Town hall meeting held at high school in Winside

High School in Winside on Jan. 30. The Winside Public School is preparing for a tax levy override in March, 2008 with a special override election to be held on Tuesday, March 11.

This is the third time Winside has had a special override election. The first one was held in the 2001-02 school year and passed by a vote of 347-104 (3.34-1). The second one was held in the 2004-05 school year and passed by a vote of 366-182 (2-1). The elections were for a 30 cent override of the mandated \$1.05 levy and would allow the board to levy up to \$1.35. The Winside levies, however, have not gone about \$1.19.

This special election is partially due to an anticipated loss of state aid for the upcoming school year. Other factors include mandated replacement of 15 passenger converted vans, concrete replacement and attempts to increase the school's depleted cash reserve.

All programs will be looked at if the override does not pass. The board wants to keep the quality of the schools programs maintained or improved.

A concern was voiced that some parents, as well as elderly on fixed incomes, are worried how much taxes they will have to pay. Winside Superintendent Don Leighton noted that the valuation on their tax statement divided by 100 times school levy (valuation divided by 100 x school levy) will give a good idea of how much a person will have to pay (for school purposes only).

Funding for schools comes from three main governmental sources: local, state and federal. State funds for support of public schools, which comprise approximately 26 percent of the cost of education, are

A town hall meeting was held at Winside appropriated by the Nebraska Legislature from the State General Fund. The General Fund is derived largely from income and sales taxes, State School Lands and insurance and premium taxes. Local funds are obtained mainly from property taxes levied by boards of county commissioners/supervisors

In addition, fines and motor vehicle license fees provide support to public schools. Federal funds are appropriated by Congress and allocated to the state for specific educational purposes such as strengthening programs in vocational education and child nutrition. Such funds are obtained by the levy of taxes, largely on income by the federal government.

The Winside Public School is a district composed of approximately 109 square miles of land that is situated primarily in Wayne County. The rest of the land is located in Stanton County. The district's total valuation is \$138,597,841. Valuation has gone up in the last four years and may continue.

The school's total enrollment K-12 is 257 students, 104 in grades K-6 and 153 in grades 7-12. The school has a teaching staff of 26 full time teachers, one full time and one half time administrators. The support staff is composed of two full time secretaries, three full time custodians, two full time teacher aids, one para professional, five cooks (two full time and three part time), three bus drivers and one full time school nurse.

The Winside School district was formed in 1962. Leighton noted that he, as well as many others, are proud of their school and want to see it succeed for many years to come.

Having great time with 'grandfriends'

Last week, Mrs. Joan Hansen's third grade class at Wayne Elementary School had visitors from The Oaks and from the Senior Center, both in Wayne. Having "grandfriends" come to class went with the students' Social/ Emotional Health unit. Seniors visiting were Frances Nichols, Gloria Leseberg, Emma Willers, Dr. GB. Dunning and Carol Dunning. The kids read them stories and shared questions and the visitors told about changes in their lifetime, especially school differences. The next day they wrote letters to their grandfriends and the students asked if they could come again. Above, in the photo with the students is Frances Nichols and in the bottom photo is Gloria Leseberg and third graders.

Time line announced for taking tax issue to voters

By Clara Osten Of the Herald

Discussion on the time line and procedure for presenting a local option sales tax to the voters in the City of Wayne was among the agenda items during Tuesday's meeting of the Wayne City Council.

Kent Franzen, representing Wayne Industries, told the council that through LB840 a local option sales tax could be used for property tax relief and/or economic development.

He told the council that the sales tax used to fund the construction of the Community Activity Center is set to sunset in 2009 and this would "an excellent opportunity to let the community approve the continuation of the tax. We need to develop a specific plan on what we are going to do with the money, which could be split between tax relief, economic development and capital projects, if this is what we decide."

A timeline for getting information to the public, conducting town hall meetings for public input, presenting a plan to the City Council and notifying the Election Commission of ballot language were discussed. Ideally, the issue would be put on the November General Election ballot.

Following a public hearing, the council voted to approve the One and Six Year Street Improvement Plan.

The major portions of the plan include the 10th Street project from Main to Windom Street, Western Ridge Phase II, which would connect with Donner Pass and work in the Lage Subdivision and Folk $% \mathcal{F}_{\mathcal{F}}$ Street.

"As always, the driving force is funding," said Garry Poutre, Utilities and Public Works Superintendent.

City Administrator Lowell Johnson said that in recent years the amount of gasoline tax collected has decreased and the amount of STP funds and federal gas taxes available to the city are uncertain and likely to be less in the future. Having a street improvement plan in place and the council's approval of the plan is necessary for the city to receive funding for the various projects.

During Tuesday's meeting the council voted to increase both the city's electric rates and sewer rates.

The wholesale rates for electricity provided to the city by Nebraska Public Power District and Western Area Power Administration are up considerably. Western Consulting, a rate consultant hired by the city, has recommended a seven percent retail rate increase to Wayne elec-

tric customers. The rate increase will take effect with the meter readings taken in February and appear on customer's March \mathbf{bills}

Garry Poutre told council members that "every community is going through the same thing."

Sewer rates will go up 50 percent following the passage of Resolution 2008-8.

City Administrator Johnson told the council that the city has been looking at the issue for some time and the rate increase, which will probably be the first of several, "is needed to develop a cash reserve for the construction of a new wastewater treatment facility or the renovation of the present plant." A 50 percent rate increase will result in the collection of approximately \$200,000 per year.

The council approved a Wayne Revolving Loan Fund application of \$10,000 from Renee Jacobsen, owner of Snakey Jake's Italian Pizza & Subs.

The money will be used to assist with the purchase of the building. Jacobsen told the council her business has been open for nearly four years and during that time she has been leasing the property at 118 East Second Street and has the first option to purchase the building, which is now up for sale.

In other action, the council listened to annual reports from the water/wastewater, electric and public works departments.

Garry Poutre listed the highlights from each of the departments during the past year and projects to be completed by each department in the coming year.

The council approved a bid from Benscoter Plumbing for insulating City Hall. The bid, for \$3,487.92, includes installing 24 inches of insulation in the attic of city hall.

The council approved on second reading Ordinance 2008-2, which establishes handicapped parking spaces in the downtown area. Discussion was held on whether the location of these areas should be on the north or south sides of Second Street and the location will be finalized at the next meeting.

The council gave its approval for Mayor Shelton and City Administrator Johnson to speak on their behalf during next week's Nebraska Department of Road's Public Hearing in regard to the preferred route for the Highway 35 Expressway. Although funds are not presently available for the construction of the expressway, plans continue to be developed and revised.

The council will next meet in regular session on Tuesday, Feb. 19 at 5:30 p.m. in the council chambers.

Wakefield Community Schools has meeting for input from district patrons

By Lynn Sievers Of the Herald

A special meeting of the Wakefield Community School Board of Education was held on Feb. 3 at the ESU#1 building in Wakefield. On the agenda was discussion of the facility needs of the school for public input for the purpose of hearing support, opposition, criticism, suggestions or observations from district patrons.

Also discussed at the meeting was student enrollment history, Board of Education priorities, estimated costs of projects and funding sources for projects. A question and answer session was held and a participant survey was handed out.

Board of Education priorities and estimated costs listed were: Safety/ Security=\$20,000- \$30,000; Van replacement= \$60,000; Main gym= \$150,000-\$200,000 (which includes air movement and floor replacement); Bus barn= \$100,000; Track and Field=\$550,000-\$650,000 (which includes site preparation: track, football practice field, utility infrastructure, fencing. Not included is a pressbox, bleachers, lighting, concessions and rest rooms).

Superintendent Bill Heimann spoke on student enrollment. Total enrollment K-12 is 428. The number of students peaked in 2001 and has been declining by around 10 students per year since.

Board member Tim Bebee discussed safety and security issues, which could be a variety of needs including special doors and security cameras. Also discussed were the 15 passenger vans which can be a safety problem too as there are issues with roll over. A bill was passed in legislature on replacement of the 15-passenger vans in Nebraska schools. The schools will have to sell their vans and purchase smaller ones.

Bebee noted the main gym floor has been sanded many times which makes it thin. As for air movement in the high school gym, anyone who has attended graduations can say it can get uncomfortable. Air conditioning would cost too much so they are thinking fans or something else to move the air around.

The bus barn has structural issues. When the last bus was purchased, they had to cut a beam to get it into the building

As for building a track and practice field, Bebee noted it would be done in such a way that it could be expanded so they wouldn't limit themselves from restrooms, etc. An estimate from architects is over \$1 million with half the cost needed for the first

phase. The track location recommended by the architects is west of the school but Bebee noted it doesn't have to go there. He stated a lot of dirt work has to be done and plans include parking for 140 cars.

On funding, Supt. Heimann said the board budgets for projects and that the general fund is used for many things from instructional purposes to maintenance and more. He added they are looking at current sources of revenue for funding projects, not a bond issue. He continued the special building fund is part of the general fund and there is a \$1.05 tax cap by the state for the general fund. (The total levy for Wakefield is \$1.11).

