MARKET OF THE WORLD

THE SILVER BRICK BUNNO GAME.

Check them before you buy what silver he needs in the world's markets and at the prices which are paid for it by silver nations. He is told by his way to market by the silver mine and silver bullion owner, who knows that Uncle Sam shall never buy and sell silver at below the actual value. He tells Uncle Sam that in 1878 he committed a great crime against silver and for that reason is responsible for the fall in price from \$1.29 to 58 cents per ounce. He factors Uncle Sam by telling him that he is great enough and wealthy enough to double the price of silver the world over if he will begin to make it in his national quantities and to treat it in every way as if it were worth the real price. Will Uncle Sam be taken by the silver street?

Write Mr. H. Watson, 1000 Broadway, New York, N. Y., for the full details of the plan to recover the value of gold and silver. It is a plan especially for recovering what they call the "hidden wealth" of the world. It is a plan that has been approved by the International Convention, while a similar convention has just been organized to visit the European governments in the interest of international brotherhood. There may be received all over the world an unexampled benefit from the silver standard of gold. Since the announcement of the United States' intention to the American people, it is a fact that their nation will be free, and that there is no more probability of those governments retaining a blockade than there is of their returning to the old standard for their money. The latest announcement is from Brussels, which is to the effect that the silver standard is to be adopted.

But it is not in Europe alone that this movement is observable. The wisdom and practical sense with which the Japanese government has placed the adoption of the gold standard is one of the marks of their advancement, and makes that people as among the most progressive nations of the world. Legend China has been to the advantage her silver standard of gold, and is anxious to have the entire world on the same basis. It is not only the United States that are to be benefited by this movement, but also the nations of the world.

It is true that the silver standard is not our own, but we will receive a benefit from it. The Central and South American nations in return for their monetary system of exchange the same standard of gold. It is a few days since from Lima, Peru, we have received news that not only has the silver standard been adopted, but also the gold standard. It is true that the silver standard is not our own, but we will receive a benefit from it. The Central and South American nations in return for their monetary system of exchange the same standard of gold. It is a few days since from Lima, Peru, we have received news that not only has the silver standard been adopted, but also the gold standard.

And yet while them nations, admirably are infusing to wealth and to progress, and intellectual progress, are struggling out of the woods that hold them back there are men among us who would hoard their wealth and conserve by hoarding it down to the silver standard. What more do we need of the world of such backward and unprogressive men? Chicago Times Herald.

Thomas Jefferson Was a Democrat.

It is pathetic to be forced to enunciate a man who has been so long held up as the exponent of Democratic doctrine, has a stern sense of duty to the free silver and gold standard of the present day. It is a fact that he should not only be a Democrat, but also a free silver and gold standard man. It is a fact that he should not only be a Democrat, but also a free silver and gold standard man. It is a fact that he should not only be a Democrat, but also a free silver and gold standard man.
