## BARDSLEY FREED.

The Ex-Treasurer Makes a Statement in Court,

AND SENTENCE IS SUSPENDED.

Hulk of the Money Accounted For—He Disobeyed the Law Through Ignorance, but the State Profitied in the Way of Interest and Dividends.

PHILADELPHIA, June 24. — Ex-City Treasurer Bardsley was brought into court in the morning and testimony heard against him, after which, by permission of the court, he made a detailed statement of his accounts, claiming that all the money entrusted to his care was accounted for except about \$50,000. The court's finding of the closing of the bank would mean a great loss of money to the city and state, and to myself, and my personal destruction, I resorted to every means in my power to build up the bank while it was open and to revive it after it closed, but without success, and its closing has resulted in my ruin absolutely.

Mr. Bardsley then proceeded to show what he did with the money, and in conclusion, and he wished to state, without any reservation or equivocation, that he did not know what the Keystone bank did with the money. He said he goes on to score Bank Examiner Drew, and then explains his relations with Marsh. He says: "There never was any arrangement of my kind between President March and myself in relation to the Keystone bank. I was a depositor and nothing more, and I favor of the whereabouts of Mr. Marsh. During the time I was in the office of the city treasurer I never had any transactions with Postmaster General Wanzanaker, nor have I any personal knowledge of his transactions with the Keystone bank. I have seen it stated prior to the time on the bank, and between that time and March 20, that Mr. Thomas Wanzanaker, son of John Wanzanaker, Mr. Marsh and myself were very frequently seen together. This is absolutely false. During the past two or three years I have never seen in company with either John Wanzanaker or his son, Thomas B., except once, when I called to ask Thomas B. Wanzanaker where a letter would reach his father, who was with President Harrison on his trip to California.

Admissions. —Mr. Bardsley then admitted his stock speculations and also that he received interest from a number of banks in which he deposited the money, and advised that he used public funds as agent contractors and then goes on to say: "I understand I am to be sentenced on three charges. First, loaning public funds; second, receiving interest on public funds; and third, receiving interest with public funds. These three charges are briefly as follows: Not knowing there was any law against loaning the state money in my hands, I did loan to Robert Glendinning & Co., and several national banks in the city, and to several other banks, through El. Yard, various sums of money. I never did loan it unless where I was sure the security was ample, and so arranged the loan that the money would be returned to me whenever I was required to make payments to the state. Every dollar of the money I loaned to Glendinning & Co. or to any other bank was returned at the time fixed by me, together with interest, and all this money, both principal and interest, so returned to me I have paid over. No part of that money is now in my possession.

Second charge—Receiving interest on state money. It is true, I did receive interest on state money, but it is quite true that I did not know of any law which made it a crime for me to do so. The interest I received amounts to thousands of dollars, all of which has already been paid by me to the state, or will be collected by my assignee out of my assets. I have none of it in my possession.

Third charge—Buying securities with public funds. It is true I did buy some of the securities named in part with public money. I did not buy the securities, however, with any thought of reselling them. I only with the thought of making secure a portion of the large amount in my hands. The money has either been returned or is amply secured, and in no case has there been any person or persons identified to the extent of one dollar by reason of my buying the securities. I have not shared the profits of the office with anyone. I was not aware of the act under which I was arrested.

After a consultation between the lawyers, John Wilson, attending judgment and Mr. Bardsley was taken back to prison. Bardsley practically goes free.

## Ayer's Sarsaparilla

The Best

## Blood Medicine

So say Leading Physicians and Druggists, and their opinions are endorsed by thousands cured by it of Scrofula, Eczema, Erysipelas, and other affections of the blood.

"Ayer's Sarsaparilla has won its reputation by years of valuable service to the community. It is the best—Dr. W. P. Lang, Druggist, 212 Myrtle St., Lowell, Mass., says: 'I have prescribed Ayer's Sarsaparilla in numerous instances, and I find it highly effective in the treatment of all diseases of the blood.'"

"Dr. H. R. Hight, Third and Oak Sts., Philadelphia, Pa., writes: 'For two years, I have prescribed Ayer's Sarsaparilla in numerous instances, and I find it highly effective in the treatment of all diseases of the blood.'"

"Dr. M. Robinson, Pharmacist, Salina, Co., certifies: 'Ayer's Sarsaparilla has always been a great seller. My customers think there is no blood-purifier which is so effective as having the disease rid of its taint, and so they like to have my life. I began selling Ayer's Sarsaparilla and soon saw an improvement. After using about two dozen bottles I began to feel better. I continue to take a few bottles of this medicine each year for my blood, and it is a most valuable blood-purifier. I have tried other remedies, but none does so much good as Ayer's Sarsaparilla.'—D. A. Robinson, Neol, Kansas.