Preliminary figures released by the Nebraska Department of Education show Wakefield School district should receive \$148,000 increase in state aid for 2008-09. Supt. Heimann said with rising costs it's hard to say how much they will end up with of that amount. He noted the Wakefield school district gets half of their revenue from the state and the other half from local taxes. Larger schools, such as Omaha and Lincoln, get more state aid because they have more students and more

At 11:35 a.m., the Board of Equalization met in public hearing to review tax exempt applications on real and personal property. Joyce Reeg, Wayne County assessor, noted the list of applications was for non-profit organizations (churches, parsonages, parking lots, etc.), which doesn't change much from year to year. She denied Habitat for Humanity because the house was sold to the new owners and Trinity Lutheran Church parsonage because it is being rented out. The board agreed with her assessment. A motion was made and second to deny the two applications and approve the others.

Providence Physical Therapy offers continuing education course

Providence Physical Therapy recently hosted the Jones Strain Counterstrain II course. Ten professionals from Providence Therapy and surrounding communities attended this three day continuing education seminar. Strain Counterstrain is a gentle manual therapy technique used to evaluate and treat muscle and joint pain and dysfunction in patients of any age with conditions ranging from acute trauma to chronic conditions Counterstrain can even be used with infants, during pregnancy and in the elderly. This method of treatment of neuromuscular and musculo-skeletal disorders was developed by Lawrence Jones, DO, FAAO. In 1988, Dr. Jones and Randall Kusunose, PT, OCS established the Jones Institute in order to offer post-graduate seminars for health care professionals world-wide. The course at Providence was taught by Mr. Kusunose, a physical therapist who is Board Certified in Orthopedics by the American Board of Physical Therapy Specialties. Mr. Kusunose is the director of the Jones Institute and has been a certified instructor of Strain Counterstrain for 20 years. The state of Nebraska requires that physical and occupational therapists complete 20 hours of continuing education every two years in order to maintain licensure.

would be behind their front building line and that no vehicle limit had been set but he figured around 10 cars or less would be stored in a 100 x 200 foot solid barrier fenced in area. He proposed the fence to be six foot high and to use an existing building towards the back of the property (at 123 Fairground Avenue) as one side of the fence and create the other three sides from concrete blocks.

Both Commissioners Bill Kranz and Mark Sorensen suggested an eight foot fence would be better so neighbors can't see the vehicles.

Wayne City Inspector/Planner George Ellyson noted he had visited with the city attorney about the problem of unlicensed, inoperable vehicles stored on that property, as well as the dilapidated building that is proposed as part of the fence. He added that the property is commercial and abuts residential property but the property was in commercial use prior to zoning regulations so it's exempt from fencing requirements around the entire property. But, storage of unlicensed, inoperable vehicles are subject to existing code regulations and structures are required to be protected from the weather. Ellyson noted Woehlers were contacted by

the exception request can be tied to the above issues and that all conditions must be met.

Commissioners Stephanie Hansen and Bill Kranz wondered why this issue hadn't been brought up before and Ellyson stated they were zoning violations and had been dealt with by his office.

B.J. noted the vehicles are for sale. Ellyson said they don't have a dealers license and there are more than six vehicles there. B.J. added that they weren't all owned by one individual.

Commissioner Kelby Herman added that just because the lot is hidden shouldn't be a free pass. B.J. noted the reason nothing is done yet is because they are unclear as to what needs to be done; whether storage of towed vehicles is allowed outside or under a structure, etc. Ellyson said the purpose of the fenced in area is to hide the vehicles from residents.

Robert Woehler, owner of the property, told commissioners there's no place in Wayne to store unlicensed, inoperable vehicles and that the city has been in violation for the same thing at times. He added they are trying to address the issue. He noted they are a construction business and they can use vehicles on site that aren't licensed. Ellyson said there is a '59 Chevy truck there with the drums sifted in above the lug bolts so it hasn't been used in years and there are other vehicles in similar shape.

Ellyson told commissioners they could set a time line but would probably have to give six months for Woehlers to become compliant. Commissioner Hansen felt Woehlers should have enough time to comply. B.J. noted he would like to keep the \$200 application fee in place which Ellyson said was possible if the issue was tabled until a specific time. B.J. added he feels they are tying too much to the use by exception.

Commissioner Herman made a motion an eight foot fence should be around the towing business stored vehicles and they must comply with zoning regulations. Sorensen second the motion and the issue passed unanimously. It was noted that if Woehlers could get these issues completed before the July 7

Discussion was also held on the proposed Highway 35 expressway route. City Administrator Lowell Johnson showed a map of the proposed route, which goes south of Wayne, near the town. He stated there would be a meeting on this subject on Tuesday, Feb. 12 at 6:30 p.m. at the auditorium in Wayne.

Johnson noted the purpose of the study and meeting is for public input on the projected route and for an environmental study. He added that the Highway 35 expressway project started in 1988 and the Department of Roads completed two thirds of 600 miles of expressway before it came to a halt due to a lack of funds, which could still be the case and could slow completion

The next regular Planning Commission meeting will be on Monday, March 3 at 7 p.m. in the city council chambers.

Wayne State **College to host Career Fair**

The 2008 Spring Career Fair will be held at the Wayne State College Student Center on Wednesday, Feb. 20, from 11 a.m. to 3 p.m. This annual event is sponsored by the WSC Career Services Office.

Several employers from throughout the region will be in attendance providing students with information and answering questions that students may have about their companies. Some employers may interview the same day at the fair while others may schedule interviews at their place of employment.

The Career Fair provides the opportunity for students to network with employers and become familiar with the career opportunities available with each company. Finding a job is all about networking so it is important for students to get started early looking for their first job upon graduation, a summer internship or a part-time job.

All Wayne State College students and alumni are welcome and encouraged to attend. For more information, contact Jason Barelman, director, Career Services at 375-7327 or 375-7425.

Wayne County Democrats to participate in 2008 Nebraska **Presidential Caucuses**

The Wayne County Democratic dent that will affect who goes to the Party has announced that its members will join Democrats throughout Nebraska in participating in the 2008 Nebraska Democratic Presidential Caucuses.

The caucuses will occur throughout the state on Saturday, Feb. 9.

The caucuses are a first for Nebraska Democrats, who seek to have a voice in the presidential nominating process. Similar to the Iowa Caucuses, Democrats in Wayne County will meet at the Wayne County Courthouse to elect delegates to the county convention by presidential preference.

Registration will begin at 4:30 p.m. with the call to order at 5:10. People can register to vote and register as Democrats at the meeting. Only registered Democrats can

participate. "This is the only opportunity Nebraska Democrats will have to vote to on who they want for presi-

national convention. The primary in May will have no affect on the outcome," said Charles. Shapiro, Wayne County Democratic Chair.

People will group together by the candidate they support. If candidates have the support of less then 15 percent of the people present, they are not considered 'viable' and another round of selection occurs. When there are no more groups of less than 15 percent are left, the proportions for the various candidates will be summarized and sent to Lincoln before 7:30 p.m. that night.

way to think of state aid is, needs minus resources.

On the question and answer session, it was brought to public attention that the gym floor is original and has had two sandings (one sanding can last 8-10 years).

As for the bus barn, the school owns the building and as Bebee noted, he feels if they build a new one it would probably be on school property. He added with all projects, safety issues are most important. Prior fundraising for the track was discussed and it was stated there is \$4,200 left after paying for architect drawings, etc. and that will go to the track project. It was asked when construction would start and Bebee said they are not to that level of commitment yet. It could be one to three years before it gets to that point on any project. One person added they hope the track is a priority especially when the students have to run on country roads, etc., which is dangerous. Laurel's

football and track fields were discussed, which the city of Laurel built and leased to the school. The question was raised if this could be an option for Wakefield?

Supt. Heimann added that the Wakefield school district is in good shape. There was a \$700,000 carry over in the general fund from last year but there are often unexpected costs that arise, so they can't count on funds always being there. For example, a half million had to be spent recently to replace the roof on the school.

Board member Lisa Lunz said she sees keeping the school facility in good shape as a priority and the board has been budgeting for that.

The idea of grants was voiced and if the school could get any, which Lunz said they are looking at.

Date for pancake feed announced

The annual Wayne Kiwanis Pancake Feed is this weekend on Sunday, Feb. 10 from 10:30 am to 12:30 pm in the Wayne City Auditorium.

Tickets are \$5 for adults and just \$3 for children ages 5 to 11. Children under 5 eat free.

This annual event is a major fundraiser for Kiwanis, and the proceeds allow the club to contribute to many activities in Wayne that benefit youth.

Kiwanis has provided pediatric trauma kits to several communities in the area, including one to the Providence Medical Center.

"Providence Medical Center's Ambulance Services appreciates the Pediatric Kit donated by the Wayne Kiwanis." Dennis Spangler of Providence Medical Center went on to say that "this kit has been used at motor vehicle accidents and in response to ill pediatric patients. The kit is most complete and has all of the essential supplies and resources required to improve our ability to care for the pediatric victim, whether trauma or illness."

