THE MISSIONARY LADIES MEET

The Society of the Synod of Nebraska Hold Their Thirty-First Session in Wayne.

The Thirty-first annual meeting of the Woman's Missionary society of the synod of Nebraska, which was held in Wayne Wednesday and Thursday, was one of the most successful yet held. About sixty delegates from different sections of the state united with the Wayne people in making a very interesting and instructive convention.

Miss Jewett, who has been thirty-six years as missionary in Persia, was one of the best speakers. Her subject was "Is Persia Progressing?" Miss Petrie, who told of home missions, was an enthusiastic worker and a splendid speaker.

The colored race was represented by Mrs. Clark of Georgia, who gave a most interesting talk, her subject being "The Black Man's Only Hope." Mrs. Harrington of Wayne gave the address of welcome and Mrs. G. W. Clabaugh of Omaha responded. The announced program was carried out.

President Mrs. Geo. Tilden of Omaha was urged to accept the office for another year. The other officers elected were: Vice President Mrs. M. L. Stone, Grand Island; and Mrs. P. L. Johnson, Hastings. Recording Secretary, Mrs. M. Porter, Central City. Corresponding secretary and treasurer, Mrs. J. E. La Rue, Omaha. Secretary of Literature, Mrs. Elliott, Beatrice. Missionary correspondent, Mrs. E. Irwin, Lincoln.

Prohibition

The democrats carried Oklahoma by a majority of 30,000 and the prohibitory clause of the new constitution was also adopted by an approximately equal vote.

This coincidence commands attention. For years and years it has been declared that whiskey makes democrats. Here in Nebraska we have heard much on the subject. The democrats have more than once asserted opposition to all sumptuary laws as a cardinal doctrine of their party. But the evidence of current history is against this familiar old slogan. Democracy and prohibition any more than can republicanism, in republicanism and prohibition. That is to say, there are probably more of democratic than republican counties in the United States. Ninety per cent of the counties of bourbon Kentucky, the home of pure whiskey, are prohibition. In Georgia, Alabama, the Carolinas, Texas and others of the old southern states prohibition is dominant. And now comes democratic Oklahoma, the newest star in the flag, with state-wide prohibition.

Democracy can no longer be pictured as red-nosed and bear-eyed, and more than can republicanism. In both parties the doctrine of sobriety is rapidly gaining ground. The people are coming to realize the enormity of the liquor evil. Go where you will in Nebraska today and you are constantly hearing it said, "if prohibition were submitted to the voters of this state they would give it an overwhelming majority." Every alert and observing man can testify to this.—Fremont Tribune.

A. F. Chaon Replies.

Randolph Times: Through his attorney A. F. Chaon has filed an answer in the district court at Omaha to his wife's petition for divorce and alimony. The only thing that Chaon admits was that they were married at Sioux City and resided in Randolph—all else he declares is not true. He denies treating her in a cruel and inhuman way and his petition sets fourth some startling allegations.

Chaon says that he was a dutiful husband, but that his wife began from the first to make things lively for him and to systematically appropriate to her own use any money that she could get her hands on. He says that before they were married he settled a dentist's and doctor's bill for her in Sioux City. That she sold the milk, cream and butter from several cows and kept the money while he furnished cow feed and did the milking. She also sold all the vegetables, eggs, chickens, and also two cows and he didn't see a cent of the money. She sold chickens for cash and had chicken feed charged to him. She also kept one boarder and collected the board money, as well as some of his wages, while he furnished her clothing and eatables from his own means. He figures she has had \$1105 of his money in eleven months.

To make things more interesting the husband files a cross petition and asks divorce from his wife without alimony. As to the testimony it will be her word against his, and his word against hers, for the most part. It is probable that the case will be heard in 23 days.

Mission for Catholics.

On Sunday, Oct. 6, at 10 a. m. a mission will be open in St. Mary's church at Wayne and continue for one week. The Rev. F. A. Strubinger a Redemptionist of the St. Louis Province will conduct the mission. This Reverend gentleman has the experience of over twenty years in missionary work; is equally proficient in the German and English languages and all are earnestly requested to attend this mission, that they may review their zeal in struggling for that which is above the material things of earth—their eternal salvation. For the best of us at times, become engrossed in the perishable things of earth, that we are liable to forget the principal reason for our existence here, and hence need to be aroused from that spiritual sleep which leads to eternal destruction.