Don't fail to get

### Ayer's Sarsaparilla

PREPARED BY

DR. J. C. AYER & CO., Lowell, Mass.

THE PENITENT PRODIGAL

DR. TALMAGE PORTRAYS THE HOME-SICK SOUL.

The Pleasures of Sin Not Equal to the Promises Held Out—The severe Discipline of Repentance Shows by Vivid Illustrations.

Monday, N. Y., June 21, 1893.—Dr. Talmage's sermon this morning was an appeal to young men. Numbers of these come to the Tabernacle services, and they receive Christian training.

There is nothing like hunger to take the energy out of a man. A hungry man can not meditate with penmanship. There has been a great deal of money deflected not so much for lack of money as for lack of energy.

But this young man's will was not so weak as to give him without. So he went down to the sea, and he began to solicit. He says, "These are no clothes for a man of business for a Jew to be engaged in."

The resolution of this text was to be a warning to young men. It was to be a warning to young men. It was to be a warning to young men.

How do you prove that you are in a ruined condition by sin? Well, can you have two wads of money in your pocket? I can prove it either by the statements of men, or by the statements of women.

How do you prove that you are in a ruined condition by sin? Well, can you have two wads of money in your pocket? I can prove it either by the statements of men, or by the statements of women.

How do you prove that you are in a ruined condition by sin? Well, can you have two wads of money in your pocket? I can prove it either by the statements of men, or by the statements of women.

IN QUEER MARTINIQUE

IT LOOKS LIKE A BIT OF FRANCE GONE ASTRAY.

They Have Many Peculiar Things There and Do Very Many Things in a Peculiar Way.—The Women, Their Babies, etc.

Martinique is a garden of romantic beauty, extending from the edge of the fertile bay to the foot of the mountains and looks like a fragment of France gone astray.

The streets are nearly all paved with Belgian blocks, and sparkling water rushes down the middle of each in the gutter, toward which the pavement slopes.

Everybody lives out of doors. The harbor is skirted by a white boulevard, and the houses are built with iron plates in the evening and chatter like magpies.

The upper classes wear the latest French fashions and live with considerable comfort, although many of them abroad to be educated.

The island is covered with fields of sugar-cane, neatly cultivated by the negroes, while the men do the heavier work in the cane and on the harbor.

One of the most beautiful parks in the world is known as the Place Brierre, where there is a magnificent fountain.

Some system of notation has been used since time out of memory. The first of the records are said to have been written with a stick of a fat surface covered with sand.

Terrell Pictures.  
New York Press: Increased McKinley bill protection on cotton leads goods reduced our imports of that kind for the month of April from 77,000 to 62,000 in 1891, which means that the cotton has been employed making the other.

Omaha must secure the Republican National Convention.  
There is to be an enormous temple plant erected in the Black Hills, and the famous tin mines are to be developed.

Wm. McKinley of the famous "war bill," if he lives will be the next Governor of Ohio. Just make a note of it.

Horace Boise was nominated for Governor at the democratic state convention at Ottumwa, Ia., yesterday.

What's puzzling us not a little just now is whether the railroad companies at Wayne will have enough cars to haul away the crop of Wayne county this fall.

McKinley's fall, the same strike terror to the glizard of the war traders; they never had a heart; but the warmth with which the American greets the name is astonishing. Ohio, we thank thee for the handsome endowment bestowed upon thy son; and one of America's noblest statesmen.

The free trade or democratic sheets claim that reciprocity with Brazil will not benefit the farmer, but the following report of the Department of Agriculture for the month of May knots that higher that a cocked hat:

Total value of Exports to Brazil 58,728,533  
Total Agricultural 5,747,875  
Per cent of 9.78

And the above agricultural exports are those made free to Brazil in 1890.

The papers of Harrington and Culeridge in their efforts to do each other up with the pen—are launching a mountain of the outcome of which will be a great. A legitimate contest for first place in the newspaper field will meet with the hearty approval of all, but the readers of the papers spoken of do not care for the slush with which they are bombarding each other and subscribers do not pay money to be supplied with that class of news.

The site for the cur palace at Sioux City has been secured, likewise the plans for the building. It will be the largest, handsomest and most magnificent palace yet constructed, and will abound with new and novel features among which will be a South American exhibit, consisting of all the tropical fruits and vegetation of every description. The Sioux Citizens are determined to outdo themselves and they do it with each succeeding year. There is no such thing with them as having reached the top.

Did you ever stop to think that already twenty alliances parties in the western part of Kansas have gone back to the republican party. They did not realize until recently that the only party of steadfast principle is the republican party. There is no political organization without its ties and there never will be, but for fitness and purity of intent the republican party comes nearest filling the bill, and if the laboring classes will carefully study the situation and not depend on the teachings of others they will be foremost to its support.

