The News In Wayne County

Again last week, the college held the spotlight of attention in Wayne through the variety of events staged there including the NIAA tennis and track meet, distribution of more School of Democracy' sheets and student meet. The surface of the council and more liberal campus regulations. Plans were also underway for the busy May days ahead which will be climaxed by the commencement exercises at which Governor Dwight Griswold will deliver the principal address. You'll find details of all these activities elsewhere in this edition of The News, so we'll hasten on to other topics.

Wayne's baseball team will face its first diamond test of 1941 Sunday when opening games in the Big Six league are scheduled to get underway. Wayne will be host to Hoskins here in the afternoon fray at the City Athletic field, Better plan to attend.

If this column sounds like it was suffering with a bad attack of the flu, there's a reason, because we've been battling that blitz version of a cold for these past seven days and not making a lot of progress. We arise in the morning feeling like we had been ironing all day or had served as a punching bag for either Joe Lewis or Jim Morrison. As the day progresses, we manage to feel increasing ill even though that seems an impossibility early in the morning. It's sort of a contest now to see whether or not the flu outlives us, and we're not giving any odds.

Last Sunday was Mother's Day, any fine tributes, all of them so chly deserved, were paid moth-sthroughout the world. But the richy deserved, were paid motners throughout the world. But the most impressive of the many tributes to mother is the one written by Elsie Robinson, well known newspaper and magazine writer, to her mother following the latter's death. As the writer explained, during her mother's lifetime, she sent her many tokens but seldom wrote, believing that she was too busy to write. After her mother's death, however, "through one long night of soband fumbling words", she wrote the letter she imagined she did not have time to write while her mother was living, and in simple but beautiful language confessed her reglect and implored forgive. red forgive reglect and implo-

Senator Pepper thinks it would be an excellent idea for Uncle Sam to go around dropping bombs here and there on Tokyo and some of her axis playmates. The publicity loving senator has overlooked a few minor points in this matter. First, we are not at war with Japan and second, we are not in the habit of dropping bombs on other nations' cities just for fun. Third, when you start playing such games, you want to be prepared for a bit of rough retaliation and right now we have a man's size job on our hands without seeking more even though Japan may be holding a knife at our back and will doubtless have to be faced one of these days.

faced one of these days. Most reliable Washington authorities and writers expect the outlook for Great Britain to become increasingly dark before it becomes better. In short, it is said that Britain is reconciled to losing the Mediterranean to Hitler et al and will concentrate her efforts on keeping her island safe from invasion and the Atlantic open to receive supplies from United States. They deny that Britain is doomed but they are not discounting the military punch which hazis still pack.

eturning to Wayne, Carl Nuss construction of a careless the construction of a so or stands for bicycles at creals in the business district children will not park them inst window panes. One of the ge panes on Carl's new store sa victim of a careless-eyclist is cracked near the bottom the pane. They are insured but damage is unnecessary and practice should be halted. WAYNE, NEBRASKA, May 13, 1941

Many City Projects Underway

Council Is Reorganized; Officials Named

Several city projects were underway this week following reore ganization of the city council last Tuesday morning when officials and standing committees were appointed.

A cement floor is being constructed in the hangar at the Wayne Municipal airport, another of the series of improvements carried out there recently. A concrete floor is also being built in the grandstand at Wayne Athin the grandstand at Wayne Ath-letic Park, The grandstand was erected last year but the floor was never constructed.

Projects Underway

Work is also underway now on the large ditch project which was let by the city to carry out an agreement with an insurance company which formerly owned land which was being damaged by the flow of city sewage in the creek and which sought an injunction which would have forced the city to have built a sewage disposal plant. The drainage ditch offer was made as an economical substitute and was accepted by both parties. Contract was then awarded for construction of the ditch which straightens out the creek but actual work was delayed by the prolonged winter and the heavy rains which followed.

carl Wright was elected president of the city council at its organization meeting and city officials who served last year were reappointed with the lone exception of that of police chief. George Bornhoft was promoted to that

City Officials

The other city officials who will remain in office are: City physician, Dr. C. T. Ingham; city attorney, H. D. Addison; water and light commissioner, Walter S. Ergeslew: Bressler; street commissioner, Hans Sundahl and city engineer, Homer S. Scace.

