

PETITION CIRCULATED FOR SPECIAL ELECTION TO VOTE BONDS TO BUILD MUCH NEEDED CITY HALL

PEOPLE REALIZE NEED NEARLY EVERYBODY ASKED AP FIXES NAME WITHOUT HESITATION.

PRESENT HALL USELESS SACK

Petition With Big Army of Enthusiastic Supporters Goes to Council Monday Night.

A petition has been circulated this week asking the city council to call a special election for the purpose of voting bonds to the amount of \$9,000, drawing 5 per cent interest, with which to build a city hall to replace the disgraceful old shack which has served the purpose inadequately for many years. Nearly every one asked to sign affixed his name cheerfully, seeming to fully appreciate the imperative need for the proposed building. If the petition which the petition is supported may be accepted as an indication the demand for a city hall is almost unanimous.

The forbidding heap of ruins which causes a rash of blood to the head whenever it is referred to as a city hall, is no protection to the city's fire fighting apparatus, and consequently, exposed to injury from wet weather, it is fast becoming unfit for use. Fire apparatus of unhealthily filthy increases the fire risk, and has an important bearing on insurance rates. To make certain efficient effort against a possible conflagration, the fire hose and other equipment should be kept in the very best possible condition. This cannot be done in the present dilapidated rookery which has deteriorated until it is as useless and unsightly as the ramshackle barracks of an abandoned fort.

The petition with a great array of signatures will be presented to the city council at its meeting next Monday evening, and the special election asked for will, of course, be granted. That the bonds will be voted, giving assurance of the important improvement being done in the present dilapidated rookery which has deteriorated until it is as useless and unsightly as the ramshackle barracks of an abandoned fort.

THE COMMERCIAL CLUB WILL BOOST MOVEMENT FOR CITY HALL AND OILED STREETS

New city hall and oiled streets are things to which the Commercial Club will now give active support. The Club—organized business men—has done a great deal in the way of boosting Wayne institutions the last few years. It has been instrumental in bringing investments here from the state, the Carnegie fund and railroad company.

It will now give force to improvements requiring cash from the city treasury. The city has been generously helped from the outside, and it can now well afford to help itself. The improvement is important, and the tax to each individual will be but a trifle.

Just when the men reached the scene of trouble, no robber could be found, though there was plenty of evidence of the effort of the robbers to break into the house. DR. ADAMS' OFFICE IS ENTERED AND ROBBED

WATCH AND FLARE GOLD TAKEN

Dental Rooms Flooded in Daylight During Doctor's Brief Absence at Barber Shop.

Dr. A. G. Adams, whose dental office are located on the second floor in the First National bank block, was made the victim of some sneak thief Saturday morning about 9 o'clock when his office was entered and robbed of a gold watch and chain and a quantity of plate gold, the total loss being valued at \$125. Sheriff Myers was notified, but at last reports had not detected the guilty party.

Dr. Adams went to a barber shop twice Saturday morning. The first time was gone twenty minutes, but the gold watch and chain were again removed away thirty minutes. It was during the last time he was absent that the thief visited his rooms. A lock which fastened a desk drawer was broken, and the watch taken from it in the operating room the plate gold kept in a little box disappeared with the thief.

This is the second time in the experience of Dr. Adams as a dentist that he has suffered loss at the hands of thieves. While he was at Fremont his office was broken into at night and plundered. But this was his first experience with a thief who operates in broad daylight.

Schools in districts 7 and 25, taught by Misses Anna and Bertha Bressler, closed last Friday with a picnic in S. O. Bressler's grove. About eighty were present, and had a joyous time. For one month ending June 1, 150 school children of Wayne county, ranging in ages from 5 to 16 years participated in a contest of skill in sketching a red goose, under the auspices of the Jeffries Shoe company of Wayne. The young folks showed creditable skill with pencil and pen, and the judges found it no easy task to determine the prize winners.

