The current event class on Monday is largely attended. Students do not as a rule take time to read daily papers but by the class attendance are made acquainted with the more important current doings.

Miss Kingbury's conversation class in German has two meetings a week and is growing in attendance and interest. Many who take the beginning work also attend this class as it aids in a better understanding of the daily work.

The Parliamentary Law class takes hold well for beginners. Prof. Sauntry meets the class three times a week and knows how to get the young folks to take a lively part in getting into parliamentary tangles and to judiciously get out of them according to usage of such bodies.

The laboratory work in chemistry, biology and physics is more satisfactory at the beginning of this year than it has ever been. By using two rooms with much additional apparatus, the equipment for all science work is as good as any school has. Mr. Mack and Mr. Rohn assist in the laboratories.

Address, State Supt. J. L. McBrien

There is more Catarrh in this section of the country than all other diseases put together, and until the last two years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies by constantly failing to cure by local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer \$100 for any case it fails to cure. Send for circulars and testimonials.

Address: F. J. Cheney & Co., Toledo, Ohio.

Sold by Druggists, 75c.

## Science has developed something infinitely better than the old-style wrap or clamp.

# "PITTSBURGH PERFECT" FENCES ARE WELDED BY ELECTRICITY.

This is the modern method of construction. Years of life are added through the elimination of serious fence defects.

**A WRAP** holds moisture, cracks the galvanizing and allows the water to attack the bare wire. A small amount of displaced galvanizing on "PITTSBURGH PERFECT" REINFORCES THE PROTECTION AGAINST RUST AT THE ELECTRICALLY WELDED JOINT; examine the joint.

**STAYS CANNOT SLIP.** They are always just where they were put. Stay and strand wires become one piece when the union is made. The fence is like a solid sheet of perforated steel.

### Every Rod is Guaranteed Perfect.

Don't allow your prejudice in favor of the rapidly-declining and now antiquated methods you have heretofore known, to warp your good judgment.

"PITTSBURGH PERFECT" FENCES REPRESENT PROGRESS, because hundreds of thousands of dollars worth of standard material is daily welded by electricity.

The hoop on the average sugar barrel in the isolated country grocery store is an electrically welded product.

If your wagon was made in a large factory, its tires were welded by electricity.

You will find electrically welded hoops on ice cream freezers and washing machines, on many tubs and buckets. Examine them.

"PITTSBURGH PERFECT" fences are made by this modern, simple and marvelous process, producing "THE WELD THAT HELD."

**MR. FARMER: LISTEN, NOW.** Every agent handling "PITTSBURGH PERFECT" fences is authorized to guarantee this:

- That the wires are not injured at the joints.
- That the fence is perfectly adjustable to uneven ground.
- That the stays will not separate from the strands.
- That the fence is all right in every particular.

Could you ask any more definite protection? Your complete satisfaction is absolutely assured.

In the meantime the paper will be conducted by E. R. Lundburg, the present manager. **NAMES MUST GO ON THE TICKET.**

**Important Points in the Primary Law Ruled on by Judge Welch.**

Dakota City, Neb., Oct. 8.—(Special.)—Under a decision handed down by District Judge A. A. Welch, sitting here for Judge Guy T. Graves, a voter under the new Nebraska primary law, has the right to write any name he chooses on the primary election ballot for any person he wishes to vote for, irrespective of politics, and the parties having received the highest number of votes at said primary election shall be the nominees of such primary notwithstanding the provisions of the primary law relative to performing certain acts to become the candidate of a party have not been complied with. Judge Welch held that the constitution gave the voter the right to vote for whomsoever he pleases, without any ifs and and's about it. The hearing in the case of Tom Sullivan asking for a writ of mandamus compelling County Clerk Ross to print names on the official ballot of candidates, who had received a majority vote at the primary election by the democrats who had in no way complied with the law relative to becoming such candidates, was the case at issue. The democrats in this county only had two regularly provided for candidates on the primary ballot, and at the primary election the democrats of Jackson connived together and cast upwards of twenty votes for an agreed lot of candidates for the respective offices, which was a majority of the votes cast in the county for such offices. Although County Clerk Ross had intimated that he construed the law as such that he would not place these names on the official ballot, he has not flatly refused so to do. A mandamus proceeding was instituted to compel him to place said names on the official ballot. Judge Welch held that on the merits of the case the relator was entitled to the preparatory writ of mandamus, but as the time has not yet arrived for making up the official ballot the writ of mandamus could not be granted at this time until it was seen that Clerk Ross failed or refused to perform said act. Leave was granted the relator to file an amended petition setting out

