CONTINUATION OF THE NEBRASKA DEMOCRAT

Volume 54

WAYNE, NEBRASKA, MARCH 17, 1938

Number 15

TO BEGIN WORK ON S.T.C. MEN'S HALL

Kirby Page Says Greed And Violence Tending To Destroy Civilization

Noted Lecturer Here Under Auspices of Christian Groups

Choosing his text, "If your very light be darkness, how deep the darkness will be," Kirby Page, noted lecturer and author, aroused much interest and comment among Wayne residents when he spoke to a large audience at the college auditorium Sunday night.

He stated that two cancers—greed and violence—are gnawing at our civilization and tending to destroy it. He stressed the fact that no society can continue to grow and progress while greed and violence have such a major part in it.

Asking the question, "Can any war be wholly a defensive war?"

Creamery Day Opening Drew Large Crowd

Ideal Weather Helps Creamery Opening, Hall Almost Filled

Ideal weather prevailed Thursday for the opening of the Wayne Creamery which drew a crowd almost filling the large city auditorium to capacity. The program was both entertaining and instructive of apparent interest to both farmers and townsmen.

The high school band opened the program which was interceded with other entertainment by the grade school, colorful bugle and drum corp and tap dancing by a girls physical education class of the college.

Supt. E. W. Smith spoke briefly on education as related to an agricultural community stressing the significance of a vocational agricultural course for the farm boys.

Receives February Gasoline Tax

The gasoline tax for February totaling \$1,835.30 was received this week as announced today by the county treasurer's office. It has been apportioned as follows: County bridge, \$367.06; county road, \$1,847.71, and road district, \$183.53.

Set Final Date For Corn Loans

The final date for making application for corn loans is March 31, 1938. Anyone desiring to make application should do so as soon as possible so that all forms can be completed and application submitted not later than midnight March 31.

A total of 140 loans totaling approximately \$60,000 have been made in Wayne county at this date.

Business Organizations to Sponsor 10 for Boys State

Cooperation of Local Firms Enable More Boys to Go

Ten Wayne boys were selected by an appointed committee to represent this unicameral district at Boy's State to be held in Lincoln in June. The committee was appointed by the American Legion post of Wayne with Carl E. Nicholaisen acting as chairman.

The committee had met Tuesday evening to select five boys of the ten but Wayne newspapers and other business firms through their cooperation and financial support have made it possible to send all ten candidates.

Mr. Page pointed out that the best defense is a good offense and war is waged about the same whether it is a war of defense or offense. War for the United States is not inevitable but looks probable, Page commented. It can be averted but he stated that we needed to have a change of temper and also eradicate our feeling of self righteousness. There are more young people today than in 1917 who are opposed to going to war but they still represent a minority.

"If it be right to burn and destroy God's people than nothing can be wrong and if we say it is right our light is 'deep darkness,'" the speaker concluded.

Mr. Page was brought to Wayne under the auspices of the YMCA and the YWCA organizations of the college.

Anthrax Meeting Is Scheduled Tonight

In response to many questions regarding control of anthrax, a five-day stock sanitation meetings have been scheduled throughout northeast Nebraska. Proper preventive practices will be discussed at the meeting to be held here in Wayne this evening at 8 o'clock. A similar meeting is being held in Wakefield this afternoon at 2 o'clock. Meetings will also be held at Winside Friday afternoon at 2 o'clock and at Carroll in the evening at 8 o'clock.

Dr. S. W. Alford and W. W. Derrick both of the Nebraska College of Agriculture will attend each session and answer the following questions: "What is Anthrax?" "How About Vaccination?" "Will the disease spread to man?" "How is the disease transmitted?" "Is the disease apt to strike again in 1938?"

Schedule AAA Discussion Meet

Hancock, Chapin Precincts Meet Today Voting Today

Discussion meetings of the new 1938 Soil Conservation program are being scheduled in the various precincts of Wayne county with Deer Creek and Chapin precinct farmers meeting at the Carroll auditorium this afternoon at 2 o'clock. A meeting for Hancock and Chapin precincts is being held this evening at the Winside theater at 8 o'clock. New provisions of the program will be explained at these meetings.

The schedule of the remaining meetings is as follows:

Sherman and Garfield precinct meetings were held Wednesday at Sholes and school district No. Plum Creek, Reinhardt school, Friday, 2 p. m.; Leslie, Kai school, Friday, 8 p. m.; Logan, auditorium, Wakefield, Saturday, 2 p. m.; Wilbur, Strahan, Old City Hall, Wayne, Monday, 2 p. m.; Hunter, Old City Hall, Wayne, Monday, 2 p. m.; Brenna, Voting place, Monday, 8 p. m.; Hoskins, Hoskins, Tuesday, 2 p. m.

Wayne State Makes Fine Showing at Forensic Meet

John Kyl representing Wayne State Teachers college won third place in the extemporaneous division of the Nebraska Inter-collegiate Forensic association declamatory tournament at Kearney Thursday and Friday.

The two debate teams each won two debates in the general competition. The Class A team was composed of John Kyl and Robert Sutton and the Class B team included Genevieve Ramsey and LeRoy Anderson.

Miss Muriel Hansen, Miss Eunice Stancliffe, and Roger Gibson also competed in various declamatory divisions.

Colleges which are members of the Forensic association include Wesleyan, Hastings, Omaha University, Doane College, York College, Central College, Chadron State Teachers College, Kearney State Teachers College, Peru State Teachers College, and Wayne State Teachers College.

Miss Florence Drake and Miss Lenore Ramsey, speech instructors, accompanied the contestant.

START COUNTY REA PROJECT

Engineers Begin Survey Of Wayne Power District

A. G. Hastie and K. C. Colwill of Henningson Engineering company of Omaha began the work of a detailed survey of Wayne county which will be used in the REA Project. This work will be complete in approximately 10 days.

The entire county will be mapped farmsteads accurately plotted, location of telephone lines, railroads and trees on section lines will be given.

The Board of Directors of the Wayne County Rural Public Power district met with H. H. Henningson, engineer, Monday. They gave Mr. Henningson additional customers survey blanks which will make the Wayne County project one of the soundest in the state. The application for an allotment of funds will be made before the work of Mr. Hastie and Mr. Colwill is completed.

President Roosevelt Tells Story of New Deal

For the first time, a president of the United States has consented to publication of his history while still in office. President Franklin Delano Roosevelt has issued for publication his story of the New Deal.

Taken from his forthcoming book, "The Public Papers and Addresses of Franklin Roosevelt" the president's story will appear in 30 installments that are based upon his notes and comments written during his term of office. The President's story of the New Deal is to appear daily beginning March 23, in the World-Herald.

President Roosevelt's story tells of business both big and small, of foreign policy and neutrality, farming and the AAA, the NRA, the CCC, and the TVA, holding companies and many other governmental incidents. Without editorial comment, the World-Herald will present the whole of the president's story as released by him for exclusive newspaper publication.

These comments are clear, readable and are entirely new. They have never before appeared in any magazine or newspaper.

Total Costs are \$140,986 State Normal Board Let Contracts Saturday

4-County Schoolmen's Club Holds Meet Monday

Four-county Schoolmen's club held their regular dinner meeting at the college cafeteria Monday evening. Supt. C. H. Adee of the Randolph schools presided.

Three members of the Randolph school faculty gave brief talks on work accomplished in their special departments. G. F. Heady discussed the vocational agricultural course in the Randolph schools. Miss Helen McKee spoke of the home economic department. Ralph McDonald talked on work done in the music department. In addition, he sang two vocal solos.

Mr. Heady brought out the fact that "during the past three years there has been only one boy from rural districts enter the Randolph High School who did not start in the Voc. Agri. department." He stated further that there is an expansion of interest in rural communities in the farming course. Authorities on the Nebraska agricultural and economic questions have found that 75% of the boys brought up on the farm in Nebraska remain on the farm or return to it for their livelihood in later years. Experience with life's actualities is the very essence of Voc. Education. The fundamental purpose of any type of Voc. training, particularly of Voc. Agri., is to prepare young people to earn a living.

There are 87 Voc. Agri. departments in as many high schools in Nebraska. There are hundreds of such departments in the whole United States. These enroll over 33,000 boys and average 37 boys to the department.

(Continued on Back Page)

Former Wayne Folks Plan Parisian Trip

Mr. and Mrs. Lyle Dowling, former Wayne State Teachers College students, are leaving mid-March for a vacation trip to Paris. At present, Dowling is on the editorial staff of the Brooklyn Eagle. Mrs. Dowling is private secretary to Dorothy Thompson, international known journalist and radio commentator.

John Dowling, younger brother of Lyle, who won distinction in Meikelljohn's special school at the University of Wisconsin is now associated with the philosophy department of the University of Wisconsin.

Lyle Dowling was a student at Wayne State from 1925-27.

Omaha, Lincoln Firms Receive Men's Hall Construction Bids

Contracts for the new men's dormitory on Wayne State Teachers college campus were let at the Normal Board meeting Saturday in Lincoln. The general construction contract has been let to Rokahr and son of Lincoln for \$110,304. With a bid of 18,487.88, E. L. Rodwell of Omaha was let the contract for plumbing and heating. P. E. Malmquist of Omaha was let the contract for the electrical work. His bid was \$6,135. Work begins on the new hall at once. Ground for the building is being cleared at present.

Judge Wenke To Preside at District Court

Select Jury for Regular District Session of Court

The regular March 1938, jury term of district court will open this coming Monday with Judge Adolph Wenke on the bench. The jury has been called for the following Monday, March 23.

Jury for March term of court is as follows:

Carl Granquist, Wayne, Wayne 1st; Albert G. Carlson, Wayne, 2nd; Roy H. Langmeier, Wayne, 3rd; James Jensen, Winside, Chapin; Roy Witte, Winside, Winside; Wm. Wade, Winside, Brenna; Henry Rathman, Winside, Winside; Burt Lewis, Winside, Chapin; A. H. Brinkman, Wayne, Wayne 1st; Wm. Dangberg, Winside, Brenna; Albert Saha, Carroll, Wilbur; Herman Welch, Hoskins, Hoskins; Fred Jahde, Wakefield, Leslie; Fred Victor, Wakefield, Hunter; Roy Sundell, Wakefield, Logan; David H. Jones, Winside, Garfield; E. O. Behmer, Hoskins, Hoskins; Thorwald Jacobsen, Winside, Winside; Adolph Claussen, Wayne, Strahan; W. J. Goreham, Wakefield, Leslie; Fred Kennedy, Hoskins, Hoskins; Carl Lage, Wayne, Wayne 2nd; Elaine Ellis, Wayne, Wayne 2nd; Robert Graef, Winside, Brenna.

William Gobler of Leigh visited the Wayne News office Thursday.

Dean Cook and Supt. Smith Explain Voc. Agr. at Kiwanis

Smith Presents Prod. Cook Explains Course at Luncheon

Dean Cook and Supt. Smith collaborated in presenting the case of Vocational Agriculture before Kiwanians Monday's luncheon. The speakers presented the timely subject in a most enlightening manner. Dean Cook's remarks were based upon his ten years of either teaching the subject or being affiliated with schools where the course was a part of the curriculum and Supt. Smith based his comment largely upon an analysis of the local need.

Dean Cook stated that there were 87 such departments in Nebraska schools at the present time and that about 10 were being added each year depending upon the availability of competent instructors. Applications are considered in order as presented said Mr. Cook. The average expenditure for equipment in the class room work for this subject is about \$300 and about \$1,000 for the shop building said the speaker. Mr. Cook established the course in the Kearney public schools and not in the college as rumored. Under the Smith-Hughes Act one half of the sal-

ary of a teacher of vocational agriculture is matched with an equal amount from local funds and two-thirds of mileage expense is paid by the state.

Using a chart to picture the local need to meet adequate agricultural education, Supt. Smith told Kiwanians 51 of the 94 non-resident students in the High School are boys. In this 51 are 18 freshmen boys 16 of whom are committed to a farm career. The installation of such a course at this time would make vocational agriculture available for three years to these boys who have expressed their intention to farm. At this time there are 14 Sophomores in the high school from the country, making a total of 32 farm boys in the first and second years of High School.

According to the records at Miss Sewell's office there are now 18 boys who did not come to high school who probably would now be members of the Freshmen and Sophomore classes bringing the number enrolled from 32 to 50. Supt. Smith further explained that a levy of 1 mill tax in the county is provided for tuition of students living in communities which have no high school. These students may attend any high school in the state.

4 Good Games Tonight Ends Tourney

Tournament Play Finds Many Fast Stepping Teams Thrill Crowd

First round games of the American Legion tournament were completed late Tuesday night. The first game Monday evening between Wakefield and Wisner was won by Wakefield 21 to 18. The second game, between the Dudley team of Norfolk and the Old Style Lager team of Pender was a slow affair won by Pender, 44 to 34. Ewing and Bat-

tle Creek had a good battle, Battle Creek taking the honors by a score of 34 to 23.

In the final game Monday evening Schuyler and Allen had a fast game with the Schuyler reserve strength proving too much for Allen. The score was Schuyler 27, Allen 24.

Tuesday evening brought better teams but for the most part scores were uneven. The Wayne-Emerson game was the closest of the evening with Wayne taking the honors 18 to 13.

The Page-Concord game was hard fought all the way through.

The Page boys were game to the end but Concord ended the game with a safe margin, 42 to 25.

Oakland had too many reserves to have two full teams. The score was Oakland 35, Belden 19. In the last game of the evening Winside romped over Ponca by a score of 42 to 16. Winside had the nicest working team in the tournament.

Tonight the tournament ends, semi-final games to be played at 7 and 8, the consolation round at 9 with the championship game taking place at 10.

Local Kiwanians at Albion Dinner

Phil March, C. L. Pickett, and Fred L. Blair went to Albion Monday evening where they attended an intra-club dinner party with the Albion Kiwanis club as host. All six clubs in the fifth district were represented.

Fred L. Blair led the group singing. The Omaha club was presented the efficiency plaque earned during the last six months of 1937. Arthur Baldwin of Fremont presented the plaque.

The towns represented were Albion, Wayne, Norfolk, Fremont, Omaha, and Grand Island.

County Resident 56 Years Dies

Rites for Frank Longe Of Near Wakefield Held Today

Funeral services for Mr. Frank Longe of near Wakefield are being conducted today from the St. Paul's Lutheran church located one-half mile from his home with the Rev. W. A. Gerdes and Rev. E. J. Moede officiating. Burial is to be in the Wakefield cemetery. Mr. Longe died early Tuesday morning at his home. Had he lived until March 30, he would have been 73 years old. He had been in failing health for the past three years. Mr. Longe was born at Weis Prussen Province, Germany on March 30, 1865.

When 10 years old he emigrated to America with his parents settling in Green county, Iowa, in 1875. Three years later he moved to West Point and later to La Porte. He had been a resident of Wayne county for 56 years.

Mr. Longe was baptised in the Lutheran faith while in Germany. On June 12, 1887 he was married by the Rev. M. Wehking at La Porte.

He married Louise Maria Erxleben on Dec. 14, 1893 at Altona, Rev. Hilpert, Sr. in charge, who survives him. Eight children, four boys and four girls, were born to them of whom all survive. The sons are August, Rudy, Albert, and Walter Longe all of Wakefield and the daughters are Mrs. Martha Bierman of Wis-

ner, Mrs. Ray Larsen of Wayne, Mrs. Robert Turner of Wakefield, and Miss Esther Longe at home. Four grandchildren, four brothers, Amos of Norfolk, Herman, Rudolph, and Albert of Wakefield and one sister, Mrs. Detlef Kai, Sr., of Pender also survive Mr. Longe.

Two Wayne Students Accept Positions

Two Wayne State Teachers college students have accepted teaching jobs for the coming school year. Miss Lorine Schulte who receives her A B degree this year will teach in the primary room of the Neligh schools. Miss Martha Morrow will be the sixth grade teacher at Ainsworth. She receives her two-year teachers' certificate this year.

Wayne Legion Post Entertain Wednesday

Wayne American Legion post entertained Legionaires from Winside, Wakefield, and Lyons at an evening party last Wednesday evening at the Legion rooms. Eighty guests and members were in attendance.

