race, going through in 4:50.1," Kavanaugh said. "At the UN-Kearney meet about a month ago, he ran the open mile in 4:52 so he's really improved his racing in the last couple of weeks."

The Wildcats will begin their In the men's mile, sophomore outdoor season on Saturday, April 1 ska Wesleyan

Orders

(continued from page 1A)

In Schuyler, about 20 miles east of Columbus, Carmen Panameno had a protection order against her estranged husband, Edwin Escalera, when he shot and killed her and her boyfriend March 3 at the meatpacking plant where she worked. Escalera, who killed him-self, had violated such orders previ-

In south-central Nebraska, Thomas McBride had been ordered to stay away from his former girlfriend, Oster, as a condition of his bail on charges of sexually assaulting her a year ago. He was charged with stabbing Oster, 42, to death Feb. 5 in Hastings.
Neither the state Crime Commis-

sion nor the state court administrator keeps records on the number of protection orders sought or issued. An Associated Press check of 11 counties found dramatic increases in the number of protection orders issued in 1994 compared to 1990. Some counties were unable to provide figures.

In Colfax County, Panameno's protection order against her estranged husband was one of eight issued so far this year. That is the same number issued in the county in all of 1990. By 1994, the number of protection orders in Colfax County had more than quadrupled to 37.

In Douglas County, which includes Omaha, protection orders nearly tripled to 2,399 last year. In Lancaster County, including Lincoln, they nearly doubled to 170. In western Nebraska, protection orders in Scotts Bluff County rose from 140 in 1990 to 263 in 1994; in westcentral Nebraska, North Platte's Lincoln County issued 170 last year, up from 92 four years ago.

Protection orders, however, should not be considered temporary, police and prosecutors warn.

"When you get one, that means no contact, period," said Keith County Attorney Deborah Gilg, "If you want contact, drop the protection order."

Protection orders are available in all 50 states and the District of Columbia. They forbid abusers from having any contact with the victim.

In Nebraska, they can be obtained through district court judges, are valid for one year and can be re-newed. Violators can be punished by up to six months in jail and a \$1,000 fine.

A bill by Sen. Joyce Hillman of Gering (LB797) would let police seek a temporary order while the victim applies to the court for a protection order. It also would eliminate fees that judges may charge for the order. Another bill by Sen. John Lindsay (LB878) would give parents the right to seek a protection order when their child is the victim of domestic abuse or harassment.

Mrs. Hillman's bill was killed Friday by the Judiciary Committee, but the committee advanced Lindsay's

"I try to tell people this is the last resort, said Kristen Udell, coordinator of Dakota County's victim assistance program in South Sioux City. "You don't want any more to do with this person. They are out of your life, this is it."

But people in abusive relationships often go through cycles of threats, attempts to appease the

Record isn't comforting

to help them, she said.

Two bullets remain in Miss Kucera's head, A bullet in her right shoulder was removed Jan. 13.

Miss Kucera said she doesn't know what could have been done to protect her from Anderson, but she knows what she will do in the future.

"Next time I'll pick better people," she said. "I learned to be more care-

abuser, beatings and then contrition by the abuser in what is known as the honeymoon phase."

"For the victim who is being battered, it is so nice to be loved again," said Roberta Valente, staff director of the American Bar Association's commission on domestic violence in Washington, D.C.

The victims are under emotional and financial stress, Mrs. Gilg said.
"They get scared. They have

supporting themselves or trouble their children, sometimes they re-

enter that cycle. It's horrible for them and it's real frustrating for law enforcement," Mrs. Gilg said.

Unreported violations of protection orders can make it hard to con-

vict batterers, Ms. Valente said.
Victims often don't call police

Gambling measure's chances slim up Friday, when 1,150 slot machines

LINCOLN, Neb. (AP) - State Sen. Stan Schellpeper of Stanton says two bills to legalize slots or video lottery machines in Nebraska have less than a 50 percent chance of

being approved.
"But I think if it doesn't pass this session, it will next session," said Schellpeper, chairman of the General Affairs Committee that is con

sidering the bills (LB765 and LB851) to legalize slots or video lettery machines.

Keno operators and Nebraska's horse racing industry have called for state lawmakers to allow slot machines at certain locations, including race tracks.

The competition for gambling dollars in eastern Nebraska will heat

at casinos in Council Bluffs at \$147 million. Slot machines would eat up about 75 percent of the wagering; Nebraska would supply about 81 percent of the bettors, the study

But Schellpeper, a member of the

State Fair Board that oversees horse racing at State Fair Park in Lincoln, isn't sure lawmakers are willing to take up the slots issue this year. He said the opening of the racing sea-son at AKsarben in Omaha could change things before lawmakers adjourn June 2.

"Once AKsarben opens up May 5, we'll have a couple of weeks in there to see how bad they're being hurt" by Iowa gambling, Schellpeper said last week.

"Sometimes you have to get to a drastic situation in order for some-thing to happen," he said. "Gambling is not going to stop. Whether you favor gambling or not, let's get something out of it."

Opponents, including Mayors Hal Daub of Omaha and Mike Johanns of Lincoln, say the benefits of adding slot machines would not outweigh social costs.

Math/science push on

A regional organization for the advancement of Math and Science education is being formed in Northeast Nebraska. This organiza-tion known as the Northeast Nebraska Math and Science Coalition (NENMSC) is funded by the National Science Foundation and is a component of the Nebraska Math

Northeast Nebraskans

"With the rapid advances in technology and the changing job market that will be met by our youth, it is vital that the training they need in the areas of mathematics, science and technology be available to them in our schools today," said Marian Borgmann-Ingwersen, director of the new effort. Her office is at Wayne State Col-

lege.
"The NENMSC is being organized to meet these needs for stu-

dents in Northeast Nebraska," she

said.
The goals of the NENMSC can be broadly categories into four topics: 1) to promote professional development for teachers in the areas of mathematics and science; 2) to identify, develop and promote local, regional and state science and math programs; 3) to make Internet and other communication networks ac cessible to teachers in the area; and to promote partnerships between school districts, post-secondary institutions, business/industry, governmental agencies, parent groups and community organizations

This method of opening the lines of communication between the interested groups will provide opportunities for students to see the importance of mathematics and science in the work place and will allow business and industry to be ac tively involved in the education and training of their future work force,

said Ms. Borgmann-Ingwersen.
The NENMSC will serve as a egional and state wide network for information in the following counties: Boyd, Holt, Wheeler, Knox, Antelope, Cedar, Pierce, Madison, Wayne, Stanton, Dixon, Dakota and Thurston. Region-wide participation is important to the success of this Coalition and interested parties in these counties are invited to contact Ms. Borgmann-Ingwersen at 402-375-7338.

