New equipment, public health claim on agenda for commissioners

By Calyn Dunklau
calyn@wayneherald.com

Tuesday's morning meeting of the Wayne County Board of Commissioners was a busy one with a lengthy agenda covering topics from communications equipment updates to a claim from the Northeast Nebraska Public Health Department.

After briefly meeting as the Board of Equalization to make a tax correction, the commissioners took appointments from a number of people, the first of these being Julie Rother with the public health department.

Rother presented a claim to the board requesting the county help cover costs incurred by the public health department while they combated an outbreak of the infectious disease *Mycobacterium Bovis* also known as Tuberculosis or TB from April of 2014 through 2015.

Because of the extensive research done and the additional man-power brought in to help throughout the process, the public health department's budget had taken a hit. The department runs on a tight \$265,000 a year and the unexpected costs associated with the outbreak added up quickly. Invoices presented to the commissioners totaled \$26,145.36.

Commissioner Randy Larson expressed concerns over the issue.

"I have certain issues with this claim," Larson said. "To me, this opens up a different can of worms that we, or at least I, aren't prepared to deal with."

Rother explained that the various grants and contracts that generally cover them by the state wouldn't cover this. She also told the board that some entities get local tax money, but that Wayne's public health department did not, which is why money was taken from the department's general fund to help cover the costs.

"We brought this to the board in good faith," Rother said. "We wouldn't bring it to you frivolously."

Larson expressed his feelings on the expenditures being part of the normal duties and expenses incurred by such a department, but Rother disagreed, stating that this particular case was out of the ordinary.

Ultimately, after discussing the matter, the board acted upon the recommendation given by the county attorney Mike Pieper.

After deducting what expected reimbursements by the state would total, it left just \$746.14 remaining. A motion by Commissioner Dean Burbach was seconded by Larson and passed. Commissioner Jim Rabe abstained from the vote as he is chairman of the board for the public health department.

Following that claim, Emergency Manager Nic Kemnitz and County Sheriff Jason Dwinell came before the board to discuss communication equipment needs they are facing.

Currently personally carried and car-installed radios are nearing their end of life, meaning parts and service to fix these machines will no longer be available. The radios in use were purchased roughly 10 years ago and are unable to be used to communicate inter-departmentally. In other words, old technology prevents communication on the radios to happen between the sheriff's deputies and state troopers, city police or campus security.

Kemnitz informed the board of a deal the state struck with Motorola where if purchased in the next year, portable and installed radios would be sold at a 40 percent discount in the state due to the number of entities facing the same end-of-life problems Wayne is.

Each portable radio costs roughly \$7,000 and each car radio costs around \$5,300, both after the discount.

"They are expensive," Kemnitz said. "That's why we've put it off this far."

Dwinell and Kemnitz came to the board suggesting the purchase of the seven portable radios needed between the deputies and themselves, but the commissioners expressed concerns about missing such good pricing on the car radios if they waited to do those a couple at a time when the vehicles driven by the deputies were upgraded to newer models.

Commissioner Rabe said he would like to see, at the very least, the emergency management trailer be equipped with a new installed radio along side the new portable radios.

After further discussion, the board was happy to sign off on the purchase of the seven portable radios but encouraged Kemnitz and Dwinell to look into the other radios.

Larson told the two to "order the handhelds, but explore the rest of it" and to try to get a total price to the board for all the radios.

Mark Casey, Highway Superintendent brought updates before the board, including a

Pippin — a therapy pony in training — pranced into Laurel-Concord-Coleridge Schools on Oct. 12.

Pippin is 4 years old, seal brown in color, and stands at 42 inches making him larger than most ponies used for therapy. He is from the group Personal Ponies.

"I have been a member of Personal Ponies since 2000, and I found out about them through the special Olympics," said Irene Graves, agriculture teacher and FFA adviser at LCC high school.

Personal Ponies is a national organization. This group originally had goal families with special needs children, but has since grown so they try to get ponies into therapeutic centers to reach more people.

Graves has been working with LCC students Reanna Lawyer and Stephanie Aschoff, so they can train Pippin to be a therapy pony as well.

"Every Monday the girls and I get together to figure out a schedule of who will take care of Pippin when. The girls have been working on training him," Graves said.

Lawyer and Aschoff are participating in this as a supervised Ag. Experience, and this was brought forward by the FFA.

"Neither of girls had a horse, so this supervised experience is having them care for this pony, Pippin," Graves said. "Some of these children have never touched a horse before, so this is a new experience for them."

Pippin is house trained and is progressing towards being trained as a therapy pony as well. Graves has had Pippin since he was younger, and she has big plans for him.

"As he becomes stronger and more capable he should be able to go to a care center. He already is giving rides," Graves said.

Dr. Barbra Hayford, WSC professor, presents her proposal for the lagoon at Tuesday's council meeting.

Lagoon is hot topic for council

By Calyn Dunklau
calyn@wayneherald.com

The waste-water treatment lagoon was addressed two-fold in Tuesday's meeting of the Wayne City Council.

Not only was there discussion of sludge removal on the city's part, but a Wayne State College professor presented a proposal for the lagoon after clean up was completed.

After taking bids, the council approved one for \$249,000 to have Midwest Injection, Inc. remove 2,000 dry-weight tons of sludge from the bottom of the now-defunct lagoon.

While the cost was more than some council members cared to see, upon hearing that bids for projects in other communities taking place next year were coming in at 20-25 percent higher than this year's prices, council voted unanimously to award the contract to Midwest Injection.

One council member, Cale Giese, had expressed frustration over the high cost of the job, but grew more concerned about higher costs coming next year if the 2,000 ton contract didn't cover all of the sludge left in the lagoon and the city were forced to do the bidding process over again. He was assured that there was a possibility of adding additional weight once the project got started if it was apparent the 2,000 ton contract wouldn't cut it.

But the lagoon was still the point of discussion after the contract had been awarded thanks to Biology professor Dr. Barbara Hayford.

Hayford presented a brief powerpoint proposing turning the lagoon into a shallow pond suited for teaching and bird-watching, among other activities.

Hayford's Environmental Concerns class put the proposal together with her, pushing for utilizing a potential resource right here in town. Hayford argued that amenities such as the proposed pond are a draw for those moving to the area.

"We all know a vibrant economy requires growth and it requires change," Hayford said. "We need to attract that age group of 18-24 year olds, keep people in rural communities. Job opportunities are not enough to retain them."

Her proposal included having access roads from both sides and said the pond would be attractive to people using the walking trail nearby.

But her main point was with education. Hayford called upon studies regarding outdoor education experiences.

"When students are outside and engaged, they learn a lot more. It is so valuable."

Her hope was that a small dock would be built to access the middle of the pond for educational outings. She said that migratory birds would utilize this as a stop along their route, touching on conservation of rarer species and the economic impact of hunters and bird watchers coming from the surrounding areas to take advantage of the pond's draw for birds.

An audience member questioned making the pond deep enough to fish, which is doable, but substantially more expensive.

Ultimately, the council didn't make a motion, but did seem interested in the idea of a pond there and plan to continue the conversation of what to do with that area once cleanup is finished.

Bids were accepted for a compact excavator to be split between three city departments. The lowest of the four, was from Nebraska Harvestore.

Their Bobcat excavator bid came in at \$40,826, several thousand lower than the highest bid.

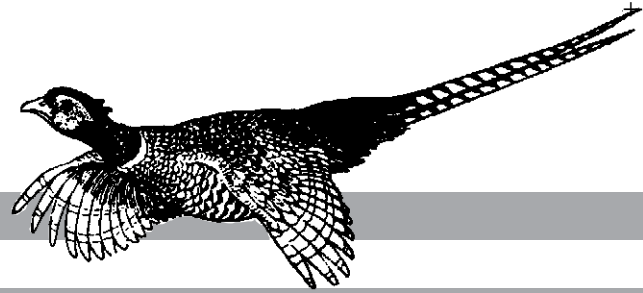

After a lengthy discussion centering around buying versus renting, the council voted in favor of purchasing the piece of equipment.

Jon Haase voted against the purchase, arguing that he felt the equipment the city already had was sufficient and the rental costs would be lower overall than purchasing.

In other council action, the Nebraska Department of Roads annual maintenance agreement was accepted and discussion on annexation of the proposed event center north of the golf course was held.

No answers were given on the event center's sewer options, but an annexation study will be ordered to determine the best way to go about annexation if annexation is the most sensible course of action.

The council will meet again Nov. 15 at 5:30 p.m. in the council chambers at the City Municipalities building.

Velma Dennis

Velma Fern Dennis, 88, of Dixon, died Thursday, Oct. 27, 2016 at Mercy Medical Center in Sioux City, Iowa.

As Velma requested, cremation will take place and a memorial service will be 10:30 a.m. Wednesday, Nov. 2 at Pilgrim Congregational United Church of Christ in Coleridge with the Rev. Gary Kimm officiating. Burial of cremated remains will be in the Coleridge City Cemetery. A gathering of friends and family is from 5 to 8 p.m. on Tuesday, Nov. 1 at the Wintz Funeral Home in Coleridge.

To post an online sympathy message visit wintzrayfuneralhome.com.

Velma Fern Dennis was born May 6, 1928 in Coleridge to William E. and Alda (Shutt) Sassaman. She grew up in Coleridge and graduated from Coleridge High school in 1945. Velma worked at the Farmer's Union Store during high school. Following high school, she became the head bookkeeper at the Farmer's Union until marrying Dale C. Dennis on

Jan. 9, 1949. Nine children were born to this couple: Dale W. "Bill", Dianne, Debra, Patti, Lori, David, V. Jolene, Denise and Lisa. Velma started her postal career in 1966 as a clerk in the Coleridge Post Office. After a few years and her hours being cut with Coleridge, she loaned to the Norfolk Post Office for more hours. During that time she purchased Pfund Trucking and operated the trucking company until being appointed Postmaster at Dixon on June 17, 1979. Velma was appointed Postmaster the same day that the Coleridge Postmaster, Bruce Bohlken, retired. This left Coleridge in a bind as the rural carrier and the officer-in-charge assigned to Coleridge were both on annual leave and the other clerk was delivering the rural routes. So Velma's first three days as Postmaster were served as a fill-in at the Coleridge Post Office. During her tenure as Postmaster, Velma served officer-in-charge assignments at the Atkinson, Emerson, Orchard and Wakefield post offices. She also loaned to the Laurel and Pender offices when needed, working a total of nine post offices during her postal career. Velma retired with a total of 32 years with the postal service.