C. R. Chinn as guest speaker discussed "Restoration of Wild Life," in observance of national wild life week. Brief talks were given by County Commander D. Gormley of Winside, District Commander Glenn Robertson of Lyons, and Al Borg of Wakefield. Dr. Gormley complimented the Wayne post on the "overwriting of their membership quota.

Two safe driving campaign films, "Stop, Look, and Live" and "Night Driving" were shown. A 100-pound pig which had been baked whole and coffee was served at the close. The K P committee included Floyd Conger, Fred Byrum, and James Milliken.

To Present "Girls In Uniform" at College

Dramatics II class of Wayne State Teachers College presents "Girls In Uniform," by Christa Winsloe. This stirring drama of life in a Prussian girls school will be given in the college auditorium this Friday evening at 8 o'clock.

Former Wayne Teacher Has Article Published

Dr. Myrick H. Sublette, formerly head of the commerce department of Wayne State Teachers College has had an article, "The Futility of Incorporation" published in the February issue of the American Federationist. Mr. Sublette is now chairman of the economics department of Theresa Girl's College at Winona, Minn. The publication is the official journal of the American Federations of Labor.

Set Date of Northeast Central Track Meet

The Northeast Central track conference date has been set for April 19 and will be held at the college track field. This date was set at the meeting of the Coaches and high school officials of the six schools comprising the conference. Five schools including Wisner, Laurel, Pilger, Coleridge, and Wayne Prep were represented at the meeting Monday. Winside representatives were unable to attend.

Both the conference basketball and football trophies were awarded to Pilger who through winning them each three times keeps the awards permanently.

Tourney Winner Drops 2nd at State

Class C Title Earned In Overtime Period

Stanton, winner of the Class B district basket ball tournament at Wayne, won its first game at the state contest at Lincoln last week-end, defeating Crawford 27 to 26. The game was decided in the last minute of play when a Stanton man made two free throws to gain the one-point lead. The second round eliminated Stanton, Hardy beating the Stanton boys by three points.

Ainsworth, winner of the Class A district tournament at Norfolk, went to the semi-finals to be defeated by the Lincoln High school team.

Lincoln High won Class A; Bethany, the Class C title, and Bratton Union beat Octavia for the C title in an overtime game.

A Few Reasons Which May Interest Mothers And Fathers in Vocational Agriculture

Here are a few reasons why any mother or father ought to be interested in providing vocational education for the nation's children who are sound of body and of mind. According to the White House Conference Report in 1930, gathered at the request of President Hoover, there were at that time 10,000,000 children in the United States who were handicapped.

- Fifteen thousand were blind.
- Fifty thousand were partially blind.
- Three million were deaf and hard of hearing.
- Six million five hundred thousand were mentally deficient.
- Eight hundred and fifty thousand were definitely feeble minded.
- Five million, six hundred fifty thousand were intellectually subnormal.
- Four hundred thousand were actually tubercular.
- Eight hundred and fifty thousand were suspected tubercular.
- Four hundred and fifty thousand had heart disease.

Many of the men in the breadlines and on the relief rolls in our agricultural metropolitan centers were born and reared on farms. At the lowest ebb of the unemployment we conducted an occupational survey for the department of commerce of the unemployed in a nearby city and 80 per cent of 500 single men in the breadline had spent most of their employment days on the farm and if our memory is correct about the same condition held true with unemployed family heads. While the exact figures are not available we recall that in the majority of cases these men had received no vocational training of any nature and in most cases they had dropped from school before completing the eighth grade. Some had gone through high school and a very few had some college work but by far the predominating group were untrained and limited in their education.

While it is not easy to correlate the above situations with our own community, it does mirror the relationship of providing adequate education for the socially sound, upon whom this democracy depends for its existence.

What Shall it Profit an Agricultural Community To Build the Farm and Forget its Future Farmer

How does Nebraska gain—how does agricultural Wayne county gain, if we take no account of the vocational development of our farm youth? Conservation is only fractionally effective when we fail to conserve the man!

There is a new agriculture, the successful practice of which demands a special vocational type or training in farming as a business and a way of life. An agricultural community has the earmarks of stability, prosperity, and progress on the farm. Farmers' main interests are in their occupation, and their loyalty is to the soil. This desirable condition does not come about accidentally.

Father-son apprenticeship is no longer quite sufficient in the practice of an agriculture that calls for increasing efficiency in production and informed intelligence in marketing; an agriculture that must make its way in the midst of a closely organized industrial society.

Realizing that only a small percentage of young farmers can attend a college of agriculture, the federal government began planning some twenty years ago for vocational agriculture in the high schools of farm belt states. The program at first was naturally experimental. Its status now is settled and stable. Hundreds of rural communities are each year availing themselves of the opportunities the program affords for supplying a practical bread-and-butter type of training in farm practice embodied in the three-year course. Scores of high schools in the farm belt area are adding vocational agriculture departments each year. The program has demonstrated its value; it is here to serve and to stay.

A permanent and stable, happy and prosperous farm population is admittedly the best safeguard of the American way. Wayne can share directly and immediately in the benefits of a vocational agriculture program if the people so will. Here is an opportunity to do something for our farmer neighbors—something they want and will appreciate, as is evidenced by the resolution recently passed by the Wayne county Farm Bureau.

"Sufficient Unto the Day is the Evil Thereof"

That was the conclusion of the ex-tax gatherer in the first gospel. Mathews had served a first rate country in no second rate position. He was engaged in a more noble vocation when he wrote those words nevertheless he believed there was sufficient evil present without inviting any more.

To-day some folks exasperate themselves and most everyone else going over repeatedly divers kinds of desperate situations no matter which way they look. They tell us society is disintegrating, that wars will never cease; that our civilization awaits only the world conflagration of the mail fist and its exit will make the fall of Egypt, Assyria, Greece and Rome only mild failures.

May we not forget, though nations have risen and fallen, and cultures have waxed and waned, the major movements of human history have been forward and that no particular age ever perfected civilization. On the other hand, once civilization dawned, it has never yet approached disappearance from the earth. The torch of culture has always been passed on. Each succeeding cycle has increased the perfection of civilization, this principle will not likely be abrogated today or tomorrow.

It is questionable if even the most optimistic and far seeing minds among us can conceive the progress that even the next generation or two will experience.

The other fellow may live and breath deperation, he chokes but here's one whose faith is going to be influenced where the preponderance of evidence exists.

Washington, according to his enemies, schemed to be a king. Jefferson was arranged as seizing power beyond the scope of the Presidency. Jackson was crowned in crown and scepter. Theodore Roosevelt was sometimes charged with disrupting our whole capitalistic system. For several years Franklin R. Roosevelt is supposed by his enemies to be trying to displace our democratic form of government with dictatorship. A free press, religious liberty are still with us, our economic system has not disappeared, neither has thrift or prudence been tabooed.

It is interesting to note that the new secretary of the Sioux City Chamber of Commerce not only observed the opening of the new Wayne Creamery but also took time to congratulate its owner, Leo Dailey understands the inside and outside of progress in agricultural communities, having had a vital part in developing the commercial life of Spencer, Iowa, from just an ordinary county seat town into Northwest Iowa's leading commercial and agricultural center.

Many trade centers were needed in the dirt road, horse and buggy days and in some regions they were deliberately laid out at five-mile intervals along the course of a railroad. They strove to serve most of the local manufacturing, trade, transportation and financing needs of their county communities. Now that the tendencies are reversed, many live centers are making adjustments to the new day. In these particular cities business is going forward. It is a situation which merits consideration of businessmen.

Events of the Week

Thursday (today)
St. Mary's guild meets today with Mrs. J. H. Bruggler for a regular business meeting.

Thursday (today)
Mrs. Ernest Lindahl as hostess entertains the Rural Home society this afternoon at her home for a regular project lesson on "Lightening the Working Hours."

Guests at a 1 o'clock luncheon this afternoon are Bidorbi club members when Mrs. A. B. Carhart, Mrs. Rolie Ley, and Mrs. H. B. Craven entertain at the Carhart home.

Mrs. Allan Bradford entertains members of the E. O. F. club this afternoon at her home for Mrs. Walter Henkel.

R. R. club members meet this afternoon at the home of Mrs. J. H. Nichols for a regular study and social program.

Friday
Scoreboard Bridge club members will be entertained at the home of Miss Clara Wischhof Friday.

Mrs. John Kay entertains the Five Hundred club at her home Friday.

Mrs. Lambert Roe entertains the Order of Eastern Star Kensington at her home Friday afternoon. Assisting hostesses will be Miss Harriet Fortner and Mrs. Henry Preston.

Monday
Monday club members meet with Mrs. O. R. Bowen as hostess at her home Monday afternoon. Mrs. A. B. Carhart will talk on "Wills Under Nebraska Laws." Mrs. John T. Bressler, jr., will entertain fortnightly club members at an afternoon bridge party at her home Monday.

Mrs. Leslie Ellis will entertain Coterie club members at her home Monday afternoon. The program will be in charge of Mrs. L. A. Fansie.

How Sinclair Lewis Enjoys His Reading

Sinclair Lewis believes that there is no merit in reading just in itself. The only authentic reason for reading is that it is fun. That is, provided you read exactly what you like because you really like it and never because you think you ought to like it and will get credit for it. In The Reader's Digest you'll find exactly the kind of articles that you like. Each one skillfully condensed so that it is short, meaty and interesting. I recommend it highly. —The Editor. —Adv.

A Capella Group To Give Concert

Program to Be Given at Auditorium Sunday Afternoon

The Wayne High school A Capella choir, Wayne High Madrigal singers, and the Junior high A Capella group will present an afternoon concert this coming Sunday at 4:30 o'clock at the city auditorium. The public is cordially invited to attend. Russell Widoe is the director.

The three groups will present a sacred song program. The A Capella choir will sing "Gloria Patri" by Palestrina; "Alla Trinita" by Burney; "Adoramus Te Christe," by Palestrina, "According to Thine Name," Bach; "Cherubim," by Glinka, and "Song of Trust," by Russell Widoe. The Madrigal singers will sing Morely's "Sing We and Chant It," "In These Delightful Pleasant Groves," by Pearsall, and "Sweet Honey Sucking Bees," by Wieble. The Junior A Capella choir will sing "Sanctus," by Schubert, an English folk song, "Morris Dance," and Widig's "Whip Poor Will."

The High school A Capella choir will close the afternoon concert with a group of secular songs. They will sing two Negro spirituals, "Gwine Shout All Over God's Heaven" and "Every Time I Feel the Spirit." They will also sing "Bluebirds," by Leontovich; "Cicirinnella," an Italian folk song by Krone, and "My Bonnie Lass She Smileth." The concert will close with Dickenson's "Music When Soft Voices Die."

More Than 150 Women Attend Style Review

A showing of early summer fashion notes sponsored by Swan's attracted more than 150 women to the style review and informal tea given Thursday evening at the club rooms.

Frocks made by Joyce Hubrite were modelled exclusively. Mrs. Edw. Seymour, Mrs. A. C. Adams, Mrs. Carroll Orr, Miss Thiel Lather, and Miss Miriam Fuse were models. Mrs. A. L. Swan was reader.

Noted Pianist Here Tonight

Winifred Christie Will Play Moor Piano at College

Heralded as the gem of the lyceum course of the past five or six years, Wayne State Teachers college presents Winifred Christie playing the Moor double keyboard piano at the college auditorium this evening.

Winifred Christie has kindly offered to give a teaching demonstration of piano technique to piano instructors and students at 4 o'clock, Thursday afternoon, in the college auditorium.

The college is desirous that interested parties in the community and nearby places avail themselves of this rare opportunity, and hereby invites piano teachers, students, and others interested in piano and music to come to the college this afternoon for this teaching demonstration. There is no charge.

Winifred Christie's superb playing of the Moor double keyboard piano is celebrated throughout the world. Born in Scotland, she first studied the piano at the Royal Academy of Music, London, where she won an imposing number of medals and distinctions, finally carrying off the coveted Liszt Scholarship, which took her abroad. Later she was made Associate and then Fellow of the Royal Academy of Music.

Miss Christie, who plays the Moor piano exclusively, has recently returned from another successful European tour. Her appearances in this country include many re-engagements where the thrill and unforgettable experience of hearing her performances continues to be one of the outstanding musical attractions of the season.

S. Wakefield

By Mrs. Rudy C. Longe

With Mrs. Brudigam
The St. Paul's Lutheran Ladies Aid met with Mrs. Carl Brudigam Thursday afternoon with 18 members and several visitors present. Mrs. Harold English and Mrs. Walter Burhoop joined the Aid.

After a social afternoon Mrs. Brudigam served. The Aid will meet with Mrs. Rudolph Longe April 7.

Honors Birthday
Neighbors and friends gathered at the August Hilke home Friday evening to help him celebrate his birthday anniversary. Visitors were: Mr. and Mrs. Carl Swanson, Mr. and Mrs. Harry Wage-mann and son, Mr. and Mrs. John Kay, Mr. and Mrs. R. T. Utecht, Mr. and Mrs. John Brudigam and daughters, Mr. and Mrs. August Brudigam and Marcella, and Herbert Utecht. A cooperative lunch followed a social evening.

Observes Birthday
Saturday evening neighbors and relatives called at the August Brudigam home, the occasion was Mr. Brudigam's birthday anniversary. Lunch was served at the close of a social evening.

Surprise Party
Mr. and Mrs. Herman Utecht who moved to a new location a week ago Friday, were pleasantly surprised Sunday evening by relatives and friends. Visitors were Mr. and Mrs. R. T. Utecht and family, Mr. and Mrs. Laurence Utecht, Mr. and Mrs. Walter Utecht, Mr. and Mrs. Emil Utecht and son, the Rev. and Mrs. Walter Brackensick and daughter, and Mr. and Mrs. F. S. Utecht.

The Serve All Project club met with Mrs. Arthur Longe at the Herman Hansen home in Wakefield Tuesday afternoon.

Mr. and Mrs. John Kay called at the John Heyne home in Pender Saturday afternoon.

The Misses Olga and Vernetta Kay were Sunday dinner and supper guests at the Walter Hansen home at Wisner.

Mr. and Mrs. Russell Harrison were Sunday dinner guests at the John Kay home.

Mr. and Mrs. John Leuck of Lincoln spent Friday afternoon at the F. S. Utecht home. They returned Sunday morning and with Mrs. F. S. Utecht spent the day calling on friends in Wakefield.

Harry Scott returned to Wakefield Saturday, having visited at the F. S. Utecht home the past week.

Mr. and Mrs. Ray Larsen and daughter were Sunday dinner and supper guests at the Frank Longe home.

Mr. and Mrs. Walter Utecht, Mr. and Mrs. Lawrence Utecht and Albert Utecht, spent Thursday with relatives in Martinsburg.

Mr. and Mrs. Lawrence Utecht moved into their new home Saturday.

Girl Born to Elmer Willers
A daughter was born to Mr. and Mrs. Elmer Willers Saturday.

Son Born Monday
A son was born to Mr. and Mrs. Collie Boyce, Monday.

Discharged From Hospital
Mrs. William Weber who underwent a major operation recently at a local hospital was discharged Sunday and is convalescing at the home of her parents, Mr. and Mrs. Albert Bastian.

Card of Thanks
I wish to take this means of expressing my sincere thanks and appreciation to my many friends who through their cards, flowers, gifts, and visits so thoughtfully remembered me during my recent illness.
Mrs. William Weber.

Establish Residences
Leslie Copeland has moved to the Pollard house at 417 West Third street. Charles Meyer family of near Wayne have moved to the Mrs. Mohr house at 520 Sherman.

Returns From Minnesota
Miss Leona Bahde who has spent the last two weeks with her sister, Mrs. Elmer Carnetz of Austin, Minn., who is convalescing from a recent illness, returned home Monday.

Files for Unicameral
Henry Hoppe of Schuyler filed Saturday for the unicameral legislature for the sixteenth district comprising Wayne, Stanton, and Colfax counties. Mr. Hoppe is a farmer living near Schuyler.

3 Generations Start to Farm on Same Place
With Mr. and Mrs. Blaine Gettman of Carroll moving Thursday to the Mrs. R. E. K. Mellor farm, it meant three generations of the Gettman family have started farming on this same farm. On this farm Blaine's father, John Gettman, started farming, having lived there 15 years. His grandfather, Helfrich Gettman, when he came to Wayne county many years ago, settled on this farm.

