OUR NEIGHBORS

Station Bulletin.
A fool writer on the Albany Journal says: "Eastern people know very little of the sufferings of such persons as, used to the milder climate of the east, go into these states to win for themselves homes and independence. The plains of Nebraska are almost limitless, and winds and storms have a clean sweep throughout their vast expanse. Thousands of cattle and sheep are frozen in their tracks, and when the thaws of spring come and the snow is melted there follows the spectacle of herds of animals still on their feet, but so dead and motionless as if there never had been life in them. In Nebraska, especially, many families have been frozen in their beds, and the developments of warmer weather have been as ghastly as anything in the records of countries where geography represents as infinitely worse. It costs a great deal in life and treasure to make certain portions of this great country habitable. We have the old story of the pioneer over and over again and don't seem to know what it means. The fool-killer should hasten to Albany and do his duty."

North Journal.
Work at the asylum is somewhat interfered with by the holiday season, nevertheless something is being done. Dr. Kelly thinks he thinks the building may be opened by the fifteenth or twentieth of January. The plumbers are at work on the steam pipes for heating purposes. Four large boilers will be used for this purpose, while the fifth will be used to run the laundry and for an exhaustor. The building will be lighted with electric apparatus, which the electric light company of Omaha contracted to put in. The work is being done by Fairbanks & Co. of St. Louis, sub-contractors. Two Westinghouse engines will furnish the power, one being of 45 h.p. the other 25. A forerunner is at work upon the bedding of which it is proposed to fit up 100 for patients, besides which a very considerable number will be needed for the official force.

North News.
The chief engineer should call on the fire department to open the town water and let out the pump that is concealed therein. The well isn't of much account, but the pump may be of use some time.

We heard a railroad man remark yesterday that the St. Paul passenger train came about as near getting in on time every day as any train in Nebraska. We guess he was about right.

A great many complaints have reached us lately from our far-see readers to the effect that Norfolk buyers were not paying so much for corn and hops as the buyers in other towns, and as a consequence they could not market their products in this city where they want to do their trading. We do not know how true these complaints are, but certain it is that Norfolk dealers ought to be able to pay as high prices as those in any adjoining town. If they do not, and farmers make other towns their market, our merchants will be the losers by hundreds of dollars every year, and our town suffers in consequence. As a business proposition, our merchants could afford to give a bonus every year to the buyer who paid the highest average price for grain and stock, and thus aid in keeping up prices and keep the trade here that would be driven away by low prices. But no matter how it is accomplished, Norfolk must be made the best grain and stock market in this portion of Nebraska.

Winter Impudence.
The approach of winter is hailed with a chuckle of delight by the dealers in agricultural implements. It is not the season for sales but is the best time for future orders. The first snow lays the foundation for the opening of the next spring's ledger. As it flakily descends on the new rappers or covers with a mantle of white the expensive threshing lying homeless and exposed in the sudden barn yard, the implement dealer rubs his hands. He knows that we must rust and that rust means decay and rotting, and that will accrue to his advantage. When the plow share is covered with steel and the winter rains and autumn frosts of the western farmer are already being subjected to a vigorous attack, whose effect will be so when the spring time calls loudly for the blacksmith, the wheelwright, and the implement dealer. Hundreds of thousands of dollars are wasted every year in the far west through the impudent neglect of our farmers to house their machinery and implements.

Chilly cattle, shivering horses, and cold swine are the destruction of the well filled crib and overflowing mow. Warm stables, sheds and outhouses for themselves a dozen times over

in the course of a farmer's life. When all the vital forces of animals are directed to keeping themselves warm there is an enormous waste of food expended in making heat which would otherwise go into fat. With fat cattle at six cents a pound and hogs at five the impudence of saving the work of stopping up cracks by extra feeding to induce warmth needs no argument. Corn at 35 cents a bushel is an expensive store by which to warm hogs. Winter should be the farmer's home harvest. The fields are bare of crops, but there is all the more time to attend to fence fences and shaky gates. The barns and mows and cribs have received their burden and opportunity is given to repair their sides and roofs by a timely board or shingle or needed nail. There are groves to clean up for the benefit of wood pile, walks to patch up in interest of play field and a neat door yard, and a score of odds and ends of indoor work which, if neglected, soon call for the painter and carpenter and heavy bills for too long postponed repairs.

The provident farmer looks forward to winter as the season when he can enjoy with some leisure the fruits of his seed time and harvest and prepare at ease for the coming year. Snow and wet have no terrors. The sheds will protect his machinery from damage, the warm barns and pen for his stock. Undisturbed by storms and sleet he can revel in the cozy comforts of his home secure in the consciousness that he has provided against the wind and the weather.

"HACKMETACK" a heating and fracturing putty. Price 25 and 50 c. Sold by B. J. Kane.

