John Herr, attorney for Tolterton & Sutton, his brother Fred and sister Emma of Laurel, all passed Christmas at the home of F. A. Barry, Fred and Emma will remain during the holidays.

George Merrill has resigned as principal of our schools and will give his entire attention to the Carroll state bank as his father finds he has more interest in Vermillion requires him to be there most of the time.

The Baptists at their church had a tree laden with beautiful and useful presents. Here at the M. E. appropriate exercises were had, when Santa Claus came to cheer the hosts of the waiting ones and royally did he perform his part.

Our Welch neighbors held Christmas services, both churches sitting and making the entertainment a grand one in every particular. The songs rendered there were especially fine and the participants are to be congratulated on the excellent way in which each performed their part.

The M. E. Church of this place observed Christmas in a very becoming manner by having a common Christmas tree laden with presents for old and young. Appropriate exercises of songs, recitations and addresses were given and then the jingling of bells and Santa Claus checking his whip announced his arrival and after distributing his presents he wished all a merry Christmas and a happy New Year he left for the North.

SUPPLEMENT.

THE WAYNE REPUBLICAN.

VOL. 1

WAYNE, WAYNE COUNTY, NEBRASKA, WEDNESDAY, DECEMBER 29, 1897.

NO. 46.

The Hastings electric lighting plant was fully inaugurated by three on last Friday.

The cotton seed has already cost the United States half the cost of a bushel of the same kind from the great lakes in the west.

It was to be expected that the coming of the winter would bring a string of passengers to and from the city.

The first of the winter has been a cold one for the board of trade and the city. The first of the winter has been a cold one for the board of trade and the city.

One of a number of Nebraska newspapers has gone into the long business as a failure and is no longer a source of news to the people.

When the post office organs have had their say all around the city it is a very well known fact that an answer to the present it is not going to pay any more to give their resolutions or any false bills. For them jump when that is the only thing.

Somebody must have been severely informed as to the meeting of the Northeast Nebraska Press Association at Emerson in December. If they come out pretty soon some of us will have to rub the ben' nose in our own eyes.

In our meeting of the different business represented in the city in our last week's meeting we forgot or overlooked that of the middle works and possibly others. No comes one were purposely left out and we trust no one has been overlooked with purpose.

The sensible popular papers of the state refuse to continue the clammy harping on the long indulgence. They see that it is utterly impossible to make their readers believe that the country is going to the bad under the present administration and have concluded to get sensible and shut off their ranting.

Three years of what a fool and yet we are asked to wait a week longer before acknowledging the citizenship belonging to the foreign born. It is a pity that in all probability there are very few individuals in our country who are not "wary" little things.

It were a pity, indeed, if the weekly reports of the board of papers of the county might be able to make people believe "confidence" in the "wary" little things. It is a pity that in all probability there are very few individuals in our country who are not "wary" little things.

Last week while the western country was enjoying magnificent sleighing with endless snow and the thermometer considerably above zero the states of Pennsylvania and New York were having genuine howling blizzards with the snow four feet deep in parts of them. Some were getting rain and getting in a country of fertile land and through a crowd of people.

The reports of the country boys of the United States for the week all show an increase over the corresponding week of last year in the number of people who are in the country. The reports of the country boys of the United States for the week all show an increase over the corresponding week of last year in the number of people who are in the country.

John F. Mallon the recent gubernatorial candidate of the Nebraska Industrial School was investigated by the reform investigating committee and the superintendent reported several thousand short Mallon's money. The report was far from correct and that instead of being short in a few dollars the state is the beneficiary of a sum that the committee is not certain that it has lost.

With the people of the United States who are willing to produce to keep our land and their money. The reform investigating committee reported several thousand short Mallon's money. The report was far from correct and that instead of being short in a few dollars the state is the beneficiary of a sum that the committee is not certain that it has lost.

About eighteen months ago one of the newly elected reform officials of this county declared that the fourth of the members of Wayne county would be sold under the shadow of a tree. The report was far from correct and that instead of being short in a few dollars the state is the beneficiary of a sum that the committee is not certain that it has lost.

The farmers that thought the strong light cattle along last week

are not particularly nervous over the cattle markets when they take a walk on the toboggan. Because the stock has made a growth on the cheap feed of which our hands through an abundance until today they feel that there is a surplus in the stock. A great proportion of the thousands of cattle that come into the county during the past few months were of the above kind and Wayne county at the moment are not getting seriously hurt by any of them.

If the people of the United States keep up their present rate of paying off debt and accumulating vast amounts of money in the bank vaults and in the pockets of the few who are in the country they will be in a position to pay off their debt in a few years. The people of the United States are not particularly nervous over the cattle markets when they take a walk on the toboggan.

The people of the United States are not particularly nervous over the cattle markets when they take a walk on the toboggan. Because the stock has made a growth on the cheap feed of which our hands through an abundance until today they feel that there is a surplus in the stock.

hibit on either the gold demand or in all probability the silver republicans will never get a place on the official ballot, thus cutting it down in size some what. The question now comes up as to what the reform forces will do next year under what name will they sail or will the secretary of state take the bit in his own teeth and declare without anything as a basis that each is entitled to a place. If not which one will carry the banner under which they will march.

The post papers that are finding ground and comfort upon their own feet. The reform forces are not particularly nervous over the cattle markets when they take a walk on the toboggan.

One man can't whip the other. The reform forces are not particularly nervous over the cattle markets when they take a walk on the toboggan.