Mrs. Phillips, Mrs. Pile and Fred Pile were chosen judges, and they awarded prizes as follows: First prize of \$4 Rachel Gorst; second prize, \$3, Milo Hork; eight prizes of \$1 each, to the following: Edie Carpenter, Jessie B. Watson, Ralph Hickman, David Carpenter, Higgins Carter, Eric Thibault, John Williams and Magdalen Bazzart. Each one who did not receive a cash prize was made the recipient of either a mother goose book or a red goose tank.

The contest proved very interesting, and showed a high class of sketching on the part of the children. It reflected good quality of training they have been receiving in the Wayne county schools.

NORMAL SCHOOL

OPENS SUMMER TERM

MANY COUNTIES REPRESENTED

Enrollment Exceeds Expectations—Large Number of Pupils Enter for the Summer Term.

Monday, June 5, was registration day for the summer session of the State Normal school. The first chapel service was held at 10 o'clock Tuesday morning, and all classes began work promptly. At that date (Wednesday) registration is still in progress, with about 250 already enrolled. Indications are that the attendance will reach 350 by the first of next week. Twenty-eight counties of Nebraska, or a little less than one-third of the number in the state, are represented in the enrollment. Wayne, naturally, stands at the head of the list, with forty-two students claiming this as their home county. Then follow in order: Dixon, with twenty-one; Antelope, seventeen; Knox, seventeen; Cedar, twelve; Madison, twelve; Holt, seven; Pierce, seven; Cuming, seven; Boyd, six; Stanton, six, and Thurston, six. The counties having registered five or less are: DeWitt, Boone, Box Butte, Brown, Burr, Butler, Colfax, Dakota, Dodge, Douglas, Gage, Nance, Buck, Sheridan and Wheeler. States represented in the attendance other than Nebraska are: South Dakota, Iowa, three; North Dakota, one; and Missouri, two. Of the number in attendance at the present time about forty were enrolled during the regular school year and remained for some special work in the summer term, and about 200 have entered the State Normal school for the first time.

Quite a large per cent of the present enrollment consists of those who have had some experience in teaching and have come to take review work in order to secure a higher grade of certificate. A goodly number plan to continue their work next year and expect to make credits toward the completion of the advanced course.

The Late President Pile.

At 3 p. m., Wednesday about one hundred members of the alumni and invited guests gathered in the dining room of the Nebraska Normal college for the annual reunion and banquet. The classes of the Nebraska Normal college were well represented in the attendance, and the evening was greatly enjoyed by all present. Among those included in the list of toasts were H. E. Mason, of the class of 1882, the first graduate of the old school, and August E. Nordgren, president of the class of 1911. Professor Wright was master of ceremonies and presided over the meeting. Governor Ulrich and members of the board of education were present and addressed the meeting. Nearly every speaker referred to President Pile, the founder of the Nebraska Normal college, and emphasized his great work in the cause of education. The following excellent tribute was paid to Mr. Pile by Professor J. T. House:

"I suppose there were many here tonight whose minds wander back to other days and on this hill—days when one was here whose face no more is seen nor shall be seen along these paths and in these halls. May I, who never saw him, attempt to speak to you who knew him well, a few words of appreciation? Surely no philosophy would be a sure and abiding one that did not leave a place for such a life as his. I am told that this school started twenty-years ago last November in the building now used as the city laundry. There were ten students present and three teachers. There was at that time one house this side of the sawmills. The first building of the institution was then in course of construction. Pioneer conditions prevailed. The people were poor and hard-working. What I wish to say is this, that it is not conceivable that any narrow sense of possible professional success could have inspired the founder of this school on that far-off day of the opening. He was moved by a vision, real and vivid, of thousands of young people coming from these pioneer homes to this school upon this hill—here to learn and eagerly reading and writing and mathematics, but also whatever things are pure and of good report. He saw them not living selfish lives of seclusion, as a leisure and isolated class, but in the midst of the struggle with the problems of their generation and fighting the battles of good government, education, sobriety and progress. By those who knew him well I am told that he had a breadth in his little know-nothings of kindness, that he accepted difficulties as part of his lot and shielded others from their effects, that he could face defeat with courage and the power of absolute silence, that he was a man sensitive to high ideals and in love with his work and his people and that for the sake of these ideals and in pursuit of the noble purpose, he finally gave that first and greatest of all gifts—the life. Pity, indeed, were the philosophy that could not find a place for such a man. Philosophy is the guide and counselor and friend of man and sometimes his voice, when he is living, says: "It is time to die in service of the ideals for which one has lived," and then come the words of the great philosopher: "He that saveth his life

shall lose it and he that loseth his life shall find it."