Velma was active as a den mother for Cub Scouts and Cookie Chairman for the Girl Scouts. She was a Sunday school teacher for years at the Methodist Church in Coleridge as well as the United Methodist Church in Dixon, after moving there and held many offices in the church women's groups. She enjoyed quilting, playing cards, bowling, dominoes, traveling, crafts and spending time with friends and relatives, especially their "No Boys Allowed" weekends.

Velma was also very involved in community projects and was one of the organizers and continuous members of the Dixon Community Improvement Committee. Her pet project was to clear Dixon of the junk car image. She didn't like when people would ask, "Where is Dixon?" and the reply was, "Turn where the junk cars are." She purchased the junk car lot and donated it to the Village to be developed and maintained as a city park. It is known as Centennial Park and was dedicated August 1990.

Survivors include her six daughters: Debra (Kevin) O'Bleness of Anchorage, Alaska; Patti (Steve) Wattier of Wayne; Lori Spahr of Coleridge; Jolene Dennis of Ft. Thompson, S. D.; Denise (Loyd) Jones of Lincoln; and Lisa Ablar of Lincoln; daughter-in-law, Liz Dennis of Los Algodones, Mexico; 13 grandchildren; 11 great grandchildren; one great granddaughter; sister, Mary (Al) Lich of Washington, Ind.; brother, Lysle "Mert" (Norma) Sassaman of Ft. Mohave, Ariz.; two sisters-in-law, Sandra Sassaman of Wisner, and Lenny Dennis of Osmond; brother-in-law, Wayne Lich of Lyons, Ind.; special friends, Darlene and Dallas Puntney of Stromsburg; and many nieces, nephews, cousins and friends.

She was preceded in death by her parents; husband, Dale Dennis in 1970; infant daughter, Dianne Rae Dennis; two sons, Bill and David Dennis; one great grandson, Aaron Surber; two brothers, Gene and Verne Sassaman; sister, Lorna Lich; sister-in-law, Kathryn Sassaman; and special friend, John Pfund.

Future of Wayne discussed during vision meeting by newly-formed fund

Members of a newly created Wayne Area Legacy Fund, along with members of the community gathered Tuesday to "turn on their dream switch" in regard to the future of Wayne.

Bill Dickey, chairman of the committee, welcomed those in attendance to the visioning session and explained how a similar group organized approximately 28 years ago was responsible for improvements within the community such as Rainbow World Childcare and the Wayne Public Library/Senior Center.

He said the Wayne Area Legacy Fund committee was formed approximately four months ago and Wayne joins 255 other communities in the state with such foundations.

Facilitated by Greta Leach and Anders Olson with the Nebraska Community Foundation, the group brainstormed on things they would like to see in the community within the next 20 years.

Leach explained to the audience the benefits of having a foundation such as this in place and said "with a foundation, the generosity of the community increases."

After compiling a list of 'dreams' the group arranged

them into specific categories, such as entertainment, a culture of sustainability, attracting growth, education and relationships.

Listed as things the group would like to see in the community were a Middle Center, affordable housing, historic preservation, building on area community relationships, public transportation,

The final activity of the evening included completing the phrase, "Wayne is a place..."

Suggestions included such things as "with robust, cooperative relationships," "that cares for the earth and people who live here" and "where you can come, live and grow."

Information gathered at Tuesday's meeting will be presented to the Advisory Committee as the group moves forward to create a 501C3 Foundation in which community members can contribute for the good of the community, rather than specific projects.

In addition to Bill Dickey, members of the community include Andrea Zara, Vice Chair; Jeane Harris, Secretary; Stephanie Liska, Treasurer; Jonah Brodersen, Eric Knutson, Jared Heithold, Molly Redden, Liz Onderstal and Kevin Halle.

Wayne State ranked among top value in Counseling Master's Degrees in Nebraska

Top Counseling Schools has ranked Wayne State College among Nebraska's top value master's degrees in counseling.

Wayne State was ranked third in Nebraska. The ranking was published on the organization's website in October.

This ranking was created using the Council for Accreditation of Counseling & Related Educational Programs (CACREP) to acquire lists of the accredited counseling degrees available in each state.

The top programs in Nebraska were ranked based on program completion rate, job placement rate, placement exam pass rate, accreditation length, research productivity, and tuition and fees.

"This ranking as a top value counseling program is a testament to the quality and affordability of a Wildcat education and our dedi-

cation to students' success," said WSC President Marysz Rames. "At Wayne State, all of the ingredients necessary for an outstanding educational experience are in place: the right size, strong teaching, plenty of support, and opportunities for involvement and interaction."

The master's degree program in counseling at Wayne State offers concentrations in three areas: Clinical Mental Health Counseling, School Counseling, and Student Affairs & College Counseling. The department's counseling program is accredited by both CACREP and the National Council for the Accreditation of Teacher Education (NCATE).

More information about the master's counseling program can be found at wsc.edu/mse-counseling.

Weed management area awarded grant by Nebraska Department of Agriculture

The Northeast Nebraska Weed Management Area (NNWMA) is a project of the Northeast Nebraska Resource Conservation & Development Council and just recently they were awarded a \$10,000 grant from the Nebraska Department of Agriculture.

The project will be dealing with the early detection and control of noxious and invasive weeds, especially Yellow Flag Iris, along the Elkhorn River drainage in Holt and Antelope Counties.

The Upper Elkhorn Natural Resources District is a major partner in this project and is providing \$5,000 in matching funds.

They wanted to assist in this

way because noxious and invasive weeds can clog waterways, utilize nutrients and water that other plants need, they can reduce property values if not managed properly, and are detrimental to the natural resources.

This project will also help to educate residents within the basin about plant identification and provide assistance in mapping and controlling or eradicating these undesirable species.

Grant funding is coming from monies provided through LB1038, the 2016 Riparian Vegetation Management Grant program.

The goals of this program are to provide funds to weed management programs in Nebraska, pro-

mote collaborative efforts to survey and manage noxious and invasive weeds, support innovative integrated approaches to weed management, and to build public awareness of the adverse impacts of noxious weeds and invasive plants and the need for proactive control.

The RC&D Council looks forward to continuing their service to citizens through projects that will make life better for people in Antelope, Cedar, Dixon, Knox, Pierce, and Wayne.

Veteran's Day program planned at Wayne Community Schools

Featured speaker for this year's

program will be Ben Marksmeier, an Iraq veteran.

Observing Fire Prevention Week

Winside kindergarten and first grade classes toured the Winside Fire Station in observance of National Fire Prevention Week. The fire fighters demonstrated fire safety techniques and new equipment, showed the fire emergency vehicles, and gave the students a ride back to school in the antique fire engine. The boys and girls also left with a special goody bag from the department. Special thanks were given to Winside Fire Fighters and EMTs Susie Rabe, Chris Olander, Robin and Levi Dotson, Brian Petzoldt, Kyle Skokan, and Don Skokan for making the tour possible.

Debut of 'How Shakespeare Won the West' to be performed at WSC

Bawdy, comical, theatrical, a festival of free spirits and resiliency...are delightful descriptions of "How Shakespeare Won the West" by Richard Nelson.

Wayne State College will present this lively performance Thursday-Saturday, Nov. 17-19 at 7 p.m., and again on Sunday, Nov. 20 at 3 p.m. All shows take place in the Black Box Theatre located in the Lied Performing Arts Annex of the Peterson Fine Arts Building.

The play reveals a ragtag acting troupe as they head West during the Gold Rush. Seeking fortune and fame, they plan to capitalize

on the love of Shakespeare by performing for enthusiastic '49ers. Stiff competition, romantic entanglements, and an Indian chief who sees himself in King Lear complicate the troupe's ambitious cross-country adventure.

Such abounding challenges are both dangerous and eye-opening for the travelers and those they meet. Embracing elements of Shakespearean comedy and American vaudeville, this show is a jubilant celebration of the human spirit and a testament of the universal power of art.

Ticket prices are \$5 per person,

with free admission for WSC students, faculty and staff. There will be no reserved seats. Tickets will be available at the door. Seating is limited.

"How Shakespeare Won the West" includes a cast and pit band comprised of WSC students and faculty. The play is directed by Mollie Spieker, assisted by Angelica Villalobos. Stage manager is Kristen Brokenicky. The play is being performed with permission by Broadway Play Publishing.

Roger Van approved for parole

Van

Roger Van, former owner of a floral shop on Main Street here in Wayne, was approved for parole after serving 13 years in prison for sexually assaulting and torturing a Texas man in the basement of his storefront.

Van, 69, had been convicted on several charges, including first-degree sexual assault, first-degree assault and first-degree false imprisonment, among others.

Van maintained his innocence and appealed his sentence in 2004, but the request was denied.

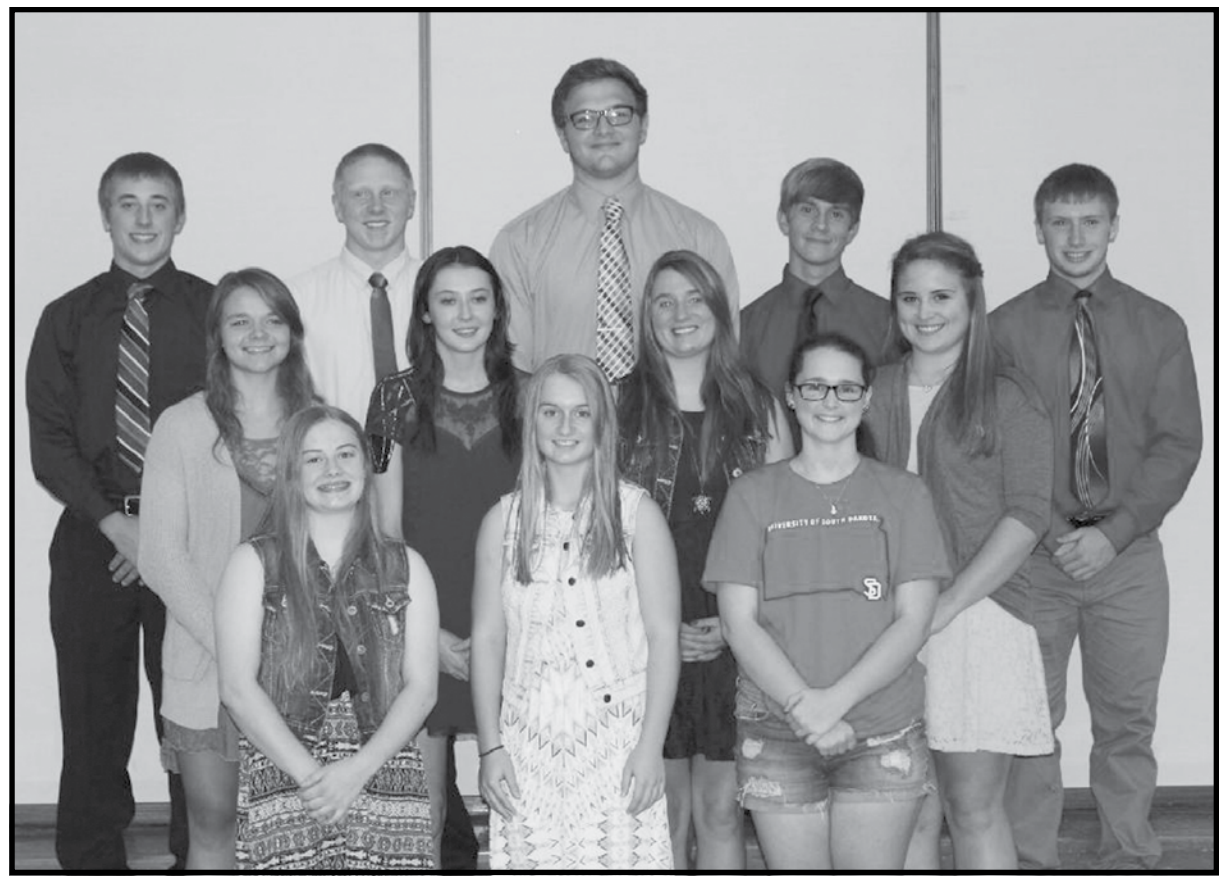

Van stated before the board Friday that he had participated in the prison's "I Help" program for three

years and because of that he is aware of what his risk factors are and how to deal with them.

