WAYNE REPUBLICAN.

Published every morning except on Sundays and holidays. Entered as second class mail, March 11, 1911.

Analysis was called by a warrant... on February 2, in which several... were taken out of the tower of Hastings.

The blizzard started over Lincoln... Dakota reports considerable loss of stock. The reports from all over the northeast indicate that it is the worst blizzard since the depression of 1902.

The year 1914 has not gone on with its former glaze of snow in gray, the forecast so far shows with the latter we hope will result with us as the new year opens with the sun full of sunshine.

Thousands of every year pounds of sugar in the United States is produced elsewhere and by having these plants open from duty and by means of a tariff on sugar... the sugar is sold at a price which is not only lower than the sugar we grow.

The portion of the sugar which is the tariff is one of the items that is the most objectionable to the people of this country. It is one of the few articles which are not produced in this country and consequently it is one of the few articles which are not produced in this country.

It is not possible to the extent of following the arguments of the different interested parties in their various phases of the sugar question. We are glad to see that the sugar question is being handled in a fair and equitable manner.

PREMATURE DEATH. The congress with which the free silver people are now, however, using the opening door of the copper question as a goal of the future of the nation.

One can imagine the late Philip Wain and his crew that constitute the Andersonville prison during the rebellion, pointing to the copper question as a goal of the future of the nation.

because of their removal from the... This comparison is not correct... for the banks of the country... and the banks of the country...

During the recent past we have seen the... the banks of the country... and the banks of the country...

It is not possible to the extent of following the arguments of the different interested parties in their various phases of the sugar question.

It is not possible to the extent of following the arguments of the different interested parties in their various phases of the sugar question.

It is not possible to the extent of following the arguments of the different interested parties in their various phases of the sugar question.

It is not possible to the extent of following the arguments of the different interested parties in their various phases of the sugar question.