certain material allegations which were omitted in the original petition which will be done, and a hearing held on Wednesday afternoon of this week.

Judge Welch based his findings on decisions rendered by the courts of Minnesota and Michigan on the primary laws of their respective states, which Nebraska's new law was patterned after.

**OBSERVE 25th ANNIVERSARY**

The German Lutheran Church North east of Wayne fittingly Honor the Occasion

Sunday, October 6, 1907, was a day to be long remembered among the German Lutherans of Logan precinct, over in Dixon county. In a very appropriate manner they celebrated the twenty-fifth anniversary of the founding of their church.

Rev. Bollinger, who first organized and started the congregation was up from Kansas to take part in the festivities. Rev. Wehking, its first pastor was also present, from Hanover, Iowa. An excellent song service was a part of the program. A brass band, made up from among the young men of the neighborhood provided an inspiring accompaniment to the singing.

About a dozen years ago the congregation outgrew its quarters and a new and larger edifice was built, while the old church building has since been used for school quarters and parsonage purposes.

Welch led the program, appropriate to the spirit of the day's lesson, Mrs. W. H. Morris sang: "God Save the King." The lesson's review on "England's story," covered the preface to 36. Mrs. J. G. Miller gave an interesting map study of early England.

On Monday afternoon, Oct. 7, Mrs. Felber received the U. D. Club as hostess, while Mrs. Geo. Wilbur led the lesson. Responses to roll call were in the way of some fact or quotation relating to England. The regular lesson from the Bay View Magazine had to do with England's Capital. At the close of the discussion Mrs. Craven gave a reading. The U. D's. have planned a kensington for this (Thursday) afternoon in honor of Mrs. Howard, a former member of the club, and Mrs. James, who is to leave Wayne soon for Duluth, Minn. The Fortnightly Club started the years work Tuesday afternoon at the home of Mr. and Mrs. Buchanan. The days program was postponed, while the members busied themselves with the preparation of a feast, which they shared with their husbands in the evening, afterward spending a few hours at the game of "sum-r-set." The club look forth with happy anticipation of the social events marked on their years calendar. The course pursued this year will be the study of "America," in which the American issues will be the means of much discussion. The next meeting will be with the president, Mrs. Chas. Culler, Tuesday afternoon.

The Ladies of the Eastern Star were entertained with a "kensington" yesterday afternoon by Mesdames C. A. Chace and A. A. Welch, at the home of the former. About thirty guests were present. The interior of the beautiful home was tastily decorated by the use of Autumn leaves, while the colors and the emblem of the O. E. S. was neatly revealed in the place cards for the banquet. The dinner was very elaborate in three courses, and the design and color scheme of the lodge was much in evidence. The guests report an excellent social afternoon.

The Acme Club have adopted the Bay View course for this years work and held their first meeting on Oct. 1, with Mrs. J. J. Williams. Mrs. Crawford was leader beginning with the study of England. Quotations pertaining to the "Ocean" was given in response to roll call. On Oct. 12, the ladies met with Mrs. Hamer Wilson, who as hostess was also leader in the study of "England's Capital." A current event was given by each member.

Mrs. B. F. Feather gives a luncheon this afternoon in honor of her daughter, Mrs. W. E. Howard, who returns to her home in Washington next week.