"Presently we are working on establishing a steering committee for the NENMSC, assessing the lend their support to our efforts.

Northern Nebraska's Cataract Specialist

"I Was Looking Forward To It Because I Have So Much Faith In Dr. Feidler."

Elsie Whitney had a Cataract.

She had No-Stitch Cataract Surgery.

"My husband and I started coming to Dr. Feidler when he moved to Norfolk about 25 years ago. We've been real satisfied. My cataracts were very slow in coming on. Dr. Feidler didn't encourage me to have them removed until they were ready.

When I began to feel like completely clear, I decided to have them removed. I like to read the current news and the senior citizen state news. My poor vision wasn't severe, but it was an aggravation.

After surgery, everything was clear and bright and relaxing is the best way to put it. I still have one surgery to go. I'm planning for that now. Cataract surgery wasn't scary because Dr. Feidler explained everything, along the way. We saw our friends and acquaintances pictures and comments in the paper and we knew they were satisfied. I didn't have any doubts that my vision would be better."

New WSC clerk

Deborah Jensen has been named counting clerk II at Wayne State College.

Jensen comes to Wayne State from Restful Knights in Wayne where she was an accountant. Her

bursement of the bi-weekly payroll for 107 employees and the administration of benefits, bank reconciliations and cash flow.

As a new accounting clerk, Jensen will be responsible for the NDSL/Perkins Loan Program. Her duties will include collection, correspondence and the overall management of the program.

Jensen earned her bachelor of arts degree in accounting from Buena Vista College, and her associates in science degree in business administration from Marshalltown Community College.

She and her husband, Jerry, have five children.

In jewelry club

Mines Jewelers in Wayne re-cently had the special honor of being inducted into the JA 100 Club established by Jewelers of America. "Jewelers 100 Club" honors businesses who trace their beginning roots back to the 19th century.

Mines Jewelers, run by Gary

mark of their community. "We be lieve that longstanding jewelry businesses, who have developed and sustained an image of trust and reliability in their communities, are the backbone of our industry," says JA Chairman Mike Roman, "We are happy to have Mines Jewelers as one of our members and to give recognition for their them longevity."
As a member of the "Jewelers

100 Club". Mines Jewelers has been awarded a certificate from JA and has proudly been added to the Honor Roll on display in JA's New York office. JA 100 Club inductees were announced at a press conference at the New York Hilton during the JA Trade Show on Feb. 3.

${oldsymbol{Hair}}$ ${oldsymbol{scholar}}$

The College of Hair Design in Lincoln has announced that Amy Ehrhardt, a senior at Wayne High School, daughter of Mr. and Mrs. Lonnie Ehrhardt of Wayne, is awarded a \$1,000 scholarship for the 1995-96 school year.

Recipients are chosen for their desire to pursue such a career and the potential they have shown from their past successes in school and community activities.

Amy plans to begin her college career at CHD in July.

Wife-

(Continued from Page 1B) our staté.

Towards the back are two pages featuring the church we attend and a shot of our pastor. Even our neighbors, in the "O, Pioneers" house, got in.

At the end of Carson's "sentimental journey," he says we really can't go home again if we expect things to be the same. But he says we carry our homes with us, and we do

I'm on a mission to restore the old-fashioned Sunday dinner, Last Lord's Day, we hosted four couples with York county roots who now live in close proximity to the Farm House. It was an afternoon of friendship, laughter and memories.

We're all now the ages our parents were when we thought they were old! All depends on our frame of reference, I guess.

Now it's time to get this in the mail box and get dinner started. Elgin and Table Rock teams are just being introduced. Play ball!

Sherman Petite New recruiter

Sherman Petite has been named minority academic recruiter for Wayne State College's Admissions

He will be recruiting students primarily from Omaha and Lincoln schools and parts of Iowa.

Petite comes to Wayne State College from the Great Dane trailer company in Wayne where he was involved in the building and insulation of trailers. He also serves as a medic with the Wayne National

Petite earned his bachelor's degree in recreation from Wayne State

College in 1991.

He and his wife, Racheall, have a son, Christopher.

Joins firm

Automatic Equipment has announced that Sara Hutchison joined the team on March 6 as administrative coordinator.

Sara is from Wayne and has worked as an outreach coordinator for Haven House Family Service Center in Wayne for the past one and a half years.

She graduated from Wayne State College with a bachelor of science degree in sociology and a minor in criminal justice. During her education, Sara was vice president of programming for Pi Gamma Mu, where she was responsible for coordinating honorary banquets held on the campus.

Sara's husband, Eldon, is the director of the recreation center at Wayne State College. They have two children, a daughter, Shelby, 3, and a son, Sheridan, 1. In her spare time, Sara enjoys golfing, exercising and reading.

Sara and Sonja Benson will be

working together as administrative

Society meets

"What you can learn from an obituary" is the beginning genealogy program to be given by Pearla Benjamin for the Genealogical Society of Wayne County's March 16 program at 7 p.m. Call 375-4113 or 375-3455 for more information. Beginners and 4-H'ers are welcome.

On dean's list

Noelle Hinrickson Servis, daughter of Vicki Hinrickson of Allen, was one of 315 students named to the academic dean's list at Briar Cliff College for the second term of the 1994-95 academic school year, according to Dr. Earl Robinson, executive vice president/academic dean at the Sioux City, Iowa, school.

To be eligible for the list the student must have a 3.5 grade point or above out of a perfect 4.0. Ms. Servis is a 1989 graduate of Allen High School.

Others from this area named to the list included Paul Hoesing of Emerson and Tamora Seemann of Randolph.

Completes tour

Navy Petty Officer 3rd Class Lawrence J. Puckett, son of Richard and Sharon Puckett of Allen, re-cently completed a Western Pacific Deployment.