TELEPHONE TALKS NO. 6

The Wrong Number

You didn't look in the Directory before you called a number—the wrong bell was rung and an innocent subscriber was disturbed. You said: "Central gave me the wrong number." Of course she did. You called the wrong number—why shouldn't you get it? Another time you thoughtlessly called a wrong number. The next moment you remembered that it was not the one you wanted. You quickly signaled "Central" and asked for the right number. Meanwhile the party of the number you first called answered when his bell rang. He got no reply. He angrily exclaimed, "My bell rang." He did not know you called him and then decided you wanted another number after "Central" had rung his line. The Telephone Company received the blame for your carelessness.

Stickney Gasoline Engines

ARE THE BEST

Economy
I Can Help You

You know that you should have a Stickney Engine but do you know what size will do your work most economically, both in cost of fuel and in the expenditure of your time as an engine too small to do the work is not true economy. It is not economy to overload your engine nor to run it at too high a speed. Again the right size of engine will not give proper results unless the pulley sizes are right and the hook up is correct. This is where I can help you before you buy as well as look after you when you have bought.

Once more let me offer my help and show you the Stickney Engine—its outside lighter, its perfect cooling system, its automatic mixer, its ball bearing governor and its three point suspension.

THE CURRENT SUNDAY SCHOOL LESSON

SUGGESTIVE LESSON QUESTIONS
By Rev. Dr. Lincoln for the International Press Bible Question Club—June 11th, 1911.

(Copyright, 1910, by Rev. T. S. Lincoln, D. D.)
Hesekiah's Great Passover. 2 Chron. xxx.

Read the Lesson: Man loatheth on the outward appearance, but the Lord looketh on the heart. 1 Sam. xvii.

(1.) Verses 1-5—Who were the nations of Israel and Judah composed of, and who were at this time their king?

(2.) What was the passover and what was its origin?

(3.) What sort of a man religiously was Hesekiah?

(4.)—What justice did Hesekiah have in proclaiming this passover and what did he expect to accomplish by it?

(5.) Why in that day, was it essential that this passover feast should be kept in Jerusalem?

(6.) Why is it that no particular place is now essential for God's people to worship acceptably?

(7.) If a nation neglects public worship, what may we reasonably expect will happen?

(8.) Verses 6-9—When the nation is in a deplorable condition, subjective, what should the leading Christians do?

(9.) What is the best medium today through which the churches should call the nation, as such, back to the worship of God?

(10.) What are the chief points contained in this circular letter of Hesekiah to the kingdom of Israel?

(11.) What effect does the worship of God by the nation have upon its prosperity?

(12.) Verses 10-12—Why was it that some "laughed them to scorn," and others accepted the invitation sent to them by the king's messengers?

(13.) In religious matters a large section of the nation act contrary to their judgment; why is it?

(14.) Verses 13-14—Why can there be no acceptable worship of God, if the people hold on to what they know to be wrong?

(15.) Verses 15-20—Does God ever accept the worship of a people if they who conduct it are doing things that they are "warranted" not to do?

(16.) Why was ceremonial cleansing of so much importance in those days, and of an importance in these days?

(17.)—What is the only essential thing which makes worship well pleasing to God?

(18.) Is it ever so in these days as to those that the prayer of one man is efficacious for a multitude of God?

(19.) Verses 21-22—What would be the probable effect if the churches were now to have annual gatherings at central points, to last for seven or more days, after the type of the old-time camp meetings?

