WAYNE REPUBLICAN

W. OGDENSON, Editor and Publisher. Entered in the Postoffice at Wayne, Michigan, as second-class matter, March 23, 1882.

The Vermont Tribune has a candidate for the republican nomination for Supreme Judge, and nobody that has ever had the gruffest nose will readily concede this to him. He is the only one of the place admirably. The man at present is Henry C. Lindsey of present chairman of the Republican State Central Committee.

Mr. Leno, the woman of whom Disander became infatuated which led to the killing of Leno's wife, will not be her usual husband, but will be a free man. It is reported that Mrs. Leno testified in the hearing of the Tribune, stating to kill the woman who had spoken of her in her testimony. She said she was convinced the man who had been the subject of the report, had been the subject of the report, had been the subject of the report.

Over in Iowa legislation the republican party is beginning to show its hideous frowns. When a state gets to be politically as weak as Iowa, it is not surprising that it is then almost invariably the first to begin to develop and to begin to show the signs of a weak state. German government officials have recently let out a number of statements published in this country regarding alleged plans of the German government to acquire the American coast. A short time ago it was stated that information derived from confidential sources at Washington, D. C., had been received by the German government regarding the acquisition of a point on the coast of Vermont with a view to establishing a trading station. The German government has been the subject of much discussion.

IT'S PLAIN ENOUGH

to those who know the policy of cash stores, why goods are sold cheaper, why the margins are smaller, and why you get more for your money. No merchant who sells for cash has to continually indemnify himself by putting on an extra price on this and that to even up some unpaid book accounts. Long time stores tell you they "sell just as cheap as cash stores." At this point you should investigate, and if you can save 10 or 15 per cent by trading at a cash store, it's to your interest to do so. The following are but a few of the bargains I am offering:

Good Pickles, per gallon, \$1.00
2 lbs. good Prunes, \$1.00
50¢ best Patent Flour, \$1.00
Lard, per pound, \$1.00
3 cans corn, \$1.00
1 lb. corn or glass starch, \$1.00
2 lbs. conies, assorted, \$1.00
Sugar cured ham, per pound, \$1.00
3-lb. cans pears, 9¢.

Butter and eggs taken in exchange. I keep everything in the grocery line and fresh fruit galore. It's money in wallet to trade at (Hendell's). Remember the place.

Others may talk

But we sell the goods and the reason for it is that we always keep

WHAT THE PEOPLE WANT

Then, again, we never ask a fancy price for the fanciest of goods. Our principle of doing business is many sales and a small profit from each. We don't expect to make expenses and a big profit from any single sale, but a little on each one and the aggregate will keep us out of the hole.

THE GROCERY BUSINESS IS OUR BUSINESS

And if you are a customer of ours you know it, and if you are not, it will pay you to become one. Remember the place,

Brookings' Grocery,
2nd Street, Opposite Postoffice.

Something New

Yes, we now have a new stock of dry goods and it is the most complete stock that we ever had. We bought it right and we will give you the worth of your money. If you will give us a call, if you wish to buy anything, come in and see our goods as you will know where to get them when you send them. Our groceries are better than any before for our stock is more complete and we can give you as little fresh goods as you can buy before. We will give you the highest market price for your butter and eggs and we need your patronage that you have to sell, as we have nothing, as we will give you better food for your wheat than you can get any place else in the county.

SPRING and SUMMER!

Everybody has to buy spring and summer dress and dry goods. It is always a question to know just what they want and there is no better way on earth to decide a matter of that kind is to go to the place or places where such things are best and there is no better place than the place where the prevailing styles and the price. In doing this it is wise to always go where
