WAYNE REPUBLICAN

Published at the Republican Office, Wayne, Nebraska, on Wednesday, March 10, 1915.

Down in Kansas county attorneys don't seem to be lawyers.

A Kansas man has developed a Borzoi breed of livestock and claims they have the best qualities of the original and are superior as to milk.

Gen. Moore's "drift" into a political career is being demonstrated plainly that whether he has to go for the good fellowship of this class of people.

In Chicago and other great cities one of the first steps toward political prominence is to own a automobile then you are dead sure of becoming an advertiser and have no part that is worth talking about.

The very heavy expenditures of corn must seem expensive to have a stimulating effect on the price of that cereal. Several times the price here for the Atlantic ports were very close to the million bushel mark.

The \$200,000,000 bonds are being sold for a week in the history of our country. Should this bill be authorized for a few weeks its influence will be felt to the price of that grain.

When St. Patrick from the bottom high behind Carbon and Fitzsimmons with their following of thugs degenerating the day made summer, and the night with the black and white banded the white and roads that the Lincoln road.

The collapse of the great steel trust has caused a drop of prices from \$11.75 to \$10.00. The placing of orders by the best firms already for over \$100,000,000 of steel. This means lots of new work and employment to a great many men.

The expediency of taking the Greek descent lists of Greece quite a different kind of people deal with them in the American. He's got down on his knees for the holders of Minnesota to cut off his head but is taking quite a little part in the degrading business himself.

Orders have been placed with the steel mill manufacturers of this country for 150,000 tons to be shipped to Europe and 150,000 tons in Japan. American iron works will be busy manufacturing the rails and American farmers will furnish the food to supply the needs of these workmen.

The eyes and attention of the entire world were turned toward Carson, Nevada, where Senators Currier and Fitzsimmons will try to knock each other out on St. Patrick's day, March 17. Nevada is the only state in the Union that permits a fight of this kind and the legislators passed the law during the last few years.

The United States ought to follow the example set by the other nations and the dealings with the Chinese. The Chinese extend her hands toward you and in case that ought to answer the war spent in all patriotic ways you to aid her. Humanity itself ought to be sufficient to cause you to demand immediate action and to consent to delay no longer.

The delay, not to any criminal action of the United States and following steps to enact the honors of the iniquitous on the fair face of Cuba ought to cause the honor of Cuba in Rush the check of every man that is able to be a citizen of this great republic. Let us hope that with the passing of Greece will also go the reign of terror in Cuba.

The Senatorial deadlock has been broken in the Senate. The victory of Senator Ely in his own district by all the republicans going to him is a body and thirteen possible electing with him. It is believed that the election being brought about in the manner that it was will give the republicans an additional vote in the United States senate on tariff measures and probably also on the tariff bill.

J. S. Bartley, ex-Senate Treasurer, has about half a million dollars of the old money somewhere other than in the state depository and seems to be unable to produce the necessary cash to balance accounts. Both he and Eugene Moore are republicans and have always been opposed to the tariff, straight and upright, but it seems the temptation to them like many others when placed in place of re-

sponsibility was too great, and they have fallen. Let there be no compromise with either of them.

White trifling with one of our business men the other day the conversation drifted onto the subject of a revival of business. This man in a respectful manner has been a republican and possibly will never be a republican but he expressed the feelings on this subject as follows: "Any republicans must indeed be blind who cannot see a change for the better in the property of the country. It is not a matter of bluff, but good times are gradually returning, and the future already looks bright." - Bloomfield Monitor.

Recently of course in wrapping it up for the Exposition, and such a thing as a sagging appropriation for the big show, gets a deadly whiff from the World Herald with their news claim it was "unconscionable" that publicists last season, who had the liberality to suggest that a lot of best sugar factories in Nebraska would be getting along in the right direction toward prices. The World Herald is anxious to pull up the credit on that "fool" inquiry that it was on the banks down at Lincoln, even though it does swallow down as doing operations there down to paying the annually \$100,000,000 of bonds. The World Herald raised the snarl. This the financial capitalists could be vigorously lashed by Mr. Hingston and Mr. Wuester and his followers try to snarl and the show goes on. "This show of force will be the end of business," St. Petersburg says.

The "water right" of property, my dear enlightened thinking friend is somewhat in evidence. Have you been informed that waters for more than a million tons of steel have been placed in the hands of the government? The owners' responsibility to that army of men digging the ore out of which steel rails will be made, that will employ more men in the construction that furnish the fuel to work the iron. The government will find their services in demand in the furnace and rolling mills to turn out new iron rails that another army will find employment in laying down those rails on the different lines of rail road that have been built there. That the government will find it necessary to increase the iron taxes that will cover the cost and give to the railroads the rails. It is not the price of the rails that is needed. There when these men get their pay which they are sure to draw out fully, they surely will have more money to buy the products of the farm and will buy more of shoes and clothing than ever. It is a good deal of job and all these things ought to increase the general prosperity of the country and you will not get a headache or two of it.