The salarles of four city employes, N. H. Brugger, Harvey Meyer, George Bornhoft and Walt

Phipps, were raised slightly and the State National Bank and the First National bank approved as depositories of city funds.

Woman Given 30 Day Term

Hazel Style Admits Driving While Intoxicated

Hazel Style of Sioux City is serving a 30 day sentence at the Wayne county jail where she was confined Thursday evening when State Patrolinan W. J. Ahern, State Patrolman W. J. Ahern, brought her to Wayne after find-

north and three miles east of Wayne.

Miss Style was brought before Judge J. M. Cherry Friday afternoon and charged with being intoxicated and with driving while under the influence of liquor. She refused the services of an attorney and, without the aid of counsel, plead guilty to both charges. When asked if she had anything to say, she answered nothing and was sentenced to 30 days in jail and costs of \$2.45. She was also ordered not to operate an auto-

ordered not to operate an automobile for one year.

The automobile involved in the case was a borrowed machine and car when it crossed the brug but Miss Style was the only occ pant when the car was found. when it crossed the bridge

Mr. and Mrs. Burr Standley and family visited friends in Peru over the weekend.

Miss Norma Jean Fuesler has been re-elected to teach at Allen

State Teachers college Friday when he covered the 440 in 50.9 seconds compared with the 51 seconds mark set by Mather of Peru last year. Details of NIAA meet on sports page.

Big Six To Open Season

Teams Mix Here Sunday; 300 At Dance

About 150 couples attended the benefit dance at the Wayne Municipal auditorium Friday evening, which was sponsored by the athletic committee of the Chamber of Commerce to raise funds for Wayne's entry in the Big Six baseball league this season.

As a complete check on the tickets sold in advance had not been completed Monday, the total amount raised could not be announced. However, despite the fact that the entertainment tax and the cost of the orchestra were higher than last year, it is believed that the profits will total between \$40 and \$50.

Hoskins Here

Brownie Walters and his orchestra of Signy City furnished the

H. D. Addison was re-elected president of the league—at a_recent reorganization meeting. Other officers to serve this season include Joe Sammons, Emerson, secretary; Art Chederquist, Laurel, treasurer. W. P. Thomas was chosen director of the Wayne team. Directors of the other teams are: Winside, Norris Weible; Emerson, D. Lloyd; Pender, B. Bush; Laurel, Art Chederquist and Hoskins, Frank Phillips.

500 Students Resolutions

clerk and W. L. Klatt of the State Department of Agriculture. Petitions hearing 397, signatures views He read the letter of actime-and additional-petitions have been received since that date bringing the total number of petitions requesting the hearing to 412.

Extension Agent Walters expressed his appreciation of the work of the farmers who circulated the petitions without pay. The countywide district includes 284,000 acres and will probably be the first one organized under the new law, which was enacted at the present session of the legislature.

18 Operating

Eighteen districts are now organized-and operating county wide district. It is the Curaing county area.

Approval of the organization of the state weed law, but only one other in the state is a countywide district. It is the Curaing county area.

Approval of the organization of the students of segments and order-the district. It is the Curaing county area.

Approval of the organization of college regulations which plans is expected at the hearing, official notice of which will be found elsewhere in this edition of The News.

a duly elected Student Council, and that jurisdiction of this Council shall include the right to hear all the facts concerning the withdrawal or expulsion of any member of the student body.

Be it resolved further that provisions be made for a representative Student Council to be effective for the remainder of the current semester and until the new

rent semester and until the new body is formulated in the succeed-

leges.

Judge Talks On Liberty And Its Perils Today

Judge M. S. McDuffey of Nor-folk, president of the ninth judic-ial bar association, discussed li-berty and the perils it faces in these critical times, at the Ki-wanis club meeting Monday noon. He was introduced by H. E. Si-man.

"Liberty belongs only to those who have the ability to fight for and defend it", Judge McDuffey said. "It is the most valuable thing me percent".

said. "It is the most valuable thing men possess".