Beat 'Em All Members Enter Judging Contest

The Beat 'Em All club had a meeting at the George Jensen home Thursday night. The club members decided to enter the judging contest at Columbus. Francis Muller, Leland Herman, Darrell Jensen, Bernaal Gustafson, and Don Meyer met

at the Walter Herman farm Saturday for practice judging.

Newly Organized Pig Club Selects Name

A newly organized pig club held a meeting at the Charles Pierson home Friday and selected the name "Wide Awake Pig Club." The following boys are members of the club: Jim and John Suber, Verne and Paul Siewers, Alfred Siewers, Richard Claycomb, and Eldon Erickson.

At its business session, the club decided to ask that a class of fat barrows be included in the premium list of the county livestock fair exhibit. It was noted that the club meet every two weeks.

A film strip on "Swine Improvement" was shown.

Top Notchers Beef Club Meets Wednesday

Top Notchers 4-H Baby Beef club meet at the A. G. Sydow home last Wednesday evening. Gene and Dorothy Baird gave a demonstration on "Prevention of Marketing Losses of Livestock." An open forum discussion of the Angus judging contest at Columbus was held. Film strips on "Judging All Four Classes of Livestock" were shown.

The Standard Tudor Sedan

A LOT OF CAR for a VERY LOW PRICE

The Ford effort to make your dollars buy a constantly better car is well illustrated in the Standard Ford V-8. It has all the basic Ford advantages. It is built on the same chassis as the De Luxe Ford V-8. It gives you a choice of smooth 85-horsepower or 60-horsepower V-8 engines. But it sells at low prices, and includes bumpers, spare tire, cigar lighter, twin horns and other equipment that make it a still bigger bargain. With the thrifty 60-horsepower engine, the Standard Ford V-8 is priced especially low and gives the greatest gas mileage in Ford history. Hundreds of owners report averages of 22 to 27 miles a gallon—or even more. Your pocketbook will approve of the Standard Ford in every way. And so will you when you drive it!

SEEN and HEARD around the NATIONAL CAPITAL By Carter Field FAMOUS WASHINGTON CORRESPONDENT

Washington. — It is gradually dawning on the country that President Roosevelt did not lose his Supreme court fight—he won it.

On the last decision day in February the high bench handed down four decisions favorable to labor three of them by unanimous votes.

The most spectacular case, of course, was the Wagner labor relations act. Most lawyers in Washington believe, rightly or wrongly, that if the President had not started his fight to enlarge the court the decision on that act would have been unfavorable.

Then came the changes in the court personnel, the substitution of Hugo L. Black for Willis Van Devanter, and of Stanley Reed for George Sutherland.

Certain in the comparatively near future are two more. Justices to be appointed by Roosevelt will take the places of the last two conservatives, Pierce Butler and James C. McReynolds.

Not All Wounds Healed As to the wounds paid by the President it is obvious that the White House has not been able to heal all the wounds.

Wheeler was one of the strong "For Roosevelt Before Chicago" men. But for certain reasons he was never rewarded as nearly all of the stars in that galaxy were.

Whether this will be really decisive when the national convention approaches, and presidential primaries are being held, depends on many factors.

Merchant Marine Ambassador Joe Kennedy's recent pleas for a new system which would permit the establishment of a real American merchant marine may accomplish the spending of some money, but there is no inkling that any of the real difficulties in the path leading to this objective will be removed.

Both grow out of the well-defined policy of keeping the American standard of living high. Both for that reason are commendable, perse. But just as surely they mean that the United States will never be a real competitor in the world's shipping business.

Italian flags were everywhere. The great ship was lit up like a church at night in Rio harbor. Brazilians swarmed aboard, thousands of the more important being served

champagne lunches free; the less important were charged a small fee for the inspection trip.

But Americans Paid But—the cost of this good-will gesture by Italy, this impressing of the Latin-Americans, was borne by Americans.

Now the importance of all this is enhanced by the fact that of all the countries south-of-Panama, Brazil, for more than 20 years, has been the best friend of the United States.

Yet here are two great European powers, seeking to ingratiate themselves with our international pal, so to speak, and doing it with their traveling salesmen's expenses all paid by American tourists!

May Help Business American business probably will benefit substantially as a result of the British vote of confidence in Prime Minister Neville Chamberlain following the resignation of Foreign Minister Anthony Eden.

Never Saw Shorts A few years later while he was still in grade school, Glenn etered a county school meet at the fair grounds at Elkhart, Kan. The track was just a dirt road built for auto-

mobile races. The youngster had never had on shorts and a sweat shirt, and hadn't yet seen spiked track shoes.

Our Foreign Trade The United Kingdom will not only buy our manufactures, but will buy our farm commodities. One of the main objectives of the trade agreement being negotiated with England is to sell her more of our agricultural products.

Future of Track The champion sees a great future for track events in the United States provided communities that have neglected them in past years will join in a revival.

Glenn Cunningham Glenn Cunningham was just a dirt road built for auto-

Speaking of Sports County Fair Gave Start To Track Ace

By GEORGE A. BARCLAY BREAKING track records for the mile and other distances and winning tight races is old stuff to Glenn Cunningham, ace miler of the present generation.

That amazing performance was recorded recently at a meet at Dartmouth college. The time was four minutes, four and four-tenths seconds.

Those were performances calculated to thrill even the most victory-laden champion. But if you asked Cunningham about the biggest thrill of his career he'll probably tell you he experienced it in his first race.

When Glenn was about eight years old he was severely burned in a school house fire and for a time it was feared he would lose one of his legs.

Protein Builds Bodies. A new born baby weighs, on an average, from 7 to 7 1/2 pounds, and the adult into which it grows may weigh 20 to 30 times as much.

Keeps the Body in Repair. There is, however, a maintenance requirement for protein which continues throughout life, and which applies to both children and adults.

For Your Scrapbook THIS issue contains the second of a series of articles entitled "What to Eat and Why," written by the noted food authority, C. Houston Goudiss.

Aisle of Woman's Dreams That, in effect, is what advertisements in this paper can do for you. They bring all the needs of your daily life into review...

WHAT TO EAT AND WHY

C. Houston Goudiss Discusses PROTEINS—The Foods That You Cannot Live Without

Eminent Food Authority Explains Why No Protein Means No Life—Describes the Kind and Amount Required for the Best Growth in Children—Good Resistance, Vigor and Endurance in Adults.

FOOD is—and always has been—the central problem of life. But only in recent years has its true power been revealed, as a result of scientific investigation.

means "to take first place." And certainly the proteins are first in importance. For they are the stuff of which our bodies are built.

Every man, woman and child has a fundamental need for protein, because it is an essential component of every living cell and makes up a large part of the solids of a muscle cell.

Protein is the only food element that contains nitrogen, and next to water, nitrogen is the chief constituent of the body.

Proteins are found in many different foods, but unfortunately, only a limited number of foods supply proteins containing all the amino acids necessary for both growth and repair.

Other proteins are adequate for repairing worn-out tissue, but will not support growth. Such incomplete proteins are found in grains and products made from them.

How Much Protein? The protein requirement varies according to size, age, and the kind of protein foods consumed.

Es Eskimos eat two or three times as much protein as most dwellers in the temperate zone, but that is because other foods are scarce.

An Adequate Protein Ration. Milk and eggs are among the finest forms of protein, and they should have an especially important part in the diet.

In planning the family dietary, a safe rule to keep in mind is to include in the daily diet: a quart of milk for every child, a pint for each adult; one egg, one serving of meat, fish or chicken, one serving of another protein food such as cheese, dried peas or beans...

are adequate for both growth and repair, and those that are only useful for maintenance.

If for the diet does not contain an adequate amount, or the right kind of protein, our bodies will be badly built and they will be improperly repaired and cannot wear very well.

If you were building a house you would consider nothing less than the finest materials. You would know that cheap lumber and poorly made bricks could not produce a lasting building.

Where to Find Protein. Proteins are found in many different foods, but unfortunately, only a limited number of foods supply proteins containing all the amino acids necessary for both growth and repair.

Other proteins are adequate for repairing worn-out tissue, but will not support growth. Such incomplete proteins are found in grains and products made from them.

include in the daily diet: a quart of milk for every child, a pint for each adult; one egg, one serving of meat, fish or chicken, one serving of another protein food such as cheese, dried peas or beans...

You can achieve wide variety and still provide an adequate protein ration within the limits of this rule. For milk may be served as a beverage, in soups, puddings, and as cream sauce.

Both cheese and nuts make sandwiches, salads and desserts, as well as main course dishes. Peas, beans and lentils can appear as soup, mock roast or croquettes.

In planning menus, always keep before you the ideal that an adequate amount of first class protein makes a first class man, whereas an inadequate amount may lead to stunted growth, functional nervous diseases, lessened efficiency and the earlier approach of old age.

In choosing proteins to feed your family—remember that they take first place among foods, and that upon their wise choice rests your future welfare, your destiny—your life!

A Few Reasons Which May Interest Mothers And Fathers in Vocational Agriculture

Here are a few reasons why any mother or father ought to be interested in providing vocational education for the nation's children who are sound of body and of mind. According to the White House Conference Report in 1930, gathered at the request of President Hoover, there were at that time 10,000,000 children in the United States who were handicapped.

- Fifteen thousand were blind.
- Fifty thousand were partially blind.
- Three million were deaf and hard of hearing.
- Six million five hundred thousand were mentally deficient.
- Eight hundred and fifty thousand were definitely feeble minded.
- Five million, six hundred fifty thousand were intellectually subnormal.
- Four hundred thousand were actually tubercular.
- Eight hundred and fifty thousand were suspected tubercular.
- Four hundred and fifty thousand had heart disease.

Many of the men in the breadlines and on the relief rolls in our agricultural metropolitan centers were born and reared on farms. At the lowest ebb of the unemployment we conducted an occupational survey for the department of commerce of the unemployed in a nearby city and 80 per cent of 500 single men in the breadline had spent most of their employment days on the farm and if our memory is correct about the same condition held true with unemployed family heads. While the exact figures are not available we recall that in the majority of cases these men had received no vocational training of any nature and in most cases they had dropped from school before completing the eighth grade. Some had gone through high school and a very few had some college work but by far the predominating group were untrained and limited in their education.

While it is not easy to correlate the above situations with our own community, it does mirror the relationship of providing adequate education for the socially sound, upon whom this democracy depends for its existence.

What Shall it Profit an Agrtural Community To Build the Farm and Forget its Future Farmer

How does Nebraska gain how does agricultural Wayne county gain, if we take no account of the vocational development of our farm youth? Conservation is only fractionally effective when we fail to conserve the man!

There is a new agriculture, the successful practice of which demands a special vocational type or training in farming as a business and a way of life. An agricultural community has the earmarks of stability, prosperity, and progress only when the resident farmers' main interests are in their occupation and their loyalty is to the soil. This desirable condition does not come about accidentally.

Father-son apprenticeship is no longer quite sufficient in the practice of an agriculture that calls for increasing efficiency in production and informed intelligence in marketing; an agriculture that must make its way in the midst of a closely organized industrial society.

Realizing that only a small percentage of young farmers can attend a college of agriculture, the federal government began planning some twenty years ago for vocational agriculture in the high schools of farm belt states. The program at first was naturally experimental. Its status now is settled and stable. Hundreds of rural communities are each year availing themselves of the opportunities the program affords for supplying a practical bread-and-butter type of training in farm practice embodied in the three-year course. Scores of high schools in the farm belt area are adding vocational agriculture departments each year. The program has demonstrated its value; it is here to serve and to stay.

A permanent and stable, happy and prosperous farm population is admittedly the best safeguard of the American way. Wayne can share directly and immediately in the benefits of a vocational agriculture program if the people so will. Here is an opportunity to do something for our farmer neighbors—something they want and will appreciate, as is evidenced by the resolution recently passed by the Wayne county Farm Bureau.

"Sufficient Unto the Day is the Evil Thereof"

That was the conclusion of the ex-tax gatherer in the first gospel. Mathews had served a first rate country in no second rate position. He was engaged in a more noble vocation when he wrote those words nevertheless he believed there was sufficient evil present without inviting any more.

To-day some folks exasperate themselves and most everyone else going over repeatedly divers kinds of desperate situations no matter which way they look. They tell us society is disintegrating, that wars will never cease; that our civilization awaits only the world conflagration of the mail fist and its exit will make the fall of Egypt, Assyria, Greece and Rome only mild failures.

May we not forget, though nations have risen and fallen, and cultures have waxed and waned, the major movements of human history have been forward and that no particular age ever perfected civilization. On the other hand, once civilization dawned, it has never yet approached disappearance from the earth. The torch of culture has always been passed on. Each succeeding cycle has increased the perfection of civilization, this principle will not likely be abrogated today or tomorrow.

It is questionable if even the most optimistic and far seeing minds among us can conceive the progress that even the next generation or two will experience.

The other fellow may live and breath deperation if he choses but here's one whose faith is going to be influenced where the preponderance of evidence exists.

Washington, according to his enemies, schemed to be a king. Jefferson was arranged as seizing power beyond the scope of the Presidency. Jackson was cartooned in crown and scepter. Theodore Roosevelt was sometimes charged with disrupting our whole capitalist system. For several years Franklin R. Roosevelt is supposed by his enemies to be trying to displace our democratic form of government with dictatorship. A free press, religious liberty are still with us, our economic system has not disappeared, neither has thrift or prudence been tabooed.

It is interesting to note that the new secretary of the StouxCity Chamber of Commerce not only observed the opening of the new Wayne Creamery but also took time to congratulate its owner. Leo Dailey understands the inside and outside of progress in agricultural communities, having had a vital part in developing the commercial life of Spencer, Iowa, from just an ordinary county seat town into Northwest Iowa's leading commercial and agricultural center.

Many trade centers were needed in the dirt road, horse and buggy days and in some regions they were deliberately laid out at five-mile intervals along the course of a railroad. They strove to serve most of the local manufacturing, trade, transportation and financing needs of their country communities. Now that the tendencies are reversed, many live centers are making adjustments to the new day. In these particular cities business is going forward. It is a situation which merits consideration of businessmen.

Events of the Week

Thursday (today)
St. Mary's guild meets today with Mrs. J. H. Prigger for a regular business meeting.

Thursday (today)
Mrs. Ernest Lundahl as hostess entertains the Rural Home society this afternoon at her home for a regular project lesson on "Lightening the Working Hours." Guests at a 1 o'clock luncheon this afternoon are Bidorbi club members when Mrs. A. B. Carhart, Mrs. Rollie Ley, and Mrs. H. B. Craven entertain at the Carhart home.

Mrs. Allan Bradford entertains members of the E. O. F. club this afternoon at her home for Mrs. Walter Henkel.

R R club members meet this afternoon at the home of Mrs. J. H. Nichols for a regular study and social program.

Friday
Scoreboard Bridge club members will be entertained at the home of Miss Clara Wischhof Friday.

Mrs. John Kay entertains the Five Hundred club at her home Friday.

Mrs. Lambert Roe entertains the Order of Eastern Star kenington at her home Friday afternoon. Assisting hostesses will be Miss Harriet Fortner and Mrs. Henry Preston.

Monday
Monday club members meet with Mrs. O. R. Bowen as hostess at her home Monday afternoon. Mrs. A. B. Carhart will talk on "Wills Under Nebraska Laws."

Mrs. John T. Bressler, jr., will entertain fortnightly club members at an afternoon bridge party at her home Monday.

Mrs. Leslie Ellis will entertain Coterie club members at her home Monday afternoon. The program will be in charge of Mrs. L. A. Fanske.

How Sinclair Lewis Enjoys His Reading

Sinclair Lewis believes that there is no merit in reading just in itself. The only authentic reason for reading is that it is fun. That is, provided you read exactly what you like because you really like it and never because you think you ought to like it and will get credit for it. In The Reader's Digest you'll find exactly the kind of articles that you like. Each one skillfully condensed so that it is short, meaty and interesting. I recommend it highly. —The Editor. —Adv.