Puckett, serving as a machinist mate aboard the submarine USS Indianapolis, homeported in Pearl Harbor, Hawaii recently returned from a two month deployment. While deployed, Puckett's unit participated in many exercises with the Royal Australian Navy.

Puckett enjoyed port calls to Stirling, on the Western coast of Australia and Hobart in Tasmania.

The 1992 graduate of Allen Consolidated High School joined the Navy in April 1993.

${f Scholarships}$

The Lutheran Community Hospital Service Guild of Norfolk is offering two \$750 nursing scholarships to high school graduating seniors in the area. To be eligible you must be graduating in the class of 1995 and have applied to an accredited school of registered nursing.

Contact your high school coun-selor or the Administrator, Lutheran Community Hospital, Box 869, Norfolk, NE 68702-0869, for application forms.

Deadline for application is May

Vegitarianism not seen as real threat

Farm women may

be greatest asset

Is vegetarianism a real trend? A question of utmost concern to Wayne County cattle producers, especially with all the reports that suggest the number of vegetarians is on the rise. The Eating in America Today II dietary intake and attitude report conducted by MRCA Information Services and funded in part by the Wayne County cattle producers, found that most selfproclaimed meat avoiders and vegetarians do cat meat!

Although meat's role in the diet has been changing, we're still a na-tion of omnivorous. More than 99 percent of the population eats meat. Less than one percent did not consume any meat during the 14-day period recorded for the study. Still, about five percent classify themselves as "meat avoiders" (say they never eat meat) and two percent classify themselves as "vegetarians' (always on a vegetarian diet). Although vegetarianism may appear an increasing trend, in actuality, it is not.

The checkoff-funded study also found that most Americans don't

American Farm Bureau President

Dean Kleckner sent a valentine to

hundreds of thousands of farm

women this year. No, cards from

Kleckner didn't actually show up in

rural mailboxes across the country

What Kleckner did was point out to

farm men the economic value of

farm women. In materials sent to

state and county Farm Bureaus.

Kleckner cited statistics that under-

line the importance of farm women to the success of the farm.

A 1994 study by Wayne State University indicates that the woman

of the farm household may be its

most valuable asset. Kleckner

study to tell us that, but at least the

social science crowd now has some

numbers," he said. According to the

study, women put in 68 hours a

week of unpaid domestic work, 22

hours of farm chores and five hours

of volunteer work. Women with

jobs off the farm average 30 hours a

equipment operators, market fore-

casters, public relations agents, fi-

nancial planners, accountants, me-

chanics and animal husbandry spe-

cialists, Kleckner said, in addition

to having such traditional responsi-

bilities of managing a household

The Wayne State researchers de-termined that a farm woman is

worth \$27,500 to the farm. "If you

must know," Kleckner added, "the study says men are worth \$23,700."
Especially in the late 1970s and

off-farm jobs for financial survival.

The money and the health insurance still help, Kleckner noted, but more

and more women look to a non-

farm job as an aid in self-expression

wives, but today's farm women are

no more married to the farm than

are homemakers married to houses.

Rather, they see themselves as

partners in the farming operation.

Another study, by the Farm Re-search Institute in Illinois, found

that 65 percent of farm women felt

their farm husbands in the man-

agement of their operation. Sev-

enty-five percent said they had a say

in decisions on major purchases,

themselves to be full partin

They used to be called farm

'80s, many farm women took

and caring for children.

and determination.

Farm women must be heavy

week at work.

"Men farmers do not need a

follow the government's Food Guide Pyramid, but eat a diet that resembles a pyramid ready to topple structurally unsound and topheavy from too few fruits and vegetables and too many fats, oils and sweets. The Meat Group is the only food group consumed within the recommended dietary guidelines. Average daily meat intake by selfreported "meat eaters" is 3.5 oz., self-reported meat avoiders is 2.3 oz. and self-reported vegetarians is

Perceptions about meat consumption. The clamor for change in American diet has lead to confusion about the role of meat. According to the Eat II report, 52 percent of adults disagree with the statement, "Adults should eliminate meat from their diets," while 25 percent agreed with the statement and about 23 percent didn't know. "Eat II clearly shows that some people simply aren't aware of what they're actually eating," said Carol Smeja, Ph.D., vice president of the nutritional marketing division for MCRCA Information Services.

Midland View

and more than 60 percent assist

the marketing of farm products, Kleckner noted. "Women often

grasp the basic economics much better than their husbands," he

pointed out. "Women see the prod-

uct, see the demand, estimate the

market. (We) Farm men see their work through sweat-filled eyes and

overestimate the value of our work.

Women concentrate on marketing

while men concentrate on telling

everyone in the coffee shop how

farm women comes from the better prices they are able to achieve through skillful marketing of the

Some of the value imputed to

It's interesting to note that some

of the women who work on the

farm are the major or sole farm op-

erator -- in other words, they're the

farmer. The most recent U.S. Census showed an 8.2 percent increase

in the number of women farm operators and a 12.8 percent in-

crease in acreage operated by women since 1982. And this oc-

curred during a time when the

number of farms and farmers was

decreasing overall. According to

current statistics, the U.S. has

145,156 farms operated by women.

In addition to reminding farm men about the value of farm

women, Kleckner had some advice

for them: Tell them how much

Wise words, Mr. Kleckner, And

don't feel bad about not getting

those valentine cards in the mail:

With all their responsibilities, farm

women wouldn't have time to read

day Valentine's Day.

hard we worked.'

farm's products.

Women also play a major role in

with or do all of the book work.

Agri Service receives achievement award

Wayne Agri Service, the Kent Feeds dealer for the Wayne area, was recently recognized at a corporate awards banquet in South Sioux

City.
The purpose of the banquet was to recognize outstanding Kent Feeds dealers for achievements during the past year. Wayne Agri Service received the company's outstanding sales and service award. The award was presented by Fred Miller, Kent Feeds' executive vice president, marketing manager.
The theme of the banquet was

"Depend on the Independent." The evening focused on the professionalism it takes to succeed in the livestock feed industry and the achievement of sales goals and length of service as a Kent Feeds

Twenty-two banquets were held throughout Kent Feed's market area with total attendance reaching nearly 3,500 people. Kent Feeds, Inc., with headquarters in Muscatine, Iowa, has been sponsoring these banquets for 44 consecutive

Swine vets meet, learn

The American Association of Swine Practitioners (AASP) held their annual meeting March 4-7 in Omaha. Dr. Ken Liska of Wayne was among the 700 veterinarians attending the 26th annual meeting.