He went on to trace the beginning of liberty through references to historical events, showing that liberty does not exist in nature but has been planned and developed by man. He explained how the constitution of the United States is a guarantee of liberty and only this country and those who have similar forms of government can enjoy the privileges of liberty.

Special music was furnished by the college mixed octet under the direction of Russel Anderson.

23 MILLION! A record never before approached!

★When the 29,000,000th Ford rolled recently from the assembly line, an alltime record for the industry was set. 29,000,000 units built by the same management and all bearing one name-a name that has become one of the bestknown trade-marks in the world!

It is significant that this achievement comes at a time when our country is making a mighty effort to re-arm swiftly. For to further that effort, to help speed it along in any possible way, we have offered the vast facilities of the Rouge Plant and every ounce of our experience.
As you read this, a new \$21,000,000

Ford airplane engine plant, started only last fall, is nearly completed. A new magnesium alloy plant, one of the few in the

country, is already in production on lightweight airplane engine castings. Work is right now under way on a new \$18,000,000 plant for mass production of big bomber assemblies. Orders have been filled for military vehicles of several types, including army reconnaissance cars, staff cars and bomb service trucks.
In the midst of this activity for National

Defense, building the 29 millionth Ford car is simply one part of the day's work. The public has acclaimed the 1941

Ford car as the finest in Ford history. Ford Dealers are enjoying their greatest sales and expecting their best year since 1937.

It is good to be producing the things

America needs, and to be setting records

The Wayne News Advocates

 Formation of a Wayne civic organization with a paid secretary which will have as its sole objective the improvement and growth of Wayne; an organization through which all business firms and professional men may unite their efforts.

Expansion of Wayne's trade territory.
Co-operation between WSTC and Wayne for their

mutual-benefit.

4 Improved transportation facilities including all-weather roads throughout this section of the state.

5. Extension of the soil and water conservation work throughout Wayne and adjacent counties.

6. Improvement of educational facilities and standards in both rural and town schools.

Chemurgic Research

Few will protest the action of the unicameral legislature in providing funds for special chemurgic research in Nebraska. While the sum supplied for research is far from adequate, the very fact that any amount at all was provided is a step in the right direction. The search for new uses for farm products is one in which this state should join, due to the fact that Nebraska's resources and future are so directly dependent upon that of its farmers.

Those who opposed the program argued that large corporations in the East were spending fortunes on just such research work and that Nebraska could profit by their discoveries. It is true that much progress has been made in recent years in this field and that doubtless, Nebraska will profit indirectly through the work of these research experts. It is also true, however, that these company and corporation experts are interested chiefly in conducting research work along lines which can be turned into trade channels and marketed profitably. It is only incidental with them whether or not agricultural products form the basic ingredients of their finished articles. They are not seeking new uses for agricultural products; they are seeking substitutes in the field of synthetics which may be marketed economically and profitably.

The objectives and hence the scope of the two research efforts are distinctly different and yet each may take advantage of the experiments conducted by the other. Nebraska is particularly interested in finding additional commercial uses for the agricultural products of which it has a surplus or of finding other crops, which may be raised in this section of the country which will return a larger profit for the producer.

I Am An American Day

I Am An American Day

For the third successive year, the people of the United States will celebrate "I am an American Day" on next Sunday.

The day and its observance hold special significance this year since probably never before in history has American cittzenship stood out in such strong contrast to the governments of other nations throughout the world.

Lemuel B. Schofield, special assistant to the attorney general stressed its importance in the following words:

"I AM AN AMERICAN DAY has nationwide interest, for it affects directly two large groups of new citzens in the United States and have recently attained the full rights of citizenship by reaching their twenty-first birthday; and those who, having been born in foreign countries, have recently proved their fitness for membership in our Democracy and have been inducted into the full rights of citizenship by a naturalization court. I AM AN AMERICAN DAY affects all of us, for it helps bring home the value and responsibilities of our citizenship and it gives us an opportunity to welcome into our American membership those who have become citizens in the past year".

some unfavorable criticism.

