It would seem to be a matter of some importance to the party to make a selection with the place. There are many good men who would make an elaborate campaign here, and here they to the party would be looked after rather than the prohibition of any personal interest.

CURRENT COMMENT

The summer months have passed their course in this section of the state with a moderate success. The crops are generally good, and the season has been a profitable one for the farmer.

Between Kansas and Nebraska there is a large area of land which is now being reclaimed. This work is being done by the reclamation companies, and it is expected that in a few years there will be a large increase in the population of this section of the state.

It is interesting to note that the population of this section of the state is increasing rapidly. This is due to the fact that the land is being reclaimed, and the population is increasing rapidly.
