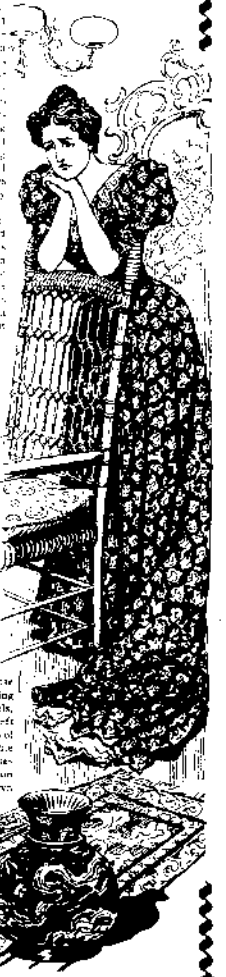
Woman's Dread

The terror of many women's lives is menstruation.

Such a term was Pierre has met with suffering and many thousands have found relief from the monthly pains.

Miss Emily F. Mass, of 148 Freeman Street, Greenpoint, Brooklyn, N. Y., writes:

"Dear Mrs. Pinkham:—I would state that for three years I suffered from female weakness. I was troubled with leucorrhœa, and my menses were irregular and very painful. I had also a displacement, and other symptoms too numerous to mention. I had been taking medicine and using local treatment, but got no better. I felt discouraged, and was about to give up in despair, when I saw your advertisement in a paper, and decided to try Lydia E. Pinkham's Vegetable Compound. I did so, and before I had taken one bottle I felt like a new woman. I have now taken six bottles, and am entirely cured. I can recommend your Compound to all suffering women, as I know it has done wonders for me."



Mrs. C. D. Smith, 221 Eleventh St., Racine, Wis., writes:

"Dear Mrs. Pinkham:—I would like to say a few words in favor of your medicine. When I first wrote you I was suffering from female weakness in its worst form. My menses were irregular, coming too often, too profuse, and very painful. I could not walk a great distance, had more or less pain in the left side, and pain in left ovary. I used five bottles of Lydia E. Pinkham's Vegetable Compound, and my menses have become regular and many of that bearing-down feeling gone. I strongly advise every woman suffering as I did to write you for advice, and I can honestly say that I owe my present good health to your kind advice and Lydia E. Pinkham's Vegetable Compound. I gladly recommend your medicine, and hope that every one who suffers as I did will give it a trial."

To sacrifice beauty, disposition and health to a false idea is folly. Generations of ignorance have handed down belief in the necessity of monthly suffering. A healthy woman should experience but little pain and only a moderate amount of inconvenience.

Mrs. Van Cleft Advises Women.

"Dear Mrs. Pinkham:—For several years my health was miserable. I suffered the most dreadful pains, and was almost on the verge of insanity. I consulted one of the best physicians in New York, and he pronounced my disease a fibroid tumor, advising an operation without delay, saying that it was my only chance for life. Other doctors prescribed strong and violent medicine and one said I was incurable, another told me my only salvation was galvanic batteries, which I used, but nothing relieved me. One day a friend called and begged me to try Lydia E. Pinkham's Vegetable Compound. I began to use it, two years, bottles. From the very first bottle there was a wonderful change for the better. The tumor has disappeared entirely and my old spirits have returned. I heartily recommend your medicine to all suffering women."—Mrs. Van Cleft, 416 Saunders Ave., Jersey City Heights, N. J.

Entered at the Post Office at Wayne, Nebraska, as second class matter.

The Republican state convention met at Lincoln yesterday and nominated a full state ticket. The platform adopted is a strong one and the ticket is a good one. Mr. Mickey will receive a large vote from the people who are opposed to the free coinage of silver at the present ratio. Mr. Poynter will receive a large vote from the people who are opposed to the present high rate of taxation. Mr. Poynter is a man who has been tried and found faithful. He has been a member of the state board of equalization for the past two years and has made a good record. RESUME OF CASUALTIES IN THE PHILIPPINES.

