

COME!

There's going to be a hot time in Wayne this week! A street fair and carnival with every kind of freak Will furnish fun in plenty for all the folks around And with acts of reckless daring will continually abound.

There will be a human meteor who will slide by her hair, A man who will leap from a pole 90 feet in the air, A grand balloon ascension by a daring aeronaut And a reckless ride by a bicyclist who certainly fears naught.

The juggler, the acrobat and the skillful necromancer, The heathen Seresgambian, the artful Turkish dancer, Will all be there in plenty and will create fun galore, While their customers will be as dazzling as the Sultan's of Jabore.

There will be the famous Chinatown with its midnight sights so queer, Bosco, the snake eater, who will fill us with awe and fear, The famous Ferris wheel which makes its dizzy round And the Oriental village covering a full acre of ground.

The curious marble statue that slowly turns to life, And the marvelous sword swallower who nasticates a knife, The vaudeville performers with their music and their tights Will make up a marvelous portion of the sounds and of the sight.

The wondrous moving pictures with their wealth of detail Showing life in the cities on a very startling scale, These and other features too numerous to relate Will make the best street fair ever held in the state.

A cordial invitation we hereby extend to you, Because we want your family these wondrous things to see, And we'll give you a royal welcome to our bustling town, Also a jolly chance to do things up brown.

The place will be wide open—in a respectable way— We'll give the people that work a chance to come and play And all the noise and fun they want will be As welcome as the sunshine and just as free.

Accept this invitation and bring your wife along, Also bring the boys and girls and let them join the throng Of the happy merry-makers who will take a holiday At the Wayne Street Fair and Carnival so gay.

CHICKERING AGENTS TO BOSTON.

A Large Number of Trade Representatives of This Famous Piano Inspect the Factory and Place Fall Order.

(Special to the Music Trades)

Boston, July 28, 1902. Among the large numbers of travelers from the South and West, who visit Boston on business or pleasure, or stop here on their way to some of the Maine, New Hampshire or Vermont summer resorts, not a few of them make their way to the factory of Chickering & Sons for the purpose of looking over a piano plant which has the reputation of being one of the largest and best appointed in this country.

One of the recent visitors was a western man, who said he wanted to see where the Chickering piano was made and to find out if some things he had heard were true. The man has been the owner of a Chickering for some time and of late attempts have been made to disturb the sale. Statements were made that Chickering & Sons were no longer making the piano they were; that, in fact, for some years they had not been making a strictly high-grade instrument such as their reputation credited them with. After going all over the factory the western man said to Mr. Eddy, treasurer of the company: "The situation reminds me of what my mother used to tell me: 'It's the best apple tree that gets the most clubbing.'"

An instance showing how widely known is the name of Chickering was the call of Rev. Mr. Greer, of the Unitarian church, in San Antonio, Texas. Mr. Greer said it was his first trip to Boston, and he had planned to see, among other points of interest, the Chickering factory. He was shown through the establishment and expressed much admiration for the completeness of the institution.

Mr. Parker, vice president and manager of the Andrews Furniture and Music Co., of Charlotte, S. C., was one of the trade visitors at the Chickering factory last week. He made a selection of instruments for immediate and fall shipments.

For lowest prices and full information write direct to the factory, CHICKERING & SONS, Boston, Mass.

News comes to us that the pumpkin crop in the counties to the west of us is almost a complete failure. Owing to the recent rains the vines have grown so fast they have worn the pumpkins out dragging them through the sand.

This paper neglected to chronicle in its last issue a business change that occurred in this city the first of last week whereby the hardware store of E. P. Olmsted was sold to the Terwilliger brothers, Alex and G. C. They are both rustlers and we predict for them a good business. We are not informed as to what Mr. Olmsted will engage in.

Considerable good work has been done by the city during the past week in the way of cutting and pulling weeds that have lined our streets for the past month or so and Main street presents an exceedingly neat appearance. There are still several patches on property owned by private parties the removal of which would greatly add to the attractiveness of the city. Cut down your weeds!

Tomorrow is the opening day of the Wayne street fair. We will all have fun in large, irregularly shaped chunks. The laboring man (except the printer) will take a vacation and see the sights. The bands will play. The merry-go-round will whirl and the bells ring. The fakir, the cheap jewelry guy and the gent with the long fingers will be in their glory. The common herd will part with their hard earned cash, but will get their money's worth in actual enjoyment and will all tell you they had a large, jolly time. And they will, the country people will, and should, lay aside their labors in the harvest field and come to the city. The outside towns will send large delegations and we will all mix. Won't it be grand! We will eat ham, sandwiches and peanuts, drink Schlitz beer, and live like kings. We will shoot the chutes and loop the loop. And Mary and John will hold hands and watch the show. Come and be satisfied.

Geo. Cook was at Wakefield Friday. Miss Carrie Stringer went to Lincoln Friday.

E. D. Mitchell went to Bloomfield Thursday evening.

Dr. J. C. Clark, eye specialist, will be at Wayne September 1.

Miss C. M. White, of Norfolk, was an arrival in the city Thursday afternoon.

Geo. Palmer was an arrival in the city the last of the week to visit relatives.

Joe Baker has recently purchased a half interest in the barber shop of Henry Louder.

Mr. and Mrs. S. R. Theobald and son, Perry, came home from their Chicago trip the last of the week.

J. T. Bressler and J. M. Pile and wives attended the Old Settlers' picnic at Dakota City on last Thursday.

Geo. Sherbahn took in all the North-east Nebraska towns last week in the interests of the Wayne street fair.

Grant Young, the Carroll marshal, has handed in his resignation. Evidently the town is too warm for him.

Wayne Roller Mills are paying 60 cents per bushel for good old milling wheat.

Miss Margaret Adair was a passenger for Carroll Saturday morning. She will teach a fall term of school in that vicinity.

Mrs. Will Shawgo, of Neola, Iowa, arrived the last of the week for a visit with the family of Ross Shawgo, south-east of this city.

Mrs. Ray Donnelly returned Thursday from a visit of several weeks at Omaha, St. Joe, Kansas City and other points in that section.

The Misses Johnson and Gaebler, of Wisnola, were in the city the last of the week, visiting at the S. C. Lane home and attending the Teacher's Institute.

Harry and Miss Bertha Armstrong left Saturday morning for Laramie, Wyoming, where they will visit a few weeks with their brothers, James and Robert, Jr.