Pre-convention workshops offered new information that can be readily applied in the field. Topics included ventilation, building construction, financial advisement and nutrition. The general meeting concentrated on new health and production technologies in the swine industry across North America and the rest of the world.

The AASP is dedicated to the continuing education of over 1,600 members throughout the United States, Canada and Mexico. This international education symposium concentrates on subjects relating to the efficient and humane production of safe, wholesome pork for con-

4-H program motivates

The Nebraska 4-H Recognition and Incentive Program provides in-spiration and motivation to many 4-H'ers. Members compete for County, District and State recognition by reporting their 4-H project achievements and accomplishments. as well as their leadership and citizenship activities. This year 27 4-H'ers from 11 counties in the Northeast District participated in District Competition. Two 4-H'ers from Dixon County were nominated to represent the Northeast District in State Competition. State

winners will be given the opportunity to participate in the 4-H Youth Congress to be held in Memphis, Tenn. Nov. 24-28.

The judging committee was comprised of volunteers and county staff from Antelope, Stanton, Madison and Pierce Counties.

The following 4-H'ers were selected for their outstanding 4-H leadership in Dixon County, in the following areas: Megan Adkins of Laurel, national conferences and other events and Sara® Mattes of Wakefield, food nutrition.

Herd growth predicted

The growth trend in the U.S. caude herd is expected to continue in 1995. meaning prices likely will continue the downward trend through the year, a University of Nebraska-Lincoln agricultural economist said.

Al Wellman, a marketing specialist in the Institute of Agriculture and Natural Resources, said the estimated Jan. 1, 1995, cattle inventory of 103.3 million head is the largest since 1986.

Almost all of the growth was in the beef cattle herd, Wellman said. Dairy cow numbers are about the me as last year.
The beef cattle herd is the largest

since 1984, and is expected to continue growing. Replacement heifers are estimated to have increased 1.8 percent from last year. Calf prices

for 1994 fell sharply, but not until after many producers already had made the breeding decisions that will produce the 1995 fall calf crop.

The growth in the beef cartle herd is expected to continue through 1995 and into 1996. The combination of: an increasing inventory and contiming low prices could put many cow-call producers in the red this year, Wellman said.

With the mild winter and the abunand forage, feeder cattle supplies. outside feedlots are expected to tinue growing in 1995 as well. The estimated number of calves and yearlings not designated as "kept for breeding" on Jan. I was the largest since 1988, Wellman said.

Irrigation meeting will be on Ag Day

An Irrigation Symposium will symposium. Specialists on center be conducted on Ag Day, Monday, March 20. All irrigators and concerned citizens alike, from Northeast Nebraska, are being invited to

If you have any questions or concerns regarding water rights, this is the meeting to become informed. Don Adams Ir., P.C., who is the lobbyist for "Nebraskans First," along with Bob Hilger, President of this group, will be heading the forum on this topic. Nebraskans First is a group of concerned Nebraska irrigators interested in water legislation and how it affects all users in the state.

Water legislation is not the only topic to be included in the evening pivot service including personal operational tips; economical, computerized irrigation technological tools available today; and how to make your irrigation system more economical are some of the other topics to be included in the session as well.

The promotional fees and expenses related to the symposium are being paid for by Vavrina Inc. and Valmont Industries, so there will not be any fee charged to attend.

This meeting will be held in the Oakland Vet's building, located at 420 N. Oakland Ave., Oakland, Neb. Registration is from 6 to 7 p.m. The meeting will begin at 7 p.m. Please call 402-892-3444 for

Markets change little

The Norfolk Livestock Market fat cattle on Friday saw a run of 580. Prices were \$1 to \$2 higher on steers and heifers, cows and buils were \$1 to \$2 higher.

Strictly choice fed steers were \$71 to \$72.80. Good and choice steers were \$69 to \$71. Medium and good steers were \$68 to \$69 Standard steers were \$57 to \$64. Strictly choice fed heifers were \$71 to \$72.90. Good and choice heifers were \$69 to \$70. Medium and good heifers were \$68 to \$69. Standard heifers were \$57 to \$64. Beef cows were \$43 to \$50. Utility cows were \$43 to \$50. Canners and cutters were \$36 to \$43. Bologna bulls were \$51 to \$59.

Stocker and feeder sale was hold on Thursday with a run of 780.

Good and choice steer calves were \$75 to \$91. Choice and prime lightweight ealves were \$85 to \$105. Good and choice yearling steers were \$68 to \$72. Choice and prime lightweight yearling steers were \$71 to \$78. Good and choice heifer calves were \$73 to \$80. Choice and prime lightweight beef calves were \$80 to \$95. Good and choice yearling heifers were \$66 to

Dairy cattle on the Tuesday Norfolk Livestock Market saw a

run of 8. Prices were untested.

Top quality fresh and springing heifers were \$900 to \$1,100. Medium quality fresh and springing heifers were \$700 to \$900. Ag grants are available

Farmers or ranchers with ideas about incorporating sustainable agriculture practices, alternative crops or new marketing approaches may find funding available.

The North Central Region Sustainable Agriculture Research and Education (SARE) program again is sponsoring its Producer-Initiated Sustainable Agriculture grant program, according to Steven Waller of Nebraska-Lincoln.

Applications for the program are

due May 1. Approximately \$100,000 is available for grants of up to \$5,000 each, Waller said. In the programs first three years, 87 grants were awarded to producers in

the 12-state region.

Demonstration and on-farm research projects that have been funded include rotational grazing; field trials, farmer networks, alternative crops, composting, equipment modifications and biocontrol measures.

Applicants will be selected in late July, 1995, with funding available in mid-fall for the 1996 crop production season.

For a copy of the grant application, or a list of previously funded grants, contact NCR SARE Room 13A Activities Bldg., University of Nebraska, Lincoln, Neb., 68583-0840 or call 402-472-7081.