Too often, efficiency goes unrewarded because members of the city council or commission, depending on the form of city government, are so anxious to build up an economy record and so greatly fear the protests of a few vocal taxpayers that they are far more likely to slash rather than increase salaries. The Wayne council should be complimented rather than condemned for braving any such protests and giving reasonable salary increases to city employes. Doubtless, their work in the future will well repay the city for the small additional expenditure involved so that in reality the taxpayers' burden isn't likely to be increased.

The days of graduation exercises are drawing near and com-mencement speakers will not lack for ample material for their ad-tresses this year. Certainty, there was never a time in the history of the nation when the need for greater service in many fields for the benefit of the country and the opportunities to serve were more plentiful. There has probably never been a time when we should be nore appreciative of the blessings enjoyed today in this democracy because they water there alone.

because they exist here alone.

The path ahead for this year's graduate appears far from smooth. The danger of becoming involved in the world conflict grown greater daily. Higher taxes than we have ever known in this country have become a necessity. United States will likely feel the ill effects of this war with increasing force during the next few months whether or not this nation becomes an active participant.

No, the way ahead is not bright. But, there is work to be done, much work and there is need, in short, of the talents and energy of the young graduates of today. It is, so evident that commencement speeches this year, even those which follow the usual pattern of such addresses, will have a ring of sincerty which cannot fail to impress.

Country editors think that when Mrs. Jones has coffee with Smith it is just as important to them as it is to the Cabots Lodges when Mrs. Astorbit visits Club 21 and gets a terrible on.—Willimar Journal.

Suppose there had been no money paid to WPA, or in direct relief, during the last eight years, where would the small businessman be today? He would probably be in the hands of a receiver, and looking for relief himself. This federal relief has been a life-saver to the small businessman of Dawson and every other small town.—Olivia Times.

Most of us are unable to save unless we are forced to, and installment buying, if it means paying for something that has enduring valve, is one good way of forcing many of us to save.—Thief River Times.

Before the present congress has finished its deliberations there all be other changes in the income tax laws and if congress follows a usual routine—the little fellow will get soaked again.—Union

It might be more wholesome if we forgot all about need and paid every person above a certain age a fixed income, just for being that old. It, would end all this business of liens and investigations and compelling relatives to help out. And it would give some people who had exercises a little thrift the resting that they were getting something back after a little men of paying taxes from which others were the chief beauticiaries. Eveleth Clarion.

National Industries Weekly Review

bill multiplied several times in the coming fiscal year that indicates the rising tides of taxes. It's a painful process, but you, kind reader, are going to get it in the neck. You are going to find that you are dead wrong in your boast that "I don't know the difference between a million and a billion dollars".

Spreading Defense Work That defense work
That defense production is
spread throughout the country
and not concentrated in a few industrial areas or among a handful of large companies, as some
are led to believe, is well illustrated in a report to General Motors employes in their monthly
magazine GM FOLKS stating
that 11 plants alone, of the more

One G. M. division buys raw materials and semi-finished parts from suppliers scattered through 20 states as far west as Califor-

nia.

Another division buys 2,000 defense parts from 83 suppliers which, together with 37 suppliers of raw materials, are located in

of raw materials, are located in 10 states.

A third division draws on 50 small machine shops for supplies. The average employment of these shops is 70.

shops is 70.

All kinds of communities—large

The Nation's Leading
Letter by J. E. Jones,
Washington. D. C.

YOU'LL FIND OUT
Washington, D. C., May 12—
The national income for 1941 is expected to be in the neighborhood of 80 billion dollars, which in simple words means that all payments made to individuals by business enterprises for goods and services plus all business savings, will total the "national income".

The total budget of the government for the coming year is now figured at 19 billion dollars. Two-thirds, or approximately 12 is lilion dollars will be raised by federal taxation.

The federal and local tax collectors will take 1 out of every 4 dollars of the national income in the coming fiscal year, most of which will go into the federal treasury. Recent reports of large industries that show large gains in revenues also show that taxes not only "took the gains" but so much more earnings that the corporations actually dropped behind in net profitis.