There is more Catarrh in this section of the country than all other diseases put together, and until the last two years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies by constantly failing to cure by local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer \$100 for any case it fails to cure. Send for circulars and testimonials.

The Fort Cobb (Okla.) Record fathers this story about a bright little school girl's composition on men: "Men are what women marry. They drink and smoke and swear and have so many pockets but they won't go to church. Perhaps if they wore bonnets they would. They are more logical than women and always more zoological. Both men and women have sprung from monkeys, but the women certainly sprung further than the men."

Randolph Times: E. B. Young, Sunday School missionary, was in town Wednesday, having been in the Schultz and Eagle school districts over Sabbath speaking in the interest of the country Sunday school work. Thriving Sunday schools are maintained at both these school houses with fair prospects for continuance right along through the cold weather.... Henry Gaertner was down from Wolsey, S. D. this week, returning Wednesday. Henry says that country is a good one and he is doing business as manager of W. H. Stageman's real estate office there.... George Hyatt went to Wayne last Wednesday for a visit with relatives there.

Beatrice Express: The superintendent of Wayne county has issued an authoritative ukase instructing teachers not to dance during the school year. In Gage county teachers don't dance any time of the year. In a locality, however, where teachers are fond of dancing, they could avoid imperial interference from the superintendent's throne by leading him into the meshes of the dance. He might frown and storm at first, but would finally yield as Betsey did to the bicycle. She swore vengeance on the two-wheeled scheme and scorned the folly of those who attempted to ride it, but soon became its most enthusiastic friend.

A. L. Lagges of Norfolk, during the past week has won honors in two Nebraska shooting tournaments. At the Coleridge gun club's shooting tournament on Monday, Mr. Lagges won the high average for the day and carried off the big end of the purse. The program was at 160 blue-locks in ten events, eighteen shooters competing. Again at Wayne on Thursday Mr. Lagges won the high average for the day at a shooting tournament in which thirty-two shooters competed, the program being at 125 blue-locks in fifteen, twenty and twenty-five bird events. At the Wayne shoot, shots from all over northeast Nebraska were in competition, Soo Gun Club of Sioux City being represented by two shooters. The Wayne gun club, as a result of the attendance, will hold another tournament in the spring with a second day added to the program.—Norfolk News.

There was sadness in the poultry yard, and all because a fat young rooster was gone to grace the table of a clerical dinner party. A facetious fowl remarked, "By this time he has probably entered the ministry." An old hen, with a knowing wink, replied, "Well that isn't much of a loss; he never would have made much of a layman, anyway.

A weak stomach, causing dyspepsia, a weak Heart with palpitation or intermittent pulse, always means weak Stomach nerves or weak Heart nerves. A Kansas editor who had contracted the habit of going to church had this to say: "Ladies should take off their hats in church. No preacher can inspire a man who is looking in to a lopsided aggregation of dead birds, stuffed weasels, chameleon skins, ribbons, beads, sticks, straws, corn tassels and thistle down. It makes a sinner feel lost in the wilderness."

JUDGE WELCH'S CAMPAIGN.

Will Soon Name Central Committee This Not His First Campaign.

Judge A. A. Welch of Wayne, a candidate on several tickets to succeed himself as district judge in this district, in Norfolk yesterday said that the Ninth district judicial contest was progressing in harmonious fashion.

Judge Welch is not only the candidate of all the parties for district judge but he is even twice a candidate on the republican ticket, being nominated both for the full term and the short vacancy.

Judge Welch in a short time will announce the personnel of the republican district central committee. This committee will have a comparatively easy berth as Judge Welch's campaign, backed by the unanimous support of the Ninth district, gives promise of managing itself.

Judge Welch might announce central committees for all Nebraska parties but he will take no such course. There is in fact considerable doubt whether or not written names on the primary ballot will afford a nomination. Court procedure is being taken to ascertain this. Before Judge Welch himself in Dakota county action was brought to compel the county clerk to place on the official ballot the names of the candidates who claimed to have secured the nomination through names written on the primary ballots. The hearing was set for next Monday.

This is not Judge Welch's first campaign for district judge.

On September 25, 1899, in the days of fusion strength, Judge Welch was tendered a unanimous nomination by the republican judicial convention meeting in Norfolk. In the November election Judge Welch was defeated by his fusion opponent, Wm. V. Allen of Madison. Judge Welch, however, had the satisfaction of carrying Wayne county.