"If the government can make money by the government collect taxes? Why not make all it needs and stop bothering the people?" So sayeth Bob Ingersol.

The per capita debt in the United States ten years ago was about \$40. At the present time and under a protective system it is about \$15. In fact, the English it is \$87. Hard cold facts are tough to swallow, but the truth must prevail.

There is now every reason for rejoicing at the prospects in this agricultural section. The advance in the price of farm products and live stock and the very favorable conditions for the bountiful production of crops of all kinds is indeed encouraging alike to the farmer and the business man.

An open confession is good for the soul, especially when coming from a denigrative sheet of the ilk of the Norfolk Herald. We thought the republican party was causing destruction and poverty, according to the teaching of the democratic press, and "the advance in the price of farm products and live stock." What possessed thee to speak the truth.

In 1861 the duty on lead was made 2 cents a pound. At that time we were importing about 70 per cent of the lead consumed in this country about 2 cents a pound. There were about 250,000 tons of lead in this country at that time. Within eight years we were making all the lead we consumed, and the price dropped one-half—from eight cents a pound to an average of four cents a pound. We consumed 160,000 tons of lead a year, the cost of which at that time was \$18,000,000. Under the old price of 8 cents a pound, or \$160 a ton the price would be, \$25,600,000. The tariff in this instance has not proved a tax.—Albion News.

The republican party was not simply a great gladiator raised up in the emergency to conquer the rebellion and then to disappear, but a party that has its full and mighty rights to do. As long as democracy lives and resists the full interpretation and application of the principles of republicanism in life and call his work unfinished. Unsettled questions have no pity for the repose of nations, and neither the betraying of a nation or the sacrifice of commerce than of human rights, nor the stranger apathy of a pseudo-holding religion which "doats the negro for his life, one finally comes to long for their full and righteous judgment.—Chicago Live Oceans.

"There is great activity among the manufacturers of carpets, upholstery, hosiery, ginghams, cotton goods of all kinds, and woolen goods," says a press business dispatch, adding: "The effect of all this increased activity will soon be felt." Some of the goods you get down to the real news today, the information coming over the wire is all favorable to the republican party. We shall be told again and again that this is in concert with the republican party.—Sioux City Journal.

DEADWOOD, S. D., June 22, '91.  
EDITION: I have space I will say something about my present trip.

Leaving Wayne last Tuesday morning we arrived at Hot Springs Wednesday morning at about seven o'clock. Of course it rained, it has not done much of anything else lately, and the rain made Hot Springs feel like a charmed house. When the sun came out and a good breakfast at the Hotel Gillespie had been eaten, we saw Hot Springs to a better advantage. Some of the couple of fine cars and motor cars noticed our names on the hotel register. One of us from Ashland, Wis., and the other from Wayne, Neb. It pays to come from noted countries.

Grand, Wis., and the other from Hot Springs, Wis., of whom we were introduced to the hotel and we were asked to ride about the town, which of course we did. We were shown all the eligible sites for building and operating a hotel, and they had a quarter of the city of Hot Springs. I told them while I could not buy I would mention their golden offer to a man like me. I kindly told B. F. Feather, and they may expect about a week after my return home to see the Wayne contingent come in on the early morning train.

Hot Springs is a beautiful town. Large hotels are being built, rail roads coming in and business is rushing. There can be no healthier city in the continent, except Hot Springs, and water of the best and best a altitude of about 3,500 feet, so wind and average temperature higher than Omaha. This is true, I am not paid for saying this.

On Friday, a. m. at 3 o'clock, we left Hot Springs for Black Hills, took the Black Hills and Fort Pierre R. R. narrow gauge, for Lead City, where we arrived at 10 a. m. The 59 miles from Black Gap to Lead City, the Black Hills narrow-gauge indeed a wonder land in every particular. We took the observation car, a car without a roof and with several air chimes, and the scenery was just what the train passed right under, over-hanging rocks, and on all sides the mountains seemed to pierce the sky, sometimes sloping, often perpendicular, always grand and imposing in their rugged strength. It was an up grade ride all the way, for places 212 feet to the mile, full of sharp curves, so much so that two of our passengers were getting sea sick. When we reached the highest point about four miles out of Lead City, where the altitude is a little over 6,000 feet, Mr. MacKinnon, who has heart trouble, suffered with heart palpitation and became faint and dizzy. For his sake I was glad when we descended down 400 feet before we got into Lead City. The rail road, which we passed has several mountain saw mills in it, two or three little way stations, as well as the famous "Little Bear" gold mine. On these mountains are reaching with prospectors' holes, punched for gold.

