WAYNE REPUBLICAN.

Published at the Republic of Wayne, Nebraska, at the home of the publisher, March 19, 1911.

Are you Wayne county's best citizen? Get to get under the best in this.

Wayne county's own crop for this year will average very close to 35 bushels per acre.

The crops of the previous year they made some headway toward the better of the hungry is a consolation.

The total product of the wheat of the United States is estimated by NEB. to be 1,000,000,000 bushels. The wheat of Nebraska is 100,000,000 bushels.

You find that the wheat of the United States is 100,000,000 bushels. The wheat of Nebraska is 100,000,000 bushels.

If the democratic party show it will take from you as much as it will take from the United States, it will take from you as much as it will take from the United States.

Our farm lands are good and will be purchased at prices today that are more favorable than in the past.

As Gov. D. McKelvey has said, the free silver cause has been a failure. It has done more harm than good.

Is your house built on a firm foundation?
 A special feature of the new building is the fact that it is built on a firm foundation of concrete. This is a great advantage, especially in a city where the ground is so soft and uneven. The building is built on a firm foundation of concrete, and this is a great advantage, especially in a city where the ground is so soft and uneven. The building is built on a firm foundation of concrete, and this is a great advantage, especially in a city where the ground is so soft and uneven.

The Modern Student
 The modern student is a different creature from the student of a few years ago. He is more practical, more business-like, and more interested in the things of this world. He is not content with a mere education; he wants to know how to use it. He is not content with a mere degree; he wants to know how to use it. He is not content with a mere diploma; he wants to know how to use it.