Judge Welch has been a north Nebraska man for twenty-five years. He was born near Bennington, Vt., in 1854. Working, reading law, teaching school, Mr. Welch was admitted to practice law in Illinois in 1883. That year he came to Wayne county schools. He was elected county attorney in 1894 and again in 1896 in the face of a Bryan majority in Wayne county. Again in 1899 when he was defeated for district judge by Senator Allen he still had the satisfaction of the complimentary vote given him in his home county.

Judge Welch was appointed to the district bench by Governor Sheldon following the resignation of Congressman Boyd.—Norfolk News.

NINE DIRECTORS ARE CHOSEN

The Chautauqua Stockholders Select a Board of Control and Capitalize at \$5000.

A called meeting of the stockholders of the Wayne Chautauqua Association was held at J. T. Bressler's office on Tuesday evening. The committee on organization made report and the preliminaries necessary for a regularly incorporated body were gone thru with. A board of nine directors was duly elected, consisting of the following: John T. Bressler, J. M. Pile, R. Philleo, E. P. Wilson, James Britton, W. M. Orr, D. C. Main, T. W. Moran and Geo. R. Wilbur. The executive board is made up of the officers elected of whom J. T. Bressler is president W. M. Orr, vice president, Prof. E. P. Wilson secretary, and D. C. Main, treasurer.

The committee on program consists of five members, Prof. J. M. Pile, Rev. Thos. Osborn, Prof. Wilson, R. Philleo and James Britton. This committee goes to work immediately and will have the talent for next year's assembly engaged in a short time.

Mr. Bressler and Attorney Wilbur are committee on incorporation and will prepare the articles and submit them for consideration of the board of directors at a meeting to be held at the HERALD office, this (Thursday) evening.

The capital stock of the Association has been set at \$5000 divided into 100 shares of \$50 each. The subscribers so far have been limited to two shares, and there are some forty shares still unsold. As only a five per cent payment is required, there will be no trouble in disposing of it all.

Moses-Chubb

The marriage of Miss Edith Moses and Mr. Chester Chubb, took place on Wednesday, Oct. 5, 1907, at eleven o'clock in the forenoon, at the home of the bride's parents, Mr. and Mrs. F. E. Moses, of Brenna precinct. Rev. Thos. C. Osborn, of the Presbyterian church performed the ceremony in the presence of the members of the two families and a few invited friends.

The bride is a Wayne county girl, whose many talents and womanly qualities, are a source of pride to her friends. Here she grew into womanhood, was educated and for several years taught in the Wayne city schools. During the past two years she has filled a similar position in the schools at Sioux Falls, S. D., and it was here that she met one whose friendship has ripened into the most sacred of life's relations.

The groom is one of the substantial business men of Sioux Falls and at the present time is superintendent of the Sioux Falls Gas Works. He stands high in moral worth and holds the confidence and respect of all, his home people.

The HERALD joins in happy felicitations to the wedded pair. The couple left on the afternoon train Wednesday for Chicago and from there to New York city and then to visit Mr. Chubb's parents at Lawrence, Mass.

A Minerva Club Farewell.

Anticipating the departure for southern California, of Mr. and Mrs. J. D. King, a farewell was given the worthy couple by the ladies of the Minerva Club and their husbands on Wednesday evening. The gathering was held at the beautiful home of Mr. and Mrs. King and was a "pioneer affair" thruout. Each participant responded to roll call with the name and short biography of some noted pioneer. Many of the club members impersonated some famous pioneer character. Mrs. Bert Brown appeared in the costume of Martha Washington, Mrs. Rolley Ley represented Evangeline, while Mrs. Grothe and Mrs. Guy Wilbur appeared on the scene as Priscella, Mrs. Henry Ley was Elizabeth Ross, who patterned our country's flag, while Mrs. Geo. Stringer was a favorite character in the roll of a bride of the Colonial days. Mrs. Lew Owen was Columbia and Mrs. Frank Owen, as Samantha Allen. The most elaborate costume of all was worn by Mrs. Moler, in her impersonation of Pocahontas. Following a pioneer supper each guest was given a turn at telling a thrilling narrative, and several of them were real hair raisers. The program consisted of a reading by Mrs. Rolley Ley and a most interesting paper on "Nebraska" by Mrs. Geo. Stringer. Mrs. Frank Owen rendered a piano solo and Mrs. Moler sang an Indian song. Thus were Mr. and Mrs. King shown the esteem and kind regard in which they are held in Wayne and the best wishes of all go with them to sunny California for their continued health and happiness.