The Misses Weaver, of Wakefield, arrived in the city the last of the week have procured rooms and will make their home here this winter, one of the ladies attending college.

Walden Tucker was an arrival in the city from Fairfax, S. D., for a few days visit at the home of his parents in this city. He was accompanied by Miss Anna Stanbery, of Mason City, Iowa.

The "Chicago Tramp" Company presented a fair sized audience with a bum show at the opera house last Thursday evening. Huebner, however, in the role of the "Chicago tramp" was as good as the best.

And now Ora Caffee says a man who can't "listen" good has no business hauling hay in Nebraska, and all because he stood upon a large rattlesnake for several minutes one day last week and couldn't hear his snakeship wag his tail.

Try a pound of Mocha and Java coffee at Rundell's Grocery. Try a pound and if you do not think it is as good coffee as you have paid more for bring back the unused portion and get 35 cents for it. This guarantee is worthy of your notice, and so is the coffee.

We have had rain enough. Harvest has been delayed and grain in some sections has been considerably damaged. What we need now is a few days of hot dry weather. Much soft corn is already promised in case of early frost and a few days more of wet weather will be bad for that cereal. Let it be dry.

A jolly hay rack party plunked at the cut-off northeast of the city Friday afternoon. The party consisted of the Misses Ellis, Mitchell, Feather, Mellor, Theobald, Perry, Weber, Lundberg, Tucker and Britton, and Messers Scace, Claybaugh, Ellis, Cunningham, Armstrong, Spears, Winterburn, Willis and Jones. All report a very pleasant outing.

The 2 Johns have followed up the recent improvements made on their store building by repairing and papering the interior and have also put a neat coat of paint on the front, making it one of the nicest in the city. The interior walls are covered with light paper and the ceiling with white paint giving abundance of light and with additional window space they have one of the best rooms to be found anywhere.

Have you thought much about what you were going to pay for hard coal this winter? The coal situation is such as to cause us fellows who have squandered good money on ice cream and cold drinks this summer no end of trouble. Hard coal is at present \$11 per ton in this city and hard to get at any price. R. J. Armstrong, our local dealer, says the scarcity of coal this season is unparalleled and that dealers in the west will be unable to procure a pound of hard coal unless the mines are put in operation soon. He has endeavored to procure it for several different firms who say it is impossible for them to furnish it. All of the western towns are in the same predicament. The man with the big corn crop will have no trouble in making his corn pay for shelling.

Why pay rent? When you can buy a home of your own in the corn belt, at from \$10 to \$25 per acre. For particulars see, PHIL H. KOHL.

Wayne Roller Mills are paying 60 cents per bushel for good old milling wheat.

Al Sherbahn went up to the branch Saturday evening. He was joined by Ike Walden at Carroll and the two went on up to Bloomfield for a hunt in the country north of there.

Arthur Tucker came up from Cedar Rapids, Nebraska, Thursday for an over Sunday visit at home. He is in the banking business at that place and says he is well pleased with that town and the surroundings.

Ralph Rundell sells as many peanuts as all the rest. There is a reason for this, nothing but the best Junco stock is used which is roasted by the latest up-to-date process. It beats the old way. Try a 5 cent sack.

John H. Fisher, for years a resident of this county, was killed at a railroad crossing just west of Red Oak, Iowa, on Saturday evening. He was a brother of W. L. Fisher, living southwest of this city. The latter left for Red Oak Monday morning.

A jolly party of young folks, consisting of Daisy Gamble, Edna Bush, Ruth Bressler, Helen Northrop, Charlie Kate, Carl Beckenbauer and Fred Berry, and chaperoned by Mrs. J. G. Miller, enjoyed an outing at the Elkhorn last Thursday.

Are you thinking of going to Dakota? If so do not fail to see me before going. I have been making trips for the last three years into this country. I am thoroughly acquainted with the soil and the lay of the land and think I can save you some money and assist you in getting properly located.

PHIL H. KOHL.

The 2 Johns clothing store has a monster clothing stock in something like \$25,000 worth, filling their store up nicely, a most complete stock in all the nice new things stylish and of good value. They are taking pains to show their goods to the best advantage and will supply many families in the adjoining towns and counties who come here twice a year to get an outfitting.

Sometime last week several thousand pamphlets arrived at the depot at this point for distribution by Sherbahn & Miller, our firm of bill posters and distributors of advertising matter. A couple of young kids, Ben Sherbahn and Harvey Miller, noticing the address on the packages as they lay at the depot, immediately conceived a plan by which they expected to make enough money to celebrate the carnival this week in a fitting manner, and presented themselves to Agent Moran under the firm name "Sherbahn & Miller" and asked that their goods be delivered instantly. Of course the agent tumbled. But lads with that amount of nerve and ready invention will no doubt make a mark in the world that many of us will envy.

A carriage load of people consisting of W. H. Hoguewood and Ed Pratt and wives, and Misses Blanche and Grace Bell, had a little experience while enroute to the dance at Altona last Saturday night that some of them have reason to remember for some time. While driving along at a pretty good pace near the Logan bridge just south of this city the bolt holding the front wheels under the box in some manner came out and the team and part of the carriage became detached from the box which tipped over throwing the occupants out, some of them receiving some pretty severe bruises. Mr. Hoguewood had his face bruised pretty badly and Mrs. Hoguewood had an eye injured and was also bruised about the body. The team was caught a little distance south of there and aside from the injuries sustained by the passengers no considerable damage was done.

On last Wednesday evening as Miss Mary Hason was passing stony upper Main street a couple of dogs owned by parties in that vicinity started toward her in a vicious manner, frightening the lady who started across the street to gain the protection of a nearby house. In starting she, in some manner or other, stumbled and fell fainting in the street and was carried indoors by persons who happened to witness the occurrence and medical attention summoned when it was found that the lady was suffering from a badly injured ankle. Notwithstanding the efficient efforts of our city marshal in dispatching numbers each season of the superfluous canine creation infesting our city there are still a lot of worthless curs around that would look a whole lot better to most people with a large handful of cold lead in their heads. No account dogs are mighty poor property.

Tomorrow, if you'll come to Wayne, We'll show you a time that's not tame, And the day after that The thing will continue the same.

On Saturday Helen Pile and Miss Kingsbury, latin teacher at the College, returned to this city, Miss Helen from several weeks visit with relatives in Ohio, and Miss Kingsbury from Germany where she has been attending school for the past two years.