His release was set for June 2018, but the Nebraska Board of Parole unanimously approved Van's release on Friday.

Parole conditions require him to register as a sex offender and he will be required to wear an electronic monitoring device.

Van won't be released from Community Corrections Center-Lincoln until the parole board sees his housing approval from an apartment complex that allows sex-offenders.

Frighteningly good fun

Starting last week with a spooky pet parade through Monday evening trick-or-treating, Halloween was celebrated by hundreds of children in the area. With several trunk-or-treat locations, Halloween parties and good weather for hitting the pavement, kids made out like bandits with their Halloween loot.

'Tis the season

change to the language of the Wayne County driveway policy.

The policy wasn't the most concise and Casey's changes made it clear that the board has the power to decide where field or drive en-

trances are located.

"I think we need to have the final say of location and such, just for traffic safety," Casey said.

In other business, the board approved a bid of \$7,850 for a new Caterpillar 990 v-plow blade to be

used in Larson's district. Another bid was accepted by the board from Arnies Ford for a 2017 Ford Explorer at the price of \$27,825.

The next meeting of the county commissioners is set for Nov. 15 at 9 a.m. at the courthouse.

Allen's playoff hopes dashed in loss WSC football loses in final minutes

BRUNING – The Allen Eagles traveled four hours Thursday to play their first playoff game in seven years.

Unfortunately, the Eagles were rudely greeted by the defending D-1 champions from Bruning-Davenport-Shickley, and the host Eagles, winners of 22 straight games, gave the visiting Eagles all they could handle as BDS ended Allen's season with a 54-13 decision.

"They were physically bigger, stronger and faster than we were," coach Dave Uldrich said. "We really struggled with that. We did play hard, but it was just not going to happen for us. They most likely will be playing in Lincoln in three weeks."

BDS entered the game as the No. 2 seed in the East Bracket of the Class D-2 playoffs, but were owners of a 30-point win over top-seeded Osceola.

Allen elected to take the opening kickoff, only to throw an interception for a touchdown on the first play from scrimmage. On their second possession, they were forced into a punt which BDS returned for a touchdown. Before BDS even ran an offensive play, they led 16-0.

The BDS defense was stifling and their offense would come up with big plays early and often. The lead ballooned to 42-0 at the end of one period after a fumble was returned for a score toward the end of the period. The lead stretched to 48-0 before Allen got a drive mounted that could produce points. Tayler Kumm scored the first of his two touchdowns at the 3:44 mark of the second period to close the lead to 48-6.

and the visiting Eagles mounted a short drive that produced a second score on a Kumm five-yard run with two seconds left in the first half.

Kyle Smith kicked the PAT to close the lead to 48-13.

Both teams started the second half sprinkling and then wholly

playing reserves. The only score of the second half came midway through the second half by BDS, as a 17-yard pass play scored the final points of the contest.

Offensively, Kumm carried 17 times for 55 yards and two scores, and Cody Thomas had 11 carries for 55 yards.

Defensively, sophomore Isaac Verzani led the charges with 11 stops. Brogan Jones and Blake McCorkindale added seven as the Eagles finished the season 4-5.

"I applaud our team for the effort they made today and all year," Uldrich said. "I also want to thank the many fans who traveled to watch the kids at BDS. It was a good year."

WSC soccer ends season after losing three-way tie

Despite winning an important game against Souix Falls on Friday afternoon, WSC's soccer team missed out on a spot in the NSIC Tournament for the first time in 10 years after losing to Southwest Minnesota State.

The Wildcats ended the year in ninth place in the Northern Sun Conference with records of 9-6-3 overall and 6-6-3 in the NSIC. The nine wins overall is the most for the Wildcat program since 2006 and the six league wins are the most for WSC since the 2005 campaign.

In WSC's win against Sioux Falls, the Wildcats used goals from Christina Stasi and Kelsey Engstrom to defeat the Cougars 2-1 Friday afternoon at the WSC Soccer Pitch.

The Wildcats scored in the 30th minute of the first half as sophomore Christina Stasi blasted a shot past the Sioux Falls goalkeeper from 20 yards out for a 1-0 lead at intermission.

WSC increased the lead to 2-0 at the 53:36 mark when Engstrom found the back of the net with an assist on a flip throw by Natalie Rech.

Sioux Falls made the game interesting late in the game by scoring in the 75th minute on a Lauren LaFavre goal, but WSC withstood the late charge by the Cougars to win 2-1.

Wayne State finished with a 12-5 edge in shots and 4-3 in shots on goal. The Wildcats held a 4-0 advantage on corner kicks, while Sioux Falls was called for six fouls to just two on the Wildcats.

Engstrom and Stasi led WSC offensively with their second and first goals of the season respectively.

Senior goalkeeper Kylie Comba was credited with two saves, while allowing one goal in the win.

Sunday proved to be even more difficult for the Wildcats as they battled Southwest Minnesota State in the last regular season game. The game ended in disappointing and heart-breaking fashion after WSC suffered a 4-1 defeat against the Mustangs.

Southwest Minnesota scored the only goal of the first half in the 25th minute, leading the Wildcats 1-0 at the half.

The Mustangs added another goal to their lead as the team found the back of the net at the 52-minute mark. SMSU rattled the Wildcats again when two more goals were scored within three minutes of one another, putting the game out of reach for WSC 4-0.

Wayne State avoided the shutout at the 84:21 mark when sophomore

Brooke Buzzell scored her fifth goal of the season with an assist from freshman Lauren Fleming making the final score 4-1.

With the loss, WSC ended in a three-way tie for seventh place in the NSIC standings with 21 points, but lost a tie-breaker with Northern State and Upper Iowa on goal differential and head-to-head competition.

Wayne State ends the season at 9-6-3 and 6-6-3 in league play and has five seniors on the roster.

A close fourth quarter for the WSC football team ended in a loss for the Wildcats as they were defeated 35-30 in the final seconds against Upper Iowa on Saturday.

Both teams are now 3-6 overall and 2-3 in the NSIC South Division following the contest.

It was the seventh time in the last eight meetings between the two clubs that the game was decided by five points or less.

The 'Cats got off to an early lead, stamping off a nine-play, 82 yard drive with a two-yard scamper from quarterback Zach Osborn to give WSC a quick 7-0 lead. A WSC punt was sandwiched by two Upper Iowa scoring drives, and 'Cats kicker Ethan Knudson was true on a 34-yard field goal on the second play of the second quarter to make it a 14-10 contest.

The two electric offenses traded blows, each scoring two more touchdowns in a high-powered first half that ended with an Osborn touchdown strike to Nate Rogers in the final seconds.

UIU scored again on their next drive as Morales ran 15 yards for a touchdown to cap a 12 play, 78-yard drive that pushed the Peacock lead to 21-10. Wayne State used an Alex Kline three yard run with 7:59 to go in the second quarter to pull within four a 21-17 but the Peacocks answered again on a Ryan Parmely one yard run to culminate an 82 yard drive on eight plays to give Upper Iowa a 28-17 lead with 5:02 left before halftime.

The second half saw UIU take advantage of a WSC fumble on their first drive of the third quarter for their lone score as the Wildcat defense stepped up and stopped the Peacocks from scoring the rest of the game.

UIU recovered an Alex Kline fumble at the WSC 22 and scored four plays later on a nine-yard pass from Morales to Trey McTaggart to take a 35-24 lead with 10:44 to go third quarter.

The score remained that way until WSC put together a 93 yard, 12-play drive early in the fourth quarter as Kline found the end zone for a second time on a two yard run that cut the UIU lead to 35-30 with 7:4The second half saw UIU take advantage of a WSC fumble on their first drive of the third quarter for their lone score as the Wildcat defense stepped up and stopped the Peacocks from scoring the rest of the game.

Eighth-ranked Wildcat volleyball takes two

WSC's volleyball team comes back home after a long weekend in northern Minnesota with two wins after tough battles with both Minnesota Crookston and Bemidji State.

The Wildcats are now move to 19-6 overall and 10-6 in the NSIC.

Against Crookston on Friday evening, senior Alyssa Frauendorfer had a season-high with 16 kills to lead WSC to a 25-15, 20-25, 25-13, 25-23 victory in Crookston, Minn.

The opening set was controlled by the Wildcats as WSC recorded 13 kills with just two attack errors. The Lady 'Cats forced UMC into eight attack errors for a .098 attack percentage as Wayne State won the first set with a breezy 25-15.

Crookston's Golden Eagles reversed the mood in the second set, hitting .379 with 13 kills and two errors on 29 attacks to take the second set from the Wildcats, 25-20. WSC was limited to 12 kills with six errors in the set.

After intermission, Wayne State came out in the third set and posted a match-high 17 kills, while holding UMC to seven and forcing five attack errors. The Wildcats took a third set win of 25-13.

The fourth set was a battle between the two teams. The Lady 'Cats trailed for a majority of the set until a late rally led WSC to win the last set to win the match 3-1.

The Golden Bears came out firing, leaving WSC to trail 4-0 early. The two teams fought back and forth to even the set at 13 on a kill by WSC's Mariah Halvorsen. UMC pulled ahead and held 21-19 until WSC scored four straight points and took

third quarter.