CONDENSED STORIES.

Story of the New York Lobby and an Honest Legislator.

Gene Wood, chief of the Albany lobbyists, told the other day what he regarded as a good joke on "Honest Dan" Bradley, a former Brooklyn senator. Senator Bradley abhorred lobbyists and side stepped every bill that had any semblance of graft connected with it; hence his sobriquet. A corporation measure was up for vote in the senate, and rumor had it that \$5,000 per vote was being paid to place it on the statute books. Bradley heard

of the bribery and, meeting some of the corporation lobbyists in the corridor, shook his fist in their faces and shouted:

"I might have supported this bill, but you cannot get my vote now!"

"But the corporations opposing the bill are paying \$5,000 to those who vote against it," said the lobbyists. "You'll get \$5,000 either way."

"Then I'll stay out of the senate chamber when the bill comes up for action," snapped the senator as he strode away.

True to his word, Senator Bradley left the senate chamber, and during his absence the bill was beaten. Bradley congratulated himself on his escape from suspicion of having accepted a bribe. He went back to his desk and there found an envelope. It contained \$500.

"What's this for?" he asked of his neighboring senators.

"That's what the corporations paid for those who stayed out while the vote was being taken on that bill!"—New York Times.

They Walked Back.

Admiral Schley was talking about war and peace at Port Deposit, Md. "War must still go on," he said. "Mankind is not yet highly enough developed to be peaceful. Yet I am in favor of peace societies and peace congresses, for these things help the cause of peace along. They bring the day of universal peace a little nearer."

The admiral mused a little; then he resumed:

"Yes, we will have universal peace some day, for we all love it in our hearts. The bravest fighters in their hearts love peace with incredible devotion—with devotion as incredible as that which the pigeons of Newark had for their home."

"There was a Newark man who kept pigeons. One day he sold a half dozen birds to a Philadelphian. But the pigeons loved their former home, and the first time they were let out they flew straight back to it, covering the fifty miles in no time."

"The Philadelphian got them again, and this time he clipped their wings so that they could not fly, but he left their hutch open, and they disappeared. Nothing was seen of them for some days. Then, thin and dusty and footsore, they lumped slowly into the old home in Newark."

"They had walked the whole way back."

Tribute to the Ad.

The late William Johnson of Brooklyn, the owner of Printers' Ink, was for many years a leading light of the advertising business. An advertisement writer said of him the other day:

"Mr. Johnson had a stock of advertising stories on the tip of his tongue. He used to tell them to young solicitors. He claimed that they were useful in getting business. "One of his favorite stories was about two little children. They came to their mother one evening and asked if they might play store. "Yes," said the mother, "but you must remember that the baby is asleep. Play store if you like, but don't make a noise. Play quietly." "All right, mother," said the older child. "We'll pretend we don't advertise."

The Cave of Minneapolis.

It was discovered some years ago that a part of the business district of Minneapolis was built over a great subterranean cavern, whose rocky roof lay some sixty or more feet below the surface, but the fact has been kept quiet until now, when the roof of the cave has been put upon the support of great concrete pillars. The cave had been caused by a subterranean waterflow, which has been diverted. When accidentally discovered the cavern contained a lake of fine ice cold water, ten feet deep and large enough to have washed the city.—Arizona.

"Silent" Smith's Kindness.

"Silent Smith," said a New York broker, "was an eccentric man, but in many ways a kind one. To his friends and employees he was exceedingly kind. Once, indeed, his kindness saved a lad from ruin. Mr. Smith, a good many years ago, employed a young man in a confidential capacity. Another employee came to him one day and told him he had better look out for the young man, as he was living beyond his means.

"Mr. Smith frowned.

"Living beyond his means, is he?" he said. "Dear me, that won't do. Send him to me at once. I'll have to raise his salary."—Pittsburg Chronicle-Telegraph.

Few Whites in Bolivia.

Bolivia extends for nearly 1,200 miles from north to south and almost 700 miles from east to west. In all this vast extent of territory there are only about 1,600,000 people, more than half of whom are full blooded Indians, degenerate descendants of the valiant Incas. In number of inhabitants to the square mile the hermit republic ranks the lowest of all the nations of the world, having at the last census only ninety-nine one-hundredths of a person to every mile, while Tripoli, which comes next in this respect, has one full inhabitant to the mile.—Boston Transcript.