J. P. Gaertner has the largest and best selected stock of goods in north-east Nebraska and the prices can't be beat. Bring in your catalogues for comparison and see how much better you can do at home, besides saving freight. Some of the cheap department stuff is dear at any price and after one experience you would not give it house room.

In speaking of Bishop Fowler the Omaha Bee says: "The eloquent bishop more than realized the expectations of his friends and the lovers of the quaint, simple character of the great master of the Rebellion became almost his worshippers by the time the concluding sentences of the bishop's oration were pronounced. He is an easy and delightful speaker, with a voice of wonderful flexibility and strength."

In the beginning God created the heavens and earth, then the editor, then the liberal advertiser—which was all good. The next day it snowed and he created the man who does not believe in advertising, another who does not take the home paper—and then he created the moulting room and created the man who takes the paper for several years and fails to pay for it. After he had accomplished that sorry job and having a few lumps left, he created the excuse of a man who settles his subscription by informing the postmaster to mark the paper "refused."—Ex.

On last Saturday evening a little accident occurred in connection with the electric light system that might have been more serious. In the afternoon the 2 Johns and the painters who were painting their store front removed the wires running into their store in order to work at a better advantage and fastened the ends to a pole out of the way and in such a manner as to short circuit the current. When the lights were turned on in the evening the fun commenced. The wires were burned off, the pole charred where the wire came in contact and the big dynamo at the power house was brought to a short stop. The big drive belt spun around the pulley of the dynamo but did not come off, which fact is all that saved the price of a new belt, as Manager Fritts says had the belt slipped off it would have been taken to already "beating the engine could have been stopped, as it was no considerable damage was done."

Elmer Lundberg was at Laurel yesterday.

Miss Johanna Ahern was at Emerson Monday.

John Gabler was in town yesterday morning.

The Baptist ladies will serve meals during the carnival in the building recently vacated by the Darnell bakery.

Miss Clara Whitney, of this city, has secured the position as primary teacher in the St. James school for the coming year.

The young son of Frank Kruger had his knee injured last week by a stone falling upon it and is now walking on crutches.

Dan Roush will drive overland next week to Scribner, Nebraska, for a short visit in that vicinity and will return with a load of apples.

Miss Annie Axtell, sister of Lloyd Axtell, foreman of the Herald, arrived Monday from Pepin, Wisconsin, for a visit with her brother. She was on her way to South Dakota.

The carriers of the rural mail will leave for the country early in the morning during the carnival instead of waiting for the 9:55 mail as usual and get back to town in time to celebrate.

Mrs. Clay Sharp returned to her home at Guthrie Center, Iowa, on Monday. She was accompanied by her father, Bur Cunningham, and the little daughter of H. F. Cunningham, who will make her home with Mrs. Sharp.

The second cottage of the three to be built on the site of the old court house has been raised. The first is being painted and plastered and will be ready for occupancy in a very few days.

Mrs. J. E. Dunton, of Chicago, and Mr. and Mrs. W. E. Green, of Naper, Boyd county, daughter and son-in-law of E. Kibbey and wife, were all arrivals Monday for a visit at the Kibbey home northwest of town.

Dr. J. C. Clark, the celebrated Sioux City eye specialist, was here Monday on his regularly appointed date, and as many could not meet him that day, has arranged to be here all day Friday, Sept. 5, at the Boyd hotel. See his ad, in this issue.

Miss Marie Kerwin, of Emerson, well known to many people hereabouts, died last Saturday. The young lady was taken ill quite suddenly, having attended a dance on the previous evening. The deceased lady was about twenty-five years of age.

Mrs. E. Wilde, niece of Sam Whitman of this city, left Wayne Monday for Boise City, Idaho, to join her husband who is engaged in the fruit growing business there. Mrs. Wilde has been at Concord where her father lives and Dixon, her old home, for some time.

Mrs. Sullivan and daughter Louise left yesterday for Lewiston, Idaho, and will make their future home in that section. They have not decided as yet whether to make their permanent home at Lewiston or Moscow, Idaho. George is already out in that country and Ralph will remain here. The family is one that we are all sorry to lose.

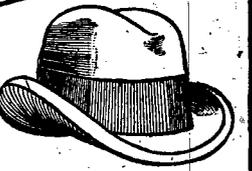

The Wakefield Republican tells of an old man with a horse hitched to an old covered wagon having stopped there last week in quest of a wife, an old maid or widow with enough money to care for him as he should be, and we understand the old man was in Wayne with the same object in view. Wayne has plenty of good-looking old maids and widows, and most of them have plenty of money, but they are not looking for anyone to care for, as a few of the bachelors and widowers right here at home would testify.

Wayne, Sept. 5

AT

BOYD HOTEL

The eye is the most delicate organ of the body, and for years it has been known by those who have made a careful study of it that a large per cent. of human ailments come from defective eyesight. Any abnormal physiological condition is called disease by the medical fraternity, and is treated as such. Real disease is a disintegration of the tissues or structural substances. About 90 per cent. of all alleged diseases are merely mechanical defects, which can be remedied without medicine, and in such cases drugs are positively harmful.

Defective eyesight is primarily the cause of a large per cent. of headache, nervousness, red, inflamed lids, crossed eyes, itching and burning eyelids, spots floating before vision, abnormal growths upon eyes called, pterygium, dimness of sight, cannot maintain vision long at one time for close work, cannot see distant objects well, lines or letters run together, dizziness, loss of memory, pains running from base of brain down through spinal column, convulsions which precede the menstrual functions, for which thousands are doped with drugs of the most poisonous kind and become confirmed invalids, when all they need is a pair of glasses that will perfectly correct their eye strain.

Dyspepsia is called a stomach trouble. A pair of glasses will do for a sufferer in a week what materia medica never would accomplish.

Young Lady's Life Saved.

Dr. Chas. H. Utter, a prominent physician, of Panama, Colombia, in a recent letter states: "Last March I had as a patient a young lady sixteen years of age, who had a very bad attack of dysentery. Everything I prescribed for her proved ineffectual and she was growing worse every hour. Her parents were sure she would die. She had become so weak that she could not turn over in bed. What to do at this critical moment was a study for me, but I thought of Chamberlain's Colic, Cholera and Diarrhoea Remedy and as a last resort prescribed it. The most wonderful result was effected. Within eight hours she was feeling much better; inside of three days she was upon her feet and at the end of one week was entirely well." For sale by Raymond's Pharmacy.