The score remained that way until WSC put together a 93 yard, 12-play drive early in the fourth quarter as Kline found the end zone for a second time on a two yard run that cut the UIU lead to 35-30 with 7:45 to play after a two-point run by Osborn failed.

WSC forced a three and out on UIU and got the ball back at the WSC 19 with 6:28 to play. The 'Cats drove down the field, keeping the drive alive twice on fourth down conversions with one on a 11 yard pass to Keaton Slaughter and another on a roughing the passer penalty. WSC drove to the UIU four yard line and had two plays from the four to get into the end zone but both plays were incomplete passes to Nate Rogers as the Peacocks held on for the 35-30 victory.

Upper Iowa ended the contest with 513 yards of total offense compared to 477 for Wayne State. The Peacocks had 248 yards rushing and 265 passing while WSC gained 163 on the ground and 314 through the air. WSC held a commanding 37:05-22:55 advantage in time of possession and was whistled for four penalties for 46 yards compared to 10 penalties on Upper Iowa for 119 yards.

Junior quarterback Zach Osborn was the top rusher for the Wildcats with 86 yards on 20 carries and one score.

Throwing the ball, Osborn completed a season-high 29 out of 45 passes for 314 yards with one touchdown and one interception.

Wayne State will play their final home game of the season next Saturday hosting Minnesota State in a 1 p.m. contest at Bob Cunningham Field in Wayne.

After the win on Friday, Wayne State traveled to Bemidji, Minn., for a nail-biting game the next night. WSC used 30 kills from Frauendorfer to rally for a 22-25, 25-7, 22-25, 25-17, 15-10 Northern Sun Conference win.

The first set had 15 ties and eight lead changes between the two teams before Bemidji State finished with a first set win of 25-22.

Wayne State rallied back in the second set to gain the 25-7 win as the team held BSU to three kills while forcing eight errors for the Beavers.

Bemidji State regained the momentum in the third set with 12 kills errors as they outlasted the Wildcats 25-22 to lead the match 2-1.

The Wildcats forced eight BSU attack errors in the fourth set while recording 13 kills to go into a fifth set with a 25-17 win.

After recording no attack errors in the fifth set with nine kills on 25 attempts, WSC prevailed 15-10 over the Beavers to rally for the 3-2 match win.

Wayne State hit .255 in the match with 62 kills and 20 errors, while Bemidji State was .142 with 48 kills and 25 errors.

LCC ends its season with loss at C2-5 subdistrict

RANDOLPH – The Laurel-Concord-Coleridge volleyball team saw its season come to an end with a three-set loss to Crofton in the C2-5 subdistrict Monday at Randolph High School.

The Lady Bears opened tournament play with a four-set win in the play-in bracket, defeating Plainview 25-16, 23-25, 25-14, 25-15.

“The team responded to surges by their opponent, battled through a big scoring deficit, and worked hard to create advantages on their side of the net,” coach Patti Cunningham said. “It was a good win for the athletes after solid performances at practice last week.”

WSC rugby club awarded by Rugby America North

Wayne State rugby coach Darin Barner and local businessman Rod Tompkins have recently been awarded by Rugby America North (RAN) as recipients of the 2015-2016 Program Development of the Year award. The award will be presented Saturday, Nov. 12 at 2:20 p.m. just before kickoff of the Wayne State women's rugby Elite Eight matchup against Western State of Colorado at the Wayne Rugby Park.

The award will be presented by Rich Cortez from the USA Rugby Olympic National Office. Cortez is the director of college rugby and the commissioner of the 900 college programs and national playoffs in the college structure.

Barner is the founder of the club, which has been established since 2002. When Barner was a student at Wayne State, he was a defensive back for the Wildcat football team from 1985 to 1988.

This award is the first award for Program Development given to a program in the USA. Nominations were reviewed and Wayne State rugby was nominated to a 18-country committee by a Canadian referee who attended the 80-team rugby tournament in April.

Winning notes that were pointed out in the nomination letter

were five national championships, a growing program for women and men, growth of the game within the community, the building of rugby complex, clubhouse and the rebuilding of a facility after the 2013 tornado that took much of the teams' equipment, storage and changing rooms.

The Wayne Rugby Park is known across the region as a rugby facility that has a “Old English” feel and view across the facility with its clubhouse by Sand Creek Post and Beam on the midfield stripe. Wayne was selected to host the national round of 16 and quarterfinals next weekend, along with the USA league round of 16 and quarterfinals on Nov. 19-20.

RAN, Originally formed in March 2001 under the name of North America and West Indies Rugby Association (NAWIRA), is one of the six World Rugby regional associations. RAN is the governing body of the sixteen Unions in Rugby Americas North. It's membership is diverse and currently consists of, Bahamas, Barbados, Bermuda, British Virgin Islands, Canada, Cayman Islands, Guyana, Jamaica, Mexico, St Lucia, St Vincent and The Grenadines, Trinidad and Tobago and the United States.

In August 2011 the Turks & Caicos Islands and Curacao were admitted as Associate Members of RAN, with the Dominican Republic also joining as an Associate Member in 2015.

Pierce comeback ends Wayne's hopes of going to state

By MICHAEL CARNES
For The Herald

NORFOLK - When the momentum in the closing points of a tightly-contested volleyball match swings one way, it can be very tough to swing it back.

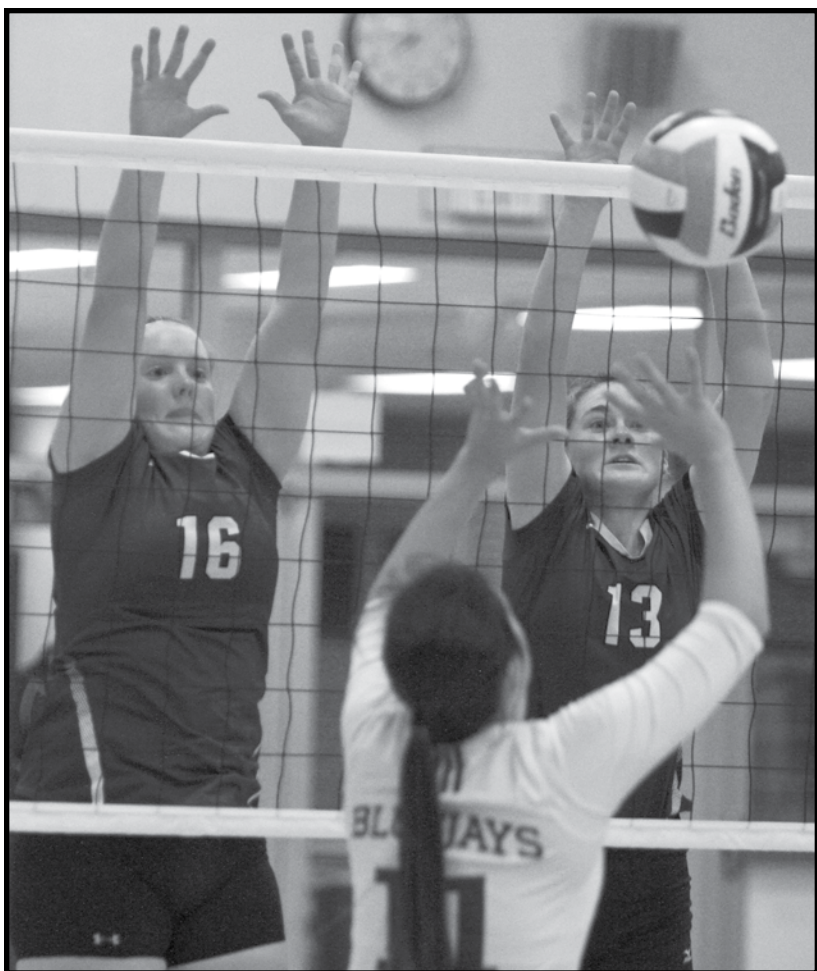

Pierce scored the final five points of a crucial fourth set, then scored seven of the last nine in the final set to end Wayne's hopes of a trip to the state tournament with a 25-11, 13-25, 15-25, 25-22, 15-10 win in the C1-7 subdistrict final Tuesday at Norfolk High School.

After stumbling through the first set, Wayne came out and dominated a Bluejays team, whom they had already beaten twice this season, taking a 2-1 lead in the match with consecutive one-sided victories to pull themselves within a match of advancing to Saturday's substate round.

The Blue Devils couldn't get any separation from Pierce in the pivotal fourth set, and when Pierce came back to tie the match up, they never let Wayne back in the game.

"It was back and forth in that fourth set and I remember it being 18-18, but when you get to that fifth set and it's first to 15, it comes down to who can put the ball away and make the fewest errors, and Pierce did that," coach Traci Krusemark said after her team finished the season 21-11.

Early on, it appeared Wayne wasn't ready to take on their conference rival, as Pierce raced out to a big lead early and seemed to catch Wayne flat-footed on a number of

plays.
"It was that deer-in-the-headlights thing that happens to the

best of teams," Krusemark said. "We went out in the hallway after that first set and regrouped, and the seniors took ownership of things and we came out and played much better. I was proud of the way we responded."

Wayne trailed 3-2 early in the second set before things started clicking.

Allison Echtenkamp stuffed a Pierce attack and followed with back-to-back kills to stake Wayne to a 5-3 advantage. Wayne extended the lead to 12-8 later in the set on a Pierce error and an Echtenkamp tip, then built a six-point lead on an attack by Emily Armstrong.

Wayne used another three-point run to take control of the set, using two Pierce errors and a kill by Melinda Longe to make it 20-11. A Lindy Sandoz termination sparked a final three-point surge and Shania Anderson evened the match at a set apiece with a game-ending block.

"I told them after that second set that now everybody is ready to go," Krusemark said of the team's response. "It could have been easy to

fold up the tents, but I was proud of the way they stayed with it."

Wayne again trailed early in the third set before taking a 3-2 lead with an Emily Matthes ace and an Anderson kill. Pierce regained the lead at 4-3, but another Anderson block tied the set and Wayne got a kill by Echtenkamp to stake them to a 7-4 advantage.

Leading 12-8 in the third, Wayne rattled off three straight points with an Armstrong kill, a Matthes ace serve and a block by Sandoz to make it 15-8. Echtenkamp and Longe teamed up on a block and both had kills in another three-point surge to make it 19-9 and Pierce never got closer than nine points the rest of the set, with Anderson's kill giving Wayne the 2-1 match advantage.

In the fourth set, the two teams slugged it out like a heavyweight championship fight. Pierce led 7-4 early, but a Kylie Hammer kill, two Echtenkamp aces and a Pierce error gave Wayne an 8-7 advantage.

Pierce tied it up and started a back-and-forth battle where neither team could build more than a two-point lead. Wayne led 14-12 and 18-16 before Pierce came back to tie the match at 18-18.

