Chronic Nasal Catarrh...  
 The treatment of chronic nasal catarrh is a matter of some importance. It is a disease that is often overlooked, but it can cause a great deal of suffering. The treatment should be directed towards the removal of the cause of the inflammation, and the relief of the symptoms. This can be done by the use of certain remedies, and by the application of certain surgical procedures.

**FARMS and FARMERS**

THE FARMER'S PROBLEM...

The farmer's problem is a complex one. It involves the management of his land, the raising of his crops, and the sale of his produce. He must be able to withstand the fluctuations of the market, and to protect himself against the risks of nature. The farmer's problem is a problem of survival, and it is one that must be solved if the farmer is to continue to live on his land.

Pay on a 100% Advance...  
 A 100% advance is a common practice in the business world. It allows the buyer to obtain the goods before they have been fully paid for. This is often done in order to secure the goods for a long period of time, or to allow the buyer to spread the cost of the purchase over a longer period.

## Are you Willing?

To run the risk of uncertainty and discount certain to be found in all ready made clothing, to save a dollar or two on the price?

I can't tell you to pay that small difference and get exactly what you want. Here you can select not only the cloth and pattern, but have the style you prefer, the pockets of the kind and number you like, and generally get what you order, while so ready-made clothing you don't have these advantages and have to take what you get.