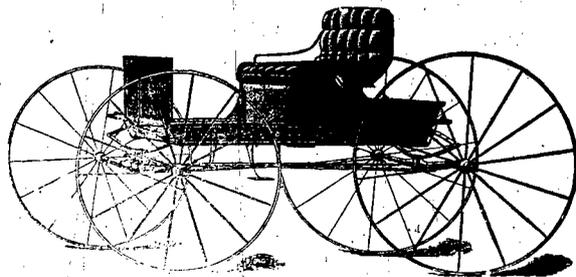

Sixteen years before a community is a good enough test of the business methods of a tradesman to establish beyond question the value of his statements and the general character of his goods. In this week's issue Mr. Dan Harrington calls attention to the clothing and furnishing line he has taken pains in watching grow from a modest line of a few hundreds of dollars to a large stock of as many thousands

and equal to any in Northern Nebraska. An invitation to trade at Harrington's is an invitation to inspect the latest products of the eastern markets, alive to the demands of the critical buyer and the power of spot cash. Probably in no other one feature of the clothing and furnishing business, in which experience counts for so much, does Mr. Harrington take pride than in the ability to please the class of customers who are careful buyers, and after nearly twenty years of pleasant business relations counts them his most constant patrons.

Dr. J. M. Alden, of Pierce, was the nominee of the republicans of the eleventh district at their convention held at Norfolk Tuesday. Norfolk wanted to name W. M. Robertson but it is Pierce county's turn and Wayne and Stanton county held to the fairness of Pierce county's claims. Madison county did not present Robertson's name to the convention, so the nomination was made unanimous. Dr. Alden will poll a large vote in every county of the district. He is a very fine man and will command the respect of all classes of voters, he is qualified by experience to represent us well, as in addition to a well rounded and successful business career he has served Pierce county one term in the state legislature twelve years ago. At present he resides on his farm half a mile out of Pierce where he engages in breeding white face cattle and manages his farm, at the same time he is a practicing physician and has for eighteen years been a resident of Pierce and a practicing physician there. Last week he leased his farm and consented to take the nomination for senator almost at the last day before the convention. He still has a white faced bull he says he may yoke up and drive around the district in fixing up political fences. Prof. F. M. Gregg, of Wayne, was chosen chairman of the convention and J. D. King was selected as a central committeeman for this county the ensuing year.

The tremendous demand during the season just past for the Osborne Corn Harvester indicates two things: first, that thousands of farmers are realizing the great economy in the new methods of harvesting and preserving the corn crop, and second, that the Osborne machine has found splendid favor with the growers of corn in the United States.

The latter conclusion is as natural as the first, for the Osborne Corn Harvester has proven itself so competent to harvest all kinds of corn in all conditions that it has an undisputed right to its place as King of the Corn Field.

Its method of cutting, conveying, tying and discharging its corn is along correct principles, and it has been demonstrated in many fields that this machine has no equal.

STRIKE IS TO GO ON.

MORGAN DECIDES FIGHT MUST BE TO A FINISH.

Declines flatly to interfere in the Labor War—Important Conference Held to Discuss the Campaign—Operators Confident of Resuming Work.

No new plans for arbitrating the coal strike, no matter by whom they are inspired, will be considered by the operators, and no influence that President Mitchell of the United Mine Workers can bring to bear on them will change their position one iota.

Such was the conclusion reached late Tuesday by the presidents of the anthracite coal carrying companies in conference in New York. It was also stated officially that J. Pierpont Morgan will not take any hand in the dispute.

At noon, which was three hours before the conference began, President Baer of the Philadelphia and Reading Railroad, who came from Philadelphia early in the day, called at Mr. Morgan's office and had a talk with him. There were present also when the talk was going on Samuel Spencer, president of the Southern Railway; H. M. Twombly, Mr. Stetson, Mr. George W. Perkins, Mr. Baer, Mr. Morgan's office, Lester Samuel Sloan, chairman of the board of directors of the Delaware, Lackawanna and Western

Railroad, called and had a conference with Mr. Morgan.

All this was considered significant, although at Mr. Morgan's office it was stated that the visits had no particular importance.

The meeting of the coal presidents was held in a private room in the Delaware building, where President Fowler of the New York, Ontario and Western Railroad gave a luncheon to the other presidents. The conference took place during luncheon, and while it was not largely attended, there is many reports that the most important part of the representatives of the coal roads since the strike began. There were present, besides J. W. Fowler, President Baer, President Underwood of the Erie Railroad and President Truesdale of the Lackawanna Railroad.

The statement at the mining districts was discussed for two hours, during which time reports from the mines were considered. The reports showed that men were applying for work in increasing numbers, but that a break in the strike had not occurred yet. No time, it was stated, was given for opening the collieries, but the question as to the preparing the mines for reopening was considered fully.

Will Recognize No Interference. President Baer expressed when the conference was over his attitude toward the following statement:

"The operators are a unit in standing by their original position. The situation at the mines is improving daily. A few more men are applying to be taken back every day, but until the work will be gradually resumed I will not undertake to say I will recognize no interference from any outside parties, no matter

J. PIERPONT MORGAN.

Hailroad, called and had a conference with Mr. Morgan. All this was considered significant, although at Mr. Morgan's office it was stated that the visits had no particular importance. The meeting of the coal presidents was held in a private room in the Delaware building, where President Fowler of the New York, Ontario and Western Railroad gave a luncheon to the other presidents. The situation at the mines is improving daily. A few more men are applying to be taken back every day, but until the work will be gradually resumed I will not undertake to say I will recognize no interference from any outside parties, no matter

how likely we may esteem the parties themselves will have any effect. The matter at issue can only be settled between the operators and the miners."

A general statement regarding Mr. Morgan's attitude was made on behalf of the operators, to the following effect: "Mr. Morgan knew the exact situation while he was in Europe just as if he had been here. He was in touch with everything that transpired, and could have interfered in the dispute while he was abroad just as easily as when he returned. His return does not change the situation. There is no reason why he should interfere now any more than at any time during the strike, and he does not mean to interfere."

Before Mr. Baer left town he called at Mr. Morgan's office again and, it was believed, gave him an outline of what took place during the conference of the coal presidents.

ENGAGED TO BISHOP POTTER. Rich New York Woman to Wed Enamored Churchman.

Mrs. Alfred Conant Clark, whose engagement to Right Rev. Henry C. Potter, bishop of New York, has been announced, is one of New York's richest women. She is the widow of the late A. C. Clark, who inherited a controlling interest in the Singer Sewing Machine Company from his father, Edward Clark.