The family man that paid a few dollars last year will find his tax bill multiplied several times in the coming fiscal year that indicates the rising tides of taxes. It's a server of the properties and monopolies and so the Sherman Anti-Trust Act was enacted. Within the past few years federal trade has extended rapidly because the development of transportation and its possible for men at machines, counters, desks, and on farms, to do a large part of their business across state lines. The proof of this is found in your local stores where every-thing from every part of the United States seems to be "in season". This change of conditions has been met in a large measure by the Federal Trade Commission investigations and provides of united States seems to be "in season". The Federal Trade Commission investigations and provides of united States seems to be "in season". The Federal and deceptive acts or practice in interstate commerce. The Federal Power Commission a half dozen years ago took over united the coming fiscal year that indicates the registration of securities.

The Social Security board control ov

A maritime commission was given board control over ships and shipping. Banking has been drafted under

Through all these various esses federal trade and fed cesses federal trade and federal affairs have been centralized under control of the government at Washington, and the states have usually relinquished that authority over all such matters with the unfortunate result that the old-time spirit of partnership between employers and employes no longer is encouraged in high places.

I Am An American Day

For the third successive year, the people of the United States and have communities of in history has American citizenship od out in sich strong contrast to the governments of other nash throughout the world.

Lemel B. Schoffield, special sessistant to the attorney general research with the world.

Lemel B. Schoffield, special sessistant to the attorney general research with the world.

Lemel B. Schoffield, special sessistant to the attorney general research with the world.

Lemel B. Schoffield, special sessistant to the attorney general research with the world in the following words:

"I AM AN (AMERICAN DAY has nationwide interest, for the lest dimedial world with the world with American public shows up in the background of the big picture. Strikes have been encouraged in Washington, and the higher wage scales have cut down the profits this loss to business has been through higher prices. But that brings on higher costs of living. So that while everybody pays more taxes every year for "value received" in the end no one gets ahead.

Finally, the exchange and security markets are now almost at dead standstill. The government's anti-trust lawyers have been doubled and redoubled in preparation for wholesale prosecutions of business and industrial establishments as "monopolles" in Federal Trade and public affairs.

So, that's where you all are at you small and large taxpayers who are so lavish with your billions for taxes and so heedless of

Trade and public affairs.
So, that's where you-all are at you small and large taxpayers who are so lavish with your billions for taxes and so heedless of sustaining private initiative and recognizing it as the right road for democracy to travel. You had better start counting your "chances", and your chanse.

The Annaham Pad Comment

The average employment of these shops is 70.

All kinds of communities—large and small, some at industrial centers and many at widely separated points — are feeding parts, supplies and equipment to manufacturers for defense. Thus, the important work in which every American has a personal interest is shared by a great army of workers throughout our entire land.

What's Ahead Of America?

A powerful group of business men attended the meetings of the United States Chamber of Commerce in Washington at the turn of the present month. They were about as far apart in opinions gare a informative address very proused by speakers as Town Meetings on the radio. But there, proused by speakers as Town Meetings on the radio. But there, in the present and the washing to the complete agreement about the limits to which the President is which the President should go, or extreme measures by congress; particularly about on the end of tree limits to which the President should go, or extreme measures by congress; particularly about on the end of tree limits. hospitals, and at other posts of duty. This is a task that was undertaken during the World war in 1918, and which has developed until it is a very important part of the volunteer responsibilities of the Red Cross at home and in foreign fields.

Senatorial Snaris

Senatorial Snaris
Senator Robert R. Reynolds of
North Carolina is, described as
one of the most popular men in
upper branch of congress, and according to the traditional seniority rule he should be stepped-up
from his place as a member on
the military affairs committee to
chairmanship, which post was
held by the late Senator Shepbard. A reporter gave that it is Reynolds as chairman of this particular committee "in the present emergency". The reason is that Reynolds is an isolationist, who has the courage of his convictions and never did, and doesn't now, agree with the administration's foreign policies. He voted against the IndaLease bill and isn't at all enthuslastic about the selective service.

ed agains, and isn't at all enthusiastic about the selective service.