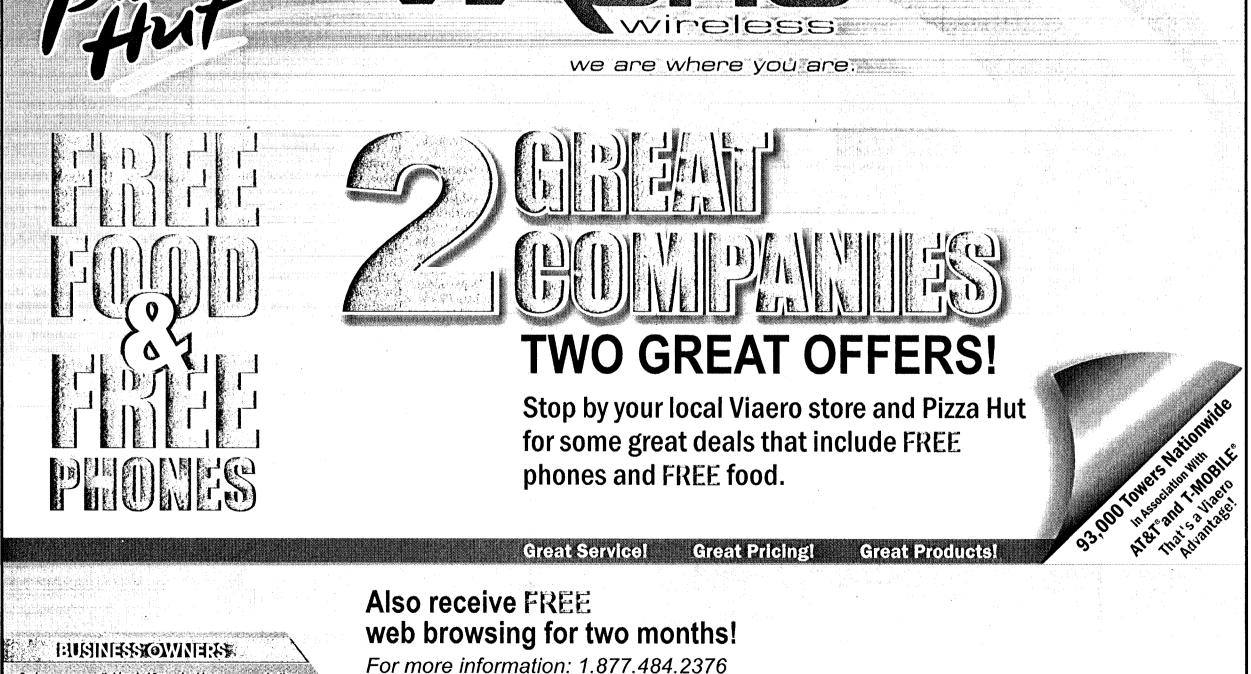

Kiwanis mans a summer swim meet, and provides a cookout at the end of summer rec golf. They host the annual Honors Banquet that recognizes the top 10 students in grades seven through 12, and underwrite the Junior Citizen of the Year Award.

Other activities supported by the Wayne Kiwanis Club included the summer reading program at Wayne Public Library, local scouting programs, and the summer sports complex.

"The Kiwanis donation helped kick off our fundraising for Summer Sports Complex in 2006," said Laura Gamble of the fundraising committee. "I would encourage everyone to take part in the Feb. 10 pancake feed to help support the Kiwanis youth activities in Wayne."

Tickets for the pancake feed are available from any Kiwanian, or can be purchased at the door.

Trojan boys had 'double vision' in Tuesday night win

By Casey Schroeder

On Tuesday night the Wakefield Trojans saw doubles everywhere.

Wakefield outscored \mathbf{the} Winnebago Indians 69-49, as four different Trojans scored double digit figures.

While the score may indicate a slight blow out, Winnebago on numerous occasions tested Wakefield.

"They are really athletic and tough to guard, they played an up tempo game," Wakefield coach Mike Clay said.

Throughout the first quarter Wakefield and Winnebago contested one another on numerous occasions

The Trojans took a 17-14 lead, after the Indians failed to limit Wakefield's second chance opportunities from within the paint.

Winnebago's final attempt to knock off the Trojans occurred with 6:50 left in the second quarter as Jason Hamilton scored a three to make it 19-17.

After Hamilton's shot, Wakefield went to work and started to dismantle the Indians, as Wakefield jumped out to a 39-24 lead before halftime.

"The difference of the game was in the second quarter," Clay said.

While the Trojans occupied a commanding lead, leading by as many as 24 Winnebago refused to throw the towel in.

Trailing by 19 after three quarters, Winnebago put together several runs in the fourth quarter to come as close at 14 points.

In the end Winnebago's aggressive and rugged play cost them the game. As the Trojans were just to smooth and controlled with the ball

Wakefield added 13 points in the fourth quarter, while the Indians added 12 to the overall effort.

However, previous faults by the Indians resulted in a Wakefield 69-

Wayne finished fifth at the Norfolk Catholic / Mid-State Conference wrestling tournament held at Norfolk on Saturday.

Colby Henderson 10, Zach Blessing

Sheldon Onderstal (135) and Garrett Vawser (103) led the Blue Devils with second place finishes.

Wayne's Logan Owens (130), Jordan McDonald (140) and Derick Dorsey (152) all placed third to highlight the Blue Devil effort.

We had a couple of runner-ups and several thirds. I thought we wrestled pretty well," head coach Greg Vander Weil said.

Vawser, lost by pin fall at 1:52 to Uriel Avilla of Madison while Onderstal dropped his finals match in a 7-5 decision to Madison's Class C third ranked Kurt Ruh.

Owens won a close 3-2 battle over Christian Hawk of Battle Creek with a late third period takedown.

McDonald wrestled to an 11-0 major decision over Kyle Eddy of Pierce before, Dorcey defeated Pierce's Mason Sudbeck with a pin at 2:25 to round off the Blue Devil's effort.

The Norfolk YMCA will host the 22nd Nebraska Youth Basketball Tournament on March 28-29 in Norfolk.

The proceeds from the tournament will go towards children and families that would otherwise be unable to use the Norfolk YMCA's facilities or programs.

The basketball -tournament is open to grades 4-9, with three divisions per grade.

All teams are guaranteed three games.

Registration deadline is March. 10.

"The Blue Devils placed eight out of twelve wrestlers...we competed where you want to be at this time of the year," Vander Weil said.

Other Wayne wrestlers who failed to place at Norfolk included: Aaron Lueschen (140), Alex Onnen (160), Drew Loberg (171), Jorge Dunklau (215) and Jason Trautman (285).

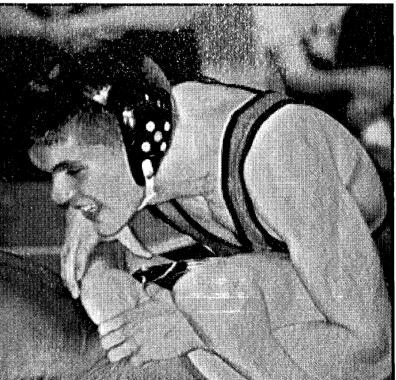

With the NSAA State Championships in sight, Vander Weil believes that several Blue Devils are capable of qualifying for state.

"I would say the 130 through 140 pound weight classes are our best shot." Vander Weil said.

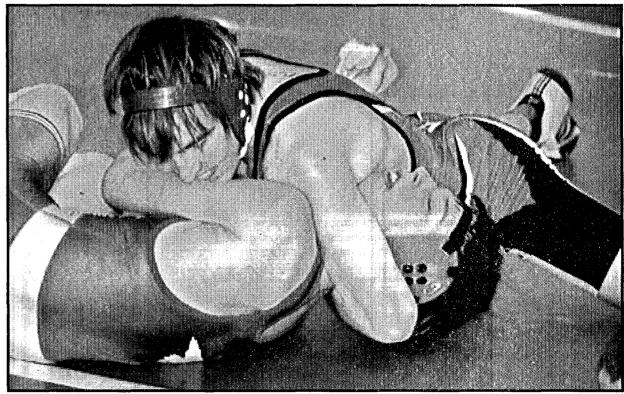

Blue Devil wrestlers that Vander Weil views as potential state qualifiers include: Owens, Onderstal, McDonald, McManus and Dunklau.

However, before state the Blue Devils will face some tough competition on the road.

Wayne will travel to Omaha Skutt on Friday and Saturday to compete against a Skutt squad that many view as the toughest in Class B.

Blue Devils thump Dragons and Trojans to earn fifth in conference tourney

After a one point loss to Norfolk Catholic last week, the Wayne High boys defeated Hartington C.C. and Madison to earn a fifth place finish at the Mid-State Conference Tournament in Norfolk. The Blue Devils defeated Madison 72-60 on Saturday were led by Shawn Jenkins who scored a career-high 26 points.

"Madison played well coming off a big upset win over West Point C.C.," Wayne head coach Rocky Ruhl said. "That momentum carried them."

The Dragons took advantage of a relaxed Blue Devil team in the first quarter and outscored Wayne 21-17.

With Madison on top, Wayne responded in the second quarter with 12 points, while the Dragons matched Wayne to take a 33-29 lead into halftime.

After an equal contest in the first half, the Blue Devils came out in the third quarter and scored 25 points to reclaim a 54-46 advantage.

"We came out of the half and played a great third quarter," Ruhl said.

With a strong performance in the third quarter, Wayne kept on pace and scored 18 points, to slay the Dragons 72-60.

Aside from Jenkins performance, Jesse Hill and Reggie Ruhl contributed 17 and 14 points respectively.

Hill and Cory Harm also led the Blue Devils each with five assists.

"Cory created some nice opportunities for Shawn by driving and dishing to him," Ruhl said

Prior to the Blue Devils win over the Dragons, Wayne defeated a hard-nosed Hartington C.C. team

The Blue Devils got off to a rough start against the Trojans hitting 1-12 shots from the field in the first

quarter. Wayne's first quarter performance gave the Trojans a slight 10-3 lead going into the second quarter.