Mrs. Clark, who was Miss Elizabeth Scribner, is known for her philanthropy as well as great wealth. Her husband died in 1896, and since his death she has added to her holdings out of her income. Six years ago when Mr. Clark died, the estate was estimated to be worth \$10,000,000.

WEEKLY SUMMARY OF CROPS.

Weather Conditions East of the Rockies Not Favorable as a Whole.

The Agricultural Department's weekly summary of crop conditions says that as a whole the weather conditions east of the Rocky Mountains have not been favorable during the week ending last week. In the northern districts eastward of the Missouri valley, with too much moisture in portions of the central valleys, while excessively hot in the Southern States, with drought of greater or less severity generally throughout the cotton belt. Although cool, the conditions were fairly favorable for maturing crops in the Ohio valley and over the southern portion of the middle Atlantic States, as well as on the Pacific coast.

Corn is greatly in need of warm, dry weather throughout the northern portion of the corn belt, where the abnormally cool weather of the last two weeks has greatly retarded its maturity. Over the southern portion of the corn belt an excellent crop of early corn is now practically ready for harvest in Iowa and central Illinois corn has badly lodged as a result of local storms. Spring wheat harvest is unfinished in the northern portion of the Red River valley, where it has been interrupted by frequent showers, which also have seriously retarded the wheat crop and only interfered with stacking and only in the State increased its production. South Dakota also made a gain of \$300,000; Idaho, \$144,000, and Oregon, \$123,400.

Nevada showed the material gain of \$957,000, which came largely from the newly discovered camp of Tonahop, in Nye County, although nearly every county in the State increased its production. Nevada also made a gain of \$300,000; Idaho, \$144,000, and Oregon, \$123,400. Alaska Shows a Decrease. The great decrease, amounting to \$1,255,000, was in Alaska. This was due to the lateness of the season, which delayed the opening of the placers, and to litigation, which interfered with the development of the industry. Colorado diminished \$1,335,000, a fact explained by the decline in the grade of ores extracted, the tonnage having increased.

Under the law there is no way of preventing them from going anywhere within the limits of his command. Gen. Sherman once moved the army headquarters to St. Louis and Gen. Miles ordered himself to Santiago during the war with Spain. Notwithstanding the fact that Gen. Sherman commanded the Cuban expedition, Gen. Miles did not participate in the negotiations for the surrender of the Spaniards, and knowing this, the officials in Washington fear that he may endeavor to interfere with the policy of the United States in dealing with the Moros of Mindanao.

WEDS ROOSEVELT'S COUSIN

Grant's Granddaughter Married to a Relative of the President.

The marriage of the twice previously engaged Vivian Sartoris, only daughter of Mrs. Nellie Grant Sartoris, to Frederick Roosevelt Sevier, a cousin of President Roosevelt, took place at Niagara Falls, N. Y., on June 22, 1901. Mrs. Sartoris is 23, and has been out, socially, four seasons. She was engaged first to Archibald Balfour, cousin of England's premier. They were to have been married July 11, 1901, but on June 22 the engagement was broken.

Next she was reported engaged to Timothy Wood, a wealthy New York club man, but this also came to naught. She is tall, graceful, with regular features, dark hair and eyes, and has had numerous admirers.

The marriage of her mother, Nellie Grant, was the crowning event of one of the most brilliant social seasons the national capital has ever seen.

Early in the Grant administration Nellie Grant was at a dancing school, but heard of the lively times in Washington, and prevailed on her mother to let her quit school and return home. Here she had her own way in almost everything. It was while Miss Nellie was in her teens, and her mother was beginning to worry for fear she would do something remarkable, that she was sent abroad. On this occasion she met Alexander Sartoris, the chaplain was desperately smitten, but not so Miss Nellie.

Allegedly her first assaults upon his prospective father-in-law were not successful. He was a second son without estates or title and with no prospects. All of which made him very popular with Nellie. The other brother died early, and Alexander soon returned as heir to claim his inheritance, although it is related that Gen. Grant was still quite frosty. The wedding was at the White House in May, 1874. Many struggled and schemed for months to secure invitations, and there were wedding gifts from royalty.

After this marriage about the only thing that happened in the family was the death of the young man. Mrs. Sartoris immediately after the honeymoon Sartoris ceased to live with his wife, and she made her home with his father. He left his widow with three children, one of whom is Vivian.

YEAR'S METAL YIELD

FIGURES ON PRODUCTION OF GOLD AND SILVER.

Total Falls Short of That of Previous Year, Though Gold Is Almost Up to It—The Total Value of the Production for 1901 Is \$111,795,100.

George E. Roberts, director of the mint, has issued his final estimate of the production of gold and silver in the United States during the calendar year 1901. Mr. Roberts' statement shows that during the year the United States produced 3,805,500 ounces of gold, valued at \$78,636,700, a decrease of \$504,800, or 0.63 per cent, as compared with the yield of 1900.

Ten of the nineteen States and territories yielding gold showed an increased production, California leading with \$1,075,200, an increase due entirely to the normal development of the mining industry. Nevada showed the material gain of \$957,000, which came largely from the newly discovered camp of Tonahop, in Nye County, although nearly every county in the State increased its production. South Dakota also made a gain of \$300,000; Idaho, \$144,000, and Oregon, \$123,400.

Alaska Shows a Decrease. The great decrease, amounting to \$1,255,000, was in Alaska. This was due to the lateness of the season, which delayed the opening of the placers, and to litigation, which interfered with the development of the industry. Colorado diminished \$1,335,000, a fact explained by the decline in the grade of ores extracted, the tonnage having increased.

Under the law there is no way of preventing them from going anywhere within the limits of his command. Gen. Sherman once moved the army headquarters to St. Louis and Gen. Miles ordered himself to Santiago during the war with Spain. Notwithstanding the fact that Gen. Sherman commanded the Cuban expedition, Gen. Miles did not participate in the negotiations for the surrender of the Spaniards, and knowing this, the officials in Washington fear that he may endeavor to interfere with the policy of the United States in dealing with the Moros of Mindanao.

Should Gen. Miles while in the Philippines endeavor to assert his authority as commanding general of the army, it may result in serious complications.

NEWGATE PRISON RAZED.

London's Famous Old Jail Demolished by Wreckers.

The demolition of the walls of Newgate prison, London, was begun the other day. The famous old pile, which has been the place of confinement of many persons of rank as well as hated criminals since 1294, stood in the way of the modernizing of London, including the widening of the streets, etc., and was ordered down. The structure dates back 130 years. Its predecessors on the same site were destroyed by fire.