Wayne got its last lead of the set at 22-20 as Armstrong had a block and a kill, but a hitting error put the serve in Pierce's court and they responded with four straight points, ending the set on an ace serve to send it to the winner-take-all fifth set.

Wayne held a one-point lead at 4-3 in the fifth on a Pierce hitting error, but a service error tied the game at 4-4. The two teams traded serves to make it 5-5, and Sandoz dumped a ball over the defense in the back corner to make it 8-8, the last time the two teams would be tied.

Pierce responded with three straight points to lead 11-8. Sandoz would get a kill to make it 11-9 and a Pierce error kept Wayne within two at 12-10, but Pierce regained serve and closed out the match to come away with the win.

"It's tough to beat a team three times, but I thought we had it rolling after the second and third games," Krusemark said. "Pierce was a good team and they weren't going to lay down for us and I was proud of how the girls hung in there until the end."

Echtenkamp had 14 kills and Sandoz added 13 to lead the Wayne net attack. Longe put down seven kills, Anderson had six and Armstrong and Hammer each had five.

A year ago, I began searching for a way I could give back to the community. As a business owner, I felt that my experience with budgeting and fiscal responsibility uniquely qualified me to serve on the Wayne City Council. I've met a lot of wonderful people throughout this campaign process, and we share a lot of the same concerns. Things like tax burdens, local spending, lack of transparency between local organizations, and lack of a long-term strategic plan. My aim would be to bring my experience to the table to work with the rest of the council to improve these areas.

Wayne is a thriving small town with a bright future. We are extremely fortunate to have a number of servant leaders on the council, as well as an excellent city staff that have steered the ship. I would be honored to serve a small part in aiding tomorrow's bright future into becoming today's reality.

It is for this reason that I ask for your vote on November 8.

Wind Turbine Projects Not Always Good For Rural Counties

In the three points below I tell why I believe Wind Turbine Projects are not good for Rural Counties. My opinion has been formed by my experience with Wind Projects here in Oklahoma.

1. Wind Projects destroy the "night sky". At our friends house we, our kids and grandkids, would turn off all house lights, the yard light, and lay down on a tarp in the back yard looking up. Soon the night sky lights up with "millions" of stars. They seem so clear and close we can "touch them".

The only manmade light comes from our neighbor's yard light miles away. We lay there and talk about God and other things. Anyone who has done something like this can relate. This wonderful "intangible" experience is "gone forever" now because of the Wind Project.

Now, at night, every single room in our friend's house has bright, blinking, red light coming in from outside each window and reflecting off the walls. Whether we are outside or inside we can't escape the incessant, synchronized, blinking red lights. We have to constantly tell ourselves to "ignore it".

2. Wind Projects cause erosion on hilly ground. Oklahoma is mostly flat but where there are hills the roads that are built from the Section Road to the Tower

cause erosion of what little top soil we have. The roads stop the natural water flow and direct the water to a lower central place where a culvert goes under the road.

All that water in one place causes huge "blowouts" of topsoil. The wind project people tell you "this is not our problem" or that they will "mitigate" it but they really can't because the road is needed and it is controlling the flow of the water.

A lot of time and money gets spent by landowner and/or tenants dealing with these "blowouts".

3. Money - Landowners who sign up early usually sign for \$10,000.00 per tower per year with an inflation adjustment each 5 years. Better deals come later, after the "early adaptors" have signed.

Example later deal is: \$18,000.00 per year per tower (adjusted for inflation every year using same index that Social Security uses) PLUS a percent of the Electrical Production of the turbine. The Percent of Production payment can easily become the biggest part of the total payment to the landowner.

There are other reasons why Wind Turbine Projects are not good for Rural Counties. I speak only for myself. Some things are more important than money. Thank you.

Steve Siemers

Open letter to all concerned citizens:

Last month our school celebrated Constitution Day and our founding fathers. During the celebration we were reminded of the words of Thomas Jefferson, "We hold these truths to be self-evident."

What does it mean when turth is self-evident. We think it means that there are certain things that are basic and unarguable. For us that is civics education!

Did you know that strong civics relate directly to one's ability to be an informed citizen, vote, run for office and volunteer for community service?

Unfortunately, American high school students are struggling with learning the basic concepts of our government and our history. In fact, when we pre-tested our classmates and 200 other juniors and seniors from across Nebraska, with the same U.S. Citizenship Test that immigrants must pass to graduate, more than 80% failed.

Presented with these findings, our school board acted immediately! This year our high school has started to require that all

students pass the U.S. Citizenship Test to graduate.

Currently 14 other states have also made passing the U.S. Citizenship Test a requirement for high school graduation.

We believe Nebraska should join that movement to ensure that all students have a basic understanding of how our government works!

We are writing this letter to you to ask for your help in promoting enhanced civics education for Nebraska students to please encourage you local school, the Nebraska State Board and your State Representative to make the U.S. Citizenship test a baseline requirement for all Nebraska high school students.

It is a small but important step in ensuring that our generation and, all that follow, will understand our inalienable rights of life, liberty and the pursuit of happiness, so that our unique and exceptional nation can continue to be a light of hope to the rest of the world!

Time to clean up your friends list

By J.L. SCHMIDT
Statehouse Correspondent
The Nebraska Press Association

WARNING! You have less than a week left to unfriend or otherwise block your Facebook friends who don't like the same candidate for President of the United States that you like.

The general election happens Nov. 8 - in case you have somehow missed that fact and I have no idea how you could have. AND, only one of the two candidates will win. That means that half of the people who vote will be happy and half of them won't.

Does that mean that you'll only have half as many friends as you did before the election? What happened before Facebook? How did we ever survive? Yes, Jimmy, there was a time when we only had friends who we saw in person, wrote letters to or talked with on the telephone. Yes, that was before the internet too so we had to really study the things we wanted to know.

There were these places called libraries where we could look things up. There were newspapers that weren't agenda driven and actually reported the news in an unbiased way. The same with TV. There was a time when it was OK to look up the facts and make reasoned decisions about things.

If you were lucky, you knew who to talk to. If they were at home or at their office, you could find out what you wanted to know. But it all started to fall apart about the time they figured out how to remove the cords from telephones and still make them work. Then came voice mail and e-mail and texting and Instagram and Twitter and then ... Facebook.

And our lives changed drastically. Our friends were somewhere in cyberspace and we got to know each other through these things called "posts." The annoying ones "posted" their opinions on politics and government. The rest of us posted pictures and cat videos and pictures of their children and grandchildren.

If we tired of what we were reading, the bold ones learned how to

"unfriend" the offenders. The timid ones learned how to "hide" comments from the offenders without unfriending them and seeming to be, well, unsocial. The really smart ones created groups of friends with whom they could safely share certain things.

We call it social media. All well and good. But I fear we have forgotten how to be social. You remember social, "of, or relating to, society or its organization." You know, society. Those people and activities outside our computer rooms. The world around those who walk with their noses stuck to their smart phones.

Facebook has also become our outlet for either supporting or decrying societal problems. I have lost track of the number of pictures of Colin Rand Kaepernick, the San Francisco 49ers football quarterback who gained fame, or notoriety, for kneeling during the pre-game

performance of the national anthem. The debate about that still resounds with new memes or comments occurring daily.

His activity has been copied by a number of other professional sports participants. The Navy is investigating the case of a sailor who didn't salute as the National Anthem played during a recent morning flag-raising at Pearl Harbor. Three Nebraska football players chose to kneel during the playing of the anthem at a game in another state.

The National Anthem. The Star-Spangled Banner. "Oh, say, can you see, by the dawn's early light, What so proudly we hailed at the twilight's last gleaming?" Yes, that one.

What is it that makes those words offensive to some and so important to others? Is it based on background, experience, socio-economics? All of the above? None of the above?

Cornhusker football player Michael Rose-Ivey said of his national anthem kneel before the football game with Northwestern, "But I also can't ignore those things that keep America divided."

I can't help but wonder if things like the National Anthem kneel - free speech or not - are contributing to that division as much as our incivility to one another that has been fostered by social media.

In the end, it boils down to rights vs. responsibilities.

So, go ahead and clean up your Facebook friends list. That's your right. But, don't forget your responsibilities as a productive member of society, that social thing that social media has made us forget.

Just a thought...
by Calyn Dunklau

Just a thank you, really
These past few weeks have been hectic to say the least for my family.

Life gets busy but when you add in unexpected emergencies, the days just seem to shorten while you stand there helplessly.

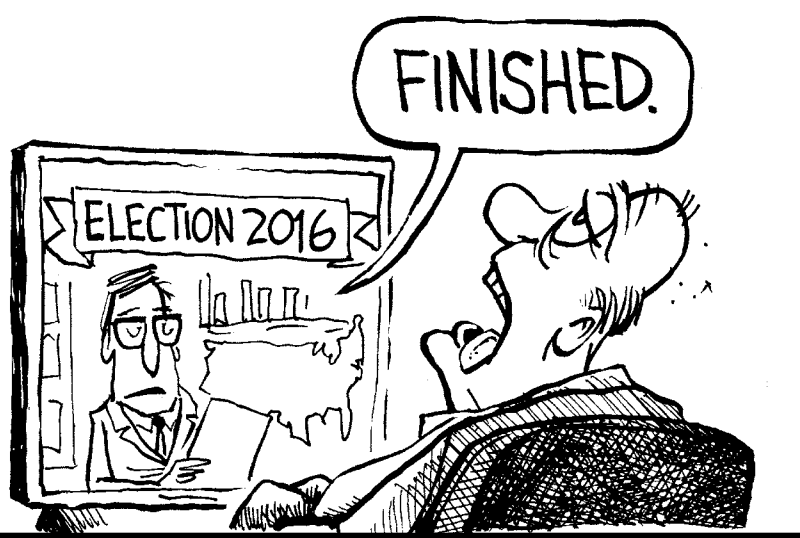

My grandfather is likely the most stubborn man on the planet, and he'd argue with me about that. He's got a heart of gold, and plaque. Well at least he did. This week I spent a day in Des

Moines as he underwent triple bypass surgery where the surgeon also repaired a couple other issues.

And each hour a nurse would walk through the waiting room, giving an update to each family on their loved one.

This simple gesture kept nerves at bay and gave us something to look forward to each hour. Sure, she likely would have delivered bad news also if there were any, but she was a point of light during a grim day.

And this got me thinking on how often the medical staff are there with people during their most vulnerable moments. Whether it's a six hour surgery on an ailing man or delivering a set of twins, the job is an emotional one and they don't get enough thanks in the world for what they endure.