"We started slow...the shots were there but we seemed to be playing a little quicker then normal," Ruhl said.

In the second quarter the Blue Devils managed to slow the tempo down, and returned to a state of normality.

Wayne's defense showed true form in the second quarter and forced several Trojan turnovers that resulted in several transition scores.

"I thought we responded well in the second quarter," Ruhl said.

Blue Devil girls squander in **Mid-States Conference action**

By Casey Schroeder

The Wayne Blue Devil girls finished 1-2 in Mid-State Conference Tournament action at NECC in Norfolk.

Wayne dropped a 76-54 decision to Norfolk Catholic Thursday night, and came up short in a 52-44 loss to Pierce on Saturday.

Against the Knights, Wayne put together a sheepish performance that cost them in the end. "I think we came into the game

intimidated, no one wanted to take Wayne head coach charge." Courtney Mass said.

"I need a leader, someone who wants that challenge.'

In the first half of action, the Knights forced the Blue Devils to turn the ball over repeatedly, and capitalized by scoring 42 points.

Going into the third quarter and trailing by 26 points, the Blue Devils regained composure and surmounted a comeback against the Knights.

Through a combined effort Wayne scored 24 points in the third quarter, and limited Norfolk Catholic to just 18 points.

However, the Knights while limited by the Blue Devils controlled a 60-40 advantage.

The Blue Devils efforts in the second quarter yielded 20 points, and gave the Blue Devils a 23-18 halftime lead.

kept Wayne in check throughout the third quarter, matching the Blue Devil's 11 points.

maintained a minor 34-29 lead.

It was only after the Blue Devils posted 16 fourth quarter points that Wayne secured an eight point lead and a 50-42 win.

Offensively Wayne was led by Shaun Kardell who put together a perfect 15 point performance.

Kardell was 3-3 from the free throw line and went 2-2 from three point range.

"Kardell played a great game, he was perfect from beyond the arc and at the free throw line," Ruhl said

Trojans was Hill with 14 points. In the second half the Trojans Friday night.

Rathje scores 25 points enroute to a 73-65 win over University of Mary

By Casey Schroeder

The Wayne State men's basketball team rebounded from a 68-61 Northern State loss on Friday, to edge out the University of Mary 73-65 on Saturday.

In Saturday nights match-up the Wildcats built a 21-12 lead, before reclaim a 25-23 lead with 6:17 left in the half.

UM maintained a small lead, but Marauders 29-29.

With the game knotted up, WSC went on to score five of the final seven points in the half to earn a narrow lead.

After one half, the 'Cats controlled a three point 34-31 lead.

"We had to beat them somehow, and we went in and tried to take over everything," freshman forward Sean Thurston said.

With a slight advantage over UM, WSC came out in the second half and compiled a 12 point lead with 15:13 left in the game.

Bryce Caldwell highlighted the 'Cats success with a three pointer to give WSC a 49-37 lead.

UM rallied back to get within five points of the Wildcats on three different occasions, but failed to overcome a resilient Wildcat team.

With the game on the line, WSC put together an impressive stand and converted five of eight free majority of the half. throws in the final minutes to give the Wildcats a 73-65 win.

"I felt that we came together as a three points. team on Saturday night to get the WSC forward Jonathon win,"

Thomas said. Senior Matt Rathje led all Wildcat scorers with 25 points, which tied a previous career high mark.

"We felt like we had an advantage UM used a 13-2 scoring run to inside going into the game," WSC head coach Rico Burkett said. "Our post players did a great job."

Other Wildcats who lent a help-WSC responded to tie the ing hand were Jamar Diggs, who scored his second double-double of the season with 18 points, and 10 rebounds and Caldwell with eleven points

"Matt Rathje was having a good game and we found ways to get him the ball, and he came through big for us," Thomas said.

Prior to Saturday night's win, the Wildcats took to the court against the eighth-ranked Northern State Wolves.

Northern State showed their dominance early, as the Wolves took a 12 point lead in the first seven minutes of the game.

Throughout the remainder of the half, the Wolves continued to badger the Wildcats and claimed a 38-25 lead before intermission.

"Our shooting was bad, but our defense helped out," Thurston said. In the second half, Northern State controlled a lead through a

With 1:47 remaining Diggs hit 1-1 3 Caldwell 6-20 0-0 15 one of two free throws, to bring a win within reach for the 'Cats.

As the Wolves led 60-57, Northern State's Luke Wicks scored four points, to put the Wolves on top 64-57 with 1:27 remaining.

"We played well in the second half, but we just made a couple of mistakes down the stretch that hurt us," Thomas said.

The final blow was dealt to the Wildcats, when the Wolves hit six of eight free throws to give Northern State the 68-61 triumph.

The 'Cats were led by Thomas with 20 points, while Diggs added 16 points.

WSC shot a season low 34.9 percent from the field. The Wildcats also hit a season low 19.2 percent of their shots from the three point line.

Over the weekend the Wildcats improved their record to 13-9 overall, and 8-5 in the NSIC.

The Wildcats will return home to host third ranked Winona State on Friday night and Upper Iowa on Saturday.

The Wayne State Wildcats' men's and women's team competed at the Minnesota State University Open in Mankato, Minn. last Friday and Saturday.

The Wildcat men finished the meet with one win and a NCAA national provisional qualifying mark.

The 'Cats women's team finished the meet with two wins, three school records and four NCAA national provisional qualifying marks.

"I was very pleased with the overall team performances we had at this meet," WSC head coach Marlon Brink said.

entered athletes have a season or lifetime best mark."

Senior hurdler Rachel Roebke, won the 60-meter hurdles in 8.82 seconds to claim a new school record and NCAA national provisional qualifying mark.

Kylie Herian placed second in the 60-meter hurdles with a time of 8.84 seconds, to improve her previous national provisional qualifying mark of 8.88 seconds set on Jan. 19.

Herian also finished third in the 200 meter dash, with her 26.19 second performance.

The Wildcats other win came from Katie Wilson who earned first in the shot put with a throw of 46' 2". Wilson also earned fifth in the weight throw at 52' 10 3/4".

Wilson's effort earned her a national provisional qualifying mark in the shot put.

Lacey Jensen finished ahead of Wilson in the weight throw to earn fourth and a provisional qualifying mark.

"Jensen had a big breakthrough in the weight throw...she has been close many times," Brink said.

Wildcat Jade Lippman placed fourth in the pentathlon with 3,035 points, which set a new school record.

The final highlight for the Wildcats came from Christina King in the 500 meter dash, as King placed fourth in 1:20.01. to establish a new school record.

Brett Suckstorf added another win to previous accomplishments with throw of 55' 10 1/4" in the 35-

mented the 'Cats men's squad by placing in four different events. Pilakowski took fourth in the long jump (22' $1 \frac{1}{2}$ "), fourth in the 60 meter dash (7.00), sixth in the 200 meter dash (22.82) and sixth in the triple jump (43' 1/4").

"He (Pilakowski) is making steady progress and getting into the kind of shape that will help him lead our team at the NSIC Championships," Brink said.

The final high point for the Wildcats at the open was the second place finish of the distance medley relay team.

The combined efforts of Cheto "We had over 85 percent of our Cerda, Jacob Davis, Ben Jansen and Nate Preston finished with a time of 10:16.41 and a national provisional qualifying mark.

Wayne State's next action will be at home on Feb. 9. as the 'Cats will host the Wildcat Open that is scheduled to start at 1 p.m. WSC Women's Results

Three Trojan girls hit double digits in final home stand

By Casey Schroeder

For several Wakefield senior girls, Tuesday night's game versus Winnebago marked one final attempt to defend the home court. The Trojans girls didn't disap-

point, as Wakefield defeated the Indians 50-35. "I'd like to thank the seniors for

four years of commitment to the girls basketball team," Trojan head coach Matt Brenn said.

"They are a great group of kids, and one that I hate to see leave."

While sentiment may have filled the gym, Wakefield in all reality was dealt a physical and brutal first quarter by the Indians.

Winnebago took a early lead with its aggressive defense before Wakefield rallied back to take a 10-9 first quarter lead.

Gage Rethwisch scored 14 points and lead the Wayne Blue Devil eight grade boys to a 30-25 road win last Thursday night.

The Blue Devil squad climbed to a small lead of Norfolk Catholic as four different Blue Devils connected from the three point line in the first quarter.

Aside from success on offense, Wayne limited the Knights to tenfirst half points.

Wayne's Quentin Jorgensen and Luke Trenhaile combined efforts and limited the Knights' leading score to just two points in the final three quarters.

With a win over the Knights, Wayne continued its success with a 45-30 win over Laurel-Concord.

Wayne took a 23-12 lead into halftime as the young Blue Devils put up 17 points in the second quarter.

Despite the Indian's efforts Wakefield took a 20-14 advantage into halftime.

In the third quarter the Indians switched from a 2-3 zone to a 1-2-2, after having moderate success in the first half.

With the new defense scheme the Trojans benefited on several occurances posting 15 points in the quarter.

"They started in a 2-3 and switched to a 1-2-2 zone, it surprised me, but it worked out for us as we got several layups," Brenn said.

Wakefield started the fourth quarter with a 35-23 lead and started to pull away quickly.

WSC HELP Clinic Counselors Provide Help for Personal Concerns

Ten counselors are serving the community this semester with the Help Clinic at Wayne State College. Anyone needing help with personal issues may call to arrange an appointment with a counselor.