(20.) Why should it be thought out of order in these days to have banquets, or dinners, or teas in connection with intense spiritual meetings?

(21.) This religious feast appears to have been a time of great outward demonstration, and inward joy; why should we not plan for such meetings in all our churches? (This is one of the questions which may be answered in writing by members of the club.)

From the Ponca Journal, published by William Huse and W. H. Nuse, June 16, 1881.

The Silver Ridge seminary closed its spring term last Friday. The seminary, under the management of Rev. Mr. Clark, the principal, has attained an enviable reputation. It is unquestionably the best institution of the kind in northern Nebraska.

The John Volzner, since the exhaustive moods of this spring, seems to have played out entirely. A gentleman who recently visited the "place" where the volcano formerly spouted, states that the earth, runs no longer, the lava is quenched, no red hot balls of fire are thrown aloft, and that the whole performance is dead. It is possible, in view of the floods, it died of too much water. At all events, the probability

display is closed, for this season at least.

A charitable party assembled on Monday night in Silver Creek, and went to the house where a young married couple were stopping. The party assaulted the house, tore off the siding, broke in the windows and engaged in other disrespectful doings. A prosecution of the offenders is about to be commenced, and it is hoped that merciful justice will punish them all the law will allow on general principles, and then and enough more to teach them a little sense.

VOLUME DEDICATED TO PROFESSOR F. M. GREGG

The Herald has received the first pages of the forthcoming annual volume published by the senior class of the Wayne State Normal school. The volume is dedicated to Professor F. M. Gregg, who is well known and highly esteemed in Wayne. The book is a work of art, good taste and literary skill. It contains 232 pages, and its production cost \$2,300. The engravings cost \$500, and are of the highest order. On splendid enameled paper, the printing is high class. That the volume has been dedicated to Professor Gregg shows the students' estimate of his worth. The first page says: "To Professor Fred Marion Gregg in recognition of services rendered the senior class as adviser and as an expression of the esteem in which he is held as teacher and friend, this volume is respectfully dedicated by the senior class of 1911." Wayne friends of Professor Gregg will be pleased to hear of the honor accorded him.

SOME DANGER IN FOIE GRAS

Geesa From Which Livens Are Taken Are Now Pattened With Potash

"Nothing is better," said Gordon Braham, foie gras or fat goose liver. A foie gras is the size of a two-pound steak. It is as white as milk, and it tastes rather like ground peas. It is not a foie gras, but a foie gras green would take it for something powdered up and whopped. Like cream.

EVIL OF SCANT MEASURES

Lowers Moral Tone of Trade, In creases Cost of Living, Adds to Hardships of Needy.

If a false balance is substituted to the Lord, as we are told in the Proverbs, scant measures of every sort are equally abhorrent to mankind, lowering the moral tone and increasing the cost of living and adding to the hardships of the needy. It is rather curious, therefore, that a false balance is never mentioned in attention at society for as long a period as the written record runs, although at the present time there is no recognition in the laws or the ordinances of the state or city. Pennsylvania is without official standards of weights or measures, except of the most casual sort, and Philadelphia has awarded a medal for upward of a quarter of a century, trading solely to the honor of its traders to give pound for pound and quart for quart, not to mention the scores of other measures of weight, volume and bulk by which commodities are exchanged for value in the markets. How public confidence has been misplaced is now shown in dramatic fashion by the bureau of municipal research, after a thorough investigation, by the actual production of a test of large retailers' articles constituting the necessities of average daily life—Philadelphia Ledger.

But Not in Real Money

Every town has a millionaire, and some of them are really worth as much as \$10,000—Topska Capital.

Most Valuable Farm Land

Canadian farm land is highest in value in Columbia, where it is largely owned by fruit growers.

Immense Tree Trunk

Found to be the largest tree trunk in the world in that of a tree of hills in Mexico, which measures 145 feet in girth.

Now, this was a sure thing. You can have a talk with the jockey if you like. "I'd rather have a talk with the horse."