WRESTLER TAKES A DRIVE

Misses Train in Norfolk, Had to Drive to Wayne Saturday.

A thirty-five mile drive from Norfolk to Wayne formed a prelude to the Wasem-Danielson wrestling match at Wayne for Oscar Wasem, the Lincoln wrestler.

The train which brought Wasem to Norfolk Saturday was several hours late and the sturdy Lincoln athlete missed his Wayne connections. Failing to connect with a local automobile Wasem engaged a livery team and started overland for his engagement.

It was a little over five hours that Wasem spent on muddy roads but ten minutes after he arrived in Wayne he was on the mat. And he got a victory in two falls over Columbus Danielson, a Michigan man who has been working near Wayne during the harvest season. Wasem won the first fall in twenty-seven minutes, the second in thirty-five.

Wasem is thirty-one years old and has been wrestling for fourteen years. He was a baker by trade and has had his headquarters in Lincoln for several months. Wasem meets them all and is said to have thrown Frank Gotch many years ago before the champion came into national fame as a worldwide champion. Arthur Richardson has taken a clerkship in the Orr & Morris Co. store. He entered on his duties Monday.

Mr. and Mrs. Wm. Piepenstock and children left for Omaha Tuesday to spend several days taking in the Aksarben.

Howard Whalen and F. A. Berry left for Huron, S. D., Tuesday. They intend to spend several days hunting near Wessington.

Mr. and Mrs. Louie Larsen took their daughter to Omaha Monday, to enter a school for the deaf. The girl has been deaf and dumb ever since childhood.

Bur Cunningham came down from Rloomfield Monday morning, going on to Omaha to spend a week. He talked like he might go on to Indiana to attend a reunion of his Regiment.

The A. G. Bohnert family leave next week for Lohr, Germany, where they will remain for some time. Mr. Bohnert's parents are still living at Lohr, and as he has not seen them for more than twenty-six years, he is anxious to make the trip. Mr. West goes into possession of the "Union Hotel" and this is assurance that it will be kept up to a high standard, and thus deserving of a liberal patronage. Mr. West is always pleasant and accommodating and is surely qualified for a first class hotel man.

There will be a basket supper given in the Bell school house, Dist. 6, Friday evening, October 11, 1907. Everyone invited.

Land !!

Land that grows 15 to 25 tons of sugar beets to the acre, 200 to 400 bushels of potatoes, 40 to 100 bushels of oats, 25 to 60 bushels of corn to the acre, and all kinds of fruit, berries and melons in abundance. Rich, virgin soil, that grows immense crops like magic, when the water that the U. S. government provides at cost is flowed upon it. There is no such thing as crop failure under irrigation. The farmer plants his crop and absolutely controls the amount of water his crops need at exactly the proper time, and he can grow more profitable crops than he can grow in any natural rainfall country, such as beets and alfalfa. Government statistics show that irrigated land will produce from one-third to one half more crops than any natural rainfall country. Officials of the U. S. Reclamation Service say that the North Platte project, which will irrigate the land we are selling, is best adapted to irrigation of any land in the country, and the supply of water is unlimited.

RENTERS, Why pay from \$3 to \$10 an acre rent for land when you can get 160 acres of fine irrigated land for about the same money you are paying for one year's rent of an eastern farm?

Come To the New Land and own a fine farm that will grow larger crops than the high-priced land you are renting. Uncle Sam will supply you with water to irrigate 160 acres of the most productive land in the country at cost. I can secure you a fine 160 acre, irrigable farm for from \$1 to \$5 per acre.

Don't Wait! It won't last long. Thousands of people are flocking to this country, and the sooner you come the better bargain I can get you. Don't waste your life renting somebody else's farm at a high price. Come to the rich and fertile North Platte valley, and make a home and fortune for yourself and family. Don't neglect this splendid opportunity. There's big money in it. This land that you can now secure for practically nothing, will be worth from \$100 to \$300 per acre as soon as irrigated and improved. It is better land than Colorado land, that is now selling for as much. You can hire all the work done on sugar beets for \$45 an acre, and at the average yield of 20 tons an acre, you can clear \$55 an acre and do no work on it yourself.