Brace Up
You are feeling depressed, your appetite is gone you are bothered with headache, you are slightly nervous, and generally all out of sorts and want to brace up. Brace up but not with stimulants and spring medicines, or bitters, which have a tendency to injure the system, but with a medicine which stimulates you for an hour, and then leaves you in a normal condition, than before. When you want is an alternative that will purify your blood, start healthy action of liver and kidneys, renew health and vitality, and give renewed health and strength. Such a medicine you will find in Electric Bile Beans, sold by J. E. McFarland's Drug Store.

This column is contributed by the W. C. T. U.

THE OLD YEAR AND THE NEW

Standing on the threshold of the new year, the backward glance gives courage for the untired future. No year has been fraught with more momentous issues, and none has showed more steady advancement in public opinion. The great victory of the year 1887 is the decision of the Federal Supreme Court, that prohibitory laws are constitutional; that a state has the right to prohibit the manufacture and sale of alcoholic beverages; that when she does thus prohibit she cannot be required to compensate brewers, distillers and liquor dealers for property invested in the prohibited traffic, and that she has the power to prohibit the manufacture of intoxicants, even for domestic consumption. This decision by the court of final appeal, founds prohibition upon the solid rock. It bore immediate fruit, preserving a glorious harvest.

The national convention this year is a thing for which to render devout thanks, on account of its representative character, the number in attendance, the spirit which pervaded it, and its results in Nashville and throughout the country. No previous convention ever attracted so much notice nor was so widely and well reported in the newspapers. While this is due primarily to the admirable work of our national press department it is an indication of widespread and increased interest in our cause.

No day passing has been done in 1887 from seed-sowing of previous years. Most notably was this witnessed in the International Sunday School convention last June. For years the seed was sown, but it was not until this year that it began to grow and bear fruit. The seed was sown in the hearts of thousands of men, and now it is beginning to bear fruit. The seed was sown in the hearts of thousands of men, and now it is beginning to bear fruit.

The Wayne Herald.
 HONORABLE & NEURAL EDITORS.
 Largest Circulation of any Paper in
 Wayne County.
 Official Paper of Town and County.
 THURSDAY, JAN. 8, 1888.
 The Pierce Call has changed hands.
 Governor Masadake, of Missouri,
 died last week after an illness lasting
 but a few days.
 Jeffersonian simplicity indulged in
 a great blout at the white house on
 New Year's.
 Fremont had two fires this week,
 one destroying the court house and
 the other the opera house.
 The Omaha Bee's illustrated New
 Year's number was the handsomest of
 all the holiday editions.
 Omaha made improvements last
 year to the amount of twelve millions
 and a half. Sioux City put up two
 and a half millions.
 The state Grange of Missouri at its
 recent annual passed resolutions vigor-
 ously condemning the adoption of
 free trade as the policy of the country.
 A terrible collision occurred near
 Meadville, Pennsylvania, last Satur-
 day, by which five persons were in-
 stantly killed, and a large number of
 others fatally injured.
 Thirteen thousand miles of railroad
 were built in the United States in 1887,
 the largest mileage ever laid in one
 year. The total for the entire country
 is now over one hundred and fifty
 thousand miles.
 The Iowa registry law has been de-
 clared unconstitutional by one of the
 district judges on the ground that in
 certain cases it disfranchises citizens
 who may not be able to comply strict-
 ly with its requirements. The su-
 preme court will settle the matter.
 City seems to think it wants
 another bridge over the Missouri, in
 addition to the one now building, a
 one and competing line to Duluth,
 which line to the west, and any other
 lines that may be lying around.
 This really makes up its mind
 then, have them it will, the
 City isn't slow.
 The trade republican editors will
 be glad to eat a large amount of
 next year or before themselves
 democratic ranks. The one
 thing there is no doubt, that the
 national platform will be
 pronounced for the policy of
 American industries and
 labor. The free trade edi-
 tors, will be obliged
 to stand, rebelling order,
 and all.
 General Leese has brought
 the Nebraska railway
 built as a competing line
 to the R. & M., the owners of Gage,
 and others contributing a
 half million dollars to aid in its con-
 struction. The Atchison & Nebraska
 was consolidated with the R. & M.
 contrary to a provision of the con-
 stitution prohibiting the consolidation
 of competing lines, and the people who
 had voted bonds to build the line
 found themselves sold out. If the
 attorney general is successful in his
 suit the road will be sold, and the
 proceeds after paying liabilities turned
 into the school fund. The corpora-
 tion will soon find that they cannot
 override the laws of the state, and the
 R. & M. especially will learn that it
 does not own Nebraska just yet.