The Bible Circle gathered at the pleasant country home of Mr. and Mrs. Giese on Wednesday afternoon. The occasion was made a reception for Mrs. E. C. Horn, in anticipation of her departure from Wayne. Mrs. Giese had prepared an abundance of good things to eat, and the big supper and the social hours proved a pleasant event, indeed. Mrs. Horn was presented with a beautiful piece of drawn work, as a token of esteem and remembrance.

Mr. and Mrs. J. D. King and Mrs. McKee, were "at home" to a number of their friends last evening. About twenty-five were present to partake of a sumptuous six o'clock dinner, that had been prepared and was served by caterer Whalen. The Presbyterian Sunday school observed rally day last Sunday by appropriate services. A quartet composed of Messrs. Buroker, Mabbott, Root and McNeal with their band instruments, assisted in the music which was highly appreciated by those fortunate enough to be present.

At the Methodist conference held in Omaha last week, of the five ministers elected as delegates and alternates to the general conference to be held at Baltimore next May, three of the ministers, Rev. Gorst, Bithell and Millard were former pastors of the Methodist church and have since become presiding elders. Rev. G. H. Main, a brother of D. C. Main, was also elected a delegate to the general conference.

Rev. C. F. Sharp is to succeed Dr. E. C. Horn as pastor of the Methodist church of Wayne, by assignment of the conference held at Omaha last week. Mr. Sharp comes from a northern Minnesota charge, altho he has been spending several months in Indian Territory, seeking relief from a rheumatic trouble, not finding the northern climate conducive of his health. Dr. Horn's removal from Wayne was a matter of his own choice, for the official board of the local church had requested his return. While he was assigned to Minnesota he has declined the appointment for various reasons, and his field of work for the coming year is yet undecided.

ANOTHER OF EPH'S LETTERS

Tells of the Hoskins Colony and How They Have Prospered, with More About Idaho.

ASHTON, IDAHO, Oct. 1, 1907. EDITOR HERALD:

I see by a recent copy of the Herald that you had gotten your clutches onto a private letter of mine and made it public. Now as a matter of fact I like publicity but you ought to have cut out the size of the shoes because you know Pete Wagner and myself are very sensitive about that part of our anatomy. I am after some more publicity and this time I want you to tell the "dear public" that I will be in Wayne on Nov. 13 and will be ready and glad to make any sale dates desired, I keep an ad to that effect standing where the wayfaring man though a fool won't fail to see it and understand. It is raining here a little to-day and has been doing so off and on for a week. A few years ago at Hoskins I was told that the Harrigfelds, Garz, Storm and Lenz had missed it badly in going to Idaho and some of my informants went so far as to say "that some of these men had gone busted." From a pretty intimate knowledge as to how the persons named are fixed in this world's goods I am justified in saying that not a farmer in Wayne county has done as well financially as have these people and to-day they are about as prosperous as any one could ask or desire to be. Carl Lenz has over 1300 acres of land that is worth on an average \$35 per acre, Aug Garz has 480 acres worth at lowest estimate \$40 per acre, while Chris Harrigfeld has over 1200 acres worth all the way from \$45 to \$100 per acre. Geo. Hargfeld recently sold 640 for \$3600 and has 400 acres near Ashton for which he has been offered \$100 per acre and he refused to sell. Do these figures indicate prosperity or adversity? Crops are splendid here this year, wheat ranging from 25 to 40 bushels per acre on unirrigated land and from the latter figure to 60 bushels per acre on irrigated land. Oats is yielding from 40 to 60 bushels on the nonirrigated and from 50 to 100 bushels on the irrigated lands. Wheat weighs from 62 to 65 pounds per bushel and oats from 36 to 45 pounds per bushel. Wheat is selling at \$1.00 and oats \$1.10 per 100 lbs. Cultivated lands are selling at from \$10 to \$100 per acre, depending on improvements, distance from market, kind of land, etc. With your people the idea is somewhat prevalent that this is a high, dry, cold climate and only grows crops during the most favorable seasons and with plenty of irrigation. While it is true that we are a little over 5000 feet above sea level and that snow falls to depths of 18 inches to 2 1/2 feet, yet it is not true that crops are uncertain or depend entirely on irrigation and it is true that nowhere in the United States finer small grain grows than here, in fact if your readers care to look the matter up they will find that the wheat that took second place at the St Louis Worlds fair was grown in Fremont county, Idaho and four miles from the place where I am now writing. Now as to growing grain without irrigation I can cite you many experiences. Last year I bought my land and on June 9, 1906 began breaking and got 276 acres broken. This spring I broke 80 acres more and with three men put it all to oats, finishing seeding June 1st and this being our first year we found it absolutely impossible to get the laterals made and the water on the grain so that it had to get along with whatever rain fell and yet I think I am safe in saying we will thresh an average of 40 bushels per acre. No farming country on earth can put up a better summer climate than this and old settlers assure me that the winters are less disagreeable than in Nebraska. This is said by those who have lived here longest, to have been one of the most unfavorable seasons in their experience and yet the crops are as I have stated. It is a wonderful timothy country and vegetables of every kind, except tomatoes and watermelons grow in wonderful profusion. The valley is one of the largest irrigated valleys in the world, and yet only a small proportion can ever be irrigated. The markets for our grain are at home—in the mining and lumber camps and we do not grow, nor never will, sufficient to supply these because as yet the minerals in the mountains of Idaho have scarcely been touched, there is gold, silver, copper, coal, in untold quantities, besides these great for-

