At 3 o'clock this afternoon an appropriate program will be carried out in honor of the thirteen Wayne county young men who leave for Camp Funston tomorrow morning. The following program has been arranged for this afternoon: Song, "State Normal Male Quartet Short Talk" Rev. J. H. Peterson, Song "Over the Top" Through Short Talk "J. H. Kemp Song "Marching Through Germany"

"Marching Through Germany" the song to be sung at the close, was written by Osgood man and was published in Tuesday's Omaha Rec.

Following are the words:  
Bring us dear Old Glory, shout  
Cheer her cheer her  
Cheer her like we use to cheer  
When the battle was in doubt  
Then cheer her with a hearty  
Tobacco pipe and a tin of  
When we were marching through  
Germany.

Three cheers, three cheers, for the Red, the White, the Blue;  
Three cheers, three cheers, for General Pershing too.  
Now cheer them both together, boys,  
Like we used to do,  
When we were marching through Germany.

Those gold-loving Yankee boys  
"I never saw a Yankee soldier  
So to the naughty German folks were all the time sayin'  
Yet we kept Von Hindenburg  
Always worrin'  
When we were marching through  
Germany.

The Kaiser forgot to say "The world  
is God's and mine."  
He was so flabbergasted when we  
crossed the Rhine  
That he nearly drowned himself in  
the bottomless sea.  
When we were marching through  
Germany.

Though I live a thousand years,  
then die of old age,  
I never for a moment will forget the  
Kaiser's rage,  
Because he couldn't capture us  
and put us in a cage,  
When we were marching through  
Germany.

CHORUS.  
Three cheers, three cheers, for the Red, the White, the Blue;  
Three cheers, three cheers, for our boys,  
Now cheer them both together, boys,  
Like we used to do,  
When we were marching through  
Germany.

In reply Attorney General Reed says that it is true and quotes section 4700 of the national act as follows:

That none of the bonds authorized by section one, nor of the certificates authorized by section five, or by section six, of this act, shall bear the circulation privilege. All such bonds and certificates shall be exempt, both as to principal and interest from all taxation now or hereafter imposed by the United States, any state, or any of the possessions of the United States, or by any local government, including (a) estate and inheritance taxes, and (b) graduated additional income taxes, commonly known as surtaxes, and except for the purpose of any law now or hereafter imposed by the United States, upon the income or profits of individuals, partnerships, corporations, or any other interest on an amount of such bonds and certificates the principal of which does not exceed in the aggregate \$500 owned by any individual, partnership, association, or corporation, shall be exempt from the taxes provided for in subdivision (b) of this section.

a word of complaint was heard. Even to the very last when she could not speak she looked into the faces of her sons and smiled.

The pastor became quite well acquainted with Mrs. Sala, but never was there any disposition on her part to think her lot was harder than other people. She seemed to have implicit faith in God, and never swerved from this one position by her outside circumstances and environment. She was quiet and unassuming and yet one felt the pull of her fascinating personality.

The family will miss her in the home. She was a good wife and mother to those under her care. She never tired of caring for those she loved. May the children rise and call her "blessed," and not only that but may they seek to imitate within their own lives the same lofty conceptions which were her portion. This is the real source of joy and happiness.

The community has lost a good woman and this city is the poorer today because of the departure of this beautiful soul whose sterling qualities endeared her to all who came in contact with her.

Mrs. Sala is survived by her husband, Mr. E. Q. Sala, 11818 1/2 street, six of whom are here today. They are as follows: Mrs. Winnifred Ziegler, Norfolk, Neb.; Mrs. Margaret Miller, Craig, Neb.; Elmer Sala, Millboro, S. D.; Mrs. Emma Hayes, Wayne, Neb.; Ray Sala, Millboro, S. D.; Ed. Edmund Sala, Colome, S. D.; Iva Sala, Wayne, Neb.; and Irvin Sala, who is now at the training camp at Newport News, Va. All of these children were present at the time of the mother's death except Mrs. Ziegler, and Mrs. and Irvin. Two brothers survive her: Herbert Richmond, Scottsbluff, Neb., and Henry Richmond of Sterling, Colo. She leaves seven children, three sisters, Mrs. Charles Duncan, Oakdale, Neb.; Mrs. M. K. Rickbaugh, Colome, S. D.; and Mrs. T. J. Schaefer of Wayne, Neb., and eleven grandchildren.