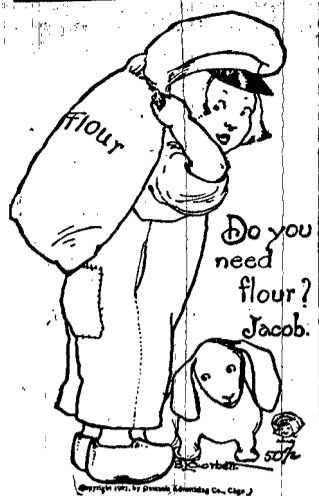

Farm Owners, Why farm \$100 eastern land when you can buy irrigated land here for from one-tenth to one-fourth the money, and get land that will produce larger crops and increase rapidly in value? Sell out and come to the rich North Platte Valley. We are not pioneering. There are no hardships in this country—towns, railroads, schools and churches are close at hand. The Platte Valley is centrally located and convenient to all markets. Railroad communications are unexcelled to all good shipping points. All kinds of produce, cattle hogs and sheep command a high price. The Burlington R. R. now runs through the valley and the Union Pacific is rapidly pushing work on a through line to the coast, which line also runs through the valley. Thousands and thousands of tons of hay are cut in the river bottoms every year.

INVESTORS: We can sell you deeded land that is increasing rapidly in value and will continue to increase in value for years to come. Irrigated land is not subject to the depression in land values that always go with a period of crop failures in any natural rainfall country. No matter what the weather you can grow a crop every year under irrigation. I control the sale of thousands of acres of irrigated and dry lands, hay land and ranches. I can secure you any kind of land at a price that will make money quickly for you.

Write to-day for Further Information. Local real estate dealers correspond; we can make money for you.

Do you need flour?
Jacob.

Oct. 3, 1907.

Dear Friend:

All flour is made out of wheat, but some wheat is better than others, therefore some flour is better than other kinds.

When you get real good flour it raises nicely and makes good bread. I love good bread. We have good bread at our house. We make it out of White Pearl flour.

Your friend,
JACOB.

P.S. The best flour there is in this town is White Pearl flour. It costs \$1.65 a sack, and you get it from

I. Cocklin to C. M. Madden, of Wayne, Nebraska, to secure the payment of the sum of \$75.00, with interest at 8 per cent per annum from Nov. 1, 1905, and upon which there is now due a balance unpaid of principal and interest in the sum of \$21.65. Also a full set of plumbing tools, also one set of machine dies and drills, at public auction at the Skeen building just south of the depot in the city of Wayne in Wayne county, on the 5th day of October, 1907, at three o'clock p. m. of said day.
C. M. MADDEN,
Mortgagee.
Dated Sept. 17, 1907.

Normal Notes.

Mrs. Brazil of Wagner, S. D., brought her daughter down to remain the school year.

Miss Rockwell of Hubbard, enrolled in the Commercial department Monday. She will also take short-hand.

Miss Grunwald of '05 class, spent Saturday with her three sisters who enrolled for the year in the Teachers' course.

Mr. Doughty of North Bend spent a few days last week visiting college friends. He will return to school again as soon as his crop is housed.

Miss Josie Richardson, the assistant in Pilger high school, spent Saturday and Sunday with faculty and other friends on the hill. She enjoys her work very much.

Mr. Henry Raubach came up from Creston Thursday morning and remained until Saturday evening. He has a pleasant school and will prove a good man for the town as well as for the school.

Mr. W. L. Campbell writes an interesting letter from Anselmo. He is enjoying his first experience as a teacher and principal. He has a good town, a good school board and will make an excellent school. He has three good assistants.

The officials of the Crescent literary society managed a good social Saturday evening. The attendance was good and the entertainment lively. The ladies of the Y. W. C. A. will direct the social next Saturday evening.

Mrs. Crossland talked to the Y. W. C. A. members Sunday afternoon and Rev. Ringer to the Y. M. C. A. Both talks are reported excellent. The officers feel very grateful for such assistance and hope to have several such talks this fall and winter.

E. O. Blackstone of Pilger spent Sunday on the hill. He was a member of the '05 graduating class, taught as principal the following year at Harrison and last year at Callaway. He is now candidate for county superintendent of Stanton county. His school work has been successful.

A pleasant and ever welcome visitor on the hill spent Saturday night and Sunday with friends. This refers to big Frank Driscoll of '06 Teachers' class. He is fine fellow well liked as a student. After last year's teaching, he went into the elevator work and is located at Pilger.

Mr. A. D. Ward of Neligh took supper with the family Saturday. He spent a few hours looking over grounds and buildings. He is now secretary to Congressman Boyd. For several years, he was superintendent of Cedar county schools and during that time Pres. Pile frequently assisted him in his teachers' institutes.