Conference on Aging scheduled

America and Nebraska are aging. As our population grows older, how will our communities, businesses and services need to adapt? What should we do to prepare for the future? The 1995 Governor's Conference on Aging will help answer these questions, with the theme "Connecting with the Future."

The Conference is scheduled for April 24-26 at the Midtown Holiday Inn in Grand Island.

"As we strive to meet the needs of our aging population, we're faced with the reality fo change," said Dennis Loose, director of the Nebraska Department on Aging. "Older Nebraskans today are such different than those of 50 or even 10 years ago. Generally, the older population of 1995 is more active and healthy, but how will it be in 10, 20 or 30 years from now? This Conference will address some of the

Social Security offers service round-the-clock

If you're like most busy people, finding the time to take care of your personal business during the day is often a problem. That's why Social Security's toll-free phone number gives you service at night and on weekends, in addition to normal business hours.

When you call 1-800-772-1213 on your touch-tone phone at night and at any time during weekends and holidays, you get a recorded menu of choices that lets you take care of some routine Social Security business. You can leave a message requesting:

An application for an original or replacement Social Security card.

 A form to obtain a record of your earnings and an estimate of your future Social Security benefits — the Personal Earnings and Benefit Estimate Statement.

 A document that verifies you receive Social Security benefits, Supplemental Security Income payments, or both. You may use this document as proof of your income.

Of course, you can also call the toll-free number to ask for these forms during our daytime hours 7 a.m. to 7 p.m. on business days. You should be aware that Social Security's phone lines are busiest early in the week and early in the month. So, if

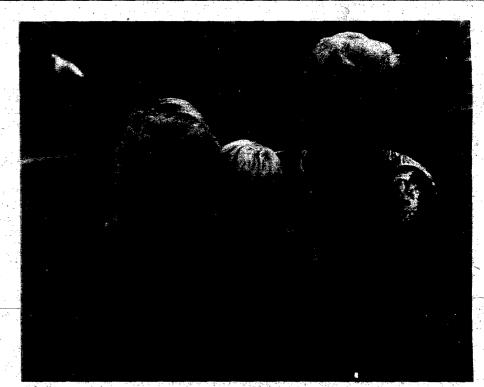

changes we're expecting, and offer suggestions for adapting ourselves and our communities to that change," he added.

The Conference will feature sessions ranging from "Involving the Community in Community Health Program of the Future" to "Medicare — Today and Tomorrow" to "Does Your Body Need a Tune-Up?"

Registration for the three-day Conference prior to April 10 is \$30 per person. After April 10, registration is \$50 per person. Again this year, an event-only registration will be offered. For \$15 each, people can attend all workshops, round tables and general sessions. The fee doesn't include meals. After April 10; the event-only fee will be \$25.

People with disabilities requiring special arrangements to attend should notify the Department on Aging no later than April 3.

For more information, contact the Nebraska Department on Aging, P.O. Box 95044, Lincoln, NE 68509-5044, (402) 471-2306 in Lincoln, or 1-800-942-7830 (Voice/TDD) in Nebraska:

YANKTON, S.D.—A couple of aspirin to relieve a thumping headache; an antihistamine to clear the stuffy congestion of hay fever; a laxative to aid regularity. For most of us, relief is as close as the corner drugstore.

More than 300,000 over-thecounter drugs are available to help relieve just about any minor atiment; yet many of us are lulled into the false assumption that if a drug doesn't require a prescription, it's basically harmless. All drugs, both prescription and non-prescription, work by bringing about chemical changes in our bodies. Some of those changes can be powerful, with the potential to help or harm depending on how appropriately a drug is used.

Many of the drugs now on supermarket shelves were available only by prescription a few years ago. The Food and Drug Administration has taken many common drugs off-prescription in recent years, including the painkillers ibuprofen (Motrin) and naproxen (Aleve) and topical hydrocortisone (Cortaid). Another 50 prescription drugs are currently being considered for reclassification.

For consumers, this means they can obtain a drug without the expense of a physician visit, but it also means they have to take more responsibility for monitoring their use of drugs with more powerful ingredients and dosage strengths.

Seniors Face Special Risks

Seniors need to be especially vigilant in their use of both prescript and non-prescription drugs. One study of older women found that on an average day they took more than five different prescriptions and three OTC drugs. With age, many adults develop a number of health problems and may be seeing

several different physicians. The greater the number of medication taken, the greater the chance for a drug interaction, whether drugs are prescription or overthe-counter.

Age also affects our ability to handle drugs. Body composition changes as we grow older: we lose muscle mass and increase the percentage of fat. As a result, drugs that are fat soluble may build up in fatty tissue, possibly reaching toxic levels.

The body's volume of blood and water decreases with age so drugs that are water soluble become more concentrated in the blood of older people. Organ function also declines making it more difficult to metabolize drugs in

the liver and to excrete them via the kidneys.

What this means is that the recommended adult dosage of a

Jolene Buehrer

drug may be too high for many seniors. In many cases a half dose or a shorter dosage period may achieve the desired effect.

Some Common OTC Risks

OTCs and High Blood Pressure: Many over-the-

counter drugs pose a risk for those with high blood pressure, especially when they re used frequently. The main danger comes from ingredients that cause blood vessels to constrict which, in turn, causes a temporary rise in blood pressure. The main culprits are drugs to treat asthma, the common cold, coughs, hay fever, sinus problems, and appetite suppressants.

Active ingredients to watch for on levels include: ephedrine (in oral bronchodilators); epinephrine (used to treat asthma attacks); ibuprofen (when used in large doses or over long periods); phenylephrine (topical spray and nasal decongestant); phenylpropanolamine (in diet

pills and cold remedies); and pseudoephedrine (in decongestants and cold medications).

Pain and anti-inflammatory medications:

There are more than 150 overthe-counter pain medications to choose from invarying, strengths and dosage forms. All, however, contain one of four chemicals that is the primary active ingredient: aspirin, acetaminophen, thuprofen, or naproxen sodium.

As well as relieving pain, aspirin, ibuprofen, and naproxen sodium also reduce inflammation and are known as non-steroidal anti-inflammatory agents (NSAIDs). NSAIDs are more likely than acetaminophen to cause side effects, especially when used long-term. If you need to use NSAIDs in high doses over a long period, to treat a condition such as rheumatoid arthritis, for example, talk to your physician about recommended doses and monitoring of any potential side-effects.