A Capella Group To Give Concert

Program to Be Given at Auditorium Sunday Afternoon

The Wayne High school A Capella choir, Wayne High Madrigal singers, and the Junior high A Capella group will present an afternoon concert this coming Sunday at 4:30 o'clock at the city auditorium. The public is cordially invited to attend. Russell Widoe is the director.

The three groups will present a sacred song program. The A Capella choir will sing "Gloria Patri," by Palestrina; "Alla Trinita" by Burney; "Adoramus Te Christe," by Palestrina, "According to Thine Name," Bach; "Cherubim," by Glinka, and "Song of Trust," by Russell Widoe. The Madrigal singers will sing Morely's "Sing We and Chant It," "In These Delightful Pleasant Groves," by Pearsall, and "Sweet Honey Sucking Bees," by Wieble. The Junior A Capella choir will sing "Sanchutus," by Schubert, an English folk song, "Morris Dance," and Widig's "Whip Poor Will."

The High school A Capella choir will close the afternoon concert with a group of secular songs. They will sing two Negro spirituals, "Gwine Shout All Over God's Heaven" and "Every Time I Feel the Spirit." They will also sing "Bluebirds," by Leontovich; "Cicirinnella," an Italian folk song by Krone, and "My Bonnie Lass She Smileth." The concert will close with Dickenson's "Music When Soft Voices Die."

More Than 150 Women Attend Style Review

A showing of early summer fashion notes sponsored by Swan's attracted more than 150 women to the style review and informal tea given Thursday evening at the club rooms.

Frocks made by Joyce Hubrite were modelled exclusively. Mrs. Edw. Seymour, Mrs. A. G. Adams, Mrs. Carroll Orr, Miss Thiel Lathen, and Miss Miriam Huse were models. Mrs. A. L. Swan was reader.

Noted Pianist Here Tonight

Winifred Christie Will Play Moor Piano at College

Heralded as the gem of the lyceum course of the past five or six years, Wayne State Teachers college presents Winifred Christie playing the Moor double keyboard piano at the college auditorium this evening.

Winifred Christie has kindly offered to give a teaching demonstration of piano technique to piano instructors and students at 4 o'clock, Thursday afternoon, in the college auditorium.

The college is desirous that interested parties in the community and nearby places avail themselves of this rare opportunity, and hereby invites piano teachers, students, and others interested in piano and music to come to the college this afternoon for this teaching demonstration. There is no charge.

Winifred Christie's superb playing of the Moor double keyboard piano is celebrated throughout the world. Born in Scotland, she first studied the piano at the Royal Academy of Music, London, where she won an imposing number of medals and distinctions, finally carrying off the coveted Liszt Scholarship, which took her abroad. Later she was made Associate and then Fellow of the Royal Academy of Music.

Miss Christie, who plays the Moor piano exclusively, has recently returned from another successful European tour. Her appearances in this country include many re-engagements where the thrill and unforgettable experience of hearing her performances continues to be one of the outstanding musical attractions of the season.

S. Wakefield

By Mrs. Rudy C. Longe

With Mrs. Brudigan
The St. Paul's Lutheran Ladies Aid met with Mrs. Carl Brudigan Thursday afternoon with 18 members and several visitors present. Mrs. Walter Burhoop joined the Aid.

After a social afternoon Mrs. Brudigan served. The Aid will meet with Mrs. Rudolph Longe April 7.

Honors Birthday

Neighbors and friends gathered at the August Hilke home Friday evening to help him celebrate his birthday anniversary. Visitors were: Mr. and Mrs. Carl Swanson, Mr. and Mrs. Harry Wage-mann and son, Mr. and Mrs. John Kay, Mr. and Mrs. R. T. Utecht, Mr. and Mrs. John Brudigan and daughters, Mr. and Mrs. August Brudigan and Marcella, and Herbert Utecht. A cooperative lunch followed a social evening.

Observes Birthday

Saturday evening neighbors and relatives called at the August Brudigan home, the occasion was Mr. Brudigan's birthday anniversary. Lunch was served at the close of a social evening.

Surprise Party

Mr. and Mrs. Herman Utecht who moved to a new location a week ago Friday, were pleasantly surprised Sunday evening by relatives and friends. Visitors were Mr. and Mrs. R. T. Utecht and family, Mr. and Mrs. Laurence Utecht, Mr. and Mrs. Walter Utecht, Mr. and Mrs. Emil Utecht and son, the Rev. and Mrs. Walter Brackensick and daughter, and Mr. and Mrs. F. S. Utecht.

The Serve All Project club met with Mrs. Arthur Longe at the Herman Hansen home in Wakefield Tuesday afternoon.

Mr. and Mrs. John Kay called at the John Heyne home in Pender Saturday afternoon.

The Misses Olga and Vernetta Kay were Sunday dinner and supper guests at the Walter Hansen home at Wisner.

Mr. and Mrs. Russell Harrison were Sunday dinner guests at the John Kay home.

Mr. and Mrs. John Leuck of Lincoln spent Friday afternoon at the F. S. Utecht home. They returned Sunday morning and with Mrs. F. S. Utecht spent the day calling on friends in Wakefield.

Harry Scott returned to Wakefield Saturday, having visited at the F. S. Utecht home the past week.

Mr. and Mrs. Ray Larsen and daughter were Sunday dinner and supper guests at the Frank Longe home.

Mr. and Mrs. Walter Utecht, Mr. and Mrs. Lawrence Utecht and Albert Utecht, spent Thursday with relatives in Martinsburg.

Mr. and Mrs. Lawrence Utecht moved into their new home Saturday.

Girl Born to Elmer Willers
A daughter was born to Mr. and Mrs. Elmer Willers Saturday.

Son Born Monday
A son was born to Mr. and Mrs. Collie Boyce Monday.

Discharged From Hospital
Mrs. William Weber who underwent a major operation recently at a local hospital was discharged Sunday and is convalescing at the home of her parents, Mr. and Mrs. Albert Bastian.

Card of Thanks

I wish to take this means of expressing my sincere thanks and appreciation to my many friends who through their cards, flowers, gifts, and visits so thoughtfully remembered me during my recent illness.
Mrs. William Weber.

Establish Residences

Leslie Copeland has moved to the Pollard house at 417 West Third street. Charles Meyer family of near Wayne have moved to the Mrs. Mohr house at 520 Sherman.

Returns From Minnesota

Miss Leona Bahde who has spent the last two weeks with her sister, Mrs. Elmer Carnetz of Austin, Minn., who is convalescing from a recent illness, returned home Monday.

Files for Unicameral
Henry Hoppe of Schuyler filed Saturday for the unicameral legislature for the sixteenth district comprising Wayne, Stanton, and Colfax counties. Mr. Hoppe is a farmer living near Schuyler.

3 Generations Start to Farm on Same Place
With Mr. and Mrs. Blaine Gettman of Carroll moving Thursday to the Mrs. R. E. K. Mellor farm, it meant three generations of the Gettman family have started farming on this same farm. On this farm Blaine's father, John Gettman, started farming, having lived there 15 years. His grandfather, Helfrich Gettman, when he came to Wayne county many years ago, settled on this farm.

Beat 'Em All Members Enter Judging Contest

The Beat 'Em All club had a meeting at the George Jensen home Thursday night. The club members decided to enter the judging contest at Columbus.

Francis Muller, Leland Herman, Darrell Jensen, Berneal Gustafson, and Don Meyer met

at the Walter Herman farm Saturday for practice judging.

Newly Organized Pig Club Selects Name

A newly organized pig club held a meeting at the Charles Pierson home Friday and selected the name "Wide Awake Pig Club." The following boys are members of the club: Jim and John Suber, Verne and Paul Siewers, Alfred Siewers, Richard Claycomb, and Eldon Erickson.

At its business session, the club decided to ask that a class of fat barrows be included in the premium list of the county live stock fair exhibit. It was voted that the club meet every two weeks.

A film strip on "Swine Improvement" was shown.

Top Notchers Beef Club Meets Wednesday

Top Notchers 4-H Baby Beef club meet at the A. G. Sydow home last Wednesday evening. Gene and Dorothy Baird gave a demonstration on "Prevention of Marketing Losses of Livestock." An open forum discussion of the Angus judging contest at Columbus was held. Film strips on "Judging All Four Classes of Livestock" were shown.

The Standard Tudor Sedan

The Ford effort to make your dollars buy a constantly better car is well illustrated in the Standard Ford V-8.

It has all the basic Ford advantages. It is built on the same chassis as the De Luxe Ford V-8. It gives you a choice of smooth 85-horsepower or 60-horsepower V-8 engines. But it sells at low prices, and includes bumpers, spare tire, cigar lighter, twin horns and other equip-

ment that make it a still bigger bargain.

With the thrifty 60-horsepower engine, the Standard Ford V-8 is priced especially low and gives the greatest gas mileage in Ford history. Hundreds of owners report averages of 22 to 27 miles a gallon—or even more.

Your pocketbook will approve of the Standard Ford in every way. And so will you when you drive it!

SEEN and HEARD around the NATIONAL CAPITAL By Carter Field FAMOUS WASHINGTON CORRESPONDENT

Washington. — It is gradually dawning on the country that President Roosevelt did not lose his Supreme court fight—he won it.

Then came the changes in the court personnel, the substitution of Hugo L. Black for Willis Van Devanter, and of Stanley Reed for George Sutherland.

Certain in the comparatively near future are two more. Justices to be appointed by Roosevelt will take the places of the last two conservatives, Pierce Butler and James C. McReynolds.

Now no one really believes that Wheeler would have said that if the relationship between him and the White House had been one of uninterrupted cordiality.

Whether this will be really decisive when the national convention approaches, and presidential primaries are being held, depends on many factors.

Merchant Marine Ambassador Joe Kennedy's recent pleas for a new system which would permit the establishment of a real American merchant marine...

Both grow out of the well-defined policy of keeping the American standard of living high.

County Fair Gave Start To Track Ace

By GEORGE A. BARCLAY

BREAKING track records for the mile and other distances and winning tight races is old stuff to Glenn Cunningham, ace miler of the present generation.

That amazing performance was recorded recently at a meet at Dartmouth college. The time was four minutes, four and four-tenths seconds.

Only a few days before this epochal feat, Cunningham had broken another world's record at Madison Square Garden, New York, running the 1,500 meter event in 3:48.8.

Those were performances calculated to thrill even the most victory-laden champion. But if you asked Cunningham about the biggest thrill of his career he'll probably tell you he experienced it in his first race.

When Glenn was about eight years old he was severely burned in a school house fire and for a time it was feared he would lose one of his legs.

Never Saw Shorts A few years later while he was still in grade school, Glenn entered a county school meet at the fair grounds at Elkhardt, Kan.

Glenn Cunningham

mobile races. The youngster had never had on shorts and a sweat shirt, and hadn't yet seen spiked track shoes.

Since that unnoticed little race out in Elkhardt, Kan., Glenn has won any number of brilliant track battles. In high school at home and in college at the University of Kansas and clear down to the present day when he is running under the auspices of the New York Curb exchange, he has streaked through track events like a comet.

Cunningham lost his last race last year to his fellow Kansan, Archie Sap Roman. The younger Archie has been handicapped by a game leg so far this year, while Cunningham has been running in the greatest form of his entire career.

Future of Track

The champion sees a great future for track events in the United States provided communities that have neglected them in past years will join in a revival.

WHAT TO EAT AND WHY

C. Houston Goudiss Discusses PROTEINS—The Foods That You Cannot Live Without

Eminent Food Authority Explains Why No Protein Means No Life—Describes the Kind and Amount Required for the Best Growth in Children—Good Resistance, Vigor and Endurance in Adults.

By C. HOUSTON GOUDISS 6 East 39th St., New York.

FOOD is—and always has been—the central problem of life. But only in recent years has its true power been revealed, as a result of scientific investigation.

Fortunately, we now know what constitutes sound nutrition, and it is possible for every homemaker to plan meals that will enable her family to eat their way to health.

Topping the list of food essentials are the proteins. The Dutch chemist, Mulder, who hit upon this name, made a wise choice, for it means "to take first place."

Every man, woman and child has a fundamental need for protein, because it is an essential component of every living cell and makes up a large part of the solids of a muscle cell.

Protein Builds Bodies. A new born baby weighs, on an average, from 7 to 7 1/2 pounds, and the adult into which it grows may weigh 20 to 30 times as much.

Keeps the Body in Repair. There is, however, a maintenance requirement for protein which continues throughout life, and which applies to both children and adults.

Thus, we see that protein performs two vital services—First, it builds new tissues; second, it repairs worn-out tissues.

Protein is found in many different foods, but unfortunately, not all proteins are equally valuable.

It is absolutely essential that the homemaker, charged with the responsibility of feeding a family, should be able to distinguish between those types of protein which

are adequate for both growth and repair, and those that are only useful for maintenance.

For if the diet does not contain an adequate amount, or the right kind of protein, our bodies will be badly built and they will be improperly repaired and cannot wear well.

Some foods cost more than others, and you should not be guilty of spending hard-earned money for expensive protein foods when the same amount of nourishment could be more economically obtained from an inexpensive source.

Where to Find Protein. Proteins are found in many different foods, but unfortunately, only a limited number of foods supply proteins containing all the amino acids necessary for both growth and repair.

Other proteins are adequate for repairing worn-out tissue, but will not support growth. Such incomplete proteins are found in grains and products made from them, and in the legumes—that is peas, beans, lentils and peanuts.

The protein requirement varies according to size, age, and the kind of protein foods consumed.

To allow for growth, children require twice as much protein per pound of body weight as adults. That is to say, an adult requires daily one-thirtieth of an ounce for each pound of body weight, but a child needs one-fiftieth of an ounce for each pound of body weight.

The amount of protein food should usually constitute from 10 to 15 per cent of all the calories taken. If this plan is faithfully followed, there will be more than enough to take care of every requirement, because experiments indicate that a man who weighs 154 pounds, or 70,000 grams, needs a minimum of 44 grams of protein every day.

Esquimos eat two or three times as much protein as most dwellers in the temperate zone, but that is because other foods are scarce. In the tropics, on the other hand, the consumption of protein is often not more than half that of the temperate zone.

include in the daily diet: a quart of milk for every child, a pint for each adult; one egg, one serving of meat, fish or chicken, one serving of another protein food such as cheese, dried peas or beans, or a main dish made with nuts.

You can achieve wide variety and still provide an adequate protein ration within the limits of this rule. For milk may be served as a beverage, in soups, puddings, and as cream sauce. Eggs may likewise be varied in their method of preparation, or concealed in other foods.

Both cheese and nuts make sandwiches, salads and desserts, as well as main course dishes. Peas, beans and lentils can appear as soup, mock roast or croquettes. Grain products, which include cereals, macaroni and bread, may appear in any course in the meal.

In planning menus, always keep before you the ideal that an adequate amount of first class protein makes a first class man, whereas an inadequate amount may lead to stunted growth, functional nervous diseases, lowered efficiency and the earlier approach of old age.

In choosing proteins to feed your family—remember that they take first place among foods, and that upon their wise choice rests your future welfare, your destiny—your life!

Polishing Ethics—Pro and Con

When fine furniture leaves the shop of the manufacturer, its finish has been professionally treated, to preserve its beauty—prolong its endurance.

Some foods cost more than others, and you should not be guilty of spending hard-earned money for expensive protein foods when the same amount of nourishment could be more economically obtained from an inexpensive source.

Where to Find Protein. Proteins are found in many different foods, but unfortunately, only a limited number of foods supply proteins containing all the amino acids necessary for both growth and repair.

Other proteins are adequate for repairing worn-out tissue, but will not support growth. Such incomplete proteins are found in grains and products made from them, and in the legumes—that is peas, beans, lentils and peanuts.

The protein requirement varies according to size, age, and the kind of protein foods consumed.

To allow for growth, children require twice as much protein per pound of body weight as adults. That is to say, an adult requires daily one-thirtieth of an ounce for each pound of body weight, but a child needs one-fiftieth of an ounce for each pound of body weight.

The amount of protein food should usually constitute from 10 to 15 per cent of all the calories taken. If this plan is faithfully followed, there will be more than enough to take care of every requirement, because experiments indicate that a man who weighs 154 pounds, or 70,000 grams, needs a minimum of 44 grams of protein every day.