Additional apparatus will be placed in the gymnasium room, some especially for the use of young ladies and some for young men. This is found necessary for better exercise during the winter. Physical exercise under the direction of teachers has kept the health of our students very satisfactory for the past few years.

In parts of the state and to a greater extent in South Dakota, there is a shortage of teachers. Many calls come to the College each week for teachers but we have none to go out and will have none till January. Most all who are in attendance will continue and complete a course next summer.

Half of the fall term is gone and we can estimate fairly well the strength of our classes. Never has the school had a body of students who show better study at the beginning of the year. The attendance at all general exercises of the school is most extra strong along all lines.

The next term of the school will open October 28. A number of new students will enter then. Scarcity of help on the farm has kept many from entering this term. The graduating classes are building up nicely. We hope to have several to prepare to take up teaching for the schools which need teachers after the holidays. Many country schools will pay \$50 per month.

Normal Notes.

A bundle of Manila papers from C. H. Bright are well filled with general news as well as the news of the islands.

Literary programs begin promptly at 7:30 each Friday evening. Visitors are always welcome but should get in before exercises begin.

Miss Julia Power who teaches near Wakefield spent Saturday and Sunday with Miss Sauntry. She reports a good school with a pleasant vicinity for work.

V. E. Rightmire left Saturday for Ohio, being called there on account of the dangerous sickness of his father. He will return to school as circumstances will permit.

Mr. Ehle of New Castle spent Saturday and Sunday with his daughter; Miss Austin had visitors from Norfolk; Miss Martiny visited dormitory girls over Sunday.

The Bible study classes, one for the young ladies and one for the young men, meet Sunday mornings at 9 o'clock. These classes are well attended and are found profitable.

Mr. Geo. Miller of Seward county came up Saturday for a few days visit with Mr. Meek. They served through the war in the same company and for years lived near neighbors in Ohio.

Miss Jessie Beechel of '07 graduating class spent Saturday and Sunday with her sister. She returned to her school work at Magnet on the early Monday morning freight. She enjoys the the intermediate room work.

Prof. Buchanan gave the students a splendid hour talk at 1 o'clock Saturday. The attendance was good, so was the interest. He will follow out a general line of discussions in his talks which will be of particular value to young people.

Miss de Groot came down from Emerson Friday evening and remained till Sunday afternoon. She has charge of the grammar room and finds her work pleasant and a well organized school with a live school board to encourage and help the teaching corps.

The Alumni Echo for September was mailed Saturday. One thousand copies are sent out each month. Each issue is filled with interesting notes pertaining to Alumni members, to faculty doings and the general work of the school. If you wish a copy, drop a card to Fred Pile.

The base ball game Saturday between the College second team and the high school was won by the College with a score of 7 to 6. This was a better showing than the high school made the previous Saturday. Some of the College boys are developing into fair players.

About 35 of the young women under the management of Miss Jennie Bellows have formed an athletic association and have regular meetings Thursday evening. Systematic work will be carried on for the purpose of better physical culture than that afforded by the daily class work.

Mr. Mack as president of the Y. M. C. A. is getting the young men to take an interest and a part in the work. Prof. Pile made a talk to the members Sunday. Outside parties from time to time will make addresses. Some good workers are in the association.

A decidedly novel, interesting and amusing social was held in the gymnasium Saturday evening under the management of the young women's athletic association. A track meet, statue hall, the wild animal exhibition, the fortune telling and varied amusements entertained the crowd till 10 o'clock.

Tomorrow the mid-term examinations take place and all the faculty feel that class members will make a good showing, as all are working well. The classes got a good start and every teacher has taken great care of each class so each student might realize the most possible good for the term.

Mr. Earl Matheson of Stanton enrolled Monday for the school year and enters the Scientific class. His sister entered at the first of the term. Both graduated from the Teachers' course in 1905, and will be in the same course throughout the year. They are fine young people and fine students.

Notice.

I invite all brother farmers to come and inspect my Poland China hogs and at least some of them. Do not wait until you get the money, a bankable note is just as good to me as the cash. I guarantee every hog a breeder or money refunded. I have as fine hogs as you can find in the land. My herd of boars is perfect. Dude, the Iowa State Fair winner, Peter Stirling 2nd, the eight hundred pounds hog. For reference: Merchants State Bank, Winside Nebr.

IF WOMEN ONLY KNEW

What a Heap of Happiness it Would Bring to Wayne Homes

Hard to do housework with an aching back.