As we entered Lead City more rain. While here we visited the well known "Lead Sticks" mine. On the way there are several quartz mills here, one has 100 stamps, the indescribable noise of which is enough to make one noisy. Lead City, the rail line is a muddy place, hemmed in between two mountains, hardly two homes standing on the same level. Main street is a little better, but with the exception of Main street, which is a long, it is a continual climbing up and down stairs.

We left Lead City on the Dummy line for Deadwood, Saturday noon. The road is built on the rail road, but we had a fine view. Went out to a village called "Centers," by stage or hack. Got there just in time to see a rough trip by lightning and rolling down the mountain side. On the way we saw many things, where everybody talks "claims," "names" and "gold." Everything in the mining line is now "placer" mining, instead of the old time "placer" mining. Near Centers looking from the stage window I saw one lone "placer" miner shoveling his creek dirt into the mining or washing bucket. He shut his eyes and the rest of his men and the comment of the stage passengers were not favorable to this lone placer's prospective "find."

I am here only as a tourist, casually to help Mr. MacKinnon find a gold mine, which seems to have got lost, but really I am not hunting very hard for the mine, on the other hand am enjoying myself.

Shall be home Thursday or Friday at all is well. Yours, F. P. BAKER.

THE TEACHERS' READING CIRCLE MET at the office of the County Supt. at 10:30 a. m.

The first paper read was a very interesting one by Miss Brown, entitled "Life of Writter, and Character of his Writings." The subject was well presented, showing considerable study in preparing the paper. After disposition of the first paper, the subject of Busy Work was taken up, and many good plans as to what to use and how to use it, were presented by Miss Hill. One subject it was and also by Miss Bowen, of Wakefield. In the afternoon the first subject taken up was "Teaching of Geography," Mrs. Hunter being absent, the subject was assigned to G. W. Hunter of Wakefield. After Mr. Husted's opening remarks, quite a discussion followed, in which the prevailing opinion seemed to be that we teach a great deal in our geography classes that does not belong to the subject, and that we should have a more definite plan of work and follow it.

Every teacher who has ever covered the ground that little room was left for discussion by the other members. After a short talk on "Saw Brand" by Mr. C. H. Husted, on Saturday, July 11th, at 10:30 a. m.

Those who had special work assigned them were absent, are: Leona Hunter, Mary Stanton, Mrs. C. H. Husted, Mrs. H. H. Husted, Charlotte White and Edith Colson. Miss White sent her excuse, her mother was sick, but none of the others were that much interested. There seems to be a growing opinion among those interested in our schools, that the county Superintendent should make those who neglect their duties in our schools, and who attend the county normal each year just long enough to become a member, or else are too tired to attend at all, and consequently most go somewhere on a visit, feel the force of power which the law gives him in such cases. G. W. HUSTED, Secy. Pro Tem. J. J. GILDERSLERKE, Manager.

What makes you look so well this morning, Mr. Jones? Well, you know I was pretty well run down and did not care whether I lived or not when J. J. Williams advised me to use Haller's Blood Purifier and Blood Tonic. I did and you see the result after using two bottles.

DeWitt's Little Early Bitters cures all kinds of ailments. It is a powerful purgative and cleanses the blood, chronic constipation, dyspepsia, B. J. Kass.

Cataracts, neuritis, rheumatism and most diseases originate from impure blood. Cleanse it, improve it, purify it with DeWitt's Sarsaparilla and Health Bitters. Strength regained. Sold by B. J. Kass.

Are you troubled with cuts or blisters? If so, let us give you a little advice. Here are some of the most possible without drawing blood: then soak them in warm water to soften them and apply Chamberlain's Pain Balm in twofold, rubbing them vigorously for a few minutes at each application. A corn plaster should be worn for a few days to protect them from the shoe. As a general liniment for sprains, bruises, lame back or rheumatism, Pain Balm is all that can be desired. 50 cent bottles for sale by B. J. Kass.

Contestation, blood poison, feverishness, rheumatism and neuralgia, nervousness, and all kinds of ailments, are cured by DeWitt's Little Early Bitters. Take your choice. B. J. Kass.

A Husband's Mistake. Husband to often permit wives, and parents their children, to suffer from headache, dizziness, neuralgia, nervousness, and all kinds of ailments, are cured by DeWitt's Little Early Bitters. Take your choice. B. J. Kass.

Are You Alone To the importance of keeping up with the times? If so, subscribe for that newest and best of metropolitan weeklies, THE SIOUX CITY JOURNAL. In order to give this paper the widest possible circulation, the publishers have made the following unprecedentedly low prices, from this date, for the Campaign:—See the Campaign. Single copies for 10c. Clubs of five or more to Nov. 1. 25c. Sample Copies Free. Address, THE SIOUX CITY JOURNAL, Sioux City, Iowa.