Esquimos eat two or three times as much protein as most dwellers in the temperate zone, but that is because other foods are scarce. In the tropics, on the other hand, the consumption of protein is often not more than half that of the temperate zone.

An Adequate-Protein Ration. Milk and eggs are among the finest forms of protein, and they should have an especially important part in the diet, not only of the growing child but of invalids, prospective mothers, and the mother who is nursing a baby.

The choice must be between milk and eggs, milk should have first place because it is usually cheaper in proportion to the food value it supplies.

In planning the family dietary, a safe rule to keep in mind is to

Suppose on that aisle you could buy household necessities, smart clothing, thrilling gifts for bride, graduate, voyager! How much walking that would save! How much time, trouble and fretful shopping you would be spared!

Scenes and Persons in the Current News

WHO'S NEWS THIS WEEK

By LEMUEL F. PARTON

Lady Pulls Strings in Duce Deal

NEW YORK.—The absence of salon diplomacy or petticoat politics in the European struggle for a new power balance would be an oversight by the muse of history, reading the drama of the century, and at last it seems to have been attended to.

Enter Lady Chamberlain, the cleverest woman politician in England, widow of Sir Austen, obscurely noted in the news as mysteriously busy for the last few months in the British-Italian rapprochement.

Several weeks ago, a sagacious traveler of this writer's acquaintance, back from Rome, reported Lady Chamberlain as adroitly fostering an understanding with Britain which would bring recognition of Ethiopia and a two-way split on Spain and the Mediterranean. She has been in Rome since November, in intimate social intercourse with the more important Fascist moguls.

For many years, she has been known as the "most perfect political hostess" in London and has been subtly influential in many big deals in continental diplomacy. It was she who cooked up the Locarno conference, at Lake Maggiore, in Switzerland, in 1925.

When the delegates were haggling, she packed some hampers and invited Sir Austen, Britain and Stresemann to the most important picnic in all history. In her handsome little yacht, they disappeared around a bend in the lake, landed in a secluded spot, and, with the aid of three jurists, re-rigged the yacht.

Whatever came out of the conference, for good or ill, is traced to that picnic. When she returned to England, she was made Dame of the Grand Cross of the British Empire.

How Picnic at Locarno Made Peace

She is a comely matron of sixty-two, married to Sir Austen in 1906. He was fourteen years older. She was Ivy Dundas of one of the leading political families of England.

In the earlier years of their marriage, she was credited with having conched her husband in the ultra-English mannerisms which all of the great Birmingham family found it expedient to master when they moved to London. She is said to have been his political as well as his social mentor, and frequently eulogized in his campaigns.

Lady Chamberlain is an extreme conservative and is believed to have nurtured plans for a British alliance with the Absolutist powers. She has an extraordinary flair for dramatic political stage-settings and delicate sensitivity to political currents. Italy conferred on her the Gold Medal of Merit.

G-Men On Front Page in Spy Hunt

THE New York spy round-up by the federal bureau of investigation marks the first front-page work-out of the G-men as an ally of the secret service. An attache of the latter told me in Washington last summer that J. Edgar Hoover's organization, developed in post-war years, would be an invaluable aid to this country's defenses against foreign espionage, and that, in the event of trouble, actual or impending, no foreign country could hope to duplicate Germany's exploit in sabotage, propaganda and spying before our entry into the World war.

Reed Vetterli, in short pants when the World war started, heads the New York office of the F. B. I. and deploys his 75 agents in a red-hot spy scenario, in which they score as usual, with indications today that this is just the overture.

Six feet tall, blond, reticent, Mr. Vetterli is a veteran of the F. B. I. war against thugs and kidnapers, in the bureau since 1926, in charge of 18 offices in his 11 years of service.

He was born in Salt Lake City in 1903, and took his law degree at the University of Washington in 1925. In 1933, he was wounded in the Kansas City massacre, trading shots with Pretty Boy Floyd's gangsters.

He has participated in most of the bureau's famous kidnaping, vice and bank robbery cases. He succeeded Rhea Whitley as head of the New York office on September 11, 1937. He has a reputation in the bureau for always having an airtight case against anyone he arrests.

Farm and home page

Farmers Discuss 1938 Farm Program at Community Meetings

Wayne Project Leaders to Go to Council Meet

The second annual meeting of the Nebraska Council of Home Demonstration clubs is scheduled to be held at Grand Island, June 8 to 10, it was learned here at the Wayne county Farm Bureau office this week. Some women from this county in project work probably will attend.

Miss Evelyn Wolph of Nehawka is president of the state organization. Mrs. Ira Neel of McCook is vice-president, Mrs. Walter Armstrong of Nebraska City is secretary, Mrs. Paul Pascoe of Fremont is treasurer and Mrs. A. C. Fortna of Octavia is historian.

The state council is composed of county home demonstration councils which will send delegates to the Grand Island meeting. An outstanding program is now being planned for the three days. Among the leading speakers will be Dr. A. B. Graham of the United States department of agriculture; Mrs. Mildred Inskip Morgan of Iowa City, Ia., and James E. Lawrence, editor of the Lincoln Daily Star.

Release Important Livestock Dates

Wayne county farmers are informed this week of definite dates for the two big feeders' day meetings held in Nebraska each

spring. Western Nebraska farmers will gather at North Platte on May 5 for their meeting. The annual feeders' day at the Nebraska college of agriculture is billed for Friday, April 29.

Definite programs for the two big meetings have not as yet been worked out but emphasis is on the comparative feeding value of corn and grain sorghums will probably be given at each gathering. A district sorghum-livestock day, in addition, is billed for the Nebraska school of agriculture at Curtis on March 29.

Petition for Second Bindweed District

A petition for setting up the second bindweed district in Nebraska in Platte county under recently enacted legislation was received last week by the state department of agriculture at Lincoln. It involved approximately 81 sections of land.

The first district under the law was recently organized in Scotts Bluff county. Feasibility of organizing the Platte county area is now being determined by surveys being conducted there.

Applications for Trees

With moisture conditions slightly better now than several weeks ago in Wayne county, interest continues to develop in planting Clarke-McNary seedlings and transplants this spring. The

trees are distributed by the Farm Bureau.

Applications for 500,000 or more of the trees are now on hand at the Nebraska college of agriculture. Locally farmers have applied for 5,800 of the seedlings thus far. Only a small charge to cover packing and shipping is made to farmers wanting the trees.

Extinguishes Chimney Blaze at Hunter Home

The Wayne fire department was called out Thursday morning to extinguish a chimney blaze at the home of Lon Hunter at South Douglas street. Slight damage was done.

Agricultural Plan to Be Based on Soil-Depleting Goal

Provisions of the 1938 farm program as prepared for the cornbelt states or north-central region will be discussed at community meetings in Wayne county beginning about March 16.

The county agricultural conservation committee composed of Herman J. Podoll, chairman, John Petersen, T. P. Roberts and Agricultural Agent Walter Moller made plans for the educational meetings following a district conference at Wayne where they discussed details of the program with other counties in this area and representatives of the state ACP committee.

In 1936 and 1937, farmers who have taken part in the programs have been accustomed to thinking of their acreages in terms of soil-depleting base and a soil-conserving base. In 1938, they will make their plans around a soil-depleting goal instead of a soil-conserving base. This soil-depleting goal corresponds to the acreage of depleting crops which a farmer planted in 1937 in order to obtain the maximum payment for diversion from his soil-depleting base.

If a farmer plants an acreage of soil-depleting crops equal to or less than his soil-depleting goal in 1938 and also meets certain other provisions of the farm program, he will receive his maximum farm payment. The actual acreage of depleting crops planted with the acreage planted on participating farms in 1938 should correspond quite closely with the farm acreage planted to depleting crops in 1937 on the same farms. Those farms were in full compliance in 1937. The amount of payment for full participation in 1938 should also correspond quite closely to the payment in 1937 or average higher.

In the case of corn, however, the corn acreage or corn limit of 1937 was intended to be the usual or customary acreage of corn on the farm. The corn goal for 1938 in the commercial corn producing area will be a reduction from that corn limit figure of last year. The farmer in such

Farmers Will Classify Crops Under New Program

To Increase Acreage of Non-Depleting Crops

Classification of depleting and non-depleting crops under the new farm program will probably meet with the approval of most Wayne county farmers. Herman J. Podoll, chairman of the agricultural conservation committee, said this week. Many Nebraska farmers have been planning to use sudan grass and sweet sorghums as emergency feed crops and to summer fallow to store more moisture in the soil for next year's crop.

Farmers taking part in the 1938 program will talk and think about these depleting and non-depleting crops and uses of land. The objective of the program is to reduce the acreage of depleting crops and increase acreages of non-depleting crops to get a stabilized agriculture.

Common depleting crops this year are:

All corn, grain sorghums, sugar beets, potatoes, wheat, except winter wheat or that plowed under and put into another crop, oats, barley, and rye when harvested as grain or hay, sweet sorghums, sudan or millet when harvested as seed or silage, soybeans and cowpeas harvested as grain or seed.

The common non-depleting crops and land use this year are: Wheat used for pasture and not maturing as grain or hay; oats, barley, or rye pasture or crop failure; sweet sorghum fodder, sudan pasture or hay, millet hay; soybean and cowpeas hay; alfalfa, clovers, seeded pasture grasses; trees planted since 1934; summer fallow protected from erosion; idle land.

Broadcast Details of New Farm Program

Up-to-the-minute details on the 1938 farm program will be brought to Wayne county farmers each Saturday for the next six weeks by the state ACP committee over KFAB at Lincoln, according to information received here by the county committee administering the program. The first broadcast was made on March 5.

All members of the state group will be heard weekly on the program which goes on the air from 12:30 p. m. until 12:35 p. m., central standard time. The programs will summarize weekly developments on the farm plan and the latest information concerning details.

Pennsylvania Students Speak Out

(The American Observer) The main contention of most of the students at Harrisburg was that too many high school subjects deal with the past rather than the present. It was repeatedly emphasized that less history, foreign languages, mathematics, and similar subjects be given to students and that there should be more practical training for present-day living. Here are some typical comments which were made by these young people: "Practical training is lacking in the school. There is too much emphasis on the academic course. Pupils seem to be dropping out because there is no practical instruction. College is not our ultimate aim."

"I think the courses in high school should be more fitted for later life, and not just be courses to prepare us for college. Those not going to college are not interested in languages and ancient history. They want to be prepared for life." The majority seemed to feel, however, that high schools should place much more emphasis on

"practical" subjects and less on "academic" courses.

It is probable that not one-fourth of our boys even in our industrial states will find their work in those skilled trades for which prolonged preparation is needed. More will run automatic machinery, drive trucks, distribute merchandise, care for our streets, and for public safety, or will render personal service. These need an education that recognizes that for most of us, this is a world not of books but of land and cattle, machines and people. In all junior high schools and senior high schools which are common schools, there should be vocational courses taken by not less than one-half of the boys. These are courses not alone to make artisans but to give confidence and interest to those who live in a new industrial civilization. The call is for occupational training—thorough, practical, well taught and geared to the life of the community.

Clean Range Insures Healthy Chicks

Clean range for young chickens insures, according to H. L. Shrader of the United States department of agriculture. Clean range, however, does not mean mere neatness and removal of scraps and refuse. Time is the main cleaning factor—and it takes two years to make a range clean enough to be safe. Shrader defines a clean range as "one that has been free of chickens for a least two years and one on which poultry manure has not been spread." In two years, poultry parasite will die for lack of a chance to multiply. A clean range, free of parasite, gives young chickens a chance to grow without a handicap. An ideal range, Mr. Shrader adds, also supplies plenty of shade for the hot summer months and an abundant supply of succulent green feed and fresh water that is not contaminated by parasites.

Experiment Station in Forage Research

That the Nebraska experiment station at the college of agriculture in Lincoln and sub-stations out in the state are making a comprehensive study of forage crops and conducting practical research on forages was revealed last week at a forage conference held at Lincoln.

Especially with alfalfa, sweet clover, sorghums and grasses is the research work particularly well organized. Practical information on such crops for farmers is expected to develop from the work.

One of the largest grass breeding programs in the entire country is underway at Lincoln. Intensive work is being done with brome grass and western wheat grass. Thousands of individual spaced planted plants have been set out in the field in order that superior plants may be recognized and segregated. Grasses are being studied also for palatability, yields and behavior. Methods of harvesting native grass seed and that from wild hay meadows on a large scale are being developed.

Breeding and improvement programs with both alfalfa and sweet clover are going ahead also. Resistance to bacterial wilt disease, so prevalent in the Platte Valley and other areas, along with cold resistance, leaf-spot resistance and high forage and seed productivity of alfalfa is being studied. With the sorghums, an active research program has been undertaken, looking toward the development of adapted varieties of grain and forage sorghums in Nebraska.

area who meets this corn goal will receive an additional payment for the adjustment of his corn acreage.

The county committee and their clerks are busy at the present time tabulating figures and making adjustments in order to give each farm in the county its

proportionate share of the total depleting goal and corn goal established for this county. It is hoped that the county committee can give each farmer a good indication, if not the final figures, for his depleting goal and corn goal by planting time.

"You can't beat a John Deere for all-'round economy"

John Deere GENERAL PURPOSE Tractors

Overhead costs may mean profit or loss in your business. A John Deere Tractor will give your farm low-cost power—low in fuel and upkeep costs—and in yearly investment, too, because of the strength and dependable long life built into every John Deere. There's a type of John Deere Tractor for every farm, every crop, and every purpose—furnishing economical power on drawbar, belt, and power take-off. You have a complete line of John Deere integral and pulled tractor equipment to choose from. Come in and prove to yourself that John Deere Tractors can't be beat for all-around economy.

Prepared By HOME SERVICE DEPARTMENT WAYNE NEWS—BETTY CROCKER

SOMETHING NEW IN ICE CREAM

"My, what pretty ice cream—so pink—like a sea shell or a rose—and m-m-m—delicious!"

"What flavor did you say it was?" "Yes, it does taste sort of familiar—but I can't quite—" "Land sakes! Don't tell me you used rhubarb to make this pretty pink ice cream!"

"Well, I never! What won't they be trying next!" "Wouldn't it be fun to surprise a tableful of guests with a beautiful pink ice cream with a delicious elusive flavor no one can quite place? And then tell them that you used the tender, pink early stalks of rhubarb to make it?"

It's a lovely satiny ice cream with a dash of lemon added to the rhubarb to give it character. If your rhubarb has passed its first stage of pinkness, you can add a drop or two of red vegetable coloring. You'll find it the kind of refreshing dessert you'll want to serve often this spring. Here is the recipe:

Pink Rhubarb Ice Cream

- 2 cups diced pink rhubarb, unpeeled
- 1 cup water
- 1 cup sugar
- 1 tbsp. lemon juice
- 1 egg white
- 1 cup whipping cream

Cook rhubarb in water until tender. Add sugar. Cook 2 or 3 minutes longer. Cool. Add lemon juice. Pour into tray of mechanical refrigerator and freeze to a mush. Remove, and beat with rotary beater until smooth. Fold in stiffly beaten egg white and the cream which has been whipped until stiff. Return to tray to finish freezing, stirring occasionally. Amount: 8 to 10 servings.

*If hand freezer is used, use 3 parts of ice to 1 part of salt.

Question: Some one told me that one can whip evaporated milk and make it like whipped cream. I tried it—but mine didn't whip up at all. What didn't I do right?

Answer: The evaporated milk must be thoroughly chilled before it will whip. There are several different ways that this may be done. If you have a mechanical refrigerator, turn the milk into a freezing tray to become thoroughly chilled. Or pack the can in ice and salt the way you do ice cream. Or in freezing weather the can may be set outdoors. After the milk has been thoroughly chilled in this way, put it in a cold bowl and whip it rapidly with an electric beater or with a hand beater until it is quite stiff. Then fold in 2 tablespoons of lemon juice for each cup of the milk to keep the mixture stiff. You can sweeten it to taste and use it any way you would use whipped cream.

Question: Can you tell me how to unmold gelatin so that it will be whole—not broken and ragged-looking where pieces have stuck to the mold?