Nebraskan Lost More Men Killed in Action than Any Other Organization, Except the Fourteenth Infantry—Twelve Mills Remain.

Reports Why Have Fallen.

The prospective early return of many of the regiments of volunteers from the Philippines has brought the P. D. up to a somewhat full statement in regard to the casualties in the soldier campaigns. Full reports of the losses by wounds, accidents, and disease, since the beginning of operations early in the summer of 1898, show that the Nebraska regiment lost more men killed in action than any other organization except the Fourteenth infantry. The regiment lost more men by disease than the Fourteenth infantry. Twenty-two members have died from the effects of the climate.

Except the Fourteenth infantry, which, on the Santiago campaign, lost 31 killed in action, the Nebraska regiment lost more men killed in the Philippines than any other regiment. The Nebraska regiment lost more men killed in action than any other organization except the Fourteenth infantry. Twenty-two members have died from the effects of the climate.

Mrs. E. Cunningham was stopped up in Sioux City this week. Democrat. The Democrat is off as usual. Mrs. Cunningham does her shopping in Wayne. Don't mistake another person by your own mistake!

We were about to say that Monday was a slack day for all persons from the country, but a number of 20 cars at the corner on Saturday and also another one moved up to the cattle pens and we guess that about 1,000 head of fat cattle and hogs that will bring $65,000 is ready each day in the week for the city of corn.

Another Wayne boy has won the day. One of the only wonders of modern times conquered the elements of the first water. Instead of landing on the Pacific coast as he now will be on the 1st future of 1900 A. D. The most wonderful story for us to read in the news columns of the Democrat. Some day we will have a balloon ascension in our city and when it comes we hope we will be present to witness the ascension by request of him.

There is a petition in circulation in addition to the First Congressional district of the county of Wayne. We Pass the petition around for some signatures to that effect. The petition is to have a public meeting and invite the candidates for the office of congressman to come to our city and when the meeting is announced we will be present to hear what they have to say. We are for the best man for the office and will help to the utmost to get him elected, regardless of party. We believe that the county is entitled to the office and we believe that we can get the best man in the district.

The Democrat has on it's file one of the most unique letters that we have ever seen. Still better, a democratic letter. It is a letter from a democrat who is trying to sell a democratic paper and who is also trying to get a democratic job. The writer is evidently a democrat and has been trying to sell a democratic paper for a democrat and is trying to get a democratic job. The writer is evidently a democrat and has been trying to sell a democratic paper for a democrat and is trying to get a democratic job.

Recently some of the good sisters of the city was awakened in the middle of the night by a horrible screech and coming to the conclusion that the Southport had not been the most beautiful that she ever thought he had the gall to second had given out the sound that big Saturday-but dreams and screams of the south to the wife "Pop" did you hear the automobile" and the husband remembered that he had, and while they were discussing the matter the terrible sound again greeted the ears of the loving wife as it was echoed and re-echoed back from the hills that are in the beautiful valley of the Logan, and that long drawn out screech by the revolving sky that is soon to be with Indian. "Now see" "Pop" the wife "that is the noise that I heard". The husband bounded away from home for the next week it was jackass wiggling to its mate.

Some of the beneficial results of the past severe winter are now apparent, not for years has vegetation made such wonderful a growth as it is doing this season, and the condition is not due alone to the rainfall, which has been ample, but to the fact that the earth is in an excellent condition, made so by the excessive freezing which penetrated to a depth of from four to five feet, opening the earth and leaving it loose and porous. As a consequence the rain which has fallen did not run off as in the past seasons, but was taken into the earth where it can be utilized. The entire country to one east reservoir filled with a store of moisture the value of which is beyond estimate. Parties who claim to have made tests claim that the subsoil is soaked to a great depth in places four. Others state that until recently the water fall has been so absorbed by the earth that no perceptible difference was made in streams. The fact remains the future is the position of country is most flattering.—Norfolk Pilot.