The counseling services are made available to all members of the community at no cost by Wayne State College. Appointments may be scheduled in Wayne and in Norfolk. The counselors understand the stress involved in dealing

with problems such as grief, worry, family and relationship conflicts, emotional pain, and alcohol and drug abuse. Talking to a professional about these issues can provide support, guidance, and may help to find new solutions.

The Help Clinic would be happy to answer any questions you have about the counseling. Call (402) 375-7210 to inquire. If you reach the answering machine, leave your name and phone number and your call will be returned.

The counselors are supervised by: Dr. Keith Willis, a Licensed Psychologist and Licensed Alcohol and Drug Counselor; Dr. Jan Stalling, Licensed Mental Health Professional, National Certified Counselor and National Certified School Counselor; Dr. Terry Hamilton, Licensed Mental Health Professional; Dr. Debi Bonds, Provisionally Licensed Mental Health Professional; and Sophia LeMoine, Licensed Mental Health Professional and Licensed Alcohol and Drug Counselor.

Students available to provide counseling include:

Lori J. Brand was awarded the Bachelor of Science degree in the fields of Psychology and Sociology from Wayne State College 2004.

> A large plaque is displayed on the wall of the Community Activity Center listing each honoree on individual copper nameplates.

Each nameplate is arranged chronologically according to the year in which the designation was earned.

Also a source of pride for the Wayne Scouts is the monthly recycling drive started more than 30 years ago and considered to be the longest such youth operated community service project in the state. In 2007 Troop 174's recycling efforts accumulated 380,000 lbs. of paper and 2,351 lbs. of aluminum cans. In just one year, this project

has saved 3,230 trees, 1.33 million gallons of water, 90,240 gallons of oil, 570 cubic yards of landfill space and 760,000 kilowatt hours of energy, according to troop committee recycling chairman Jeff Carstens.

"Our longstanding recycling program is a win-win-win situation," said Carstens. "In addition to the obvious benefit to the environment, the community saves money by placing less waste in the landfill, and our troop generates funds used to supplement the cost of camping trips.'

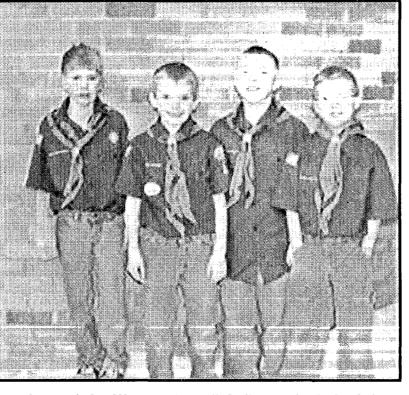

Wayne Scouts also assist in a myriad of other local events, including the Kiwanis Pancake Feed, Wayne County Fair Barbecue and Chicken Days' details.

Wayne's current troop, chartered by Our Savior Lutheran Church, is inter-denominational and a consolidation of three different Scout troops that existed over the past 85 years. Scoutmaster is Mark Klassen and committee chairman is Bill Long

In addition to weekend campouts in the immediate area, the local Scouts also enjoy extended camping trips to Camp Cedars near Fremont; Ben Delatour Scout Ranch near Ft. Collins, Colo.; Philmont Scout Ranch near Cimarron, N.M. and the Boundary Waters Canoe area in northern Minnesota and southern Ontario, Canada.

A number of the Wayne Boy Scouts also attend the National Jamboree held every four years.

According to Klassen, over 90 percent of the Wayne Scouts are involved in local school sports, band, choir and various church youth groups.

"We encourage the boys to be involved in every aspect of the community so they can become wellrounded citizens," he said.

Troop funds from the paper drive are supplemented by contributions from the Wayne United Way, Wayne Kiwanis Club, Our Savior Lutheran Church, many local businesses and individual donors through their contributions to the Mid-America Council Friends of Scouting program.

In 2007, a total of \$15,000 was raised locally to help fund the Wayne Scouts' trip to the National Seabase in Florida.

Conservation efforts recognized at annual Lower Elkhorn NRD Awards Banquet on Jan. 17

The Lower Elkhorn Natural Assistant, Wayne County for 10 Resources District (LENRD) board honored outstanding conservationists at their annual awards banquet on Jan. 17. The event was held at Prenger's Restaurant in Norfolk and attracted over 90 peo-

A history of Scouting in Wayne

Scouting in Wayne began informally in 1914 -- four years after the movement was founded in the United States.

Leaders of this "unofficial" local group were W.R. Ellis and Paul Mines. In 1922 Prof. Arthur Gulliver, St. became Wayne's first Scoutmaster when the group registered as Troop 1 in January 1, 1923. Gulliver served for 18 years -- the longest tenure of any Wayne Scoutmaster.

In 1929, Scouting units across the United States were organized into Regions, Councils, and Districts. At this time, Wayne was assigned to the Covered Wagon Council (now Mid-America Council) with headquarters in Omaha. Also at this time Wayne's Troop 1 became Troop 174. Although the troop number has changed. Wayne's group still is considered to be one of the longest continuously chartered Troops in Nebraska.

In 1925 Prof. K.N. Parke and T.S. Hook organized an "unofficial" unit which registered as Troop 175 in 1929 with Walter Albert as Scoutmaster. This Troop was not registered from 1940-1944 during World War II but then registered every year thereafter until it merged with Troop 174 in 1983.

Wayne's troop 221 started in 1966 with Jewell Schock as Scoutmaster. It combined with Troop 174 in 1976.

Scouting for younger boys in Wayne began in 1945 with J.W. Sutherland serving as first Cubmaster of Pack 175. Pack 174 formed in 1959 followed by Pack 221 in 1968. The three different Packs -- like the three different Troops -- have merged into the single unit of Pack 174.

Wayne Boy Scouts regularly perform numerous community service projects including monthly paper drives and assistance at the County Fair and Kiwanis Pancake Feed. Individual service projects, by older Scouts advancing to the Eagle rank, also have benefitted the area.

During weekly meetings, Wayne Boy Scouts learn about safety, citizenship, first aid, and camping. In addition to weekend campouts in the immediate area, local Scouts in recent years have enjoyed extended camping trips to Camp Cedars near Fremont, NE; Ben Delatour Scout Ranch near Ft. Collins, CO; Philmont Scout Ranch near Cimarron, NM; and Boundary Waters Canoe Area of northern Minnesota and southern Ontario, Canada. Local Scouts also have attended National Jamborees held across the country at various locations every four years.

Cornhusker Girls' State - What is it all about?

Winside are searching for female Winside Public School to represent

252, American Legion Auxiliary of Cornhusker Girls State to be held at the University of Nebraska -Junior Class members from Lincoln City Campus, June 1 - 7. This is an intense week of learnthe Unit, the school and the com- ing about their city, county and

Members of Roy Reed Unit No. munity at the 67th Session of state government as citizens of Girls State 2008.

> Since Girls State began in 1939, millions of high school aged young women have had the opportunity to experience our country's democratic form of government. The young women, members of a high school Junior class, will participate in debates, campaign for office, attend party meetings and legislative sessions, vote and make life-long friends.

The Cornhusker Boys/Girls State program is unique in that Nebraska is the ONLY state that holds its respective Boys State and Girls State sessions at the same time. This is due largely to the caliber of your men and women we choose to represent our Posts and Units, communities and schools.

Girls State delegates, who come from across the entire state of Nebraska, are sponsored by local American Legion Auxiliary Units and have been selected to partici-

their demonstrated qualities of leadership and character, participation in school and community activities, and scholastic abilities.

The main objective of Girls State is to educate the participants about the duties, privileges, rights and responsibilities in a democracy so they will return to their communities as better citizens with a desire to participate in our/their government. Participants will have achieved a greater understanding of exactly how the government of the State of Nebraska functions, both on the municipal and state levels.

The weeklong program will be filled with speakers and activities designed to provide a participatory learning experience. Girls State Delegates will file for a city, county or state elected office, campaign for that office, participate in candidate and platform debates, hold party caucuses, and cast ballots. They will elect their own Governor. The highlight of the week is a visit to the State Capitol where an inauguration ceremony will be held and delegates will visit the office of the position for which they were elected or appointed. The Girls State legislature and District and Supreme Court sessions will be held. Participants look forward to the

joint session with Boys State and address by the Governor. The reunion banquet, where Girls Nation Senators are announced, and alumni Citizens of Girls State are invited back to join this year's delegates. Additionally, graduation ceremonies are held on Saturday where the Delegates graduate to Girls State Citizens capping off a week of excitement, sleeplessness, new friends, and a once-in-a lifetime experience that will stay with them for a long, long time. The experience of the week at Girls State will result in Delegates becoming more involved Citizens in

GRAND

pate in the program on the basis of the future, aware of our unique form of government (unicameral), its impact on individuals and what makes our state and country great.

Girls State is an all-volunteer program. The adults who coordinate this week are all Auxiliary members from across Nebraska who are giving of their time, talents and absence from their families to spend this week with these young ladies in educating our youth on government affairs. Prior to this busy week, many months of planning have gone into making this program work. Girls State is a leadership action program where you take part in a practical government course designed to develop a working knowledge of the structure of government and to impress upon its participants that government is just what you make of it.

Once the week draws to a close upon graduation from delegates to citizens it is hoped that each young lady is able to bring home a greater knowledge of the ideals and principles of our country's democratic form of government, be better informed as to her duties, rights and privileges of citizenship, have a desire to be an active participant in her local, county, state or national government and will have the confidence and pride to take on greater responsibility as a Citizen of Nebraska, Wayne County, and even the State of Nebraska.