Answer: In the first place, be sure to rinse your mold with cold water just before pouring in the gelatin mixture. When the gelatin is set—just before unmolding—lower the mold into a bowl of hot (not boiling) water. The water must not come up over the gelatin, of course. Hold the mold in the water for just an instant. Then lift from the water and with the point of a sharp knife loosen the gelatin from the side of the mold. Place the plate on which you are going to serve the gelatin firmly on top of the mold. Then invert the mold and plate so that the plate is on the bottom. Lift the mold from the gelatin, shaking gently if necessary. If the gelatin does not come out easily, dip the mold in hot water again.

Question: I read somewhere that the silver for the dessert shouldn't be put on the table when you set it. Is this so? If it is, how do you put the dessert silver on the table and when? I'm giving an announcement luncheon for my daughter and I very much want to serve correctly.

Answer: For family style meals and very informal entertaining there is no reason why you shouldn't put your dessert silverware in place when you set the table. But if you are entertaining and have help with serving—just before the dessert course is to be served see to it that the table is cleared of everything except the centerpiece which besides flowers or fruit may include candles and silver or glass compotes of candies or nuts or both. Crumbs are removed with a folded napkin and a small plate. Additional silver needed for the dessert course may now be put in place, or it may be brought in directly on the dessert plates. At a more formal dinner, finger bowls are brought in on the dessert plates, placed on a linen or lace dolly with a dessert fork on the plate at the left of the bowl and a dessert spoon at the right. Each guest places the finger bowl and dolly aside above the plate at the left, and places that fork at the left and the spoon at the right of the plate.

If you worry about what to serve, if you dread to start the next meal, just drop a card to Betty Crocker in care of your newspaper, and ask for this week's menu. Complete menus for the week will be sent to you at no cost. Please enclose 3 cent stamp to cover return postage.

BUY THE LEADER

MODERN IMPLEMENTS TO USE WITH THE "WC"

MORE POWER PER DOLLAR

LOW DELIVERED PRICE

FULL-VIEW SAFETY MOWER
Cutter bar in full view of driver. Quick hitch. Double safety feature—power take-off shaft disengages when (1) cutter bar strikes an obstruction and "breaks" back; (2) sickle becomes entangled in wire or trash.

HIGH SPEED PLOW
First plow built to do a perfect covering job at high speed. Winner at big plowing matches. Greater clearance, finer depth adjustment, adjustable levers, extra high lift, spring release hitch, quick-acting power lift, quick-detachable shares.

LIGHT DRAFT DISC HARROW
Special hitch assures deep penetration without excess weight. Independent angling of rear gang. Screw crank and lever control. Double concavity—entire gang can be dismantled and put together with discs in perfect alignment.

ANY A-C MACHINE MUST ANSWER to these 3 questions: **Yes**

1. WILL IT REDUCE THE USER'S INVESTMENT?
2. WILL IT INCREASE FARM PROFITS?
3. WILL IT PROMOTE BETTER LIVING?

THE MODEL "W-C" TRACTOR ANSWERS "YES"

Yes—it reduces your investment! The "WC" of today does more work than could formerly be accomplished with slower, heavier tractors that cost twice as much. You plow or work down the seeded at 5 miles an hour—work just "melts away." You travel between jobs or haul on the road at 10 miles an hour. And you can use the air-tired "WC" the year 'round.

Yes—it increases profits! The "WC" meets the two chief essentials for profit—lower costs and greater output. Besides reduced investment, the air-tired "WC" saves fuel, and saves days of labor.

Yes—it promotes better living! You ride in comfort on the air-tired "WC". A comfortable seat with back-rest; fenders to keep down dust and dirt; smooth, quiet operation. Quick-hitch implements take only 5 minutes to attach or detach—save time, back-breaking work and skinned knuckles. A farm wife says: "We enjoy life so much more since my husband bought our Allis-Chalmers tractor. He says the work goes faster and easier now, and I notice he isn't so tired out and grouchy at the end of the day."

Ask us about the FULL 2-PLOW Model "WC".

AUTHORIZED SALES AND SERVICE

ALLIS-CHALMERS

TRACTOR DIVISION—MILWAUKEE, WIS.

Commissioners' Proceedings

Wayne, Nebraska,
March 8, 1938.

Board met as per adjournment. All members present. Minutes of meeting held February 15, 1938, read and approved. The funds of the county and its numerous sub-divisions of which the county through its county treasurer is custodian are found to be deposited in the banks of the county at the close of business for February, 1938, as follows: (This does not include the funds invested in liberty bonds or the funds on hand in the office of the county treasurer.)

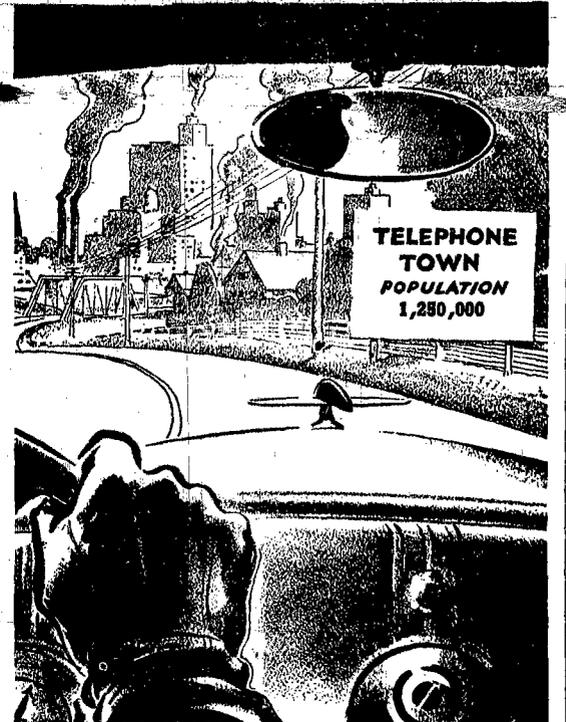

U. S. National Bank, Omaha	\$47,803.17
State National Bank, Wayne	33,438.79
First National Bank, Wayne	20,643.35
Winside State Bank, Winside	10,202.94

Comes now Soldiers' Relief Commission of Wayne County and submits the following report of their receipts and disbursements from February 8, 1937, to February 8, 1938, which is as follows:

RECEIPTS	
Cash on hand February 8, 1937	\$ 9.16
Collections from County Treasury	2,000.00
Total	\$2,009.16
DISBURSEMENTS	
Outstanding check Feb. 8, 1938	4.96
Paid out for relief from Feb. 8, 1937, to Feb. 8, 1938	\$1,628.93
Total disbursements from Feb. 8, 1937, to Feb. 8, 1938	\$1,633.89
Bank balance on hand Feb. 8, 1938	\$ 380.23
Outstanding checks deducted	4.96
Balance	\$ 375.27

The following Old Age Assistance warrants are hereby cancelled: No. 191 to Emma I. Wilson for \$20.00, dated January 18, 1938; No. 392 to Emma I. Wilson for \$20.00, dated February 15, 1938. On motion the following eighty (80) names are submitted, to be certified to the Clerk of District Court, from which to draw the jury for the March, 1938, term of District Court in and for Wayne County, Nebraska:

- STRAHAN—Gordon Alvin, Will E. Back, Adolph Claussen, Matt Finn, R. W. Haller.
- HUNTER—Fred Victor, Munso Ulrich, Eric Thompson, Ernest Sandahl, Lawrence Ring.
- PLUM CREEK—John A. Kay, W. F. Lueken, Arthur Meler, R. S. McGuire, Peter P. Nelson.
- LESLIE—W. J. Goreham, Fred Jahde, William Kai.
- LOGAN—R. A. Nimrod, Clifford Oak, Roy Sundell.
- WAYNE FIRST—A. H. Brinkman, F. H. Ahlvers, Albert L. Baker, Carl Granquist, John Kay.
- WAYNE SECOND—Albert G. Carlson, Jack Dawson, Blaine Ellis, Howard James, Carl Lage.
- WAYNE THIRD—Walden F. Felber, Paul L. Harrington, Roy H. Langemeier, E. H. Merchant, Anton Olson.
- GARFIELD—Theodore Eckman, William C. Bruse, David H.

You are entering Telephone Town Population 1,250,000

If all telephone employees and their families in the United States were brought together in one place, they would make a city of more than a million and a quarter persons.

In furnishing you telephone service this Company combines the advantages of being part of a nation-wide telephone system with the benefits of home-grown management and home-town employees.

This enables us to serve you better and at less cost than otherwise would be possible.

NORTHWESTERN BELL TELEPHONE COMPANY

			435	for	39.45

Whereupon the Board adjourned to March 22, 1938.
BERTHA BERRES, Clerk.

Spencer Tracy to Star in Film "Boys Town"

Boys Town, Neb.,—Just returned from Hollywood where he conferred with Metro-Goldwyn-Mayer officials about the forthcoming production of "Boys Town," featuring Spencer Tracy and Mickey Rooney, Father Flanagan, founder of Father Flanagan's boys' home here, said that the film folk are "natural, hard-working people."

While in Hollywood, Father Flanagan had the unusual experience of meeting his "other self"—his screen personality when he visited the set on which "Test Pilot" is being shot. Spencer Tracy, who is in "Test Pilot" and who has been cast for this role of Father Flanagan in "Boys Town," was elated over being cast for this part, but expressed a few fears about it.

"I was lucky in the priest's role in 'San Francisco,'" he told Father Flanagan, "but I am afraid of the law of averages. I may not be so lucky again."

"Boys Town" is to be Spencer Tracy's next picture and production on it is scheduled to start within the next month. "Boys Town" will tell the story of Father Flanagan's struggles over many years to establish a home for homeless boys regardless of their race, color or creed and regardless of where they are from. It tells of life at Boys Town which, far from being institutional, is a real, incorporated township where "little men" live and work and play and study that they might go out into the world and make a living.

Ed Mannix, general manager for the studio making the picture, told Father Flanagan that "Boys Town" would be one of the outstanding motion pictures of the year.

Farmers Union Meets Here Thursday

The Wayne County Farmers Union held its second quarterly meeting in the city hall Thursday. A fair crowd attended with most locals represented.

Ray Perdue and John Drevsen gave reports of the state convention in Omaha. Many of the high lights of the convention were discussed.

Mr. Meyers of the Winside Oil association spoke.

Several talked on alcohol gas and every one was interested in this product. Several have used this and all are in favor of a plant somewhere near this part of the state.

The next meeting place will be held in Wayne and President A. W. Dolph appointed a resolution committee.

Nebraska Labor Likes to Work

★ Nebraska's labor is a true partner to business... intelligent, alert, skilled, and INTERESTED! The state's labor enjoys a good standard of living, is wisely and constructively lead, is conservative and fair.

★ NEBRASKA WORKERS ARE INHERITORS OF A PROUD PIONEER TRADITION AND MARKED BY INITIATIVE, ENTERPRISE AND SELF-RELIANCE. ★ Living costs are moderate, rents reasonable, percentage of home ownership is high. Nebraska ranks second among the states in the literacy of its people, with many colleges and universities. ★ THE WORKING MAN'S WAGE IS NOT CONFISCATED BY BURDENSOME TAXES. What he earns he may spend for himself and his family. ★ To its high standards for labor Nebraska adds cheap power and fuel, fine transportation, a stable market, abundant raw materials, conservative tax policies... all invite industrial expansion. Write for complete information.

Nebraska Offers . . .
No Income Tax
No Sales Tax
No Other Extra Taxes
No Bonded Debt
More Money for Living

America's "White Spot"

Nebraska's constitution prohibits state bonds. Moreover, 77 of 93 counties have no bonds. Municipal debts are low, and steadily declining.

TIPS to Gardeners

Choosing Flowers

IF YOU want flowers that come into bloom early, plant seeds of nasturtium, Virginia stock, zinnia, sunflower, bachelor's button and alyssum.

Among the easiest flowers to grow are the nasturtium, alyssum and California poppy.

To achieve brilliant color in the garden with a minimum of effort, grow petunia and zinnia. They require some care early in the season, but once established they grow luxuriantly, and nothing provides more color.

If snapdragons and asters, though among your flower favorites, are barred from your garden because of the prevalence of rust and wilt, return them to their deserved places by getting rust and wilt resistant varieties from your seed dealer.

In your rock garden, try some of the following: African daisy, linaria, lobelia, statice, verbena and Virginia stock, among the annuals; and columbine, English daisy, forget-me-not and Iceland poppy, of the perennials.

No Sale

A salesman once tried to sell Ed Howe, writer and philosopher of Atchison, Kansas, a fountain pen. "Young man," replied the sage of Potato Hill: "When I dip my pen in the bottle, that is the only time all day that I get any chance to rest. Do you want to work me to death?"

THE FIRST SIGN OF SPRING?

The red-and-silver Ferry's Seeds display in your neighborhood store is the first real sign of spring. It's a reminder, too, that you can grow more luscious vegetables and more glorious flowers than ever if you rely on Ferry's Seeds. For the Ferry-Morse Seed-Breeding Institute has developed many fine new varieties and even improved old favorites.

In the Institute's experimental gardens, seed experts develop and test Ferry's Seeds—breeding and gradually perfecting carefully selected strains.

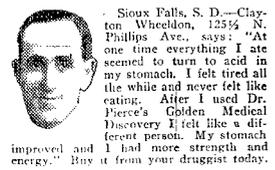

Choose your seeds from the Ferry's display this year. All have been tested for germination and truthness to type—your assurance of a successful garden. See a packet and up. 1938 NOVELTIES too! Ferry-Morse Seed Co., Detroit, San Francisco.

"Accident Saves a Life"

By FLOYD GIBBONS
Famous Headline Hunter

HELLO EVERYBODY:

Choke down those careening carbuterets, boys and girls! One accident is all right in its place, but don't tempt Fate too often.

Thomas W. Yates, of Wallington, N. J., pulled one of those taxi crashes at the right moment, but he doesn't recommend them as a regular diet.

Boy, oh, boy! How Tom wanted that accident—and he got it. Well, it just saved his life and that's according to the facts he wrote down in his report to me on the biggest adventure of his whole taxi-driving career.

Tough Customer in a Bad Neighborhood.

Well, sir, Tom was breezing the old bus around the long streets of Cleveland, Ohio. Just off the public square a man hailed him and climbed into the cab. That tough-looking customer gave an address in a hard-boiled sector and Tom stepped him there in record time.

The address Tom had was an unlighted house. And then—the fare says, "Buddy, I forgot to bring my dough along. Come in and I'll get the old bankroll."

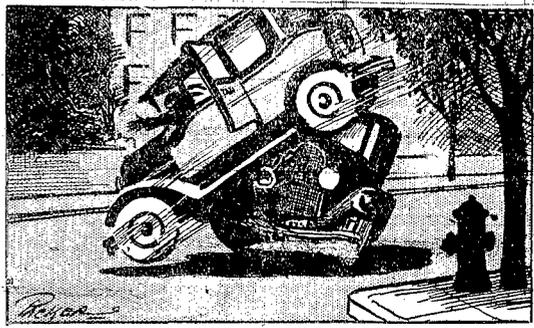

Tom stumbled into that dark hallway. He hadn't gone ten feet until he felt a gun jammed against his vest buttons. And that passenger was saying, "Gimme that dough."

Tom had just been paid and business had been good and he had about eighty dollars in the old jeans. And there was nothing to do but to fork it over. Then the passenger said, "Now that I'm heeled, we'll be going places. And see that you don't stop and talk to any cops."

Well, Tom sat there at the wheel with that gun in his back, wheeling to the toughest speakeries in the city. Each time they stopped that passenger would herd Tom inside at the point of the gun and make him take a drink. The fare was getting more and more soured at every stop—and also more and more reckless with that gat.

Music and Another Ride.

The mugg prodded Tom into another dive-out behind the haymarket. Tom was leaning over the bar, trying to think up some scheme of getting rid of that passenger and reporting him to the police. He had just

The Taxi Turned a Complete Somersault.

about given up trying to think when that dingy, stuffy barroom roared. The yegg stood there with his gun still smoking.

"Let's have some music," he yelled. And a colored banjo player who had been dozing jumped two feet off his bullet-spattered chair, and how he did play!

Tom groaned as the gunman ordered him back into the car for another ride to a different section, where Tom knew the toughest gangsters in Cleveland hung out. It was a long drive and when Tom got behind that old wheel and out into the air his brain began working normally. He had an idea. Yes, sir, by golly, he'd do some of the fanciest speeding on record and if a Cleveland cop didn't stop him within a block or two—well, it would be different from his ordinary run of luck.