Brings you hours of misery at leisure or at work.

If women only knew the cause—that

Backache pains comes from sick kidneys.

'Twould save much needless woe. Doan's Kidney Pills cure sick kidneys.

Wayne people endorse this:

Mrs. M. L. Goodyear, living in Wayne, Nebr., says: "I have suffered severely from rheumatism for several years. During a bad attack some time ago I learned of Doan's Kidney Pills and procured a box. I was soon greatly relieved. My son has been bothered with rheumatic pains through his limbs, consulted a physician but nothing he used gave him any benefit. I finally induced him to try Doan's Kidney Pills and he has only used one box but is improving steadily. Doan's Kidney Pills is a very good kidney remedy and I have no hesitancy in recommending them."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agent for the United States.

Remember the name—Doan's—and take no other,

LEAHY'S DRUG STORE

The world as a rule is too busy to take a man except at his own valuation—within limits.

Trial Catarrh treatments are being mailed but free, on request, by Dr. Shoop, Racine, Wis. These tests are proving to the people—without a penny's cost—the great value of this scientific prescription known to druggists everywhere as Dr. Shoop's Catarrh Remedy. Sold by Felber's Pharmacy.

There are flowers to be found in every field if we only knew how and when to look for them.

A Cut Rate Price.

This is the first campaign in Nebraska in which political bosses cut no figure. The people will nominate the candidates and afterwards elect them. You are one of the people and should take an active interest in these primaries and elections hereafter. Politics from now on means a square deal for the masses, lower passenger rates, lower freight rates, less extortion by trusts and combinations. These things can only be accomplished by every honest voter making it a part of his business. The people can only know what is really going on by reading the newspapers. But you ought to read a newspaper that can print the truth about all the candidates; a paper that has no self-interest in politics; whose owners are not office-holders or office-seekers. The publishers think the State Journal is such a paper and in order to prove it to you make the special offer of only 50 cents from now until after election; seventy-five cents if you want the Sunday also. The earlier you send in your order the more you get for your money. Lincoln is the news center.

Stomach troubles, Heart and kidney ailments, can be quickly corrected with a prescription known to druggists everywhere as Dr. Shoop's Restorative. The prompt and surprising relief which this remedy immediately brings is entirely due to its Restorative action upon the controlling nerves of the Stomach, etc. Felber's Pharmacy.

Sheriff's Sale.

By virtue of an Order of Sale, to me directed, issued by the clerk of the District Court of Wayne County Nebraska, upon a decree rendered therein on the 25th day of April 1907, it being a judicial day of the regular March, 1907 term thereof, in an action pending in said court wherein Mary J. Gilbert, State of Nebraska, were defendants, I will, on the Seventh day of October, 1907, at nine o'clock a. m., at the door of the office of the Clerk of said Court, in the court house in Wayne, in said county, sell to the highest bidder for cash, the following described real estate, to wit: The North Half of the South-west Quarter of Section Thirty-four (34), Township Twenty-five (25), Range Four (4) East of the 6th P. M., Wayne County, Nebraska, to satisfy the aforesaid decree, the amount due thereon being \$732.50 with interest at ten per cent from April 25th, 1907, and costs and accruing costs.

Why Colds are Dangerous.

Because you have contracted ordinary colds and recovered from them without treatment of any kind do not for a moment imagine that colds are not dangerous. Everyone knows that pneumonia and chronic catarrh have their origin in the common cold. Consumption is not caused by a cold but the cold prepares the system for the reception and development of germs that would not otherwise find lodgement. It is the same with all infectious diseases. Diphtheria, scarlet fever, measles, and whooping cough are much more likely to be contracted when the child has a cold. You will see from this that more real danger lurks in a cold than in any other of the common ailments. The easiest and quickest way to cure a cold is to take Chamberlain's Cough Remedy. The many remarkable cures effected by this preparation have made it a staple article of trade over a large part of the world. For sale at Raymond's Drug Store.

Strange how "smooth sailing" for millionaires makes "hard sailing" for ordinary folks.

True genius wastes time trying to explain itself to the other kind of people.

The wrong way

to select harness is the way it is usually done. Price is generally the first consideration. If that is very low the goods seem attractive, regardless of quality. Judge our goods the other way about. Examine into the quality of the harness first. Then it will be seen that it is worth almost any price. But our prices are not high. Value considered they are remarkably low.