Wisdom is Better Than Riches

How much better is it to get wisdom than gold? Yes, to get understanding rather than to be chosen than silver.—Proverbs, 15:16.

TOM WELDON WAS TOO MEAN

He Was Not the "King of Poor Men" Andrew Carnegie Advised Girls to Marry

Andrew Carnegie recently advised some New York girls to marry poor men. "I would rather be born poor than a millionaire," he said, "and I have had experience of both states."

At a dinner Mr. Carnegie, speaking the above, said: "I suppose those girls will all take my advice about marrying poor men. Poor men are so much to be liked than rich ones. But that is no hardship."

Some young people think that a poor young couple, to get on, must practice the niggardly parsimony of Tom Weldon.

Tom Weldon, on a journey from Altoona to Philadelphia got into a game of cards with a young man. The young man lost steadily. Finally, as Philadelphia drew near, he was out a total of \$51.

"The young man had a hard time to produce all this money. From one pocket he took two dollars, from another two dollars from his wallet, a \$10 gold piece and a half-dollar, and from his trousers a silver dollar a quarter, and when and my penitence. The final pony he couldn't find, search where he would."

"The awful story," he said to Tom Weldon. "I'm a contented man."

"Never mind, young man," said Tom Weldon, generally. "We won't stick at a cent. You can give your evening paper."

Meant Well Street Kind: Benjamen: "Th' bulls are weak again." Mrs. Benjamen: "Can't they send them to some animal hospital?"

Serious: "Bother! If I can't remember whether the doctor said I was to drink wine or not, I'm sure I'm mostly like the unfortunate humped strikers in London, when the home office fed through strident pipes."

Been to Humanity: To prevent botchings a Maine farmer has invented a fainted box to throw potatoes into a net with which it is provided as they are dug.

What Did He Mean? Mrs. Blenkinsop: "Poor man, says you live better." Mr. Blenkinsop: "Yes, indeed, lady, I never tasted such soup as yours before."

Man of Leisure: He was called an Inquest held at Hackney, London, on Rose Saunders, age four, that the girl's father had done six months' work in 12 years.

Knew Her Plunge: "Are you a friend of the room's lady?" asked the usher at the church. "Oh, no," said the bride. "I'm the mother of the bride."—Winkler's Statement.

HOT!

By C. P. McDonald in Chicago Tribune.

Hot! Great Street! There's not a libart of air about any street! And Sunday, too. When all you do is loaf and eat. Some cool retreat. May haunt your dreams, dream of a better scheme.

To make you wish To wish to fish. To wish to smoke. To wish to eat. To wish to sleep. To wish to rest. To wish to be happy.

Take me away To some quiet nook. Give me a book. And let me stay Eternally! Hey! Hot is right!

It's a fright. That's what it is! Sufferer, get out! I'm blessed! If I'd get dressed And fare from this big chair For all the good The world can't do. You bet your eyes, Me for the wife And cozy bed. This world's day! What's that! Friend with, the bell Is ringing. Tell Whoever it may be, If they want me, I'm here at home. Understand, dear!

Who—George! Says he Is going to the game and wants me To join 'em! Duggone! Tell George he's out! What? Too hot! Well, I guess not! See that breeze? Seavair's the trees! It's absolutely perfect day! Woman, don't stand there and grin, Ask the men in!

When a man says he wants your conscientious opinion you probably have better sense than to tell it.

REPUBLICAN CANDIDATE WINS

Cornell Bluffs, Ill., June 6.—W. R. Green of Anderson was today elected congressman from the Ninth Iowa district in addition Walter J. Smith, who recently was given a judicial appointment by President Taft. Practically complete returns of W. R. Green, a majority of 1,192 over W. S. Cleveland, his Democratic opponent.

Green stands opposed to reciprocity while Cleveland was favorable to the agreement. Although Cleveland cut down the majority given Judge Smith, he is absolutely in 200 spots in the county vote, six strong enough to elect to give him a majority.

The Democratic leaders declare that the farmers opposed to reciprocity were responsible for Cleveland's defeat.