The funeral service was held Friday afternoon at 2:30 p. m. at the home, Rev. E. Q. Sala, pastor of the Baptist church of this city, officiating. The funeral was attended by a large concourse of friends who testified to the esteem in which our departed sister was held.

The remains were laid to rest in the beautiful Greenwood cemetery at Wayne.

Mr. and Mrs. Sam Patrick of Saturday in response to word announcing the death of Mrs. Jennie son of Neligh, Neb., came to Wayne Mc Nutt.

### OBITUARY OF MRS. E. Q. SALA

(By Her Pastor.)  
The death of Mrs. E. Q. Sala aged 64 years, 5 months and 19 days occurred Thursday morning at the break of day.  
Mrs. Edna Richmond was born at Rockport, Ill., October 29, 1853.  
She was married at West Point, Ia., to Edmund Quincy Sala July 3, 1873. To this union eight children were born. Eighteen years ago the family moved from West Point, Ia., and have lived most of the time since in Wayne county.  
Mrs. Sala was a member of the West Point Methodist church, and her membership remained there until her decease. She was a cheerful Christian woman, at all times manifested in her daily walk and conversation in the home and community. She believed that things never were so good as they are, and that God's Her faith in God was able to comprehend this sublime passage from holy writ: "All things work together for good to them who love God." She died in that confidence and assurance that it would be all right when she should go to be with her Lord.  
Mrs. Sala has had a great sufferer for a large part of her life. In fact she never was real strong and robust. Eight years ago she had an operation for gall stones and never recovered fully from the shock of this upon the nervous system. For over three months she had been forced to give up. A few days after Christmas the sister again submitted to an examination in Sioux City revealing the fact that she was suffering from cancer of the liver. The doctors did not operate at that time but it was no use. Friends knew then that it was only a question of a few months at best. As a great deal of pain and anguish arose

"My Country 'Tis of Thee, Sweet Land of Liberty."

I pledge allegiance to my flag and to the Republic for which it stands, one nation indivisible with Liberty and Justice to all.

Mistreatment of United States soldiers in German prisons will intensify the American fight against a despicable autocracy.

The Kaiser deplored the war in a recent address to his soldiers, but disclaimed responsibility by telling how he had tried to avoid it. What a miserable liar and fraud!

The Kaiser ruins a little country and then sits back in fenshick glee while magnanimous America goes to the relief with food and clothing.

War requirements are making people less selfish, more generous, more magnanimous. Living less unto one's self is an experience certain to improve the future status of society.

Arbor day, April 22, was started by the late J. Sterling Morton to develop habits of tree planting, and dot Nebraska prairies with groves. Results fully met expectations of the father of the day. Trees in abundance are now found on every farm, once barren and bleak.

Eastern people who regarded Nebraska's interest in the war as lukewarm are invited to review the returns by states in sales of war savings stamps. They will note that Nebraska is far in the lead of all

other states. The Lincoln Journal asks them to "remember hereafter that a people's fighting spirit is not measurable by its hysteria."

April will soon pull out of the traces, and it will be remembered this year as more disagreeable than March, which is a stinging indictment of the month. March was better than expected; April was worse. It is hoped May will dish out more rain and heat, both of which are needed for crops and comfort.

The speech of Dr. William E. Bohm, designed to unify America and arouse patriotic devotion to the cause for which it is fighting, was pronounced eminently sound and progressive by all who heard it. Dr. Bohm makes it clear that the only purpose of the United States is to strike down imperial tyrants and make the world safe for democracy. The purpose is not for conquest or oppression, but to remove the menace of militarism and aggression. He was mild in speech and broad in vision, and warned the hearts of Americans, regardless of former nationality, for the great and righteous struggle in which they are engaged.

President Wilson's opposition to the Chamberlain bill which would try violators of the sedition laws by court-martial, is based on the ground, as stated in a letter from the president to Senator Overman, that it would "not only be unconstitutional, but that in character it would put us nearly upon the level of the very people with whom we are fighting and affecting to deal as equals." The president adds: "It would be altogether inconsistent with the spirit and pretence of America, and in view of recent legislation, the espionage bill, the sabotage bill and the woman spy bill."