ests of the best lumber scarcely touched, so let none of our eastern friends waste any sympathy on the hustler who has cast his lot with this inter mountain state, but it is no place for the loafer or the fellow looking for any easy snap. The door of opportunity is wide open for the man not afraid of work and to him a warm welcome is always extended and the other kind are not wanted at all. Yours truly, E. CUNNINGHAM.

Atkins—Sarah J. Huddleston, born at Winchester, Van Buren Co., Iowa, Feb. 6, 1853, married to J. H. Atkins at Milton, Iowa, July 4, 1870. Died at Wayne, Nebr., Oct. 3, 1907.

Two sons and two daughters came to bless this union. Ottis her first born preceded the mother to the better land May 28, 1893. Mrs. Roy Huff of Belden, Mrs. Roy Jeffrey and Hazen of Wayne, with the husband whose faithful companion she has been for more than thirty-seven years and one brother, John Huddleston, of Sutton, were at her bedside when she breathed her last.

Deceased came to Wayne county in 1891 and her friends were numbered by the circle of her acquaintance; to know her was to love her. When a girl she united with the M. E. church and was a true christian as was shown by her every day life, ready to help those in trouble. She will be missed in the community and in the home she loved her place can never be filled. For more than a year she suffered with tuberculosis and was ready to go. Her death had no dread, 'twas but a step to paradise and a brighter home. Sunday, Oct. 9, Rev. H. H. Millard conducted the funeral services, his text being from Isaiah 55:7-8. The casket, covered with beautiful flowers, the tribute of loving friends, was born to Greenwood cemetery, where in submission to the divine will we bury our believing dead in full confidence that he will reunite these loved ones in a glorious and deathless kingdom.

The sympathy of all are with this family in their sorrow.

Farewell, thou hast left us in sadness to mourn,  
While thy spirit to regions of brightness was born;  
Farewell, loved companion, thy worth shall proclaim,  
Thy memory we'll cherish while life shall remain.