A writer in the North American
 Review cleverly punishes Mr. Cleve-
 land's laboring array of figures by
 which he proved to be the "owner of
 twenty-five to fifty sheep," that he was
 making money by getting say 10 cents
 a pound more for his wool by the
 tariff and paying duty in his turn up-
 on woolen goods that he bought. The
 writer showed that the value of all
 woolen products consumed by the
 inhabitants of the United States, in-
 cluding the tariff, averages about \$7
 a head per year.
 The owner of twenty-five sheep
 profits by the tariff, according to the
 president's figures about \$17.50, or
 the owner of 50 sheep makes about
 \$35. "The reasonable idea," continues
 the writer "that goods costing \$7 for
 each person have somehow been in-
 creased to over \$15 to \$20 for each
 person by sheep's wool, which, at
 the same time, could not increase in
 cost by 10 cents per pound, is intelli-

gently pronounced exceedingly able and
 profound by democratic statesmen,
 possibly because they cannot under-
 stand it."—Lincoln Journal.
 Wakened the Republic.
 Harry Seidler's father arrived last
 Saturday from Wisconsin to stay here
 several weeks.
 Nat Childs delivered seven nights at
 the market last week whose wages
 are 2000 pounds.
 The Sarsfield Sewing society closed
 about \$10 from the supper given in
 the former millinery store last
 Monday evening.
 A Emery was taken violently sick
 last week with typhoid pneumonia
 and at this writing is lying in a very
 critical condition.
 J. H. Benn has traded his hotel to
 J. K. Finch of Harrington for a 160
 acre farm in township 36, this county.
 The change of proprietors will take
 place within 30 days. Mr. Benn and
 family will move on the farm.
 Judge Hunter will be appointed
 deputy treasurer during the adminis-
 tration of treasurer Rowster. This
 gives excellent satisfaction not only
 to Wakenfield but to the entire county.

Several of our good young men
 were off New Year's.
 It seems as though it is about a
 stand-off between A. L. Hosmer, Cor-
 poral Bartlett and Sheriff Miner which
 is boss at the old Farmers Store.
 The indications are now that the
 town hall will be burnt in time for a
 Fourth of July dinner.
 One of our business men took offense
 at some of Patsy's pleasantries, and
 took pains to look for the promising
 son of Erin, but Patsy made himself
 scarce about that time.
 A couple of weddings to occur in
 the near future furnish gossip for our
 otherwise quiet village.
 One of our young men went to see
 his best girl after literary Friday eve-
 ning. He got ahead in and could
 not get home until Sunday.
 Our constable has his hands more
 than full these days.
 Gus.

Brenna Prelect.
 Jan. 1, 1888.
 EDITORS HERALD.—This being the
 first of the new year, I have resolved,
 (if agreeable to you) to note some of
 the events that may occur in Brenna
 during the present year, and as the
 first day of 1888 has furnished nothing
 of importance, so far as I know,
 I will devote this letter to some of the
 more important events of 1887.
 "So, to begin, I will say, good bye to
 dear old 1887. Thy memory is fraught
 with much to cheer; and but little to
 sadden the heart of our people. The
 only deaths were those of the infant
 children of Messrs. Brown and Hughes,
 very little sickness; three weddings; 9
 or 10 births. A number of new set-
 tlers have come among us and are
 proving themselves worthy neighbors.
 A good many substantial improve-
 ments have been added to the farms
 and homes of our people, among
 which I might mention the fine new
 residence of D. B. Tollman, in north
 Brenna. Our soil has proven itself
 worthy of the hand of toil by produc-
 ing the finest crops I have ever seen
 grown, thereby more firmly attaching
 our people to their homes, dispelling
 discontent, and creating new life and
 energy among us. Brenna people
 are becoming somewhat noted for
 their sociability, getting together pub-
 licly and privately as often as possi-
 ble, thereby getting intimately acquainted
 with each other.
 Well, last I should get this letter
 too long. I will note a few of the pre-
 sent happenings in our midst.
 Brenna Yreum is running this winter
 at the Gray school house, time of
 meeting every Friday evening. The
 question for next meeting—Shall
 "Brenna" build a hall or a church?
 "Jolly little Jimmy Rennie feels
 as big as any man since he became
 "papa" to a nice little girl.
 Mr. and Mrs. Thomas Hughes are
 spending their holidays in southwest-
 ern Iowa.
 Johnny Creamer returned Wednes-
 day from a visit to Malvern, Iowa,
 where he says corn is selling at from
 45 to 50 cents.
 Josiah Black's little baby boy is
 very sick. (We have learned that
 the child has since died. Ed.)
 Miss Minnie Sweet, sister-in-law of
 Dock Tollman, has been very sick for
 some time. Her father arrived from
 Des Moines, Iowa, last week. His
 name is—
 Well, I presume this letter is too
 already.
 B.

Bucklin's Arnica Salve.