Female junior class members at Winside Public School are asked to contact Unit Chairman Greta Grubbs at (402) 286-4257 at your earliest in order to complete an application. Interviews will be conducted by the Selection Committee and that date and time will be determined once applications have been completed. This is a chance of a lifetime, don't let it pass you by.

The Unit will select a Delegate and Alternate so they are looking for a high level of interest from these young women. As a final note to parents, this is a time you need to encourage your children to take advantage of programs that will be a lasting impact on their citizenship for a lifetime.

It should be noted that The American Legion sponsors the Junior Law Cadet Program with the Nebraska State Patrol and any young lady making application to Girls State is also eligible to apply for this program. The two programs are held in June; however, different weeks. This again is an excellent program made available to our youth without cost to them or their families. Costs of both programs are borne by the respective Unit/Post sponsoring the youth on the local level. Contact the Winside American Legion Commander Dean Mann for more information on the Junior Law program.

RASTEDE SCHOLARSHIP

Sophomore and junior undergraduate college students who are graduates of Allen Consolidated Schools are encouraged to apply for the Alvin G. and Anita D. Rastede Scholarship, available through the Allen School Foundation.

In order to apply for this \$2,000 scholarship, the following questions must be answered and then sent to the Allen School Foundation, PO Box 190, Allen, NE 68710-0190 by March 30, 2008. One scholarship will be given and must be used during the 2008-2009 college year for undergraduate studies. The recipient will be notified by April 30 and required (or a representative) to attend the May 10, 2008 graduation ceremony for formal recognition.

Questions to be answered are as follows: 1. What is your college grade classification and GPA? 2. What are your major and/or minor fields(s) of study and career goals? 3. In what on campus activities/work and organizations are you involved? 4. In what offcampus activities/work and organizations are you involved? How will this scholarship be beneficial to you and why are you deserving of it?

FOOD CHECKOUT WEEK

Americans benefit from a safe, reliable food supply that remains remarkably affordable. In fact, in just five weeks, the average American will have earned enough disposable income to pay for his or her food supply for the entire year. That's why the Dixon County Farm Bureau is celebrating the fifth week of the year as Food Check-Out Week. In 2008, we commemorate Food Check-Out Week from Feb. 3-9.

The latest statistics compiled by the U.S. Agriculture Department indicate American families and individuals spend, on average, just 9.9 percent of their disposable personal income for food.

Applying that figure to the calendar year means the average household will earn enough disposable

available for spending or saving-to at the Allen Fire Hall. The 6:30 pay for its annual food supply in event is open to women of the comonly five weeks.

By contrast, residents of Japan enough to pay for their annual food supply; in China, it would take until April 5 and in Indonesia, until July 20.

The percentage of disposable personal income spent for food in the United States has declined, gradually but consistently, for many years. The USDA says food is more affordable today due to a widening gap between growth in per-capita incomes and the amount of money spent for food.

This overall decrease is made more notable by the fact that. trends indicate Americans now buy morë expensive convenience food items for preparation at home, as well as more food away from home. VALENTINE'S SUPPER

Nelson deployed overseas

Shellie J. Nelson deployed overseas to a forward operating base to support the missions of Operations Enduring Freedom and Iraqi Freedom.

Operation Enduring Freedom is the official name given to anti-terrorism military operations involving U.S. troops and allied coalition partners. Reserve component members from all branches of the U.S. armed forces have been mobilized, activated and deployed along with active duty members to support the war against global terrorism.

Mission objectives encompass combating the international terrorist network or regime forces outside the borders of the United States. U.S. troops serve in South and Southwest Asia, Central Asia, the Arabian peninsula, the Horn of Africa, islands in the Pacific, and Europe.

Operation Iraqi Freedom is the official name given to military operations involving members of the U.S. armed forces and coalition forces participating in efforts to free and secure Iraq. Mission of West Monona, Onawa, Iowa.

Air National Guard Tech. Sgt. objectives focus on force protection, peacekeeping, stabilization, security and counter-insurgency operations as the Iraqi transitional governing bodies assume full sovereign powers to govern the peoples of Iraq.

HAVING MORE RETIREMENT ACCOUNTS **IS NOT THE SAME** AS HAVING MORE MONEY.

Many investors won't put all their retirement savings at a single broker because they believe it's far too risky. Actually, there may be more risk in having multiple accounts. Without a single focus, it can be difficult to keep track of your investments and to see if you're properly diversified.* At the very least, multiple accounts usually mean multiple fees.

Bringing your accounts to Edward Jones could help solve all that. Plus, one statement makes it easier to see if you're moving toward your goals.

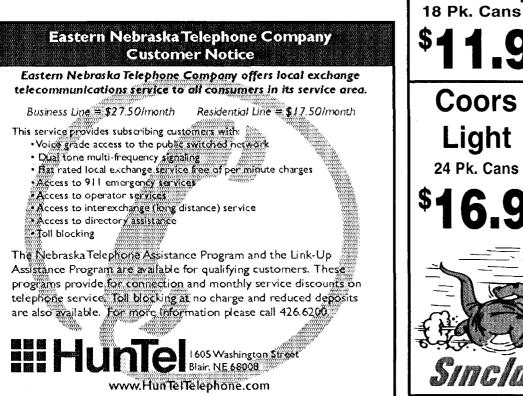

*Diversification does not guarantee a profit, nor does it protect against loss

To learn why consolidating your retirement accounts to Edward Jones makes sense, call your local financial advisor today.

Nebraska State Patrol accepts trucking company donation

Patrol will accept an important teaching aide for new recruits. Roadway Express, a leading transporter of industrial, commercial & retail goods through-out Canada, Mexico and the United States, with a hub in Omaha is providing the Nebraska State Patrol Training Academy in Grand Island with a truck-tractor.

This generous donation will assist the Nebraska State Patrol in providing training to all Nebraska law enforcement officers, increasing the awareness and understanding of the special conditions that exist while conducting roadside stops and inspections.

"Law Enforcement Officers encounter unique challenges when working with commercial motor vehicles," said Colonel Bryan Tuma, Superintendent of the Nebraska State Patrol. "These unique conditions can often heighten the dangers that officers already

On Feb. 4, the Nebraska State face. The assistance provided and the professionalism demonstrated by the Roadway Express Safety Team is greatly appreciated."

> This is the second donation from the trucking company. In 2007, Roadway donated two semi trailers for teaching purposes.

> "These donations represent another part of the trucking industry's tireless commitment to support the goal of reducing commercial motor vehicle crashes on our highways," the Colonel added.

The tractor-trailer was presented to the Nebraska State Patrol on Feb. 4 at the Nebraska State Patrol Training Academy, 3600 N. Academy Road, in Grand Island, Nebraska. Colonel Bryan Tuma, will accept the donation from Officials of Roadway Express. The media is invited to attend the presentation and learn more about the important partnership between law enforcement and the trucking industry.

Main Street hasn't met for several weeks, but will be meeting Tuesday, Feb. 12 at 8 a.m. at the South Meeting Room (SMR) of the City Auditorium. The change in meeting places is necessitated by the rental of the Main Street Building to Diane Peterson, who plans to convert the building to a Physical Therapy unit. At this meeting we will be looking for comments from Wayne citizens on the community Christmas decorations. Main Street Wayne is looking for suggestions on what direction they might take in improving the Christmas decorations on Main Street and the total community. City officials will also be in attendance and the meeting is a regularly scheduled Main Street Board meeting

that the funding for our roads sys tem needs a boost. Our road system is very important to the economic vitality of our state, both in urban and rural Nebraska.

It is predicted that federal funding for roads could drop nationwide by an estimated \$16 billion in 2009, as a result of the federal Highway Trust Fund incurring a negative cash balance. Nebraska's share of this decrease in funding is expected to be about \$114 million, meaning the state could get \$80 million less and the cities and counties could experience a \$34 million loss.

With the projected loss in federal funding, total funding for roads in Nebraska is predicted to fall to approximately \$270 million for construction purposes. If this predicted scenario comes about and if no additional state funding is appropriated, the roads budget would cover only traditional maintenance and necessary bridge replacements, with some funding left to continue building the six lanes of Interstate between Lincoln and Omaha, but at a slower pace. Most every other project would be placed on hold. Just preservation of the current system alone costs

In addition to federal funding. state revenues make up more than 1 percent per year.

The Transportation Committee studied several alternatives to increase funding for the roads system. Some of the suggestions discussed included a general fund appropriation, a sales tax on auto parts, an increase in the gas tax, indexing the gas tax, imposing a sales tax on gasoline, a severance Department of Road's master plan, tax on ethanol, bonds, a by-themile tax, toll roads, and public private partnerships. Senator Deb Fischer, the chair of

the Transportation andTelecommunications Committee, introduced LB 846, which would establish a five percent sales tax on motor fuel at the wholesale level. To offset this new tax, the fixed to roads. State revenues used to rate gas tax would drop from 10.5 cents to 2.5 cents. However, this change in the taxing structure would result in a 3 to 4 cent increase in a gallon of gas and would bring in an approximate \$48 When Nebraskans drive less due to million in additional revenue, with smaller, more fuel efficient cars, \$44 million going to the Department of Roads and \$4 milsufficiently to keep up with the lion to the cities and counties. The revenue generated would increase as the price of fuel rises.