**Theatre Talk No. 4.**

**EUGENE MOORE, THE STAR OF THE NEW PRODUCTION "My Boy, Jack,"** which will be seen in the city very soon, is one of the most thoroughly equipped and versatile actors on the American stage. HE VIRTUALLY HAS PLAYED ALL THE ARTS that fall to the lot of a MODERN ROCK LEADING MAN and his especial

experience on the road includes a brilliant group of Shakespearean characters. In such plays as "Monte Cristo," which he appeared in last season he is fascinating through the keenness and power of his depiction, and in this he shows grasp and finesse equal to Charles S. Thorne. Mr. Moore's high standing and aims as well as his good taste and his determination to present plays of the best class, are shown in his choice of "My Boy, Jack." The author, Edwin Milton Royle, has written several of the most successful plays of recent years, including "The Squaw Man" in which William Faversham reached the height of his popularity, and "Mollie Madushine" in which Marie Cahill delighted crowded houses during an entire season. The story of "My Boy, Jack" is a romance of the most appealing kind and the whole play is permeated with what has been called one of the heavenly gifts to Americans, humor. The part which Mr. Moore plays, Jack, is a delightful blending of romance and humor, with

**Do The Right Thing**

true worth, high character and the devotion of the best friendship shining through the witty remarks. Mr. Moore has the gift to comprehend the role and play it with just the life, lightness and earnestness it requires. Jack's crusty father, the poor young composer, the prima donna with whom both Jack and the composer are self-sacrificingly in love, and the kind young landlady are fine characters.

A gentleman from the central part of the state said, "Don't you know, I was never more pleased in my life than with your play 'My Boy, Jack?' I am simply delighted. If the people in the towns that you visit knew of the goodness of your play the theatres would not hold the people."

Come in when we get to town and see what we have got. You won't be asked to stay if it does not suit you and we'll give you your money back to boot. We want you to have the "at home" feeling when you come to see us, and not the "I-wish-I-was-at-home" feeling. Don't imagine you'll be lonesome. **THERE WILL BE A FEW OTHERS OUT TO SEE US**—we call the Theatre filled "a few." **USUAL PRICES WILL PREVAIL.**

He says there is nothing the matter with that part of South Dakota.

**A Clean, Wholesome American Play**

Eugene Moore, whose performance of Edmond Dantes in "Monte Cristo," last season pleased so many of the theatregoers, and whose success artistically and financially was so gratifying to himself and manager, Mr. Fred G. Conrad, will appear at the Opera House, Wayne, Nebr., Thursday, October the 31 in Edwin Milton Royle's play, "My Boy, Jack." Mr. Royle's fame as a dramatic writer has lately been enhanced by William Faversham's successes of last year, at Wallack's Theatre, Broadway, New York, in "My Boy, Jack." Mr. Royle gives us another clean, wholesome, up-to-date American play, and well worth the public's best attention and patronage. With this play, Mr. Conrad expects that his standing as a manager, and Mr. Moore's reputation as an actor, will be placed on a high plane for all time.

**AN ENTHUSIASTIC CROWD**

**RETURNS FROM THE WEST**

Several of the farmers and business men of Wayne and vicinity have just returned from a ten days trip to the King Solomon property. The crowd was composed of about twenty jolly men who mixed pleasure with business, climbed the high peaks of the Rockies by day; listened to the stories of pioneer life in the evening while seated around a great log fire and pillowed our heads at night in an old fashioned log cabin.

The tunnel is now in 1700 feet and the Formation Has Changed the Last Fifty Feet from a Black Granite to a White Quartz which breaks much easier, and is splendid indications. Vein No. 2 continues to grow better and the vein is increasing as they go down on it.

Mr. Roberts, an old time miner, said he never saw any better copper-gold ore than the ore we are getting from Number Two.

Vein No. 4 has a splendid showing and Pres. Densmore is looking for men to put to work on that vein. The ore in any vein runs in shoots. Likewise the great Newhouse and Comstock tunnels opened most of their veins in lean places and had to drift on them to disclose the ore shoots which since have yielded hundreds of millions.

In the course of an evening's conversation with the United States Mineral Surveyor Sanderson, he made the statement that the next two veins would open immense quantities of ore.