A striking example of orthodox democracy, by Democrats, was displayed the other day when Senate leader Barkley went to the front to accept the statue of the late Huey Long for a place in the Hall of Fame in the Capitol. Barkley was defined that the authority of bersons Hall of Fame in the Capitol. Bark-ley said that the authority of selecting outstanding persons from each state to be immortaliz-ed in granite in the Hall of Fame was always decided by the state, itself, and that such selections were final, and not to be quartion-ed or denied. And so he did a very nice job, which he was brave enough not to run away from. Members of the family, and a few intimate friends of the late Kingintimate friends of the late Kingfish, attended the ceremonies.
But the two senators from the
state and all but two members
of the house did not attend the
ceremonies. The Kingfish is dead,
but long wave the Kingfish.

Ralsing Healthy Children
The Children's Bureau of the
United States government was
established 25 years ago, for the
purpose of checking the increase
in infant mortality, due to the intimate friends of the late King

purpose of checking the increase in infant mortality, due to the boil weevil in the South, and lack of housing and medical care of infants in the North. In 1916, out of every 1,000 bables born alive 106 died before the first birthday. In 1939 the rate had been cut to 52, a gain of more than 100 per cent.

Miss Katherine Lenroot has been chief of the Children's Burbeen chief of the Children's Bureau for many years and there is no woman in the government who has rendered such valuable service to humanity, and been given credit for it. The government, the medical profession, and health so-cleties of the nation are unanimous in their praise and appreciation of Miss Lenroot.

Thus, while the war goes on bringing distress to millions, a quiet and pensistent movement to

interesting consumers in a wide variety of goods and articles made from cotton. One of the big markets for cotton once existed in making cordage; in twisted cables as substitutes for rope, cottonseed oil and its products, cottonseed meal, oil cakes, and a great many edible foods are source of important revenue for cotton maceria.

Ellery Queen

You will be held breathless by these five startling, fast-moving mystery stories. Daring, clever, extraor dinarily exciting, they are among the most amazing adventures of the famous detective: The Adventure of the Teakwood Case, The Adventure of the Two-Headed Dog, The Adventure of the Glass-Domed Clock, The Adventure of the Seven Black Cats, The Adventure of the Mad Tea Party.

Because we want you to know Bestseller Library Books (selected and published by The American Mercury), we'll send you this one—More Adventures of Ellery Queen—practically FREE. We'll supply the book if you will pay 10c for postage and handling.

Out of more than 100,000 copies printed we have less than 5,000 left—and they're going fast. Hurry and send a dime for your complete copy of this book. (Sorry—only one to a customer.)

Here's my dime. Send me a copy of the Bestseller Library Book, "More Adventures of Ellery Queen".

CITY AND STATE C8
MERCURY BOOKS, 570 Lexington Avenue, New York, N. Y.

Wayne On Parade

(Continued from Page 1) .

We have a deep suspicion that We have a deep suspicion that The News is carrying only a part of the story about the woman driver who was sentenced by Judge Cherry to spend 30 days sobering up a bit. It seems that when the car crossed the bridge at Sioux City there were a couple of passengers, who were not pre-sent when it was found in the sent when it was found in unditch and the arrest was made

ditch and the arrest was made.

There is also a fugifive from a marriage license arounds this vicinity, according to the judge. It seems that Saturday afternoon, a man attempted to get a marriage license and was told by the judge license and was told by the judge lo get the lucky girl and bring her along to sign the application. He assured the judge he would return within 20 minutes and the judge, not one to block the course of true love, remained at his desk an hour after closing time awaiting the return of the bride groom-to-be before finally concluding that either the man had lost his nerve or the bride had exercised the woman's privilege of changing her mind.

All the framework on the north-

Years Ago

Sunday will witness the opening of the permanent greens at the Wayne Country Club grounds. The grounds are all in excellent shape for this early in the geason, and give promise of being in the very best condition within a few wacks, the weather man permitting. A new porch has been added to the house of the keeper of the grounds, which adds to the comfort of occupants of the home and the good appearance of the place.

place.

Mr. and Mrs. Rollie Ley left Friday afternoon for Excelsior Springs, Mo., where they expect to spend a couple of weeks.

Mr. and Mrs. A. T. Cavanaugh went to Omaha Monday morning to spend a few days visiting with relatives.

Miss Form Organ

relatives.

Miss Fern Oman went to Lincoln Sunday for a weeks visit
with her sister and other Lincoln

friends.