Local boy advances to district competition

Eli Barner, a sixth grade student at Wayne Elementary School, has taken the first step to becoming an internationally recognized artist by winning a local competition sponsored by the Wayne Lions Club.

Barner's poster was among more than 600,000 entries submitted worldwide in the 29th annual Lions International Peace Poster Contest.

Lions Clubs International is sponsoring the contest to emphasize the importance of world peace to young people everywhere.

There was a tie for second place between Sierra Mutcher and Destiny Bacon.

"Peace is very important and it should be proclaimed and cherished everywhere in the world," the young student/artist from the Wayne Schools said.

The poster was selected by WSC Instructor/Professor Albracht's Art Education students for its originality, artistic merit and portrayal of the contest theme, "A Celebration of Peace."

The judging was held in October at Wayne State College.

Wayne Lions Club President Judy Stepp said she was impressed by the expression and creativity of the

students at the Wayne School.

"Barner's poster will advance to stiff competition through the district, and multiple district and international rounds of competition if this poster is declared the international grand prize winner," Stepp said.

One grand prize winner and 23 merit award winners will be selected. The grand prize includes a cash award of \$5,000, plus a trip for the winner and 2 family members to the award ceremony at Lions Day with the United Nations.

"Our club is cheering for Eli as this poster advances in the competition and we hope that this vision will ultimately be shared with others around the world," Stepp said.

Lions Club International is the world's largest service club organization with 1.4 million members in more than 46,000 clubs in 200+ countries and geographic areas.

In addition to its efforts toward conquering blindness, the organization has made a strong commitment to community service and helping youth throughout the world.

Awards given by RC&D council

The Northeast Nebraska Resource Conservation & Development (RC&D) Council held their annual meeting on October 24th. Brad Kellogg, board member from Dixon County, provided an informative and fun presentation of Dixon County's 1870's 5-term Sheriff Mason Dewitt. Brad and Rajia Weiershauser have recently been accepted into the Humanities Nebraska Speaker's Bureau with two other programs titled Women's Christian Temperance Union of Carrie Nation and John & Mona Neihardt. Following a buffet meal at the Legacy Bar & Grill in Newcastle President Jim Rabe opened the meeting.

The Council approved their 2017-2018 Plan of Work and accepted a new project, a third Grant Writing Workshop which will be held in Plainview with the date to be announced. This type of training has been requested by past participants. Four projects were also accepted as completed - Nebraska Natural Legacy, Grassland Habitat Evaluation, Newsletter 2010 and Farm-to-School.

Current officers were all re-elected: Jim Rabe, President, Wayne; Dennis Wacker, Vice-President from Osmond; Janet Gill, Treasurer, Bloomfield; and Joan Alexander, Secretary of Plainview.

The Council enjoyed giving out some fun yet important awards. Brook Curtiss of the Plainview News received an "EXTRA EXTRA! Special Award" for continued newspaper coverage and support all year long of RC&D Councils activities. An "Above & Beyond" award was given to Brad Kellogg for his help with historical interpretation, project planning, fundraising efforts and more. Rebekah Jessen was recognized with the "World's Best Partner Award" for her support of the RC&D Council as well as giving much to the organization in planning the wildlife and wildflower projects.

Additionally Donna Christiansen and the Plainview Library was recognized with a Special Assistance Award for helping out with the RC&D Council's computer issues, meetings and office staff needs. Shelly Johnston, Casey's General Stores, and Teresa Liermann of Family Dollar were given Outstanding Farmers Market Promotional Assistance awards for their weekly help in advertising items available at the market.

The RC&D Council looks forward to continuing their service to citizens through projects that will make life better for people in Antelope, Cedar, Dixon, Knox, Pierce, and Wayne counties.

Diabetes-arthritis connection topic of NPHD program

The Control Diabetes for Life program on Wednesday, Nov. 30 will be offered from 1:30 - 4 p.m. at Northeast Nebraska Public Health Department, 215 N Pearl Street in Wayne.

Participants are asked to pre-register for Control Diabetes for

Life by calling Nebraska Extension in Wayne County at (402) 375-3310. Please register by Monday, Nov. 28, so the proper number of handouts may be prepared.

Work in the yard one day and you're stiff the next. Take a long walk and your knees ache. It's just part of the aging process, right? Yes but your diabetes may have something to do with it. People with type 2 diabetes are almost twice as likely as those with normal blood glucose to develop osteoarthritis.

Through extensive world-wide research, conclusions are being drawn that diabetes must have a

direct effect on the joints. Diabetes is an independent predictor for severe osteoarthritis. Scientists are not sure why diabetes contributes to joint damage, but they have theories. People with diabetes and especially poorly controlled diabetes, tend to have difficulty healing. It takes longer for joints to heal after injury, and joint damage is the result. Out-of-control diabetes may also promote the production of inflammatory substances that degrade joints. Researchers are starting to think of osteoarthritis not as a wear and tear condition and more as part of the disease complex

known as metabolic syndrome.

Unfortunately for people with multiple health issues, joint pain often takes a back seat. Doctors don't ask about it, or patients think it's just a normal part of aging. Caring for joints may play an important role in controlling your diabetes. Arthritis in the knees and hips is very likely to interfere with the ability to exercise, which those with diabetes need to do to control weight, cholesterol, and blood glucose levels.

The public is invited to learn about the diabetes and arthritis connection. The program will help

those attending learn how to protect family members and what information to share with your medical team. During the program you will also learn how making healthful eating and staying active as a family a high priority will help in prolonging the development of diabetes. Healthy eating and staying active benefits your entire family. Feel better and stay healthy for years to come by exercising and lowering your blood glucose level.

Control Diabetes for Life is a program to help participants learn to control diabetes and prolong the onset of complications. Topics that

will be covered during the Nov. 30 session include: How Medicine Works to Control Blood Sugar Levels, The Diabetes Arthritis Connection, 10 Steps for More Energy, Managing Alcohol with Diabetes, and Insight from Food Diaries. The program is a joint project, sponsored by University of Nebraska, Lincoln Extension and Franciscan Care Services of West Point. There is no charge to attend.

Nebraska School Food Service Association has approved this session for two hours of continuing education credits for food service staff attending.

Potluck, Christmas meeting planned at last Minerva Club

Minerva Club was hosted on Oct. 24 by Twyla Lindsay at the Wayne Senior Center.

Eleven members answered roll call by telling of a Halloween experience. Vice President MaryAnn DeNaeyer entertained members by reading an ad from a hometown newspaper about a birthday celebration; asking us what we would do with \$864,000 deposited in an account for us each morning, and sharing a reading about making a wrong turn.

Minutes were read and approved. Donna Hansen gave the treasurer's report. It was decided to donate \$50 to the Food Pantry. Historian Hollis Frese asked members to help her select a current membership photo for the club scrapbook.

She will also be taking a scrapbook picture of each member as they present their program this anniversary year.

Plans were made for the Christmas meeting. Members will meet in the home of Fauneil Bennett on Monday, Dec. 12 for a pot-luck luncheon. A \$5-10 gift exchange will take place.

Additional club anniversary celebration ideas were discussed. Susan Boust and Marian Clark will co-chair this committee.

Twyla Lindsay presented the program "Historical Highlights from 1888 to Present" beginning with the Blizzard of 1888 to modern day Wayne.

At one time, early LaPorte had 300 people, before the railroad diverted the population to upcoming Wayne. She presented the many hardships the early settlers had to cope with along with the good years they experienced.

The Monday, Nov. 14 meeting will be hosted by Fauneil Bennett at the Wayne Senior Center.

Symphonic Band, Wind Ensemble to perform at Wayne State College

Musical inspiration evolves from Biblical themes, nature, and life experiences. The Wayne State College Symphonic Band and Wind Ensemble highlights such influences in a fall concert Tuesday, Nov. 15 at 7:30 p.m. in Ramsey Theatre.

The concert features the Symphonic Band conducted by Dr. Josh Calkin and the Wind Ensemble conducted by David Bohnert.

The Symphonic Band presents a diverse and topical program, including John Williams' stunning music for the Olympic Games and a Sousa march written for a Presidential Inauguration.

The Wind Ensemble performs various works such as Bacchanale from the opera Samson et Delila, Melodious Thunk, Butterflies and Bees! and an interesting composition by James Syler called Wu Xing spotlighting percussion solos.

The Ensemble recently performed at the Nebraska Music Educators convention and Nebraska Bandmasters convention, in addition to venues in Europe.

The concert is free and open to the public. For more information, contact Bohnert at (402) 375-7363 or e-mail dabohne1@wsc.edu.

God is good all the time

God is good all the time

There was a time, not too long ago, when a person on stage would shout out, "God is good!" and the audience would respond "All the time!" And then the leader would shout out, "All the time!" and the people would respond, "God is good!" And even though that has maybe become a little passé, the truth of the statement definitely is not. God is still good all the time!

We see His goodness in so many ways. We see God's goodness in the harvest. We see God's goodness in the colors of autumn. We see God's goodness in the sunrise each morning.

We see God's goodness in the cooing of a baby, the laughter of a child, and the warm embrace of a friend. We see God's goodness in a hot cup of coffee on a cold November morning.

If we look hard enough, we can even see God's goodness during the difficult seasons of life. A note of

A Word In Faith

By Troy Reynolds

Pastor, Journey Christian Church

encouragement. A shoulder to cry on. A text from a friend. A hug from a loved one. A word softly spoken. A promise from Scripture. A hope deep in our soul.

And when life is exceptionally hard, when there's no apparent goodness to be seen at all, we can still see God's goodness when we look at Jesus.

We can look at the cross and see that God understands suffer-

ing. We can look at the cross and know that God loves us. "For God so loved the world that He gave His one and only Son" (John 3:16). We can look at the empty tomb and see that God can turn any bad into ultimate good through His power.

We can know that God will work all things for good (not that all things are good) for those who love Him (Romans 8:28).

Oh, it is true, even when it is

difficult to see: God is good all the time. All the time God is good. And because that is true, every day can be a day of celebration.

Every day can be a day of thanksgiving. We can celebrate God's goodness in so many different ways. We can celebrate His goodness in how we treat our family members, how we treat our co-workers, and how we treat our classmates.

We can celebrate His goodness through how we spend our time, how we spend our talents, and how we spend our treasure.

I want to encourage you, as we begin the month of November, the month of Thanksgiving, to spend time each day thanking God for His goodness.

Each day write down one way you saw God's goodness throughout that day. In the words of the old hymn, "count your many blessings, name them one by one, and it will surprise you what the Lord has done."

Rev. Nahil Nour, Third Vice President of the Lutheran Church Missouri Synod from Sioux Falls, S.D., spoke at the Bible Institute held at Grace Lutheran in Wayne.