More men, cars, steel rails, dynamite and equipments are being added almost daily and with the finest plant of machinery in Summitt county we are forging to the front and will soon rank with the large tunnel producers.

Senator Crum, from Georgia, who is operating a splendid property joining us on the west, came to see us while there to make arrangements with us to take his ore out thru our tunnel and pay us royalties and drainage charges. The Ten Mile Company, of Chicago, operating on the east of us want to do the same and take their ore through our tunnel. In fact several companies will have to use our tunnel in getting their ores to the surface because

**We Are the Only Cross Cut Tunnel on That End of the Range.**

The crowd all came home enthusiastic over the outlook of the King Solomon. We watched the huge drills drive twenty holes in the breast of the tunnel of solid rock in four hours so you can get an idea of the terrific force of such drills.

Come into my office and see some of the splendid samples of ore which I dug out of the veins myself.

Yours truly

**Why Colds are Dangerous.**

Because you have contracted ordinary colds and recovered from them without treatment of any kind do not for a moment imagine that colds are not dangerous. Everyone knows that pneumonia and chronic catarrh have their origin in the common cold. Consumption is not caused by a cold but the cold prepares the system for the reception and development of germs that would not otherwise find lodgement. It is the same with all infectious diseases: Diphtheria, scarlet fever, measles, and whooping cough are much more likely to be contracted when the child has a cold. You will see from this that more real danger lurks in a cold than in any other of the common ailments. The easiest and quickest way to cure a cold is to take Chamberlain's Cough Remedy. The many remarkable cures effected by this preparation have made it a staple article of trade over a large part of the world. For sale at Raymonds Drug Store.

**Notice.**

I invite all brother farmers to come and inspect my Poland China hogs and at least some of them. Do not wait until you get the money, a bankable note is just as good to me as the cash. I guarantee every hog a breeder or money refunded. I have as fine hogs as you can find in the land. My herd of boars is perfect. **A Cut Rate Price.**

This is the first campaign in Nebraska in which political bosses cut no figure. The people will nominate the candidates and afterwards elect them. You are one of the people and should take an active interest in these primaries and elections hereafter. Politics from now on means a square deal for the masses, lower passenger rates, lower freight rates, less extortion by trusts and combinations. These things can only be accomplished by every honest voter making it a part of his business. The people can only know what is really going on by reading the newspapers. But you ought to read a newspaper that can print the truth about all the candidates; a paper that has no self-interest in politics; whose owners are not office-holders or office-seekers. The publishers think the State Journal is such a paper and in order to prove it to you make the special offer of only 50 cents from now until after election; seventy-five cents if you want the Sunday also. The earlier you send in your order the more you get for your money. Lincoln is the news center.

Stomach troubles, Heart and kidney ailments, can be quickly corrected with a prescription known to druggists everywhere as Dr. Shoop's Restorative. The prompt and surprising relief which this remedy immediately brings is entirely due to its Restorative action upon the controlling nerves of the Stomach, etc. Felber's Pharmacy.

**The wrong way**

to select harness is the way it is usually done. Price is generally the first consideration. If that is very low the goods seem attractive, regardless of quality. Judge our goods the other way about. Examine into the quality of this harness first. Then it will be seen that it is worth almost any price. But our prices are not high. Value considered they are remarkably low.

**A Great Roast!**

Over a ton of Arbuckles' Ariosa Coffee is roasted at a time, in a large revolving cylinder, which drops the coffee through heat again and again until each bean is uniformly roasted.

No other coffee is in sufficient demand to afford such scientific and perfect preparation.

The sales of Arbuckles' Ariosa Coffee exceed the sales of all other packaged coffees combined, and this scientific roasting, which no other coffee can afford, by its very magnitude, reduces our cost to a minimum, and enables us, with our other advantages, to give better value in Arbuckles' Ariosa Coffee than is possible for any one else.

Arbuckles' Ariosa Coffee is the cheapest good coffee in the world and the best of all for you.

ARBUCKLE BROS., New York City.