Landlord Gansko of the Boyd is having a bit of interior decorating done in office and dining room and some other parts of the house he presides over. He has also built a little addition to the front of the hotel — a sort of an intelle or eather deceding upon also built a little addition to the front of the hotel—a sort of an intake or outlet, depending upon which way you are headed. The law says that the doors in a public house shall swing out, and the other doors swing in, so they are removed and the door to the annex swings out.

We got off easy on coal last winter as quantity needed was small but the people are going to have to pay for it in ice price this summer, unless the Lord will be merciful and give us a cool summer.

Miss Mary Walker visited her nother, Mrs. O. E. Walker at Al-la, over the weekend.

Mrs. Frank Obst of Carroll, was admitted to a local hospital for medical care Thursday.

Frank Bailey of Carroll was mitted to a local hospital medical care Saturday.

Hiscox Funeral Home ARMAND HISCOX Funeral Director NEBRASKA WAYNE -

What, No Morphine?

his heart beat and pulse found to be practically norm

Morphine?

A pool of 'blood' surrounding an 'unconscious' man found in the Cedar county courthouse Tuesday by Miss Dorothy Lammars of Hartington, failed to obtain for George Paul Stevenson, a transient, an injection of morphine.

When Stevenson was discovered by Miss Lammars, half of the horrified courthouse staff looked on, while Dr. F. P. Dorsey, jr., examined the victim. A beam of a flashlight in the man's eyes in **%**

Board met as per adjournment. All members present.
Minutes of meeting held April 22 and 23 read and approved.
The County Treasurer is hereby ordered to transfer the sum of \$390.60 from the County General Fund to the Jury Fund,
The Workmen's Compensation & Employer's Liability Policy of the Employers Mutual Casualty Company was on motion duly approved.

an hour after closing time a waiting the return of the bride groom-to-be before finally concluding that either the man had lost his nerve or the bride had exercised the woman's privilege of changing her mind.

All the framework on the northside of the State National bank is there because extensive repairs on the wall were necessary. The work will be completed within a few days.

Members of any legislative body who remain atop the fence on most controvensial issues for fear of losing a few votes at the next election are not serving themselves nor their district or state well. They should take a stand on most matters on the voters, who elected them, are really without a voice and the money which goes to them as salary could be much better employed.

The Workmen's Compensation & Employer's Liability Policy of the Employers Mutual Casualty Comcluding the method and proved.

Public Liability Policy of the Employers Mutual Casualty Comcluding Towns on motion duly approved.

New Course Is Offered

Lectures To Assist Staff In 'Workshop' Units

In 'Workshop' Units

A number of outstanding lecturers and instructors have been secured to assist the regular college faculty in the various units of the "Workshop', a new course offered for the summer term at the college for experienced teachers. The work is so organized that teachers my enter the shop and work three weeks for two hours credit, is weeks for two hours credit, or nine weeks for three hours credit. Teachers will be given ample opportunity to work on problems of their own as well as these presented to the class.

The Workshop will be composed of the following units: Guidance, sensory aids, marionettes and puppets, remedial reading, curricular building, scouting program, co-operative study of secondary school standards, and education program.

County Court Room, in and for said County of Wayne, on the 12th day of May, 1941.

In the matter of the estate of Mary Carlsen, deceased.
On reading and filing the petition of Ben Nissen, praying that the instrument filed on the 6th day of May, 1941, and purporting to be the last Will and Testament of said deceased, may be proved and allowed as the last Will and Testament of said Mary Carlsen, deceased, and that the execution of said Instrument may be com-

and allowed as the last Will and Testament of said Mary Carlsen, deceased, and that the execution of said Instrument may be committed to Ben Nissen as Executor.

ORDERED, That May 29, 1941, at 10 o'clock A. M., is assigned for hearing said petition, when all persons interested may appear at the County Court Room in Wayne, and show cause why the prayer of the petitioner should not be granted; and that notice of the pendency of said petition and the hearing thereof, be given to all persons interested in said matter by publishing a copy of this order in the Wayne News, a weekly newspaper printed in said County, three successive weeks prior to said day of hearing.

J. M. Cherry,

(Seal) County Judge (Publish May 13, 20, 27, 1941)