But Tom's luck hadn't begun to break for him. It was after 2 o'clock and all the motorcycle cops had gone home. All Tom could hope for was that some traffic cop might be left on duty and anxious to make a pinch.

Collision Solved His Problem.

Well, sir, Tom opened that old bus up wide. He cut out the muffler and roared through the deserted streets like a rocket. Not a cop was in sight. He drove on the wrong side of the street, he passed traffic lights. He did everything that had cost him threats from the law in the past. But no blue-coat lifted a finger. And all the time there was that gun wobbling around against the back of his neck and jabbing into him at every bump in the road.

Tom was desperate. And—just then, ahead of him loomed the lights of another car. It swung across the roadway in a left turn. Tom had been wishing for a little accident that would attract the cops, but nothing like that. He swerved sharply and the front of the cab missed the rear of the other car, but something ripped into the center of Tom's cab. That old taxi with Tom and the yegg turned a complete somersault.

Well, that crash brought out the crowds—and plenty of cops. They pulled Tom out of the wreckage in a daze and carried him into a restaurant. A pitcher of water splashed into Tom's face and he began to realize what it was all about. One of his first thoughts was that at last he was rid of that gunman. Then he opened his eyes and there was that bird, standing right beside him, all mussed up but unhurt. But there were also cops and Tom was just trying to get his voice back when the holdup man leaned over him and handed him a roll of bills. The yegg said, "Take this, kid, and keep your trap shut." Then he slipped into the washroom and disappeared.

Tom came out of it after a few minutes and explained everything to the police. Then he counted that roll of bills and he was only \$3 short, including a \$14 bill on the taxi meter. And, by golly, his commission on that bill was just three bucks, so he was even on that night of wild adventure.

Ancient Filling for Quilts

Often in Colonial times filling for quilts consisted of unginced cotton. Not infrequently quilts were filled with fleece very much like wool bats. But in early days fleece destined for such use was inadequately washed and consequently retained much of the natural animal oil, which in either heat or dampness gave forth a disagreeable odor, and was used out of necessity rather than choice. Worn woolen sheets and blankets also were used as quilt fills, after they had begun to fall into holes.

Ungulates, Order of Mammals

Ungulates are an order of mammals embracing all the hoofed animals, or those characterized by having from one to four blunt nails or hoofs on each foot. To this important order belong most of the domestic animals, such as the horse, ox, sheep, goat, pig, and also the deer, antelope, buffalo, zebra, camel, llama, giraffe, tapir, elephant, rhinoceros, hippopotamus, and many others. With few exceptions all the ungulates are herbivorous land animals.

Meaning of Name Genevieve

Genevieve is a Celtic name with the poetic meaning "white wave." St. Genevieve (422-512) is the patron saint of Paris. She was a pious shepherd girl of Nanterre. During the Frankish invasion she went from town to town and collected huge quantities of food to relieve starving Paris, which died, with her prayers, was credited with saving the city from the Huns. Other Celtic names, also meaning "white wave," are Jennifer, a form of Genevieve; Devet, Dymphna, Veva, Vevay, Vefele and Vanora.

Laurel Prized by Greeks

Laurel was prized by the Greeks as a token of safety and as a preventive of illness. It was hung upon the doors of many of the homes to prevent lightning from striking. One of the legends concerning Laurel states that Emperor Tiberius used a crown of laurel on his head before creeping under the bed during a heavy electrical storm. Nero retired to Laurentium during an outbreak of a pestilence in order to breathe the air which was purified by laurel.

LITTLE STORIES FOR BEDTIME

by Thornton W. Burgess

OLD MAN COYOTE GROWS CURIOUS

GRANNY FOX is not the only one who has learned the ways of Blacky the Crow. No, indeed! Old Man Coyote is quite as smart and sharp as she. In fact, he is just a wee mite smarter and sharper, as Granny found out shortly after he came to the Green Meadows to live, though she never would admit it and won't now. Old Man Coyote knows just as well as she does that when Blacky gets excited and caws at the top of his lungs there is usually something going on worth looking into. So whenever he hears Blacky he stops to listen, and if Blacky seems very much excited he takes the trouble to find out what it is all about.

Now, at the time when Granny Fox was trotting down the Lone Little Path and first heard the ex-

"Ha!" Said He to Himself. "Old Granny Fox Has Just Been Along Here."

cited cawing of Blacky the Crow deep in the Green Forest Old Man Coyote had just stretched himself out for a sun bath on the Green Meadows, not far from edge of the Green Forest, just as Granny Fox had done. He knew that he was the first sound of Blacky's voice and listened.

"When Blacky caws like that he sees something quite unusual," he said, "and when there is anything unusual going on it pays to know all about it. It may be no business of mine, and I may have a long walk for nothing, but then again I may find something worth knowing. Blacky is as great a mischief maker as his cousin, Sammy Jay, but he sees all that is going on in the

Green Meadows and in the Green Forest, and though he has made trouble for me more than once he has gotten me out of trouble just as many times by giving me warning. I'd a lot rather take a nap now, but I guess I'll have a look and find out what has got into that black scamp."

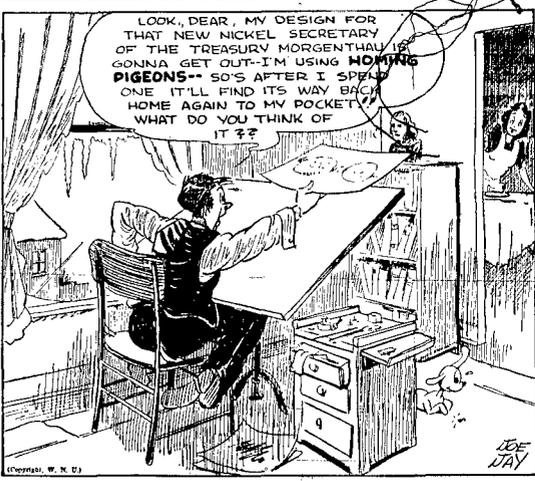

Old Man Coyote yawned, then he stretched, yawned again, listened for a few minutes, and finally trotted off into the Green Forest in the direction from which Blacky's voice sounded. Now, just like Granny Fox, Old Man Coyote always keeps his eyes and ears wide open. And he always uses his nose. He learned when he was a very little fellow that his nose can often tell him a lot more than either his eyes or his ears. So as he trotted through the Green Forest he was using eyes, ears, and nose, and it was his nose that gave him the first news. He was trotting along so softly that he didn't make a sound when quite suddenly he stopped and wrinkled up his nose to sniff.

"Ha!" said he to himself. "Old Granny Fox has just been along here. She has heard that fuss Blacky is making and she is on her way to see what it is all about. I think I will hurry a little faster."

So Old Man Coyote hurried a little faster, and though Granny Fox didn't know it, he was right behind her when she reached the place where Blacky was making such a fuss. He saw just what Granny saw, Peter Rabbit dodging his way out that way, with Reddy Fox right at his heels, and, just like Granny, he made up his mind right away that he would take a hand in the game, for he is just as fond of rabbit for dinner as is either Granny or Reddy Fox. He grinned to himself, and it was an unpleasant grin, for he knew that all he had to do was to show himself to have the chase of Peter all to himself. You see, Reddy and Granny Fox are afraid of him, and he didn't have the least doubt that he could catch Peter if he was so far away from the dear Old Briar Patch. He was just getting ready to spring out when Peter stopped dodging and started lipperty-lipperty-lip for a big pile of brush. In a twinkling the white patch on the seat of Peter's trousers disappeared under the big pile of brush, and there stood Reddy and Granny Fox staring at each other and looking very, very foolish. Old Man Coyote, chuckled. "He couldn't help it."

Love, Honor and Obey

DO YOU KNOW—

That the Stars and Stripes received its baptism of fire in land battle at the defence of Fort Stanwix, New York, on August 2, 1777. The stripes of red and white and the "stars of glory" set upon a field of blue were cut from a "camulet cloak" taken from the enemy at Peeks-kill.

WNU Service.

Duplex Beaver Lodge

A beaver lodge more than eight feet in elevation above the water level and exceeding 25 feet in its longest diameter above water, observed by a ranger-naturalist in Rocky Mountain National park, Colorado, is noteworthy not only for its size but because it appears to be a duplex innovation in beaver architecture. It is occupied jointly by beaver and muskrats.

Scotland Yard Etiquette

Scotland Yard, Britain's famed police headquarters, says Pathfinder Magazine, has issued the following rules of conduct for its detectives: "Don't let your wife or sweetheart get into the habit of waiting for you outside the station. It might prevent you from getting into a good case. Don't get friendly with your neighbor; one day you may have to arrest him. . . . Don't lean against sideboards or door frames. . . . Be a strong, silent detective."

HOW to SEW

By RUTH WYETH SPEARS

Stitch a Shirred Valance to Buckram

PLANNING draperies is as exciting as planning a new frock. Color, fabric, suitability, style. Curtains sound the keynote of a whole room, and this is the time of year to be thinking about them. The chintz draperies with shirred valance shown here are dignified and yet charmingly informal. They are easy to make; they have the smart tailored effect that is usually obtained only by using a valance board, yet they are hung on ordinary double curtain rods of the type shown here at A.

The side drapes are made of full-widths of the chintz and are hung on the inside rod with plain casings at the top. Cut the valance material the desired depth and twice as long as the space it is to fill after it is shirred. Hent the ends and bottom. Now, make a row of gathers along the raw edge of the valance another row 2 1/2 inches from the first and a third row 2 inches from the second. Cut a piece of buckram 4 inches deep and as long as the outside curtain rod. Bind the ends of this strip. Place the shirred valance edge wrong side down on the strip of buckram as at B. Cut a casing strip wide enough for the rod to slip under it, after the edges are turned, and place it over the valance edge as at C. Stitch the

casing strip and the valance to the buckram as shown. Turn the valance over to the other side of the buckram and stitch through the other two rows of shirring as shown. Slip the outside curtain rod through the casing and the valance is ready to hang.

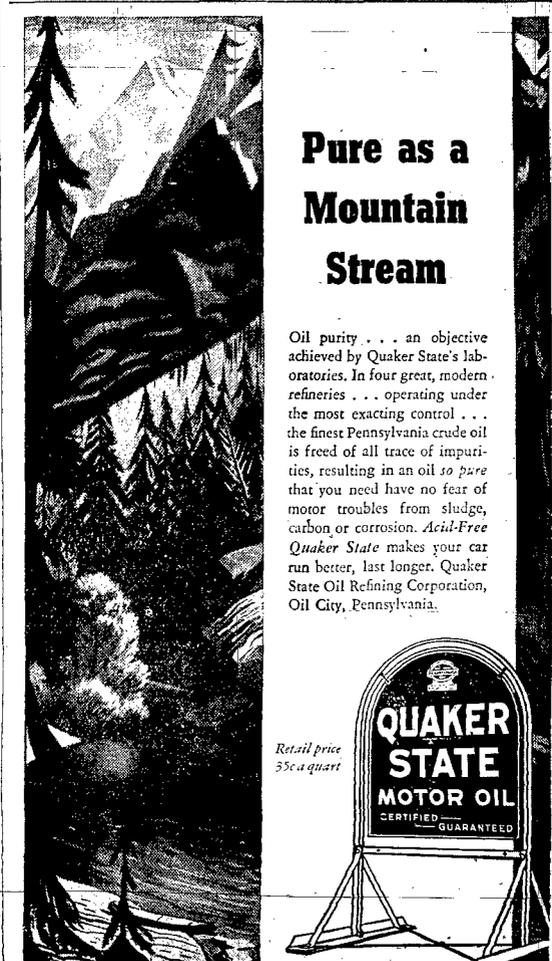

Are you in a rut about your curtains? Do you know the different methods that decorators use to give windows individuality? In her book SEWING for the Home Decorator, Mrs. Spears has told the whole story with sketches and text. Slipcovers, difficult dressing tables, and making of lamp shades, how to bring furniture up to date and many other technical problems are treated in this useful dollar saving book. Readers wishing a copy should send name and address, enclosing 25 cents (coins preferred), to Mrs. Spears, 210 So. Desplains St., Chicago, Ill.

It's bad etiquette to cough in public places. Take a Smith Brothers Cough Drop for pleasant relief. (Black or Menthol—5¢)

Pretty Things for Easter

These three dresses are up high on the list of fashion's favorites, and you can easily make them at home by using our simple, easy-to-follow patterns, each accompanied by a complete and detailed sew chart. Start right now, for even if there's a shiver in the air at this moment, Easter is not very far off! And you'll want to be ready!

Dress With Lifted Waistline.
This is a very, very popular fashion because it makes you look so slim and graceful, what with the waistline high in front, and soft gathers above it, the gently flaring skirt. Made up in a pretty print or silk crepe, it will be lovely for Easter and for all Spring. Be sure to wear a bunch of flowers at the waist.

A Jumper Frock for Girls.
This is one of the sweetest and most becoming styles ever invented for girls of school age, just about the time they begin to shoot up so fast that you can almost see them grow! Make the jumper of linen, gingham or percale, and why not make two or three blouses to go with it? One of linen, one of dimity, and one of organdy.

Everybody Likes Dirdl Frock.
The square neckline, the full rippling skirt and tight little waist, are so flattering to slim figures! Here's a charming dirdl with just the right air of quaintness and freshness about it. Choose a gay flowered print, or a cheerful plain color, pale or bright. But be sure, whether you make it up in silk or cotton, to choose a crisp fabric so that the skirt will flare as it should.

The Patterns.
1481 is designed for sizes 14 to 42 (32 to 42 bust). Size 16 (34) requires 3 1/2 yards of 39-inch material.

1996 is designed for 6 to 14 years. Size 8 requires 1 3/4 yards of 39-inch material for the jumper; 1 1/4 yards for the blouse. Also 2 1/2 yards of bias facing for neck and armholes of jumper.

1480 is designed for sizes 12 to 20 (30 to 38 bust). Size 14 (32) requires 3 1/2 yards of 39-inch material.

Old-Time Charm In Pansy Afghan

Here's something different in crochet—an afghan with a pansy design that's full of old-time charm. Make it of 4 fold german-town, entirely in single crochet—a medallion at a time, with each flower a different color if you wish (it's grand for left-over wool). Put

the finishing touches on these sweet pansy "faces" with a few cross-stitches. An easy-to-follow chart makes this a very simple pattern! In pattern 6021 you will find directions for making the afghan and a pillow; an illustration of it and of the stitches used; material requirements; and color suggestions.

To obtain this pattern send 15 cents in stamps or coins (coins preferred) to The Sewing Circle, Household Arts Dept., 259 W. Fourteenth St., New York, N. Y. Please write your name, address and pattern number plainly.

quires 3 1/2 yards of 39-inch material, plus 1 1/4 yards of ribbon for belt and 3/4 yards of braid or ribbon for trimming.

Spring-Summer Pattern Book.

Send 15 cents for the Barbara Bell Spring and Summer Pattern Book which is now ready. It contains 109 attractive, practical and becoming designs. The Barbara Bell patterns are well planned, accurately cut and easy to follow. Each pattern includes a sew-chart which enables even a beginner to cut and make her own clothes.

Send your order to The Sewing Circle Pattern Dept., Room 1020, 211 W. Wacker Dr., Chicago, Ill. Price of patterns, 15 cents (in coins) each.

2-WAY RELIEF FOR THE MUCOSAL OF COLDS

The speed with which Bayer tablets act in relieving the distressing symptoms of colds and accompanying sore throat is utterly amazing... and the treatment is simple and pleasant. This is all you do. Crush and dissolve three genuine Bayer Aspirin tablets in one-third glass of water. Then gargle with this mixture twice, holding your head well back.

This medicinal gargle will act almost like a local anesthetic on the sore, irritated membrane of your throat. Pain eases promptly; rawness is relieved.

You will say it is remarkable. And the few cents it costs effects a big saving over expensive "throat gargles" and strong medicines. And when you buy, see that you get genuine BAYER ASPIRIN.