Bible Institute held in Wayne included a speaker on Islam

A group of 145 people registered for the Bible Institute held at Grace Lutheran Church in Wayne on Oct. 23. Speaker for the afternoon was Rev. Nabil Nour, Third Vice President of the Lutheran Church Missouri Synod from Sioux Falls, S.D.

After the events of 9/11, he was asked by the South Dakota District president to study Islam so that he would be able to educate the Lutheran congregations in South Dakota about the Islam religion and Muslims.

He has studied in the ensuing years and has attended various symposiums and conventions on this subject.

While in Wayne, he shared information about the birth of Islam, its sources, beliefs and practices; and then expounded on the life of Muhammad, the Prophet of Islam and its founder, the practices of Islam and its Theological Understandings.

After a short break, he concluded the afternoon session discussing how we, as Christians, witness

to Muslims.

"We can do this by friendship, hospitality and care for them as Jesus commanded us 'to Love our neighbors as ourselves,'" Nour told his audience.

After supper, Evening Prayer was held with Rev. Nour as preacher. He reminded all present that the way they can best witness is "to stand firm in your Faith: to know what you believe and witness to that truth."

The Bible Institute is sponsored by the Wayne Circuit Forum, which alternates every other year in sponsorship with the West Point Circuit Forum.

Members of the Forum were pleased with the response said Louise Green, lay member of the Forum.

"Participants were grateful that such an opportunity was offered in our area to learn more about the Islam religion and our Christian response. They enthusiastically thanked Rev. Nour for coming to Wayne to offer this opportunity", she said.

Private funds being raised for housing initiative

Northeast Housing Initiative, Inc. / NEHI, Inc. is a nonprofit 501 (c) (3) organization located in Allen Nebraska. It began in 2000 as a grassroots effort to develop affordable housing programs to first time homebuyers in northeast Nebraska through down payment assistance, housing rehabilitation, new construction and homebuyer education.

At the time, there was a lack of homebuyer assistance programs available to buyers in northeast Nebraska. And so, the founders started the organization from the ground up with not much more than a passion to fill this need. It took hard work, little pay and long hours to become a successful and respected organization that has since helped over 230 families in northeast Nebraska purchase homes.

In the past 16 years, NEHI, Inc. has worked diligently with community and state leaders to provide affordable housing to the region.

In addition to new construction, the organization has invested over \$2.5 MILLION in housing rehabilitation projects and provided an additional \$2.5 MILLION in down payment assistance to income eligible home buyers.

How is a small non-profit organization able to have such success? Through state and federal grants. That is, until the last three years. Like most government programs, funding for housing projects and operating costs has dwindled despite a growing need for quality, affordable housing.

Not unlike many other non-profits, NEHI has felt the effects of the budget cuts. The organization has not been awarded a project related grant for three consecutive years and has been reliant on the repayment of loans of previous projects to continue operations. Last year, a large majority of Nebraska Affordable Housing Program funds were given to organizations outside of northeast

Nebraska.

Courtney Dentlinger, State of Nebraska's Director of Economic Development, has identified the shortage of housing and shortage of workforce, as some of the top priorities for the state.

In face of the recent lack of funding, NEHI, Inc. has decided to actively begin raising private funds for both programs and operating costs. On Saturday, November 5th, NEHI, Inc. will be hosting a wine tasting fundraiser, "Taste of HOME" at the Allen Fire Hall from 1 p.m. to 5 p.m.

The afternoon will consist of wine tasting and complementary appetizers, unique vendors, silent auction, raffle, and live entertainment provided by PARADOX.

Please consider donating and/or attending the event and supporting your local community's housing initiative at the same time! Donations are greatly appreciated and tax deductible!

Winkelbauer resigns from LENRD board

NORFOLK - At their October board meeting, the Lower Elkhorn Natural Resources District (LENRD) Board of Directors accepted the resignation of Luke Winkelbauer. Winkelbauer farms in the Norfolk area and represented Subdistrict 2 on the board.

Winkelbauer

Winkelbauer is the fourth board member to step down this year. Former board members Cory Beller, Chris Carlson, and Tim Tighe resigned after moving out of their respective subdistricts. Winkelbauer did so because of the time commitment.

In his resignation letter, Winkelbauer said, "At this time, I am unable to fulfill the time commitment needed to fully engage and participate with the discussions and decisions required, as well as being able to attend the meetings and events."

Winkelbauer said that he hopes to someday return to the board when he has the time available.

LENRD general manager, Mike Sousek, said, "Luke is an extremely hard worker and his time commitment is currently involved with his family operation." Sousek thanked him for his time on the board.

In other items of business, the board voted 7-6 to reject signing a contract with JEO Consulting Group in the amount of \$23,000 to conduct an economic study on the Willow Creek State Recreation Area, near Pierce.

The reservoir has had problems with algae blooms in 7 out of the last 10 years. It could take as much as \$500,000 to do the necessary work to address the issue.

While the economic study could

have helped determine if that work would be worthwhile, some of the board members felt the \$23,000 price tag of the study was too high.

"A few months ago, we were looking into some possible projects at Willow Creek," Sousek said. "Those projects came with a very large price tag, so the discussion at that time was that maybe we need to look and see what the economic value of the lake actually is. We'll keep plugging away and we'll try to find more creative ways to find a solution or address the issues that we're currently having at the Willow Creek reservoir."

The LENRD serves all or parts of 15-counties in northeast Nebraska. Visit the LENRD website to sign up for emails from the district. Like us on Facebook, and follow us on Twitter. Protecting Lives, Protecting Property, Protecting the Future - www.lenrd.org <http://www.lenrd.org>

The difference between nitrates and nitrate nitrogen explained

Here's some information on a couple of topics from Bruce Anderson, Extension Forage Specialist. Here is a question: I just got the nitrate test results back from the lab and the level was 3,000. Am I in trouble?

Every year I get questions similar to this one. Unfortunately, with just this information I can't give a useful answer. So I ask the question "Was this reported as nitrates or as nitrate nitrogen?"

Why is it important to know the difference between nitrate nitrogen and nitrates? Well, using the previous example, if the score was 3,000 parts per million of nitrate nitrogen, then the forage has a nitrate concentration that is almost 50 percent higher than what we often consider to be the potentially toxic level. It would be risky for cattle to eat this forage without taking some precautions.

However, 3,000 parts per million of nitrate should cause no worries since this is less than one-third the danger level for nitrates. Thus, the same level can range from quite dangerous to perfectly safe.

These big differences are due to how individual labs test for and re-

Ag Happenings

Extension
Educator

port results for nitrates. Labs that report nitrate concentration are referring specifically to the nitrate ion, designated chemically as NO₃. Most labs and advisors consider 9,000 to 10,000 parts per million of the nitrate ion to be the level where toxicity concerns begin.

Some labs, though, report the amount of nitrogen in the nitrate ion as nitrate nitrogen and report it

chemically as NO₃-N. Thus, a much smaller amount of nitrate nitrogen is needed to produce the same effect as the entire nitrate ion. As a result, the danger level for nitrate nitrogen begins somewhere between 2,000 and 2,300.

Next time you test your hay or corn stalks or cover crop for nitrates, look closely to see how your lab reports your results. Then, when you talk with someone about the safety or feeding alternatives for your forage you can be sure both of you are talking the same language.

Grass remaining for winter grazing can really help cut feed costs for stock cows. Your grazing strategy can greatly influence how effectively you use this pasture.

Grazing winter range or pastures has many benefits. It can save as much as a dollar a day per cow compared to feeding hay.

It removes old growth so pasture next spring and summer is fresher. And some weeds may be eaten that cattle won't touch during summer. Plus, there is little risk of damage to your dormant pasture.

But the way you manage your cat-

tle during winter grazing can have a big effect on its success. For instance, maybe you have a goal of feeding as little protein supplement as possible while winter grazing. Then you must make sure your stocking level is light enough so cattle can select just the higher quality plant parts to eat.

Another strategy might be to stretch winter pasture as far as possible. Then it might be best to restrict animal access to small areas at a time, like with strip grazing, and feed supplements as needed.

Or, if you use forage from winter range just as a filler to keep cattle from bellowing when you limit feed corn, corn by-products, or other nutrient dense feeds, then high stocking levels and unrestricted access might be best.

Whatever your strategy, though, consider carefully what kind of nutrition animals are getting from the pasture so you neither underfeed nor overfeed expensive supplements.

Winter grazing is a great opportunity to reduce winter feed costs. With the right grazing strategy, it can help you meet many of your feeding goals.

Remembering Halloween 25 years ago

The experts say that Americans will spend many dollars on Halloween tomorrow. I know the costume shop in Omaha stays open many extra hours in October. I also know that renting costumes is not cheap; I've had to do that a few times. (Not for Halloween.)

Growing up, I don't think we ever went trick or treating. I do remember having one party at school, because my Mom took some feed sacks & made me a gypsy dress; it had a very full skirt and I don't recall wearing a head scarf, but I bet I did. I'm sure I didn't have big round ear rings.

Twenty five years ago, it was a Halloween to remember. It snowed! And it didn't just snow, it became ice packed. I had just started working here in Lincoln, and I had to really be careful making my rounds that morning.

I was going home to Hoskins on weekends because it was several months before our official move. I left my Mom's house, where I was staying, about 3 p.m. in the afternoon of a Friday, with a package of home made runzas she made that day. She usually ended up baking when the weather was bad. The mayor of Lincoln reluctantly called off Hallow-

The Farmer's Wife
By: Pat Meierhenry

een, literally, that day. He felt it was too dangerous for the kids to be out. It was not a popular decision, even though they had the rest of the weekend to make it up. Years later, when I met him at a hospice recognition event, I told him I remembered him for that! He was governor by then.

I had a hospice patient in Valparaiso and had made it a habit to stop there on the way home. His

family was providing good care, and he seemed to be comfortable. They called that morning to say he was declining, and I promised to be there later.

Going out north of Lincoln on Fourteenth Street, I was on a paved road covered with ice. There were pickups and cars in the ditches. I literally crawled. And prayed. I'm quite sure I have worn out several Guardian Angels in my career that involved traveling to patient's homes.

I made it to Valparaiso okay, thank the Lord, but did not go any further that night. I shared the runzas with the patient's family, and stayed at the bedside until he died. Their priest walked there, even though the streets were also icy, and we all stood around the bed, holding hands, and prayed the Our Father.

I don't know how the pickup service for the mortuary got there, but they did, and then I spent the rest of night as a guest in a family guest room. It was an unforgettable experience.

Only my volleyball team won over the weekend, but I predict, for you all to see, the Huskers are going to beat the Buckeyes next Saturday!! Mark my words!