Individuals taking blood thinners or those who have kidney disease, ulcers, a bleeding disorder or an allergy to aspirin should avoid NSAIDs. The NSAIDs all have side effects that include gastrointestinal bleeding, stomach upset and dizziness.

Alcohol can react badly with any of the pain relievers, even acetaminophen which at high doses is known to cause liver damage when used with alcohol.

Antihistamines:

When used correctly, antihistamines can provide relief from the runny nose and sneezing of allergies. Although antihistamines are also used in many OTC cold medications, they do not relieve the runny nose and other symptoms caused by a viral illness such as a cold.

Many antihistamines cause drowsiness in some persons. One study found that between 10 and 20 percent of persons became drowsy after taking an antihistamine. Driving under the influence of antihistamines is unsafe. For some seniors, drowsiness could lead to a fall with the risk of a broken hip or other serious injury.

Because antihistamines aflect the central nervous system, they should not be taken in conjunction with any drugs that depress the central nervous system including sedatives, tranquilizers, prescription pain medication, barbiturates, narcotics, or alcohol.

Marine veteran remembers 50th anniversary of Iwo Jima

By Sally Schroeder Cedar County News

HARTINGTON—It's been 50 years, but Walt Lewis's memories are as fresh as yesterday's lunch.

Reading about World War II is something that many people need to

"You just figured you

were going to die, but

you always wondered

if it was going to hurt

when it happened,'

Wait Lewis during

WW II

do to understand all the details of this dreadful event in history.

For some, however this isn't necessary because they fought the battles

and lived to tell about those gruesome experiences.

Marine veteran Walt Lewis of Hartington is one survivor who questions himself daily as to why he was spared, in the day to day machine-gun battles

that he was a part of.

The 50th anniversary of the battle at Iwo Jima was remembered on Feb. 19—the day the U.S. Marines Invaded the finy island. Lewis recently shared his memories of that historic battle.

During World War II, the South Pacific was a battle ground in both air, land and

sea, and the Japanese had claimed many of the islands which served as their unsinkable aircraft carriers.

After the bombing of Pearl Harber, Lewis said he ran convoy duty as a gunner on the big ships which carried supplies to Hawaii. Sitting in a gun tub on the deck of Navy ships with a crew of several other Marines, their job was to shoot machine-gunfire at the enemy.

Throughout the battles in the Pacific Theatre, the Allies overpowered the Japanese and their efforts to stop the take over. The little islands were claimed one by one, and Lewis was in on that action.

Lewis fought in four seperate invasions in his Marine career. His first operation was the invasion of the Marshall Islands.

Shot in the arm during the invasion of the Marshall Islands, Lewis received the Purple Heart award from the United States government.

"You just figured you were going to die, but you always wondered if it was going to hurt when it happened," said Lewis.

Lewis said the troops formed an imaginery line with their bodies and claimed the land inch by inch, receiving gunfire as well as delivering it.

Over 60,000 Marines invaded Iwo Jima, a volcano island, measuring

only eight square miles, approximately 700 miles south of Japan. The highest point on the island is Mt. Suribachi, the volcano itself, where the famous photorof the Marines raising the United States flag was taken.

It is remembered as the bloodiest battle in the history of World War II. The

Marines lost almost 6,000 men with over 28,000 total U.S. casualities, more casualities than the Japanese suffered.

Lewis said the volcanic ash on the beach fronts made the troops sitting

ducks against the Japa-

"When the boat ramp dropped onto the shoreline, it sank into the soft volcanic ash, and the men could hardly walk with the ash coming up to their knees," said Lewis.

Even the tanks had a hard time getting ashore, as they became bogged down in the substance, he said.

The gunfire began as soon as the troops landed on the beach front.

Lewis told of a young 18year-old boy who was petrified, and kept asking the men if they thought they'd

all be killed. Their only assurance was to tell him that everybody had to go sometime. Lewis said the young Marine was killed shortly after they arrived on the beach front.

The Japanese were well hidden in the honeycomb caves and their gunfire was coming out of small holes, as opposed to the Marines who had nothing to hide behind.

We knew the Marine way was to never turn back, only go forward," said Lewis, "and shoot everything that moved."

Anyone that says they weren't scared is lying, said Lewis, "but everybody looked out for everybody else, and saving somebody else's life wasn't because you wanted to be a hero, you just did it."

His worst memory was not being able to get any place because he was mired in the ash, making it difficult to

At first, they planned on the mission only taking three days, but because of the heavily armed defenses

Iwo Jima Veteran Wait Lewis, displays medals he received during his ten years of service in the United States Marines. Lewis was awarded the purple heart from injuries received at Iwo Jima and the Marshall Island invasion.

Photo by Sally Schroeder

of the Japanese, it ended up taking 36 days to claim the island.

Lewis fought in the battle for the first half of the seige, before he was hit in the leg with a sniper's bullet. As he ran for cover, he was hit a second time, in the neck, high up on the front of his chest.

Lewis admitted that prayer was not high on his list of priorites, but for the first time in his life he found himself deep in prayer at this time.

"It felt like I had a red-hot poker sticking in me," he said. Lewis was sent to the hospital in Guam the same

night.

Why he was spared that night, Lewis does not know, but since then, he says his beer has sure tasted better.

Of the original 250 men in the 3rd Battalion K Company of the 24th Marine Regiment, only five survived the war.

Dewis was awarded his second Purple Heart with a Gold Star for the injuries he survived at Iwo Jima.

The real heroes are the men we left behind, because they gave their lives in combat, said Lewis.

Nebraska's Historical Society shares stories

James, second governor of the state of Nebraska, acimpeachment of Governor removed. David Butler and served one of the most turbu-

lent terms ever experienced by a chief executive of the Cornhusker state.

He was born in Marion, Ohio, October 15, 1831, His education trained him in law, but also farmed, clerked and learned the saddler's trade. He moved to

Des Moines, Iowa, in 1853. and six months later was at Sergeant Bluff, awaiting the opening of Nebraska territory for settlement.