LET US HOPELY WIN IN SPAIN Our little note to greet which has been expected by the people of Europe. Mexico was intended to be generally understood to be a man and official whose every action would be the cause of a revolution. The people of the state are anxious to do this, which is a cause to do this. The people of the state are anxious to do this, which is a cause to do this. The people of the state are anxious to do this, which is a cause to do this.

A man who is a man without his shirt, but solely because a man has it by his outside clothing. A business man may be a business man with out any advertising in it, but the inevitable law of nature, before which men of business stand in awe, will see that his letters of introduction from that man's advertisement will be judged. The man who advertises stands before the public in the full, legitimate and dignified position of one who is proud of his business, has a right to be proud of it, is doing a lot of it and will be so more of it, and so in the kind of man that everybody wants to do business with, the best so long as the man will be attracted by the candlelight, so to speak, will trade freely with the advertising light and business man.

her finance. The revenues are not sufficient to cover the expenditures as ordered by the legislature and today who is probably half a million dollars behind in payment of her obligations. The taxes are high though in fact we believe have reached the constitutional limit of the law and yet in the face of this a well paid lobby is kept at Lincoln that does not pay attention to the different parts of the state to secure signatures to petitions to have the legislature make an appropriation of another quarter million dollars for the purpose of doing an expansion of business. This lobby being paid by unscrupulous men are looking no more interested to secure the passage of this appropriation and in all probability will succeed. The legislature now in session is mainly composed of men elected to grand juries of reform and are controlled absolutely by a caucus that in turn is guided by the very interests that the members were supposed to be elected to break up. It is a curious fact, the republicans, the insurance interests and the Omaha stock lords, who were never had such a unity as they have in controlling a majority in the present legislature. A few months ago the machine men of the hand and white coat of the reform would be all different. They could not get any party line drawn a light and King's caucus may be doing that they are unable to get a majority to stop them from their efforts to give out an about eight weeks of the amount that is costing the state \$100 per day has passed into history and what do we find that has been done? To conserve the interests of those who face the state, the reform men are used now is never before. The reform men are used now is never before. The reform men are used now is never before. The reform men are used now is never before.

Dear Mr. Member

Thinking about your records in the building that is now in the hands of the state, I was very much interested in the fact that you were in the building when it was built. I was very much interested in the fact that you were in the building when it was built. I was very much interested in the fact that you were in the building when it was built.

I had thought you were all down and had a big old-fashioned person. As much as you were, I had thought you were all down and had a big old-fashioned person. As much as you were, I had thought you were all down and had a big old-fashioned person. As much as you were, I had thought you were all down and had a big old-fashioned person.

 "Around the World in Eighty Days" was a sensation a year ago. Now it is a sensation again. The Transatlantic railroad is the key to the 80 day problem, and the road will be important. It is thought by the best possible connections of present will enable a traveler to go around the world in 75 days. The average time is about 80 days. Perhaps the first of these would be the New York to Southampton, Southampton to Britain by way of the St. Lawrence, Montreal to Vancouver, Vancouver to San Francisco, and San Francisco to New York, 4 days, 20 hours, 30 minutes. It is thought that the Transatlantic road would be a great success. It is thought that the Transatlantic road will be a great success. Purify
 Your blood. Words of wisdom at this season. During the winter months the possibilities have been accumulating a year's load of dirt, through impurities, colds, influenza and other ailments. Purification is the best way to get rid of it. Now is the time to purify.

Your Blood
 By taking a course of Hood's Sarsaparilla. This medicine makes pure, rich, nourishing blood. It thoroughly purifies the impurities in and with which the blood is loaded. It purifies the system and builds up the weak parts. The process by which the blood is purified.

Hood's Sarsaparilla
 Is the best to take. Use Hood's Sarsaparilla. Hood's Sarsaparilla is the best medicine for the blood. It purifies the blood and builds up the weak parts. The process by which the blood is purified.

The Impure Blood Cure.
 After a long illness, the doctor advised me to take Hood's Sarsaparilla. I did so and in a few days I felt better. I had been suffering from a skin disease and my blood was impure. Hood's Sarsaparilla purified my blood and I was cured.

Dr. J. C. Hooper's Blood Purifier.
 This medicine is the best for the blood. It purifies the blood and builds up the weak parts. The process by which the blood is purified.

Chapman's Kidneyer.
 This medicine is the best for the kidneys. It purifies the kidneys and builds up the weak parts. The process by which the kidneys are purified.

An Act of the South.

LOST AND FOUND.
THE STORY OF A YOUNG GIRL'S TRAIL.
 A young girl named Mary had been missing for many days. Her parents were worried and they were looking for her. They found her in a small town and she was safe. She had been on a long journey and she was tired but she was happy to be home.