**"AN AWFUL MISTAKE."** Under the above caption, Edgar Howard in his Columbus Telegram points out the Praeger case as an example of the great injustice that may be done by resort to mob violence. He says:

The confession of one of the leaders of the mob which lynchings alleged pro-German at Collinsville, Illinois, last week, must come as a shock and a stern rebuke to every citizen who may have given countenance to a mob law during these war days.

The confession shows that the mob was organized in a saloon, and that it was largely composed of intoxicated boys, urged on by the bad advice of men who had a personal grudge against the victim of the mob. Instead of Praeger being dis-

posed, the testimony now proves that he was earnest in his loyalty, and that his last words to the mob leaders framed a plea that his body be buried in the folds of the flag of his country.

It is now too late to do anything for the victim of the mob, but it is not too late for every good citizen to begin proclaiming against mob law. These are days of excitement. Men's passions are set on the hair-trigger. A little touch of the finger of suspicion will set the trigger.

It is a time for calm consideration of serious questions. "It is a time for the display of best Americanism, and best Americanism always speaks out for law and for order, and always against the rule of the mob."

### FOOD REGULATIONS.

**Use of Sugar by Manufacturers.** While the supply of sugar is now sufficient to take care of the ordinary needs of the country, it is absolutely necessary to continue conserving sugar in order that we may have sufficient for the canning and preserving of fruit during the summer. The rule permitting the sale for manufacturing purposes of only 80 percent of last year's sales should be rigidly enforced except in cases where its enforcement will work a definite hardship on the manufacturer or the consuming public. It is the policy of the food administration to discourage the establishment of new plants starting up for the purpose of manufacturing soft drinks. A telegram from the food administration has been received with instructions to notify sellers of sugar in this state that no sugar shall be delivered to manufacturers of less essential food products who have started their business since January 1, 1918, unless first approved by the food administration at Washington.

### Sugar-Pop-Ice Cream

Dealers may sell 100 per cent of the amount of sugar consumed last year to manufacturers of ice cream for the purpose of maintaining this food product to its full limit. No increase of sugar should be allowed for the manufacture of sherbets, ices, soft drinks, or other less essential food products.

### Sugar for Canning Purposes.

You will please advise all canners in your respective counties that on account of the importance of promptly canning perishable fruits and vegetables, they should begin to accumulate sugar for this purpose at this time and continue this accumulation until sufficient sugar is acquired to meet their requirements for the season. This accumulation of sugar will not be permitted for any other purpose except

for the purpose of canning and preserving perishable food products.

**Profits of Sugar.** A definite ruling has been made by the food administration that retailers shall not in any case exact a profit on sugar sales of more than one cent per pound.

### Potato Campaign.

It is the desire of the food administration that all Nebraska grown potatoes should be used as human food. All consumers should be urged to use potatoes as freely as possible in order to economize in the use of bread. There are a few counties in this state where the surplus potatoes raised must be sold soon or they can not be used for food purposes. Potatoes are cheap—use them freely.

### Substitutes Must Be Used by Bakers.

On and after April 14, 1918, all bakers must use 25 per cent of wheat flour substitutes. You should notify the bakers in your respective counties of this rule and investigate to ascertain if they are complying with it. If bakers do not understand the method by which substitutes can be best used, they can secure formulas and information on this subject by addressing a communication of inquiry to Wm. M. Campbell, chairman of the National Technical Service Committee, Kansas City, Mo.

### Price of Baker's Bread.

It is determined by the food administration that retail margins under the "cash and carry" plan should not exceed one cent per loaf on bread sold in this state. The wholesale price of bread in the different parts of the state will naturally vary with the price of wheat flour and substitutes and the cost of manufacturing. Where excessive prices are charged by bakers or wholesalers, investigation should be made by county food administrators to ascertain whether or not these prices are yielding excessive profits.

**Amendment Poultry Regulation.** The rules and regulations forbidding the shipping of hens for killing purposes or the killing of hens until April 30th has been amended so as to permit the killing of hens after midnight April 19th. Yours truly, Gurdon W. Wattles, Federal Food Administrator for Nebraska.

### ASSETS REIMBURSE FUND

Lincoln, April 23.—The state banking board has been ordered by the district court of Butte county to make a 30 per cent distribution of amounts collected from the assets of the defunct Farmers State bank of Decatur to reimburse the guaranty fund.

Dudley D. Whitcomb, the receiver, has so far been able to collect from the assets enough so that the amount now on hand is \$43,337.78. The total claims against the bank amounted to \$99,444.04. The claims of the depositors have been paid in full by reason of the guaranty fund being called upon to the amount of \$79,051.81. The amount to be paid out by the court order will amount to \$23,715.55.