One of the first settlers in Dakota County, James filed his claim prior to 1857. He was county attorney of Dakota County, 1861-63. In 1864 President Lincoln appointed him register of the Dakota Land Office, He was tage of the Acting Governor's

elected Secretary of State on the absence in Washington to con-Republican ticket in 1870, and vene the legislature into special by virtue of that office became session—an act which was ceded to office following the acting governor when Butler was

tive branches of state government strained to the breaking point. They did not improve during his administration. Until working procedures were developed and the state government was stabilized, conditions were ripe for the promotion of unrest and uncertainty.

On one occasion, the President of the Senate took advanquickly revoked by James upon his return to Lincoln. On another, the Acting Governor at-

> islature from meeting by shutting off the coal supply from the legislative chambers.

> And so it went. In his farewell address. James exanimosities...through which we have passed in the last two years may be that all classes of our fellow citizens may, in the

future, work zealously and in harmony for the welfare and interest of our young and growing commonwealth.

In 1877, Governor James was appointed register of the land office in Colfax, Washington, and moved there. He died in Colfax, February 1, 1920.

Sod Houses

pied by the first settlers in old long. Occasionally, a two-Nebraska was the sod house. So typical was this type of dwelling that the Upper Great Plains

Dakotas - came to be known as the "sod house frontier,"

The sod house was an answer to the problem of subduing the western plains. West of the 98th meridian, there were virtually no trees and no way to haul lumber. Shelter had to be pressed the hope, "that the provided, and the most suitable material was the tough, prairie

There were many types of buried and forgotten, and sod houses. The simplest was the dugout, a room cut into the side of a hill or ravine and walled up in front with sod. Frequently, the dugout combined with a regular sod house, taking advantage of the economy in construction offered by the terrain and the greater convenience and comfort of a house built above ground. Those able to do so constructed soddies entirely above ground. A common plan consisted of a one-room build-The original dwelling occu- ing, 16 feet wide and 20 feet

story structure was erected.

Where possible, lumber was used for the frame, par-Kansas, Nebraska and the ticularly the roof. Sheeting was nailed on the rafters and tar paper spread over the sheeting, again covered with sod. If lumber was not available - and in many cases it was not - the settler made out as best he could, using crooked limbs, brush, coarse prairie hay, and a thick covering of sod and dirt for the roof. To hold up the roof. forked trees were planted in each side of the roof with a ridge pole running the length of the house. Frequently flow-

ers were planted on the roof. Interiors were furnished as best the settler could. If possible, board floors were laid. If not, the dirt was stamped down. Often walls were calcimined or whitewashed. Pegs were driven into the walls for hooks and such furniture as had been brought from the east was used to give

Timeline

Continued from previous page the place the appearance of the crew. If no band organized,

Steamboat's A'Comin'

In the Missouri River towns in old Nebraska, a sure sign of spring was the appearance of the first steamboat churning its heralded the arrival way up the Missourt after the of the first boat, with ice of winter had broken.

At the first blast of its whistle, all normal activity in the community stopped, as virtually the entire population rushed down to the river front to greet the First Boat! Imcaptain, crew and passengers.

The arrival of the first steamboat of the season was one of the most significant events of the year. It meant the long winter's isolation had been broken and contact once again had been established with the outside world. More immediately, it meant stocks of clothing and food, depleted by the demands of winter, could be replenished.

Most communities marked such an event with joyous celebration. The boat itself usually provided the setting and the means. Although most of the boats were not luxuriously equipped, occasionally a band could be mustered from among

at least one crew member would produce a banjo or fiddle. The larders usually were well stocked, and "refreshments" always flowed freely.

The newspapers frequently ley discharged a

plenty of exclamation marks. For example, under a heading which screamed "The mense Excitement!!! The Platte Valley! Takes The Horn! ", the Nebraska

chronicled the appearance of good amount of freight and pasthe first boat to reach Nebraska sengers, and has started on her City in 1858:

Our writings were disturbed last evening at seven o'clock by the wringing of bells, the thrilling whistle of the engine, and shouts of A Boat!, A Boat!!! The streets were at once filled with men and boys running to the wharf to meet the first boat of the season. It proved to the Platte Valley ... "

trip-the first boat of the season, and made the trip from St. Louis to this place in six days, an unprecedentedly quick one considering the boating condition of the river. The Platte Val-

upward trip to Omaha...

Nebraska's Statehood

On March 1, 1867, the reluctant hand of President Andrew Johnson signed the proclamation declaring Nebraska's statehood. The signing ended the life of a territory which 13 years earlier had been organized in controversy.

The quarrels at both ends of "This is a new boat, her first the territory's life were bound

up with the issues of the Civil War. When the territory was organied in 1854, it was a question of "popular sovereignty." the right of the residents to decide whether they would allow Negro slavery. At the time of the admission of Nebraska as a state, the point at issue was whether Congress had the right to force Nebraska to give Negroes the vote.

The territory of Nebraska. along with Kansas territory, had been organized in 1854 on the basis of popular sovereignty. This infuriated many in the North who were bitterly. opposed to the extension of slavery. The Northerners were demanding Congress keep it out of the newly organized territo-

By 1867, the Civil War-had decided the fate of slavery. The problem was whether the newlyfreed Negroes were to be granted the right to vote. The constitution originally submitted to Congress - in common with the constitutions of most other northern states - restricted suffrage to white males. Women were not considered qualified to Negroes."

Congress, controlled by Radicals who were demanding Negro suffrage, amended the enabling act to provide that Nebraska could not be admitted unless this restriction was removed. President Johnson vetoed the bill believing Congress had no constitutional right to dictate to Nebraska in this fashion. The bitterly hostile Congress, passed the bill over the presidential veto.

In Nebraska, the legislature elected the year before, was called into special session by Governor Alvin Saunders to consider the conditions imposed by Congress. The legislature acted quickly, convening one day and adjourning the next, conditions approved.

President Johnson then proclaimed Nebraska to be a state. The whole slavery question. however, was somewhat beside the point. At no time did the territory contain enough slaves to form a corporal's guard. The whole argument, as one historian put it, was the "enfranchisment of imaginary

Resident of the Month Steven Hochstein

Steve Hochstein was born in the Bow Valley area on August 17, 1914. He has twelve brothers and sisters. He was raised on a farm. Steve married Thecla Burbach in 1946. They had two children. He has several grandchildren and great grandchildren.

