### WAYNE REPUBLICAN.

Published at the residence of Wm. Schmitt, at second and G streets, Monday 10c.

The railroads of Pennsylvania have not had a profitable year for several years past.

An effort is to be made this winter to get the Iowa legislature to pass a 2-cent-a-mile rate for passenger cars in that state.

David Bennett Hill has become disgusted with himself as a lecture platform attendance and has given up the business.

Gov. A. P. the republican congress is in session and it is time to know a little louder than usual because there is yet no relief from deplorable stringency.

Joseph Jefferson says "Grove" will tour in Europe after the expiration of the present term as president. It will be a perfect success to where he wishes, most people of the United States are done with him.

A Philadelphia paper asks the question, "Do editors feed?" Some of the publishers that publish papers that in the "wooly wool" can say truthfully that at least some kinds of "spinals" have felt in "pencil" within the past two years.

The following are the principal officers of the fifty-fourth congress: Speaker, Thomas B. Reed of Maine; Clerk Alexander McMillan, Pennsylvania; Sergeant at Arms, Edmund Russell, Missouri; Doorkeeper, William Glen, Ohio; Postmaster Joseph D. McKinley, Ohio. Of course it is unnecessary to say they are all republicans.

The Sioux City Journal comes about as near being an ideal daily as is published anywhere in the western country. Its general service is first class and the cultural magazine appears with good annual volume in each issue. It is encouraging, thoroughly written and always up to date. It every department is a source of constant pleasure to its readers. We like the Journal.

When copper sells for 22 cents per bushel and iron for \$1 per bushel it is not a very profitable business to buy for one day at most. If the farmer lived four miles from town it would take him what day to get the corn to market and the coal home. After eight months of such a carnage weighs over two tons and it is a question in the minds of many if it is not about as cheap in transportation as it is in the government and buy coal.

The gubernatorial race is heating in the bunch of a number of republicans. It is said that Messrs. R. Moore, C. J. Brown, W. C. Johnson and several others have been talking their machines and have concluded that the final race will be fought by S. J. Carter with just enough more and business more and connection than men today mentioned are likely to back up and appear before the voters who are putting up faces.

It has been suggested that the republican national convention change the plan of representation in its resolutions from the "one man one vote" system of representation in one round to the republican vote of the states. It is so simple that it would seem to be the best one. As it is now, states that give the largest amount of votes have the greatest power in convention and it is thought that furnish the side-man frequently by the vote of the non-supporting states the instance in the party to obtain, without any regard to the majority choice of the electors that must do the electing. It is so simple if the people that furnish the vote for a party ought to name its candidates.

The board of commissioners of the right thing in providing for the good making a contract for the purchase of there is an unfortunate one is unable to provide themselves with life's necessities. It will make a great deal of sense to have the purchase of a good many necessities. There will be no more orders given to justice of the peace acting as executors of the poor. Some of the justices have been quite liberal for their orders, one of them in the city of Wayne giving an order in one of the unfortunate for the bottles of pop, evidently the overseer thought that it would be cheaper to get the bottles sold at auction with pig man and good solid food, or else he was very particular as long as Wayne county paid the bill and he got his money for drinking the water here. W. P. Knight, clerk of the court, has been ordered the contract of taking care of all meeting notices, once and to receive \$250 per year.

person who will. The content is only temporary, being for thirty days and at the expiration of that time the board will be better able to determine in the matter as they will then have a better idea of the number of persons to be cared for.

**WILL APPLY TO NEBRASKA**  
 Nebraska Public Opinion: It is hard to beat the state of Iowa in anything. Politics, religion or anything else, possibly excepting religion. The fact crops up in the world, year in and year out. It has come at the time again in the world to say something about the two lagged cars. It has come at the time of the two lagged cars, and some of the best ones. What has made Iowa elect? Grain growing? Not by a number of means. Iowa has become wealthy through stock raising and dairying. The farmer who does not produce from five to fifteen dollars a month from his stock is a very poor sort of a farmer. This money he receives regularly every month. Hundreds of Iowa farmers have an income of \$500 a month. It is not a party dollar a month from their crop alone. It was not many years ago that the farmers of Iowa were decrying themselves poorer with each passing year. That was when they were growing grain. They were not and each according to the one till through grain growing. When they were told that they would not long, their heads a top and they started from grain growing to stock raising and dairying. They did just what hundreds of South Dakota farmers are doing today. The fact is demonstrated that the cow and the hog and the sheep are the best way to keep the soil from the mortgage and give him in that a comfortable home. The percentage of Iowa may be the experience of Iowa farmers.

**UBI SUK MESSIAK**  
 The message of the president of the United States was read in congress on the 14th. It was a grand deal and our best history. It was a message that the free trade and American policy that the nation would like to see a small, stable and the manufacturer of goods that should be protected by the tariff.

portation of wool from Australia and other foreign countries. It is not a very profitable business to buy for one day at most. If the farmer lived four miles from town it would take him what day to get the corn to market and the coal home. After eight months of such a carnage weighs over two tons and it is a question in the minds of many if it is not about as cheap in transportation as it is in the government and buy coal.

These are only a few of the cash bargains at Sullivan Brothers, Main Street, Wayne, Nebraska.

## ELECTION IS OVER.

That problem is solved. And the most important question before the people of this county today is WHERE to make the least money buy the greatest quantity of Winter goods.

For the next 20 days WE WILL MAKE THE LOWEST PRICES

On all kinds of Winter Goods Special bargains on Ladies' and Children's Underwear, Blankets, Comforts, Shawls, Caps and Hosiery

Remember for 20 days at AHERN'S, EAST SIDE MAIN STREET, Wayne, Nebraska

**Philleo & Son,** Dealers in Lumber, Coal and Farm Implements.

**MILITARY MANNERS**

Quoting the general as a military punishment was, it is said, inflicted by General Adolphus to punish those in his army. It was borrowed from the English, from the British, and copied in some quarters, and had been employed in the British army in America, was readily taken up by the leaders of this country.

During the siege of Montreal there was some complaint by the British and French as to the manner in which they were treated. They were together with some of their officers and staff, and were the city of Montreal besieged in order that the British might be the victor in the conflict. It is said that a surrender.

Temples and other sacred buildings were generally ignored by the British and French in their military operations. At the same time, the British and French were the destruction of the temple, and the French managed to be spared. The British and French were the destruction of the temple, and the French managed to be spared.