NEW DASH FOR POLE.

Mr. Ziegler Has Another Party in the Arctic Circle.

The north pole is yet to be made to give up its secrets by an expedition of which William Ziegler is the backer and which is now in Franz Josef Land, but the leader of that expedition is not Evelyn B. Baldwin. Mr. Ziegler in New York stated that, while Baldwin had not been supplied, he had to continue his arctic region on the Fridtjof, an expedition which has received instructions to proceed without the former leader.

This expedition sailed on July 1 for Camp Ziegler, Aker Island, Franz Josef Land, with William S. Champ, Mr. Ziegler's former secretary and confidential adviser, on board. Mr. Champ has instructions to leave the expedition at Camp Ziegler and take the Fridtjof back to Tromsø. Mr. Ziegler gave the following statement of the situation:

"The truth of the matter is that Baldwin is only one string to my bow. I always try to have two. On the Fridtjof with Champ I sent a fully equipped party, entirely independent of Baldwin. I gave them explicit instructions. If they find Baldwin they were to go forward on their own book. They are under a competent leader, in whom I have confidence.

"Baldwin is still living in Norway, and if I am correctly informed, it is too late in the season for him to reach Franz Josef Land this fall. He has planned to go back next summer and make his trial in the spring of 1904. If everything has gone well with the Fridtjof party they are now in Franz Josef Land. They will pass the winter there, after establishing themselves as far north as they can get. They will not wait for Baldwin, but will make their expedition independent under the man I have chosen to lead them. If they succeed, they will be well and good. The man who gets there first is the man who will get the glory."

HAS NO BIDS FOR FRANCHISES.

Cleveland, Ohio, Bears Three-Cent Fare Will Not Be Realized Soon.

Mayor Johnson of Cleveland was on Monday noon to open the bids for franchises for eleven new 3-cent fare street railway routes, but, as there were no bidders, nothing was done. If the special session of the State Legislature makes the payment of a considerable percentage of the cost of the routes, it is to all traction franchises 3-cent fares will be practically dead to this generation because the percentage stipulation would leave no margin for investors. Nothing can be done in the matter for three months now, because the franchises which were to have been bid upon at this time are dead, and it will take ten days to get fresh Council legislation enacted.

ASKS \$1,000 FOR MAIL DELAY.

Recipient of Delayed Postal Card Sues Kansas Postmaster.

Postmaster C. C. Gray of Leroy, Kan., has been sued for \$1,000 damages for F. N. Cole alleges that on June 15 a card carrying the news of the death of his father, Richard Cole, was mailed at Burlington, addressed to Leroy, Kan., but that it was not delivered to him until June 19, although he had called at the postoffice each day. When Mr. Cole finally got the card it was too late for him to attend his father's funeral. He charges Postmaster Gray with being careless and negligent.

Sparks from the Wires.

Hon. John D. Lyman, known throughout the country as a writer upon agricultural subjects, died at Exeter, N. H., aged 78 years.

MILES GOING TO PHILIPPINES.

Trip for Inspection of Army Conditions There Has President's Approval.

Gen. Nelson A. Miles is going to the Philippines and Secretary Cortelyou has made the positive statement that he goes with the full permission of the President, to inspect army conditions there. This statement was made after Mr. Cortelyou had consulted with President Roosevelt. Asked for what purpose Gen. Miles is going to the islands, Mr. Cortelyou would add nothing to his former announcement.

The officials of the War Department in Washington were much concerned over the report that Gen. Miles intended to visit the Philippines until they learned it was with President Roosevelt's approval. Gen. Miles is now traveling in New England, and is said to have admitted that his intentions are to make the start for Manila soon.

Under the law there is no way of preventing them from going anywhere within the limits of his command. Gen. Sherman once moved the army headquarters to St. Louis and Gen. Miles ordered himself to Santiago during the war with Spain. Notwithstanding the fact that Gen. Sherman commanded the Cuban expedition, Gen. Miles did not participate in the negotiations for the surrender of the Spaniards, and knowing this, the officials in Washington fear that he may endeavor to interfere with the policy of the United States in dealing with the Moros of Mindanao.

Should Gen. Miles while in the Philippines endeavor to assert his authority as commanding general of the army, it may result in serious complications.

NEWGATE PRISON RAZED.

London's Famous Old Jail Demolished by Wreckers.

The demolition of the walls of Newgate prison, London, was begun the other day. The famous old pile, which has been the place of confinement of many persons of rank as well as hated criminals since 1294, stood in the way of the modernizing of London, including the widening of the streets, etc., and was ordered down. The structure dates back 130 years. Its predecessors on the same site were destroyed by fire.

Financial conditions and increasing activity in all lines, expansion of trade and the daily amassing of new business ventures; this is the story of the past week in the business world. It is a time of confidence, of prosperity and plenty, and viewing the country as a whole, conditions might be pronounced almost ideal were it not for the fact that 6,000,000 in this week last year. Wheat exports since July 1 aggregated 22,944,747 bushels, against 50,673,957 last year. Corn exports aggregated 15,619 bushels, against 93,428 last week and 523,883 last year. For the fiscal year 1901-02 exports are 703,493 bushels against 9,741,051 last season.

NEWGATE PRISON.

rebuild. The author of this work was the then lord mayor of London, the famous Sir Richard Whittington—"Dick" Whittington of the story books. The name Whittington was taken from a gate that once spanned the street adjacent.

The old building was comparatively small, and it was destroyed by the great fire of 1696, but even before that date its cells had held many men whose names still live in their country's history.

Shakespeare was wont to visit Newgate for purposes of research, and other poets knew its lanes and squares. Many men of literary and religious fame were confined in its dungeons. One of its occupants was John Bradford of Manchester, a friend of Ridley. This reformer was sent to Newgate by Bonner, who also incarcerated John Rough.

MAY SUCCEED POPE LEO.

Cardinal Gotti, Who Has Been Appointed Prefect of the Propaganda.