Steve enjoys music and reminiscing. In the past, Steve enjoyed flying his own plane.

Steve came to the Hartington Nursing Center on May 10, 1993.

Plans for retirement income should be made early

Tax Time is a

good time

to look at

options for

the future

By Mike Lechner Cedar County Extension Educator

Most of us have finished our taxes or have appointments scheduled. This week I would like to share an article that was printed by Cooperative Extension in Cornhusker Economics.

The article examines three couples. Couple A is a successful farm family, age 45 who have no retirement savings, and plan to retire at age 65. Let us also suppose that they feel they need an annual retirement income in today's dollars of \$40,000, that inflation will average 3 percent, and their pre-retirement savings will return 8 percent and their post retirement savings 6 percent annually.

Assume also that the farm wife works only in the home and thus does not qualify for social security benefits based on her earnings. Under current law, they might

expect social security benefits \$57,590 security is assumed to meet nearly all of annually, but in order to have \$40,000 of retirement income in today's dollars, they

will actually need \$72,244 in 20 years from today's dollars. Thus social security alone will fall nearly \$15,000 per year short of providing for their needs. In order to meet this deficit, they would need to accumulate a retirement account of nearly \$225,000. Doing so requires to save

\$4,907 each year until retirement. If they invest conservatively and their pre-retirement savings earn only 6 percent they need to save \$6, 105 each year until retire-

Couple A is fortunate in that social couple, age 25 believes they will need

their retirement needs. Couple B is an identical 45 year-old couple except that

they feel their annual

retirement income needs are S\$50,000 in today's dollars rather than \$40,000 in today's dollars. All of the social security shortfall must be made up by additional savings. Couple B will need to amass a retirement account of \$501,334 to meet their retirement income needs because a larger share of their retirement income must come from savings. Doing so

requires them to save nearly \$11,000 annually until retirement if their savings earn 8 percent and nearly \$14,000 annually if their savings earn 6 percent.

Finally consider Couple C. This young

\$50,000 annually at retirement in today's dollars like Couple B. Meeting that need requires them to collect a retirement fund totalling \$524,386. Fortunately for the young, time is on their side, if they choose to use it wisely. Accumulating \$524,386 over 40 years prior to their retirement requires annual savings of only \$2,024 if their savings earn 8 percent, or \$3,388 annually if savings earn 6 percent.

These illustrations do not approximate everyone's needs or situation. They do, however, demonstrate some important truths about retirement planning. They demonstrate the critical importance of starting early.

Individual retirement planning must be based on your own personal characteristics and needs, as well as your assumptions about the future.

BRIDGE

SYLVIA PLAYS DUPLICATE

South dealer. Both sides vulnerable.

NORTH

The bidding

At first, believe it or not, there were some members of the club who claimed they could fathom the workings of Sylvia's mind. But it did not take them very long to disabuse themselves of this ridiculous notion.

They discovered soon enough that Sylvia's unique interpretation of the general principles of the game resulted in an approach far different from that of any player they had ever encoun-

Consider this deal from Svlvia's first duplicate tournament at the club. Perhaps she should not have been allowed to play, but most of the members felt that she would surely add zest to the game-and they certainly were not disappointed.

Sylvia was West and found herself on lead against four spades, a contract that was reached at all 13 tables. All the other West players led either the jack of hearts (won in dummy with the queen) or a low diamond. In every one of those cases, declarer easily made the con-

At this stage of her career, Sylvia had already learned the "rule" about leading the highest card from a sequence of honor cards. However, she had not yet learned the distinction between a sequence and an "interior" sequence. Accordingly, unlike the other Wests who led the jack from the K-J-10-9-7-5, she led the king!

As a result of this remarkable lead, poor South could no longer make the contract. He took the king with the ace and played a trump, but he was fighting a losing cause. Sylvia won with the ace and returned the jack of hearts. East ruffed dummy's queen, returned a club, and Sylvia took the ace of clubs and ten of hearts to put the contract down one.

ALMOST SPRING
by Eisther Brummer
The month of March has arrived,
I'm happy It is here.
Soon Spring will put in her appearance
and winter will disappear.
Forgotten will be the cold wind and snow
and all the winter days.
The sun will start to warm the earth
with its strong and powerful rays.

Mother Nature with her loving touch will arouse each hibernating thing. And whisper softly to them all "Wake up for it is Spring."

Esther Brummer

Trees will bud, grass will stretch its long fingers through the ground, And early flowers will yawn and say, "It's time to get moving around."

The birds will all be coming back singing their merry tunes And everything will be happy when Mother Nature crooms. So let's all keep praying for peace and happiness now that spring is almost here And ask God to bless and keep us all both now and throughout the year.

A SENIOR CITIZEN'S DAY
Be thankful every morning if you can
Just get out of bed
And walk around in your little home
—and toast a piece of bread,
With a cup of instant coffee or maybe
you like tea?
You finish up your breakfast and then

You glance up at your clock "Oh my I see It's almost noon, My meal on wheels should be

you watch T.V.

arriving pretty soon."
I'll watch for George and when he
comes I'll meet him at the door.
He hands my food, "Oh dear,
be careful don't drop it on the floor."

The meal—it was delicious, she remembers with a smile. I think I'll go to Margaret's now and play cards for awhile. She makes a little lunch, "Oh dear the clock says that it's eight I have to eat and run because It's getting very late!"

OCT Drugs

continued from page 2

Monitor and Report All Drug Use:

If you take prescription drugs, be sure to tell your physician about QTC drugs you are taking. This is the best way to check for possible drug reactions. If you feel you need to take an OTC drug between doctor's visits, you have two convenient sources of information - the package inserts and your pharmacist. If in doubt, you can also call your physician to double check.

Over-the-counter medications have more detailed information than prescription drugs, precisely because they may be taken without professional guidance. Although the print is small and difficult to read, it's important to follow the directions carefully regarding dosage, side effects, and when you may need to seek medical care.

Don't underestimate the value of you pharmacist. If you shop for OTCs where you have your prescription filled, you can have your pharmacist check an OTC against your prescription record. The pharmacist is a good source of information about how the drug is best taken and any special precautions you should take.

Make sure that before you take any OTC you understand what it treats, the correct dosage and the benefits and side effects you can expect.