Boehm named vice chancellor of UNL's Institute of Agriculture and Natural Resources

Michael Boehm has been named the University of Nebraska-Lincoln Harlan Vice Chancellor for the Institute of Agriculture and Natural Resources and University of Nebraska vice president for Agriculture and Natural Resources.

"We are tremendously excited to have Dr. Boehm join us at Nebraska's land-grant university," Chancellor Ronnie Green said. "His vision, passion and experience will be instrumental in leading IANR to even greater accomplishments and service to Nebraskans and the world. Mike's background in research and teaching, his national leadership in plant pathology, and his leadership of system-wide initiatives at Ohio State make him extremely well qualified for this integral role. His energetic, inclusive and thoughtful approach is a fantastic fit for our culture, and we look forward to Mike taking IANR's recognized momentum to even higher levels of international leadership."

Boehm is currently professor of plant pathology and vice provost for academic and strategic planning at The Ohio State University. He has been responsible for strategic planning for Ohio State's 15 colleges and six campuses; K-12 and community college partnerships; the University Libraries System, College of Public Affairs and Office of Institutional

Boehm

Research and Planning; dean reappointment and academic unit reviews; integrated capital planning; and classroom readiness.

He oversees Ohio State's Discovery Themes initiative, a 10-year program to produce solutions to the challenges of the 21st century, and serves as co-lead for the Humanities and the Arts Discovery Theme.

Boehm, 51, is an authority on the integrated management of turf-

grass diseases and focuses on the biology, ecology and management of fungal diseases.

He also works on the integrated management of Fusarium head blight of wheat with a focus on the development of biological control strategies for this economically important and challenging disease. He is widely published, holds five U.S. and 15 international patents related to his work on the biocontrol of Fusarium head blight, and has secured significant external funding in support of his personal research. In 2013, Boehm was president of the American Phytopathological Society, the leading scientific organization for plant pathology in the world.

"The University of Nebraska is well-known for its leading work and contributions in ag and natural resources and human sciences, and I'm thrilled to have the opportunity to build on that work," Boehm said. "The people of Nebraska and the university are deeply committed

to advancement in agriculture and sustainable use of natural resources, and there's an inherent understanding that what happens in Nebraska influences lives around the world. I'm eager to become part of that dynamic and honored to have the chance to work with IANR's amazing faculty, staff and students, as well as with external partners and renowned thought leaders in ag and natural resources."

Boehm will provide leadership for all agricultural and natural resource affairs at the university. In

the dual role of IANR vice chancellor at the University of Nebraska-Lincoln and NU vice president for Agriculture and Natural Resources, Boehm has leadership of the campuses for all agricultural, natural resources and related affairs in the University of Nebraska system. As vice president, Boehm will oversee the executive directors of the Rural Futures Institute and the Daugherty Global Water for Food Institute and the dean of the Nebraska College of Technical Agriculture at Curtis.

The vice chancellor is the chief ad-

ministrative officer for IANR, which includes the College of Agricultural Sciences and Natural Resources, the Agricultural Research Division, Nebraska Extension, and the IANR research and extension components of the College of Education and Human Sciences.

The vice chancellor is responsible for an enterprise with more than 1,600 full-time employees including a tenure-track faculty of 330, nearly 40,000 acres of land and a budget with annual expenditures of over \$215 million.

Be it enacted by the people of the State of Nebraska,

Section 1. Section 23-3406, Reissue Revised Statutes of Nebraska, is amended to read: 23-3406 (1) The contract negotiated between the county board and the contracting attorney shall specify the categories of cases in which the contracting attorney is to provide services. (2) The contract negotiated between the county board and the contracting attorney shall be awarded for at least a two-year term. Removal of the contracting attorney short of the agreed term may be for good cause only. (3) The contract between the county board and the contracting attorney may specify a maximum allowable caseload for each full-time or part-time attorney who handles cases under the contract. Caseloads shall allow each lawyer to give every client the time and effort necessary to provide effective representation. (4) The contract between the county board and the contracting attorney shall provide that the contracting attorney be compensated at a minimum rate which reflects the following factors: (a) The customary compensation in the community for similar services rendered by a privately retained counsel to a paying client or by government or other publicly paid attorneys to a public client; (b) The time and labor required to be spent by the attorney; and (c) The degree of professional ability, skill, and experience called for

and exercised in the performance of the services. (5) The contract between the county board and the contracting attorney shall provide that the contracting attorney may decline to represent clients with no reduction in compensation if the contracting attorney is assigned more cases which require an extraordinary amount of time and preparation than the contracting attorney can competently handle. (6) The contract between the contracting attorney and the county board shall provide that the contracting attorney shall receive at least ten hours of continuing legal education annually in the area of criminal law. (7) The contract between the county board and the contracting attorney shall require that the contracting attorney provide legal counsel to all clients in a professional, skilled manner consistent with minimum standards set forth by the American Bar Association and the Canons of Ethics for Attorneys in the State of Nebraska. The contract between the county board and the contracting attorney shall provide that the contracting attorney shall be available to eligible defendants upon their request, or the request of someone acting on their behalf, at any time the Constitution of the United States or the Constitution of Nebraska requires the appointment of counsel. (8) The contract between the county board and the contracting attorney shall provide for reasonable compensation over and above the normal contract price for cases which require an extraordinary amount of time and preparation, including capital cases.

Sec. 2. Section 23-3408, Reissue Revised Statutes of Nebraska, is amended to read: 23-3408 In the event that the contracting attorney is appointed to represent an individual charged with a Class I or Class IA felony, the contracting attorney shall immediately apply to the district court for appointment of a second attorney to assist in the case. Upon application from the contracting attorney, the district court shall appoint another attorney with substantial felony trial experience to assist the contracting attorney in the case. Application for fees for the attorney appointed by the district court shall be made to the district court judge who shall allow reasonable fees. Once approved by the court, such fees shall be paid by the county board.

Sec. 3. Section 24-1106, Reissue Revised Statutes of Nebraska, is amended to read: 24-1106 (1) In cases which were appealable to the Supreme Court before September 6, 1991, the appeal, if taken, shall be to the Court of Appeals except in capital cases, cases in which life imprisonment has been imposed, and cases involving the constitutionality of a statute. (2) Any party to a case appealed to the Court of Appeals may file a petition in the Supreme Court to bypass the review by the Court of Appeals and for direct review by the Supreme Court. The procedure and time for filing the petition shall be as provided by rules of the Supreme Court. In deciding whether to grant the petition, the Supreme Court may consider one or more of the following factors: (a) Whether the case involves a question of first impression or presents a novel legal question; (b) Whether the case involves a question of state or federal constitutional interpretation; (c) Whether the case raises a question of law regarding the validity of a statute; (d) Whether the case involves issues upon which there is an inconsistency in the decisions of the Court of Appeals or of the Supreme Court; and (e) Whether the case is one of significant public interest. When a petition for direct review is granted, the case shall be docketed for hearing before the Supreme Court. (3) The Supreme Court shall by rule provide for the removal of a case from the Court of Appeals to the Supreme Court for decision by the Supreme Court at any time before a final decision has been made on the case by the Court of Appeals. The removal may be on the recommendation of the Court of Appeals or on motion of the Supreme Court. Cases may be removed from the Court of Appeals for decision by the Supreme Court for any one or more of the reasons set forth in subsection (2) of this section or in order to regulate the caseload existing in either the Court of Appeals or the Supreme Court. The Chief Judge of the Court of Appeals and the Chief Justice of the Supreme Court shall regularly inform each other of the number and nature of cases docketed in the respective court.

Sec. 4. A committed offender may be eligible for medical parole in addition to any other parole. The department shall identify committed offenders who may be eligible for medical parole based upon their medical records. (2) The board shall decide to grant medical parole only after a review of the medical, institutional, and criminal records of the committed offender and such additional medical evidence from board-ordered examinations or investigations as the board in its discretion determines to be necessary. The decision to grant medical parole and to establish conditions of release on medical parole in addition to the conditions stated in subsection (3) of this section is within the sole discretion of the board. (3) As conditions of release on medical parole, the board shall require that the committed offender agree to placement for medical treatment and that he or she be placed for a definite or indefinite period of time in a hospital, a hospice, or another housing accommodation suitable to his or her medical condition, including, but not limited to, his or her family's home, as specified by the board. Sec. 33. Section 83-4,143, Reissue Revised Statutes of Nebraska, is amended to read: 83-4,143 (1) It is the intent of the Legislature that the court target the felony offender (a) who is eligible and by virtue of his or her criminogenic needs is suitable to be sentenced to intensive supervision probation with placement at the incarceration work camp, (b) for whom the court finds that other conditions of a sentence of intensive supervision probation, in and of themselves, are not suitable, and (c) who, without the existence of an incarceration work camp, would, in all likelihood, be sentenced to prison. (2) When the court is of the opinion that imprisonment is appropriate, but that a brief and intensive period of regimented, structured, and disciplined programming within a secure facility may better serve the interests of society, the court may place an offender in an incarceration work camp for a period not to exceed one hundred eighty days as a condition of a sentence of intensive supervision probation. The court may consider such placement if the offender (a) is a male or female offender convicted of a felony offense in a district court, (b) is medically and mentally fit to participate, with allowances given for reasonable accommodation as determined by medical and mental health professionals, and (c) has not previously been incarcerated for a violent felony crime. Offenders convicted of a crime under section 28-303 or sections 28-319 to 28-322.04 or of any capital crime are not eligible to be placed in an incarceration work camp. (3) It is also the intent of the Legislature that the Board of Parole may recommend placement of felony offenders at the incarceration work camp. The offenders recommended by the board shall be offenders currently housed at other Department of Correctional Services adult correctional facilities and shall complete the incarceration work camp programming prior to release on parole. (4) When the Board of Parole is of the opinion that a felony offender currently incarcerated in a Department of Correctional Services adult correctional facility may benefit from a brief and intensive period of regimented, structured, and disciplined programming immediately prior to release on parole, the board may direct placement of such an offender in an incarceration work camp for a period not to exceed one hundred eighty days as a condition of release on parole. The board may consider such placement if the felony offender (a) is medically and mentally fit to participate, with allowances given for reasonable accommodation as determined by medical and mental health professionals, and (b) has not previously been incarcerated for a violent felony crime. Offenders convicted of a crime under section 28-303 or sections 28-319 to 28-322.04 or of any capital crime are not eligible to be placed in an incarceration work camp. (5) The Director of Correctional Services may assign a felony offender to an incarceration work camp if he or she believes it is in the best interests of the felony offender and of society, except that offenders convicted of a crime under section 28-303 or sections 28-319 to 28-322.04 or of any capital crime are not eligible to be assigned to an incarceration work camp pursuant to this subsection.