I realize that the roads budget needs an injection of funds. However, at this time I am unsure what funding method I will support. I expect the roads issue to be a major topic of discussion during legislative session. thisIrregardless of what the Legislature decides to do, in the I would like to see roads officials make it a priority to finish one project before starting another project. During morning sessions this

past week, the Legislature spent most of its time discussing a bill that would encourage movie production in Nebraska. LB 235 authorizes rebates for production costs incurred in Nebraska for film production. Some senators were concerned with the associated costs

The Nebraska Department of Banking & Finance began using Nationwide Mortgage the Licensing System (NMLS) on Jan. 2. Nebraska is among the first of seven states in the nation to use the standardized and mandatory process to license mortgage lenders.

The NMLS, a joint project of the Conference of Bank Supervisors (CSBS) and the American Association of Residential Mortgage Regulators, was created to form a regulatory framework for requested for the nation's residential mortgage lending industry. In Nebraska, all mortgage bankers and mortgage brokers seeking a license are required to use the NMLS.

Commercial banks and saving banks which take deposits, whether state or nationally chartered, are not required to be licensed under NMLS. In addition, Nebraska does not require the licensing of individual employees of mortgage bankers.

The CSBS held a demonstration and telephone conference call specifically for the news media this morning. If you were unable to attend, you may want to visit the following websites and/or speak with state and federal representatives who were on today's call. Additional background about the NMLS is provided below.

Insoluble fibers are found in the skins of fruits and vegetables and in products that are made with whole grains. The product ingredient label will help you locate these foods in your grocery store. If a product is made from whole grain, it means the manufacturer used the raw grain and not a refined product.

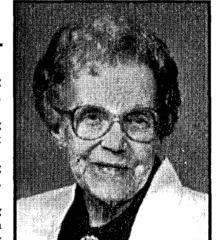

The Wayne Herald

Refined grains contain only the ground endosperm. Whole grains retain the bran and the germ as well as the endosperm. The insoluble fibers are found in the bran and germ of the whole grains. Some ingredients such as enriched flour are refined and then a portion of the bran and germ are reintroduced to the product, but in a lesser amount than in the whole grain product.

The recommended amount of fiber in a daily diet should be around 25-to-35 grams, and ideally half of all grains in a diet should consist of whole grains.

When increasing the amount of insoluble fiber in the diet, also increase the amount of water intake, to receive the maximum health benefit from the fiber.

Attorney General Bruning announces \$3 million recovery

Attorney General Jon Bruning announced the recovery of more than \$3 million by the Medicaid Fraud Control Unit (MFCU). The unit investigated more than 80 cases of fraud and abuse in 2007. The MFCU also secured 10 criminal convictions last year for Medicaid fraud or theft from vulnerable adults.

"When providers steal from Medicaid, they're stealing from Nebraskans," said Bruning. "We'll prosecute anyone who tries to get away with it."

Who's committing Medicaid fraud? According to MFCU records, most cases in 2007 involved mental health therapists, home health providers and dentists.

The unit also investigates physical or financial abuse of vulnerable adults who live in Medicaid funded facilities, like nursing homes.

The MFCU investigated over 300 cases and recovered more than \$10 million since its creation in July of 2004. The recovered money goes back state and federal Medicaid programs and to the state's school fund. People who think a Medicaid provider is committing fraud should contact the Medicaid Fraud Control Unit at 800-727-6432 or e- \mathbf{mail}

Sporting events highlight weekend

game?

I don't even typically watch the Super Bowl, because of all the hype, but I was drawn into this one in the second half. And I am so glad I saw that fourth quarter; that incredible long pass, that amazing Giant defense, and the performance of the young Manning boy. What must it be like to have two sons currently playing quarterback in the pros? I cannot imagine. As one of my neighbors said this afternoon, "kind of like the Mackevicka dynasty at NU."

And speaking of NU, our basketball teams had a great weekend, also; the women rallying in the last four minutes to defeat Missouri and the men ahead of Iowa State most of Saturday afternoon. Reading Husker.com this evening, I find Marics and Griffin are both Big 12 athletes of the week; they certainly deserve that! And our other favorite Nebraska team, Creighton, somehow found a way to be ahead of the Shockers by the end of that game. Oh, I almost forgot, Nebraska wrestlers put on a great show in a dual with Mizzou on Saturday eve. It was almost too much!

In the interest of full and honest disclosure, the Avoca fire and rescue did not raise \$14,000 last year; motorcyclists law, and that dis-

some of the four wheeler accidents can do to heads, and it isn't pretty. I'm impressed that a lot of people wear them when on skate boards, and bikes, and any time a tumble could result in brain trauma. (It was voted down, thank goodness.)

If there is one thing you want to avoid, it's brain trauma. I find that with each passing year, mine seems to have lost more cells than it should, and it isn't easy to compensate. So, with that observation, I will share today's joke by e-mail. It's called "the dumbest kid in the world."

A man was in a barber shop when a little boy came in. The barber said, "this is the dumbest kid in the world. Watch, I'll show you." With that, he took a dollar bill and two quarters and asked the boy which he'd rather have. The boy took the two quarters. As he went out the door, the barber said, "See. I told you." After the man left the barber shop, he encountered the boy coming out of the ice cream store. He asked him why he took the quarters. "Because," said the young fellow as he licked the ice cream cone, "when I take the dollar, the game ends.'

Keep using those brains, folks, you don't want to be the dumbest person in the world!

NOTICE TO ALL CUSTOMERS OF THE NORTHEAST NEBRASKA PPD

Ensuring the safety of our employees, customers and the general public is an important responsibility of the District. We take this responsibility very seriously. However, customers also share in the responsibility to help us prevent accidental electrocutions.

Customers must avoid constructing grain bins or other structures too close to existing power lines. Customers must follow National Electric Safety Code standards. If there is a question about the safety codes, then please call Northeast Nebraska PPD and we will help answer your questions. We will even come to the construction site if necessary.

Effective February 1, 2008 the District will begin stricter enforcement of the National Safety Codes by:

- Refusing to connect electric service to bins and structures that do not follow codes for clearance from the District's power lines.
- When the District deems it necessary to move its lines to maintain safe clearances due to an improperly placed bin or building started after February 1, 2008, then the District will bill the customer/owner for the full cost of moving the power lines.

To avoid potential extra cost to your building project, please call the District as soon as possible when making decisions about where to site a bin or other structure.

Overhead Power Lines & Grain Bin Location

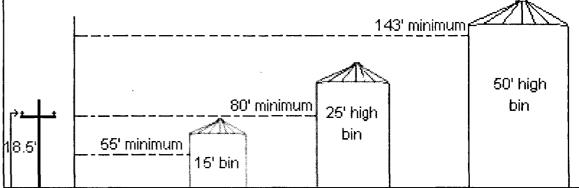

Illustration refers to loading side of a grain bin. In addition, power lines must be at least 18 feet above the tops of new grain bins when the line crosses over the bin. Contact NeNPPD before moving or building a new bin to ensure you meet National Electric Safety Code requirements.

Proper placement of grain bins in relation to existing high voltage power lines is extremely important. Planning for adequate clearances can reduce the risk of accidental contact between power lines and tall farm equipment such as portable grain augers, elevators or grain probing devices.

In addition to safety considerations, there are also requirements for power line clearances, which are mandated by national wiring codes. A bin placed too close to a power line may need to be moved or the power line relocated (i.e. raised or rerouted), due to a code violation. These changes are likely to be expensive and will be charged to the bin owner. Talk with us before the bin site is confirmed.

Call us at 1-800-750-9277 if you have questions on the placement of your bin site near power lines.

DESCRIPTION: The North Half of Section 11, and the Southwest Quarter of Section 11, in Township 28 North, Range 4 East of the 6th P.M., Dixon County, Nebraska, less railroad right-of-way and less highway right-of-way, comprising 466.7 acres, more or less;

TAXES: The 2007 taxes on the farm were \$11,027.26

COUNTY ASSESSOR AND FSA DATA: Farmland: 466.0 acres. Cropland: 402.2 acres. Corn Base: 206.4 acres with a 72 bu. direct and countercyclical yield. Soybean Base: 94.5 acres with a 26 bu. direct and countercyclical yield. Wheat Base: 23.6 acres with a 30 bu. direct and countercyclical yield. Oats Base: 18.3 acres with a 51 bu. direct and countercyclical yield. Barley Base: .3 acres with a 38 bu, direct and countercyclical yield. Direct payment for 2007 was \$4,790.00.

IMPROVEMENTS: The acreage consists of a cozy 3-bedroom home with a beautiful fireplace in family room along with a very nice machine shed (approx.) 96 ft. x 40 ft. with cement floor, electricity and water; barn (approx.) 38 ft. x 26 ft.; old hog house (approx.) 40 ft. x 18 ft.; 5 storage bins that are approximately 3000 bu. each. Further information regarding the acreage and residence available upon request.

Most of this farm lays very nice and is a very good producer. There is a nice dam for good fishing upon the premises and a few areas of timber that offer excellent deer hunting.

Interested parties are encouraged to come upon the premises to gain a better view of the lay of the land. Stop by the residence in the northwest corner of the farm and let John Meyer know that you want to drive upon the premises.