Virtually 1 cent a tablet

Only Newspapers bring the news of vital interest to you

Headlines may scream of death and disaster without causing you to raise an eyebrow. But if your son gets his name in the paper—that's real news! It isn't by accident that this paper prints so many stories which vitally interest you and your neighbors. News of remote places is stated briefly and interpreted. Local news is covered fully, because all good editors know that the news which interests the readers most is news about themselves.

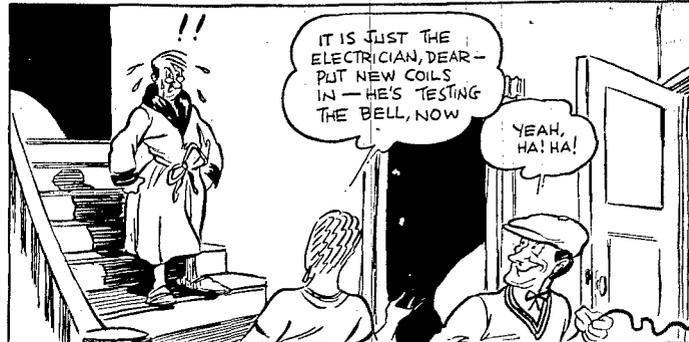

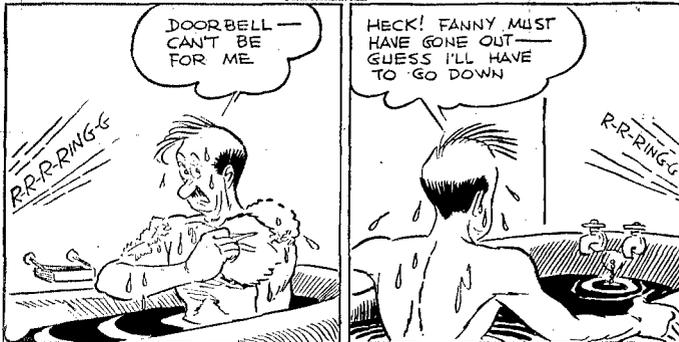

Now is a good time to learn more about this newspaper which is made especially for you. Just for fun ask yourself this question: How could we get along without newspapers? **KNOW YOUR NEWSPAPER**

AHERN'S

Holds Election of Club Officers

Progressive Homemakers held an election of officers at their meeting Friday afternoon with Mrs. Albert Greenwald as hostess at her home. Mrs. Earl Bennett was elected president. Mrs. Ralph Austin was named vice-president, and Mrs. Valerius Damme, was elected secretary-treasurer. Mrs. Alfred Sydow was named new project leader. Music leader is Mrs. Oscar Peterson. Mrs. C. H. Frevert was named publicity chairman.

Following the study hour, a covered dish luncheon was served. Miss Ellen Greenwald was a guest.

Achievement day will be held April 23 with Mrs. Ralph Austin entertaining. She will be assisted by Mrs. Aden Austin, Mrs. Alfred Sydow, and Mrs. Walter Stoneking.

Quilting Party

Mrs. Oscar Peterson entertained Mrs. R. H. Hahn, Mrs. Emmett Baird, Mrs. Emil Meyer, and Mrs. Alfred Sydow at a quilting party at her home last Tuesday afternoon. Luncheon was served at the close.

Mrs. Hobert Auker Is Woman's Club Head

Mrs. Hobert Auker was named president of Wayne Woman's club at the regular meeting of the club Friday afternoon at the clubrooms.

Other officers elected to serve during the coming year are as follows. Mrs. John R. Keith, vice-president; Mrs. Willis Noakes, secretary; Mrs. H. H. Hahn, treasurer; Mrs. J. G. Miller, auditor; Mrs. E. J. Huntener, house chairman; Mrs. T. T. Jones, music chairman; Mrs. J. G. W. Lewis, publicity chairman; Mrs. L. A. Fanske, program chairman, and Mrs. Harry McMillan, membership chairman. Other chairmen will be appointed by the president.

Mrs. C. C. Herndon conducted a Dr. Quiz contest. Contestants taking part were Mrs. H. H. Hahn, Mrs. James E. Brock, Mrs. L. A. Fanske, Mrs. J. G. Miller, Mrs. R. B. Judson, and Mrs. Jessie Hale.

At the business session, the club voted to pay half the expenses of a youth selected by an appointed committee to represent Wayne during Boys' State at Lincoln in June.

The social committee included Mrs. J. H. Brugger, chairman; Mrs. W. C. Coryell, Mrs. Walter Miller, Miss Harriet Fortner, and Mrs. L. A. Fanske.

World Wide Guild Meets

Members of the World Wide Guild of the Baptist church met at the Walter Bressler home Saturday evening for a regular study program. Miss Beulah Johnson was in charge of the lesson. The devotionals were led by Miss Margaret Wade. Following the program sewing was done.

The Guild meets April 2 with Miss Mildred Heikes as hostess at the W. C. Heikes home.

Degree of Honor Lodge Meets

Mrs. Anna Juhlin entertained the members of the Degree of Honor lodge at her home Thursday for a regular study meeting. Mrs. Floyd Conger was a guest. The hostess served luncheon at the close.

Mrs. Vieta Simmerman entertains the lodge next month. Mrs. Jamieson is

Hostess at Luncheon

Mrs. L. W. Jamieson as hostess entertained Cameo club members at 1 o'clock luncheon and afternoon bridge party at her home Friday afternoon. Guests were Mrs. R. P. Ogden, Mrs. Cobb Olson, and Mrs. Russell Bartels.

Prizes at cards were won by Mrs. L. F. Perry and Mrs. R. K. Kirkman.

Mrs. Henry Ley entertains the club in two weeks.

Week-End Guests

Week-end guests at the home of Mr. and Mrs. Clarence Kahler were Mr. and Mrs. John Bahr and daughter, Fern Ellen of Wausa and Mr. and Mrs. August Kumm of Plainview, and Wallace Kahler and Miss Gertrude Lubbers of Osmond.

William Brummond is visiting a few days at the Clarence Kahler home.

Clarence Kahler went to Osmond Tuesday morning where he will remodel a house. He is expected to return the latter part of the week.

Altrusa Club Meets

Mrs. Earl Merchant entertained the members of the Altrusa club at her home Monday afternoon. The program was in charge of Mrs. E. L. Noakes.

P. E. O. Sisterhood Meets Tuesday

Members of the P. E. O. sisterhood were entertained at the home of Mrs. Phil March Tuesday afternoon. Mrs. E. O. Stratton was assisting hostess. Mrs. Fred Bartels

Entertains Club

Members of the Scoreboard Bridge club were entertained at the home of Mrs. Fred Bartels last Saturday afternoon. Mrs. James E. Brittain was a guest.

At cards, Mrs. John Groskurth won high score prize, Mrs. J. M. McMurphy received second high. The hostess served.

Luncheon

U D club members were guests at a 1 o'clock St. Patrick luncheon with Mrs. C. M. Craven as hostess at her home Monday. Assisting hostesses were Mrs. Rollie Ley, Mrs. Carl Wright, Mrs. H. J. Felber, Mrs. J. Woodward Jones, and Mrs. J. O. Wentworth. The afternoon was spent at fancy work and chatting. Mrs. Amos Claycomb entertains the club next week.

Monday Club Meets

Mrs. T. T. Jones entertained Monday club members at a current event meeting at her home Monday afternoon. At the close, refreshments were served.

Mrs. A. B. Carhart entertains the club this coming Monday.

Birthday Party

Mr. and Mrs. Lou Baier were host at an evening party last Wednesday, the occasion of Mrs. Baier's birthday anniversary.

Five hundred was the diversion of the evening and prizes were won by Mrs. Gus Johnson and Albert Bichel. At the close, luncheon brought by the guests was served.

Among the guests were Mr. and Mrs. Chris Baier and family, Mr. and Mrs. Adolph Baier and family, Mr. and Mrs. Alfred Baier and family, Mr. and Mrs. Albert Bichel, Mr. and Mrs. Fritz Aevermann, Mr. and Mrs. Frank Brudigam, Mr. and Mrs. Herman Geewe, Elmer Habermann, Mrs. Gus Johnson and Ruth, Mr. and Mrs. Emil Otte, Mr. and Mrs. Adolph Claussen and family, Mr. and Mrs. Otte Baier.

The Strength of a Bank Is Determined By Its History, Its Policy, Its Management and the Extent of Its Resources

In Appreciation - -

We wish to take this means to thank all our farm and town customers and the businessmen of Wayne for the wonderful cooperation afforded us in our Grand Opening Event.

It was our first attempt to give our farmer patrons a real treat—and also remember all farmers, as well as our town customers. The success of our Creamery depends upon the farmers who sell us products, on the townspeople who buy our products and upon the business and professional men of Wayne who are constantly striving to build a bigger and better town.

We earnestly tried to remember everyone—customers and non-customers—and if we met with success it was largely due to the cooperation we received.

Our Creamery is always open to visitors.

Sioux City Chamber of Commerce

SIOUX CITY, IOWA

Mr. Edward Seymour
The Wayne Creamery
Wayne, Nebraska

We received a copy of THE WAYNE NEWS, telling about the splendid creamery which you have started in Wayne. We congratulate you upon your venture and wish you the best of luck.

An increased interest on the part of the farm population in dairying is a definite step forward in the prosperity of the farming section—and we know that the Wayne community will be increasingly pleased by the results obtained from your operation.

Sincerely yours,
LEO C. DAILEY,
Secretary

Wayne Creamery

CREAMERY DAY OPENING DREW LARGE CROWD

(Continued from Page 1) Centering his remarks upon community betterment President Anderson of State Teachers College said: "Building better com-

munities has become the watchword of the best citizens of every section of the country. To make the best communities better is a splendid motto for any state or nation. Wayne is blessed by a number of good churches, and certainly its educational privileges are far above average.

Using the Wayne creamery as an example, President Anderson added: Certainly we have much to boast of in the way of business institutions.

A good creamery is much to be desired by any community. No doubt its products reach more people than those of any other business and probably there is no concern that is more essential to the health and well being of the people of the community than is the creamery. Good, clean, wholesome products of the creamery are probably the community's most important foods.

We are proud of this community but there is always room for improvement. If we expect this to be a good place to rear our children and a good place to receive our neighbors' children who come here for recreation, to buy and sell, and for high school, and college privileges, we must look well to the type of community we maintain.

Don Cunningham, chairman of the program, a former resident auctioneer took "time out" from his busy secretarial job of the Live Stock Exchange of Sioux City to help celebrate the occasion. It was quite obvious that his appearance before so many old friends inspired Don. He said those who were formerly so complacent when wealth from the farms poured into the cash register squealed like a pig under a gate when the depression finally checked the flow of new wealth. His statement "If you are not a farmer at heart this is no place for you to live" brought vigorous applause. He added: Anyone who has had the courage to keep going during the past four or five years should not find the future so black.

Prof. M. L. Flack of the dairy extension department of the State University, emphasized the value of Smith-Hughes education in relation to better farm methods and in keeping boys on the farm. He urged farmers to strive to rebuild their live stock herds in numbers and quality pointing out that the elimination of the unfit resulting from the drought was in a sense beneficial in the long run. Flack warned that depletion of herds however was serious since Nebraska's prosperity is largely built upon its live stock.

He pointed out that the 148-lb. butterfat cow must be replaced by the 300-lb. butter fat cow. A farmer to farm right has to know more about a lot of different things than any other business man concluded the speaker.

4 COUNTY SCHOOLMEN'S CLUB HOLDS MEET

(Continued From Page 1) In the Farm Mechanics department, that is in the shop, two-fifths of the students' time is spent. Some of the things learned and practiced under Farm Mechanics shop are: 1—Construction Drawing, that is drawings and diagrams of such farm equipment as is made by the boys—such things as brooders, hog-houses, feed banks, double trees, etc.; 2—Harness care and repair; 3—Sheet Metal work; 4—Forge work; 5—Concrete study and con-

struction; 6—Fundamentals of auto mechanics; 7—Farm machinery (care and repair). The next meeting of the club will be held April 13 in conjunction with the Northeast Nebraska Schoolmen's association convention which will convene here.

LEGAL PUBLICATIONS

NOTICE OF INCORPORATION

Notice is hereby given that Rolfe Ley, John T. Bressler, Fred S. Berry, James E. Brittain, and Leonard F. Good, all of Wayne County, Nebraska, have associated themselves together for the purpose of forming and becoming a corporation under Article 15, Chapter 24, Compiled Statutes of Nebraska for 1929.

FIRST: The name of the corporation shall be WAYNE STATE TEACHERS' COLLEGE DORMITORY CORPORATION.

SECOND: The principal place of transacting its business shall be located in the City of Wayne, Nebraska, or on the real property whereon said Wayne State Teachers' College is located, in the County of Wayne in the State of Nebraska.

THIRD: The general nature of the business to be transacted by the corporation shall be to erect, own, lease, furnish and manage any building, hall, dormitory or apartments, lands or grounds for the use of the Wayne State Teachers' College located at Wayne, Nebraska, and to lease from the Board of Education of State Normal Schools of the State of Nebraska such portions of the campus of said College as may be necessary to be used as sites for the construc-

tion of fire-proof buildings and for boarding, housing and student activity purposes, and to charge and receive as rentals or otherwise for the use thereof, a sum sufficient to pay the principal and interest thereon of the cost of the construction of said building or buildings on the amortization plan, the buildings to be constructed to become the property of the State of Nebraska when the cost of construction has been paid; and to do all things necessary, incidental or convenient for the accomplishment of such purposes.

FOURTH: Said corporation shall have no capital stock, and shall pay no dividends or salaries to its incorporators or Board of Directors and Trustees, and its net income shall not inure, in whole or in part, to the benefit of its incorporators, or any individual.

FIFTH: The time of the commencement of the corporation shall be the date of the filing of a copy of its articles of incorporation in the office of the Secretary of State of the State of Nebraska, and it shall continue for a period of fifty years, when it shall terminate, unless its corporate existence shall be continued as provided by law.

SIXTH: The highest amount of indebtedness or liability to which the corporation shall, any one time be subject may equal, but in no case shall, exceed

an action pending in said court wherein Home Owners' Loan Corporation, a corporation, was plaintiff and Aggie H. Judson, et al, were defendants, I will, on the 4th day of April, 1938, at 10 o'clock a. m., at the door of the office of the Clerk of said Court in the court house in Wayne, Nebraska, sell to the highest bidder for cash, the following described real estate, to-wit: The North Half (N 1/2) of Lot Four (4) Block Eight (8), Britton and Bressler's addition to Wayne, East of the 6th P. M., Wayne County, Nebraska, to satisfy the aforesaid decree, the amount due thereon being \$4,002.60 with interest and costs and accruing costs.

Dated at Wayne, Nebraska, this 2nd day of March, 1938. JAMES H. PILE, Sheriff.

MEN WANTED \$75 a month paid to many men at first and more later. Local manager of nationally known company wants to hire several men for work in this locality. Deliver orders to farmers, render service and do other work. Farm experience very desirable. Car necessary. Permanent work. You only need to give your name and address. Write, Box 3656, care of this paper. Name Address

SHERIFF'S SALE By virtue of an Order of Sale, to me directed, issued by the Clerk of the District Court of Wayne County, Nebraska, upon a decree rendered therein at the September, 1936, term thereof, in the value of the property owned by it.

SEVENTH: The affairs of the corporation are to be managed five trustees, who shall consti-

tute a Board of Directors for such corporation, and they shall have power to fill vacancies that may occur in their Board and shall hold their offices until their successors are elected and qualified, and the original incorporators shall be such trustees and directors of the corporation at the time of its creation. The officers of said corporation shall be a president, vice president, and secretary and treasurer who shall be chosen by the Board of Directors and who shall hold their offices for the period of one year and until their successors shall be elected and qualify. The secretary and treasurer may be one and the same person.

In Witness whereof, the undersigned have hereunto set their hands this 9th day of February, 1938. Rolfe W. Ley, John T. Bressler, Jr., Fred S. Berry, James E. Brittain, Leonard F. Good Feb. 17, 24, Mar. 3, 10 and 17

By virtue of an Order of Sale, to me directed, issued by the Clerk of the District Court of Wayne County, Nebraska, upon a decree rendered therein at the September, 1936, term thereof, in the value of the property owned by it.