Cardinal Gotti, who has been raised to the highest position in the gift of Pope Leo XIII., the prefecture of the Propaganda, as successor to the late Cardinal Ledochowski, has long been looked upon as the most probable successor of the present pontiff and is one of the greatest churchmen of the day. He is a member of the Neocatechisticon, a Barefooted Carmelite Order and was the general of the order at the time of his selection as prefect of the Propaganda. Though a priest of the church, he wears the Carmelite habit—a frock of coarse brown camel's hair, bound by a girdle of rope about his waist—and goes about a street with a hood and summer bareheaded and barefooted, except for a pair of sandals. He lives a most frugal life, sleeping in a cell upon a board, like St. Francis used to do, but is not ostentatious. No Carmelite monk in all the world has less comforts or luxuries than he. The cardinal is a simple, earnest man, the son of a dock laborer at Genoa. He is renowned for his piety, humility and learning and has had diplomatic training. He is one of the committee of cardinals who treated with Judge Tamm.

COMMERCIAL FINANCIAL

New York.

"Fuel scarcity is still the one serious industrial handicap." Protracted idleness at anthracite mines increased the pressure for soft coal and coke, and, despite new records of output, deliveries are utterly inadequate, owing to the lack of motive power. Freight blockade of coke trains has closed many furnaces, while the increasing call for transporting facilities on crop account gives little prospect of early relief. Notwithstanding the congestion, railway earnings this far exceed for August showing a gain of 3.4 per cent over last year and 17 per cent over 1900. Weather conditions have been uniformly favorable for agricultural products, yet no severe loss is reported. Current trade is of good volume for the season, while the outlook for the future is bright. Buyers are numerous in all the leading markets, placing orders liberally at well-quoted quotations. The following from the weekly trade review of R. G. Dun & Co.: "It continues: As the active blast furnace capacity of this country decreases through want of fuel, foreign pig iron is purchased more freely, and Scotch warrants have advanced because of the steady demand. Domestic needs are now far beyond all production, even with the available home capacity active there would be imports, although less than are now arriving. There is much that is gratifying in this state of affairs, but there is also a drawback. During the recent period for exceptional domestic demand many export orders have been sacrificed which German and Belgian makers secured. The output of iron and steel is still continuing above all records, but stocks accumulate. Textile mills are well occupied, business gradually increasing in the cotton goods division, and demands for quick delivery show that stocks are low. New lines of light weight woollens and worsteds for spring wear are now fully ordered, and buyers are placing much business.

Staple products average somewhat higher in prices, owing to less uniformly good news from the agricultural sections. No serious disaster occurred, but excessive rain retarded the development of grain and interrupted harvesting. In many cases where the date of maturity has been postponed there is always the possibility of injury from early frosts. The other extreme of weather caused complaint at the South, drought being evidence at many points. On the other hand, there were good reports of early picking, especially in Oklahoma. Coffee recovered from within an eighth of the lowest point on record, rumors of frost in Brazil proving more potent than overwintering in the United States.

Failures for the week numbered 207 in the United States, against 205 last year, and 30 in Canada, against 35 a year ago. Bradstreet's says: Wheat and flour exports for the week ended Aug. 21 aggregated 5,354,750 bushels, against 3,591,950 bushels, or 48.5 per cent, in the week last year. GOOD Short Stories

The Living Church quotes this extract from a Connecticut woman's diary, dated 1790: "We had roast pork for dinner, and Dr. S., who carved, held up a rib on his fork, and said: 'Here, ladies, is what Mother Eve was made of.' 'Yes,' said Sister Patty, 'and it's from very much the same kind of critter.'"

General Hbrace Porter, the American minister to France, says that when he departed for his post five years ago, his parting words to Mark Twain, as he was about to board the steamer for the other side, were: "Mark, may the Lord be with you." "Yes," the humorist replied, with a slight cough, "and I hope He may occasionally find a leisure moment to pay some attention to you also."

An unlettered Irishman applied to the Philadelphia Court of Naturalization the other day, when he was asked: "Have you read the Declaration of Independence?" "No, sir," was the reply. "Have you read the Constitution of the United States?" "No, sir." "Have you read the history of the United States?" "No, sir," he repeated. "No," exclaimed the judge in disgust; "well, what have you read?" "Oh, I have read hair on my head, your honor," was the innocent reply.

In a series of sketches, entitled "Lights and Shadows in a Hospital," Mrs. Terton tells of a melancholy man, depressed with rheumatism, in her cottage hospital, whom she wanted to cheer by reading. Ordinary hospital literature was no good. At last, said the nurse: "I shall read him 'Three Men in a Boat,' and if that doesn't amuse him, I shall give him up as hopeless." So she read, till finally "a reluctant smile came over his face, and he said, with slow satisfaction: 'I do think they be three rum 'uns.'" That was the turning point in his illness. He recovered completely, and left the hospital a bright and cheerful man.

It is said that Senator Jones, of Arkansas, dropped into Mr. Hoar's committee-room to see what the Massachusetts Senator thought of Governor Davis' act in pardoning a negro on condition that he go to Massachusetts. "Why, I accept the governor's complicity for State," Hoar is reported to have replied; "while the negro was looked upon as a criminal, it seems that Governor Davis regarded him as a fit subject for Arkansas. But when he found that the negro was innocent and capable of good citizenship, he was directed to go to Massachusetts, where we have only good citizens. Please convey to the governor my thanks for his complicity to Massachusetts."

Senator Perkins says that once when he was a sailor, a tremendous storm came up, and it looked as if the vessel were doomed to go under. In the midst of the excitement a minister, who was one of the passengers, asked the captain if he could have prayers. "Oh, never mind about the prayers," said the captain; "the men are swearing too hard to stop for prayers, and as long as you hear them swearing," added the captain, "there is no danger." The minister went back to his cabin. A little while later, when the storm grew worse, the preacher went on deck to see what the sailors were doing. Then he went back to his wife. "Thank God," he said, "there is no danger." The minister went back to his cabin. A little while later, when the storm grew worse, the preacher went on deck to see what the sailors were doing. MCKINLEY'S DOCTORS

Have Never Rendered Any Bills for Their Services. Not one of the seven local doctors who performed services in connection with the McKinley tragedy in this city last year, says a Buffalo correspondent of the New York Tribune, has received any compensation thus far. Neither has any of them any official or direct knowledge that he will get any compensation. Notwithstanding statements to the contrary, none of the physicians ever submitted bills for services, and the entire subject of compensation was left wholly to the Government. In the long time that has elapsed no Government official has ever consulted any of the doctors on the matter. The local physicians who were in personal attendance upon the President, or who were called into consultation in the case, were Drs. Matthew D. Mann, Herman Minter, Charles G. Stockton, Roswell Park and Eugene Wasdin, the latter being in the United States Marine Hospital service. Drs. Henry B. Gaylord and Herman G. Matisinger performed the autopsy, assisted by some of the doctors named.