### SCHOOL NOTES.

Invitations have been issued for the Junior-Senior banquet tomorrow evening at the Boyd hotel.

The Red-Cross work is progressing satisfactorily in all departments. Enthusiasm continues unabated.

Watch for announcements of the public program to be given in the near future by the class in expression.

Mr. Sherry addressed the high school and the seventh and eighth grades Friday afternoon on the third liberty loan.

The W. H. S. debating team will

debate the Randolph team at Randolph Monday evening. Randolph recently won over Ponca in the state league debate. The winning team Monday evening will represent the northeast district in the state debate to be held early in May.

Tuesday evening the freshman B class entertained the freshmen A and the sophomore B classes and teachers at a wienner roast. After a hike of over two miles, the hungry pluckers built camp-fires and enjoyed a feed. Riff-raff games were then indulged in until 9 o'clock when the tired, but happy party started for home. The hosts proved themselves royal entertainers.

Nature Cures, The Doctor Takes the Fee.

There is an old saying that "Nature cures, the doctor takes the fee," but as anyone knows you can help Nature very much and thereby enable it to effect a cure in much less time than usually required. This is particularly true of colds. Chamberlain's Cough Remedy relieves the lungs, liquefies the tough mucus and aids in its expectoration, allays the cough and aids Nature in restoring the system to a healthy condition.—Adv.

C B & Q Corn Planters Can be Depended Upon in the Field Winner of Gold Medal at San Francisco Exposition Why C B & Q Planters Drop Kernels Accurately

The Gold Medal was the highest award conferred on corn planters at the San Francisco Exposition in 1915.

The importance of this victory of the C B & Q planter means more when one stops to look into the reasons which led the Jury of Awards to confer this honor on this planter.

The award means that the C B & Q planter is constructed of high-grade materials throughout and therefore with proper care and handling will give good service for a long period of time.

Furthermore, it means that the planter was operated in the presence of the Jury of Awards and found to work properly, the plates and valves operating together so that the plates dropped a high percentage of kernels accurately. If the planter was set to drop three kernels to a hill, practically all the hills contained three kernels, not three, then two, then four, but three practically every time.

In the final analysis the award of the Gold Medal to the C B & Q planter means that this planter has no superior in the corn planter world.

Equip your C B & Q with the simple power drop attachment shown here and use the planter without check wire. The attachment consists of two simple lugs, one on the seed plate shaft and one on the valve shaft. The valves are opened automatically. By shifting the chain on the different sprockets, or by changing sprockets you can obtain almost any hill distance desired. Power drop supplied as an extra.

You can use edgedrop, flat-drop and full-hill drop plates in the same hopper without any change in the mechanism.

To secure the best planting results—all seed corn should be graded and seed plates selected that will fit the size and shape of the kernels to be planted. The planter then has an even chance to perform its work.

On the C B & Q planter the plates are operated directly from the solid steel axle. The drive chain is always kept taut by an automatic chain tightener, which prevents any lost motion in transmitting power.

This construction all has to do with the efficient working of the plates and the valves of the planter. The plates operate exactly on time so that the desired number of kernels are delivered to the upper valves and are there waiting to drop when the valves are tripped. The valves have a force feed action—in other words, a plunger which forces the kernels out together and into the bottom of the furrow.

The action of both the plates and the valves is positive. The power is dependable, the gears are carefully cut and therefore mesh properly, insuring a high percentage of accurate dropping for every kernel in the planter. Adverse field conditions are met successfully by the C B & Q planter.

One of the strongest features of the C B & Q planter is the combined variable drop and clutch. The clutch is built into the dropping mechanism in a way that is simple and effective. By means of the variable drop, 2, 3, or 4 kernels can be planted in each hill and the change can be made from the seat without stopping the team. The clutch is positive and accurate.

This is one of the strongest features of the C B & Q corn planter.

Automatic marker requires no attention at the end of the row.

MAZOLA Better cooking at less cost with Mazola, the pure oil from corn. Mazola is a vegetable oil from an edible source for deep frying, sautéing, shortening and salad dressings. Foods fried in Mazola retain all of their natural flavor and are easy to digest. Mazola does not transmit taste or odor from one food to another—can be used over and over again—a big factor in economy.