For the 2007 crop year there were 222.9 acres of corn planted; 72.1 acres of alfalfa; 39.4 acres of oats; along with 30.4 acres of ground in the CRP program which comes out in September of 2008 and in addition there was 37.4 acres of pasture. All of the pasture has been previously farmed. Buyer will assume the terms of the CRP contract which pays \$66.00 per/acre.

Purchaser will pay 15% of the purchase price on date of sale and sign a sales contract agreeing to pay the balance on or before April 1, 2008. Title insurance showing merchantable title will be furnished. Possession will be given to the buyer on the closing date after the purchase price has been paid in full. Seller will pay the 2007 and prior real estate taxes. The right to reject all bids is reserved. Additional terms and conditions announced on the date of sale will take precedent over the above information. The above information is believed to be correct but not guaranteed and buyers are urged to make their own independent investigation.

PUBLIC HEARING NOTICE LOWER ELKHORN NATURAL RESOURCES

DISTRICT THURSDAY, FEBRUARY 21, 2008 7:00 P.M. AT THE LIFELONG LEARNING CENTER IN NORFOLK, NEBRASKA

Notice is hereby given that the Lower Elkhorn Natural Resources District (NRD) will hold a public hearing on Thursday, February 21st, 2008, at its monthly Information, Planning and Programs Subcommittee meeting, which begins at 7:00 p.m., at Suite 101 of the Lifelong Learning Center, 601 East Benjamin Avenue, Norfolk, Nebraska. The purpose of the hearing is to receive public comment on the amendment to the NRD Groundwater Management Area Rules and Regulations: 1) to remove the requirement for approved flow meters to have a flow rate readout; and 2) to no longer allow people to remove a flow meter from the pipeline for off-season storage.

Both oral and written testimony will be accepted at the hearing on February 21st, 2008. Written testimony may also be submitted by mail to the Lower Elkhorn NRD, P.O. Box 1204, Norfolk, NE 68702, or delivered to the Lower Elkhorn Natural Resources NRD office, Suite 101 in the Lifelong Learning Center, on the Northeast Community College Campus, at 601 East Benjamin Avenue, in Norfolk, Nebraska. Written testimony will be accepted until 5:00 p.m. CST, Wednesday, February 27th, 2008.

The Groundwater Management Area Rules and Regulations enforce policies established in the NRD's Groundwater Management Plan, which was adopted by the NRD Board of Directors and approved by the Nebraska Department of Natural Resources in 1996. The contents of the Groundwater Management Plan include the NRD reservoir life goal, which is to "provide an adequate supply of acceptable quality groundwater to forever fulfill the reasonable groundwater demands within the NRD for domestic, municipal, agricultural, industrial, wildlife and other uses deemed beneficial by the NRD Board" as well as information about groundwater and its use in the NRD, and the goals, policies, objectives and programs of the NRD Board of Directors to achieve the reservoir life goal. No changes are proposed for the NRD Groundwater Management Plan. Copies of the proposed amendments to the NRD Rules and Regulations are available for viewing at the NRD office at 601 E. Benjamin Avenue, Suite 101, in Norfolk, Nebraska, and on the NRD's website at www.lenrd.org.

Wayne County, Nebraska, will hold a public hearing in the upstairs Conference Room at the County Courthouse in Wayne, Nebraska, on the 19th day of February, 2008, at 10:00 o'clock a.m. for the purpose of presenting and adopting a One and Six Year Road Improvement Plan for said county. Anyone living in said county may appear in person or by counsel and be heard. Elizabeth J. Carlson

Wayne County Highway Superintendent (Publ. Feb. 7, 2008)

President Felber reviewed the agenda as presented, affirmed that every board member had received notice of the meeting and that the meeting notice had been posted.

President Felber explained that the purpose of this special meeting was to allow all the board members from Wayne and Pender a chance to discuss further the information gained at a joint committee meeting earlier this month. At that committee meeting both school districts expressed an interest in further exploring the issue of sharing a superintendent. In addition, the committees felt that sharing a superintendent may also open other possibilities for sharing resources and providing a better quality education for students in both districts.

Wayne President Kaye Morris echoed Connie Felber's comments and felt that the Wayne District had requested the earlier committee meeting with Pender in an effort to share resources.

The committee members from each district felt that there were several reasons that this proposal would work. Those reasons included: 1) Sharing a superintendent; 2) Sharing programs which would expand curriculums; 3) Increasing the number of distance learning opportunities; 4) Sharing other administrative services, such as Curriculum Director and SPED Director.

A discussion followed between the two boards and pros and cons were reviewed and questions were answered. Board members commented that they felt it would mutually beneficial to share resources and that the process would be "give and take" for both districts. The question of why a district the size of Wayne would share a superintendent was explored. Wayne board members responded that they were working to maintain their current administrative team and hoped that sharing portions of that team moved them toward their goal. Members also felt that it was a proactive move toward future educational planning.

Discussion was held on how the 1.0 Full Time Equivalency (FTE) of the superintendent position would be divided between the districts. Would .3 for Pender and .7 for Wayne be the best or would .4 for Pender and .6 for Wayne work better? The cost to the district would be based on the percentage of FTE and would include mileage between districts. Expenses for conferences would be shared when the superintendent was attending a conference or meeting for both districts and when the meeting was district specific that district would bare the cost. No decision was made as to what would work best and those present agreed that it may need to be adjusted as the year progressed and definitely re-evaluated at the end of the year if a decision to share with Wayne were approved.

Mr. Dolliver expressed concerns of that were gathered at an earlier meeting with the Pender teachers such as how loyalty to Pender would look in a shared situation, how supervision at activities and in the building would be handled, would they continue to be allowed to use their interview committee when teachers were selected, how and what would Pender share.

Board members reviewed the possibility of sharing teachers to fill vacancies. The ups and downs of sharing teachers were reviewed. In addition, building principal duties were discussed and all present felt that the building principals would be expected to handle some of the duties that would not be able to be covered when sharing a superintendent and other administration positions (i.e. Curriculum

The NRD Groundwater Management Area was formed in 1997, and includes the entire NRD as well as the following aquifers: 1. Ogallala Group and overlying deposits,

2. Niobrara Formation and overlying deposits,

3. Dakota Group and overlying deposits, 4. All other aquifers supplying groundwater for beneficial uses.

No changes are proposed for the geograph and stratigraphic boundaries of the

Groundwater Management Area. Current Groundwater Management Area Rules and Regulations require water well permits for new and replacement wells that are designed to pump more than fifty (50) gallons per minute within the entire Groundwater Management Area, and no changes are proposed for water well permit regulations.

The following is a general description of the 5139 proposed amendments to the NRD 5149 5154 Groundwater Management Area Rules and Regulations, which apply to the entire NRD:

\$255 Currently, the Lower Elkhorn Natural Resources District has approved one flow 5260 meter for use in the district. The lowest 5276 8107 reading this meter will measure accurate-815 ly is 50 gallons per minute. Recently. 830 wells have been drilled and equipped with 1094 variable speed pumps so that the owners 1140 could set their own pumping rates, which 8157 includes rates below 50 gallons per 8346 minute. 1316

That is below the working range of the approved flow meter. Meters that will work in that range do not have gallon per minute flow rate readouts. Since we are most interested in the total water pumped, the Lower Elkhorn Natural Resources District proposes to modify the

rules and regulations to eliminate the

1920 requirement for a gallon per minute read-1935 out, and only require the totalizer readout. 1941 This will allow the Lower Elkhorn Natural 2094 Resources District to approve meters for wells that will pump both above and 2161 below 50 gallons per minute accurately. 2164 This change appears on page 14, or in 2165 Rule 11 C. (c), and in the definition of flow 2182 meter on page 3, definition number 21 of 2185 Rule 2, of the Groundwater Management 2186

Area rules and regulations. 2260 2. The Lower Elkhorn Natural Resources 2273 District also proposes to not allow meter 8168 removal for off-season storage, since tampering with the meter will be difficult to 8169 8257 detect if off-season removal of the meter 1265 is allowed. That change is on page 14, in 1274 Rule 11 B (e) of the Groundwater Management Area rules and regulations. Please contact Rick Wozniak at the Lower Elkhorn NRD, (402) 371-7313, if you have 114. questions

The Broken Chain We little knew that morning that God was going to call your name. In life we loved you dearly, in death we do the same. It broke our hearts to lose you, you did not go alone; for part of us went with you,

the day God called you home. You left us peaceful memories, your love is still our guide; and though we can not see you, you are always at our side. Our family chain is broken and nothing seems the same; but as God calls us one by one, the chain will link again.

The family of Darlene Dolph would like to thank all of our family and friends for the cards, phone calls, food, memorials, prayers and expressions of sympathy Special thanks to Rev. Doyle Burbank-Williams for his kind words and prayers, to members of First United Methodist Church for providing food and to the church ladies for serving lunch, to Connie Glassmeyer for playing the piano and to Coleen Jeffries for her solo.

In her 95 years, so many people touched her life in so many ways, we can not possibly thank you all but know you are all appreciated.

Lynnelle & Mike Sievers and family, Arlene Dolph and family, Duane Dolph, Robert Dolph and family, Gerald Dolph and Elly Wiles and families.

Partners in Education

We at First National Bank of Wayne care about the future of Wayne Community Schools. To do our part, we are going to **donate \$1.00 each quarter** for every student in Grades 7-12 who make the Honor Roll during the 2007-2008 school year. At the end of the year, the money earned will be used toward the purchase of materials to enrich the academic program at their schools. Below are the names of the students making the second quarter Honor Roll!!