"None of the local physicians who attended President McKinley or who performed the autopsy have received any compensation," declared Dr. Mann this afternoon. "Neither has any of them been consulted in any way on the subject. It was agreed when the question of compensation was first agitated that no bills should be submitted, and the agreement was observed. The doctors simply permitted the Government to follow its own course. In consequence none of us know officially what has been done or what will be done. All we know is that an item of \$45,000 was put in the emergency bill. That information was derived from the newspapers; in fact, all that we know about the entire matter from the time our services were performed until now has been learned through the newspapers."

"Has any arrangement been made to divide the compensation if it is allowed?" "None whatever. We assume that if the Government allows any money, the Government will arrange the apportionment among the physicians. As I understand it, Dr. Wasdin, because he is in the Government service, will not be included in this division. We are having everything to the Government."

King of Rats. Rats proclaim their monarch on account of his gray hairs—he is always an ancient and wise-headed warrior. He fights his way to the front, but it is not only that that gives him the throne—it is his cunning. The rat tribe celebrates his coronation in an almost human way. The whole tribe of the house or kitchen rat, and the big monster steps out and sniffs the air. He grates his teeth wickedly, during any rival to come and try his luck; and, if none offers, he is thenceforth given the lead in all matters. If a house is unsafe or a ship unfit for sea, the king it is who leads the tribe away in time; and his subjects never molest him when he helps himself to the pick of the food or the best nesting place, and his family enjoys the same distinction.

SIXTEEN YEARS AGO

SIXTEEN YEARS AGO

We began selling clothing to the people Wayne county. During those years there has been a great improvement in the make of clothing. We have endeavored to handle only the best manufactures. Our clothing has always given the best of satisfaction. Men that bought clothing of us sixteen years ago are buying clothing of us today, which speaks volumes for our store. Hardly a week passes but we hear some old customer remark: "I bought this suit of you boys seven years ago and the coat and vest are fairly good yet." Such statements as these make us feel good and go to prove that our goods must be right. It has never been our aim to see how cheap a suit we could sell, but to sell such suits as would induce a man to come back to our store when he wanted another. In this we feel that we have succeeded.

Why the Majority of Men are Still Buying their Clothing Here

Many reasons could be cited, but these briefly told will suffice: We never abuse the confidence of the people. We never touch shoddy goods under any circumstances.

We guarantee every garment as represented and stand ready to refund your money for the asking. We give you the largest assortment to choose from. Our buying in large quantities for our large, double-front store, occupying two floors (5,000 square feet), enables us to quote the lowest prices, quality considered. These are the principal reasons for this growing clothing business—by far the largest in Northern Nebraska.

Forging ahead is our maxim, and this fall we are prepared better than ever to serve you.

Special Values in Our New FALL SUITS AT..... \$10

Go to every clothing store in town, look at their \$12 and \$13 suits, then come here any day—you will be surprised to see the same value here at \$10. We realize this is a popular priced suit for the majority of men, and we have made an extra effort to give you the best that can be made up for this price.

Florsheim Shoes

This line has now become the leading shoes in all the large cities, we have been selling them for seven years and have never yet had a customer complain of them. Every pair we sell makes a solid customer for this shoe. Every pair is sold with Florsheim's guarantee.

The Leading Hatters

of Wayne

It is pretty generally understood that we are headquarters for the most stylish hats in the city.

The "LONGLEY HAT" is conceded to be the best line in America. They have the "chic" about them that you will not find in other makes.

A Good Cure for Cholera Infantum.

"Last May," says Mrs. Curtis Baker, of Bookwiler, Ohio, "an infant child of our neighbor's was suffering from cholera infantum. The doctor had given up all hopes of recovery. I took a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy to the house, telling them I felt sure it would do good if used according to directions. In two days time the child had fully recovered and is now (nearly a year since) a vigorous, healthy girl. I have recommended this Remedy frequently and have never known it to fail in any single instance." For sale by Raymond's Pharmacy.

A Good Investment.

George M. Moore, M. D., in the American Health Journal, says: "The market is overflooded with fake laxatives made only to ruin a person physically and financially. They contain injurious ingredients and should be avoided by all who require a laxative. The one laxative which has merit is Cascaria, made from roots, herbs, barks, plants and berries, nature's true remedies, and has given universal satisfaction. It would be an excellent investment for any one to keep this remedy near at hand. The digestive organs often need a laxative tonic to aid them in their work which every one makes doubly hard through carelessness." Cascaria cleanses the bowels thoroughly, strengthens the stomach, stimulates the liver and increases the flow of bile. This results in more of the food being digested and purer blood being produced. Pure blood will overcome any disease. It tones up the nerves, makes the complexion clear and healthy. No one can afford to be without a bottle of Cascaria, for it only costs 50 cents a bottle and your money will be refunded if it is not entirely satisfactory.

How to Advertise.

If you have goods to sell advertise them. Hire a man with a lamplack kettle to paint your name and number on all the railroad fences. The car going whizzing by so fast nobody can read them, to be sure, but perhaps the conductor will be obliging enough to stop the train for inquisitive passengers.

Have your card on the hotel register by all means. Strangers stopping at the hotel for the night generally buy a cigar before leaving town and need some inspiring literary food besides.

If an advertising agent wants to advertise your business in a fancy frame at the depot, pay him about 200 per cent. more than it is worth and let him put it there. When a man has three quarters of a second in which to catch a train he invariably stops to read depot advertisements, and your card might take his eye.

Of course the street thermometer dodge is excellent. When a man's fingers are freezing or he is pulling, "phewing" at the heat, is the time above all others when he reads a thermometer advertisement.

Print in the blackest ink a great sprawling card on all your wrapping paper. Ladies returning home from a shopping tour like to be a walking bulletin, and if the ink rubs off and spoils some of their refinery no matter.

Don't fail to advertise in every circus program. It will help the circus to pay its bills, and the visitor can relieve the tedium of the clown's jokes by looking over the remarks about "10 per cent. below cost," etc.

A boy with a big placard on a pole is an interesting object on the street, and lends a dignified air to the establishment. Hire a couple.

Patronize every agent who shows you an advertising table, and card, directory, dictionary, or even an advertising bible, if one is offered at a reasonable price. It shows that you know where to invest your money.

But don't think of advertising in a well-established, legitimate newspaper. Not for a moment. Your advertisement would be already printed and sent far away into the thirty households of the region. Exchange.
